Members, Board of Education and Citizens Rockwood School District St. Louis County, Missouri

The Comprehensive Annual Financial Report (CAFR) of the Rockwood R-VI School District (the District), St. Louis County, Missouri, for the fiscal year ended June 30, 2017, is presented on the following pages. The District is governed by an elected seven-member Board of Education (the Board). The Board is the basic level of government, which has financial accountability and control over all activities related to K-12 public school education within the District. The Board is not included in any other governmental reporting entity, as defined by Governmental Accounting Standards Board (GASB) pronouncements, since Board members are elected by the public and have decision making authority and primary accountability for fiscal matters. Responsibility for the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rests with the District. We believe that data, as presented, is accurate in all material aspects; that it is presented in a manner designed to fairly set forth the financial position and results of operations of the District as shown by the disclosure of all financial activity of its various funds; and that all disclosures necessary to enable the reader of the statements to gain a full understanding of the District's financial status have been incorporated in the CAFR.

The CAFR has been prepared by the District's Finance Department following the requirements and guidelines contained in the GASB <u>Codification of Governmental Accounting and Financial Reporting Standards</u>. The District's activities and funds are all presented in this report and have been audited by the District's Certified Public Accountants, Kerber, Eck & Braeckel LLP, who rendered an unmodified opinion for the District again this year.

Generally Accepted Accounting Principles (GAAP) requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A follows the independent auditors' report.

The District

History

The District began with the opening of Eureka High School in 1908. It was the first four-year high school in St. Louis County west of Kirkwood. The District, in its present form, was created on October 29, 1949 by a merger of 26 districts. The name was changed from Reorganized School District No. R-VI of St. Louis County, Missouri to Rockwood R-VI School District, St. Louis County, Missouri in April 1964. The District includes 150-square miles located in Southwest St. Louis County and a small section of Northern Jefferson County. Geographically, the District represents approximately 30 percent of St. Louis County. It encompasses all or parts of twenty communities including Ballwin, Chesterfield, Ellisville, Eureka, Fenton, Manchester and Wildwood. According to the 2010 Census, this represents approximately 115,931 residents in 41,913 households. The chart below summarizes the District's enrollment history over a 10-year period.

	Resident	VICC	Total
2007-08	20,258	2,010	22,268
2008-09	20,371	1,789	22,160
2009-10	20,504	1,750	22,254
2010-11	20,511	1,925	22,436
2011-12	20,313	1,844	22,157
2012-13	20,111	1,765	21,876
2013-14	19,894	1,604	21,498
2014-15	19,756	1,556	21,312
2015-16	19,485	1,541	21,026
2016-17	19,309	1,544	20,853

As noted by the chart, the District has experienced slight annual enrollment reductions over the last six years. The District is projecting total enrollment for 2017-18 to be 20,708 students, a decrease of 145 students. The District is experiencing residential growth which will result in additional students in the next two to five years.

General

The Rockwood School District continues to be a leader in the field of public education. Rockwood students are renowned for their achievements. The School District's 30 schools and supporting programs collectively make up one of the highest performing school districts in the country. The following are some of the highlights of academic achievement in Rockwood.

- On the ACT, Rockwood students average a composite score of 23.8, outperforming the state average of 20.2 and the national average of 20.8.
- Rockwood students are performing at high levels in the content areas of Reading, Language Arts, Mathematics, Science and Social Studies on state assessment tests.
- Missouri Assessment Program (MAP) results show 80.7 percent of all students scored proficient or higher in Communication Arts, compared to the 63.1 percent Missouri average. In addition, 70.5 percent of all students scored proficient or higher in Math, compared to the 48.9 percent state average.

- Eight Rockwood students were named to the Missouri Scholars 100, a statewide program that honors 100 of Missouri's top academic students in the graduating class of 2017.
- All four Rockwood high schools were named "America's Most Challenging High Schools" by the Washington Post.
- Two Rockwood high schools were named "Best High School" by the U.S. News and World Report.
- Rockwood earned "National District of Character" distinction, plus six Rockwood schools were named "National Schools of Character" by character.org in 2017.
- The United States Department of Education's "Blue Ribbon List" includes nine Rockwood schools, and Missouri's "Gold Star" list includes 15 Rockwood schools.

