

School-Wide Bully Prevention

We will strive to meet these goals:

- Reduce existing bullying problems among students
- Prevent development of new bullying problems
- Achieve better peer relations and staff-student connections at school

All school staff will strive to:

- Treat others with warmth, positive interest and involvement
- Set firm limits for unacceptable behavior
- Apply consequences when rules are broken
- Act as authorities and positive role models
- Investigate reported incidents of bullying in a consistent manner

The following principles will apply to everyone on school property or at a school function:

- I will not bully others
- I will try to help anyone that I suspect is being bullied
- I will try to include students who are left out
- If someone is being bullied, I will tell an adult

Students are encouraged to report bullying to a campus staff member as soon as possible in order for the situation to be investigated and taken care of.