Learn more about The Rockwood Advantage: <u>http://rsdmo.org/rockwoodadvantage/Pages/default.aspx</u>

Rockwood has been one of Missouri's and St. Louis County's largest school districts. There were 20,853 students enrolled including our Special School District students during 2017. The District serves this student body in twenty elementary facilities (including the Center for Creative Learning), six middle schools (grades 6-8) and four high schools. The average age of our buildings is 36 years old with the oldest building being built in 1940 and our most recent building addition in 2004.

The District's entire staff of administrators, teachers, nurses, office personnel, custodians and maintenance and cafeteria workers is dedicated to the same mission: We do whatever it takes to ensure all students realize their potential.

Approximately 79 percent of the District's teachers hold advanced degrees. The District encourages its staff to further their education by offering college class tuition reimbursement. The current budget includes \$258,000 for teacher assistance and \$6,500 to assist support staff including the newly added assistance for nursing staff.

The District is governed by the Board of Education, whose membership is elected for staggered three-year terms of office. The Board is a policy-making body whose primary function is to establish policies for the District, provide for the general operation and personnel of the District and to safeguard the assets of the District.

The District's programs cover the spectrum from birth to senior citizens. A Parents as Teachers program offers services to prospective and new parents in skills related to child development and better parenting. Special programs exist at all levels for students with special needs ranging from talented and gifted to modified programs and special instruction. Rockwood, like the other districts of St. Louis County, has intervention for its students with special needs from the Special School District of St. Louis County (SSD). The majority of the special needs children are served on the District's campuses while certain limited cases are served on the SSD campus.

The District responds to the needs of students who are culturally different, at risk of educational failure, bilingual or have special needs by providing a broad spectrum of programs, services and resources. The District has received national recognition for both the successful Talented and Gifted program and the exemplary Community Education program. Also recognized are the Partners in Education program with local corporate sponsors. The District's high schools offer numerous Advanced Placement and College Credit courses to prepare the graduating student to enter either college or the working world. The Individualized Learning Center (ILC) educates students who are in danger of dropping out of school because of difficulty faced in a regular school setting.

These initiatives and investments in enrichment of the full curriculum with emphasis on acceleration and differentiation result in the District's students experiencing a high level of achievement. Students continue to score above state and national norms on achievement tests.

The percentage of District students going on to post-secondary education is 90.1 percent (2016-2017). To ensure that District students receive the individualized educational experiences necessary, the average building level pupil-teacher ratios is 17:1. Curriculum study and writing is a continuous improvement process. Each curriculum document is reviewed on an annual basis and is revised and updated (in-depth year) on a six-year cycle via approval of the Board of Education.

Rockwood transitioned to a district-operated transportation system in the 2016-17 school year and provided transportation for resident students to and from school and on school district sponsored activity trips. Approximately 10,200 resident students are transported on a daily basis.

The District participates in a Voluntary Transfer Student (VTS) program in which St. Louis City resident African-American students volunteer to transfer to the District's schools. As of January 2017, this K-12 program represents 1,544 of 20,853 students or about 7.4 percent of the population.

Accounting System and Budgetary Control

The District's accounting system for governmental funds reflects the modified accrual basis of accounting. At the end of the year, the governmental funds are converted from the modified accrual basis to the accrual basis for presentation in district-wide financial statements. In developing the accounting system, consideration has been given to the adequacy of internal accounting controls. We believe the District's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of transactions. As management, we assert that, to the best of our knowledge and belief, the financial report is complete and reliable in all material respects.

The District's accounting system is organized on the basis of funds, each of which is considered its own entity. The District follows Missouri State Statutes in establishing budgetary data (Chapter 67, RSMo) for each major fund of the political subdivision. The District considers four funds (General, Special Revenue-Teachers, Debt Service and Capital Projects) as major. Changes in the overall revenue and expenditure of a fund's budget require full disclosure and Board resolution for approval. The Board receives a monthly financial report which summarizes the financial activities of the District's operating, debt service and self-sustaining funds. The District is not a component unit of another reporting entity.

The 2017-18 District budget continues to guide Rockwood in a fiscally sound and responsible direction. Throughout 2017-18, the District will continue to monitor the budget and prepare monthly financial projections starting in November of each year. From the beginning of the budget process to the formal approval, there has been considerable scrutiny of the budget to ensure the resources of the District are being budgeted to provide outstanding instruction and support allowing each student to achieve his/her highest potential. The District's bond rating of AAA was confirmed in the 2015-16 school year and for the 17th consecutive year, the District's financial planning and management was recognized by the Association of School Business Officials and awarded the Meritorious Budget Award (MBA). The 2017-18 proposed budget is prepared following the MBA requirements and some of the key items are described below.

In prior budget years the District planned and adjusted to slight decreases in student enrollment. The focus for facilities during this time was on maintaining our facilities rather than building new facilities. In April 2015 the Community overwhelmingly passed a \$68.95 million bond issue to fund certain special projects as well as routine cycle maintenance projects. The District has spent approximately \$57 million from that bond authorization with the expectation that the remaining bond funds from this authorization will be spent over the next two school years. During the 2016-17 school year the District began planning for significant growth occurring within the District in which approximately 2,300 homes will be built over the next 5 years. Projections of increases in student enrollment led District officials to review current capacity in our schools. Also, during the last few years, the District has supported STEM/Innovative learning initiatives as well as making a concentrated effort to decrease class sizes at the elementary level to move toward the State's desirable class size numbers. In April 2017, the District placed a \$95.5 million bond issue on the ballot and once again the Community approved the measure. The bond authorization, Prop T, is expected to cover projects and cycle maintenance through the 2024-25 school year. The District will issue the bonds as needed to complete the project list over that time period.

The focus during the 2017-18 school budget process was on the operations of the District, specifically the General and Teachers' Funds. From the beginning, a balanced budget was the target established by the Superintendent.

Official enrollment was taken the last week of September 2016. Enrollment projections were developed for subsequent years. In October 2016, school and department levels began working on their 2017-18 requested budgets and reviewed them with their respective Superintendent Cabinet member. After Cabinet member approval, they were submitted to the finance office. In November 2016, the Superintendent's Cabinet held a series of meetings to go through District staffing levels and requests as well as the detailed budget requests with supporting rationales that were compiled by the finance office. The review of the budget requests included a line-by-line item review for all requested budgets in the General and Teachers' Funds. The school building budgets were based on a per pupil calculation and provided to building level administration for building allocation. In December 2016 the Superintendent's Cabinet presented a preliminary 2017-18 budget target that included a balanced budget.

The balanced budget target included the following 2017-18 assumptions as compared to 2016-17:

- Increases in local and state revenue sources
- Continue to increase staff compensation to the mid-point of the St. Louis County districts
- Curriculum adoptions to ensure books and materials are in the classrooms when school begins

The District's self-sustaining funds, including Child Nutrition and Community Education, have a slightly different budget timeline. From December through January, department leads meet with their staff to cover budget needs and goals. A proposed budget is submitted to the departments' Administrators for review. Over the next couple months, actions such as meal prices for Child Nutrition and fees for after school and Community Education programs are taken to the Board of Education for approval. The proposed budgets are approved by the respective administrators and submitted to finance in March 2017.

Additional budget updates were presented to the Board through May 2017 with final budget approval in June 2017.

The governing body of each political subdivision may revise, alter, increase or decrease the items contained in the proposed budget, subject to such limitations as may be provided by law or charter; provided, that in no event shall the total authorized expenditures from any fund exceed the estimated revenues to be received plus any unencumbered balance or less any deficit estimated for the beginning of the budget year. After any political subdivision has approved the budget for any year and has approved or adopted the orders, motions, resolutions or ordinances required to authorize the expenditures proposed in the budget, the political subdivision shall not increase the total amount authorized for expenditure from any fund, unless the governing body adopts a resolution setting forth the facts and reasons making the increase necessary and approves or adopts an order, motion, resolution or ordinance to authorize the expenditures.

Throughout the year, budgets are reviewed daily in connection with purchase order and payroll processing. Revenue budgets are reviewed monthly. Budget adjustments can, and will, be made on a regular basis as additional information becomes available, especially in regard to title programs, grant approvals and changes in assessed valuations and required changes in related expenditures. Any additions to or redirections from the approved budget at the fund level must be pre-approved. Also, any movement between funds must have Board approval. The Board of Education has final approval for the original budget and for budget adjustments made throughout the year.

Economic Condition

St. Louis County is the largest county in the State of Missouri and the major contributor to the economy of the state and the twelve-county metropolitan area with approximately one million residents. The service sector continues to show the largest job growth in the County. The areas of medical, bio-technical, business and technology services are expected to provide long-term employment growth in the County as manufacturing jobs continue to decline. The District is located in Southwest St. Louis County and residents have full access to the large and diverse employment base in the AAA rated St. Louis County.

The four major revenue sources for the District are local property taxes, state foundation formula, voluntary transfer student (desegregation) aid and sales taxes and make up 73 percent of the District's total revenue. Local property taxes represent approximately 66 percent of the District's operating revenue budget.

The District is experiencing residential and small commercial development activity and anticipates 2,300 more residential homes will be built over the next 5 years. The 2017-18 school year was a reassessment year in Missouri, and the District experienced a 7.8 percent increase in the assessed valuation of approximately \$3.7 billion.

The District has a bond rating among the highest in the nation - AAA. This was reaffirmed during a rating call with Standard & Poors' during the 2015-16 school year.

Current Initiatives

The Rockwood Board strongly supports the process of long-range planning in making important decisions about the future of the District's schools and the District as a whole.

The State of Missouri requires all school districts to conduct an in-depth public engagement program to set goals for the next five years. This requirement of the Missouri Department of Elementary and Secondary Education is governed by the Department's Missouri School Improvement Program (MSIP) document. MSIP specifies that each Missouri school district have a Comprehensive School Improvement Plan (CSIP) as one of the major components of the MSIP.

The main thrust of the CSIP was to engage a cross section of the District's public to assist in assessing the District's current structure and planning for the future by determining a ubiquitous set of goals to be used across the District for the next five years. Rockwood is an exemplary school district in part because of the strength and complexity of its planning efforts.

The results of this long-range planning effort have resulted in the following five key goals that will guide the District through the end of the 2014-19 school year:

- Student Learning: All students will demonstrate academic growth and be well prepared for their future.
- Highly Effective Staff: Recruit, attract, develop and retain highly effective staff to carry out the Rockwood School District's missions, goals and objectives.
- District Finance: Ensure efficient operations and accountability for fiscally responsible use of District resources.
- School Climate: Create a safe and caring learning environment that includes a positive school culture and positive collaboration and communication throughout the school and community.
- Governance: Govern the Rockwood School District in an efficient and effective manner, providing leadership and representation to benefit the students, staff and patrons of the District.

Significant Board Policies

The District has entered into agreements with the Rockwood National Education Association, the Rockwood Custodial Education Association and the Rockwood Association of Nurses. Each of these agreements dictates the work environment and compensation for the members of each organization.

In March 2016, the Board of Education approved a negotiated current agreement with the Rockwood National Educational Association through the 2018-19 school year. The District has entered into agreements with the Rockwood Custodial Education Association (RCEA), the Rockwood Association of Nurses (RAN) and the Rockwood Association of Social Workers (RASW). The agreement with the RCEA is through the 2017-18 school year, RAN through the 2020-21 school year and the RASW through the 2019-20 school year.

The Board has an approved policy of maintaining operating fund balances at 18 percent of the subsequent year's expenditure with an additional 4 percent of expenditures for a stabilization plan. The District had 22 percent of operating fund balance as of June 30, 2017.

Independent Audit

The Revised Statutes of the State of Missouri and the Board policies of the District require an audit of the books of accounts, financial records and transactions of all funds of the District. The audit is performed by independent certified public accountants that are selected by the District's Board of Education. This requirement has been complied with and the auditors' unmodified opinion is included in this report.

Financial Reporting Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Rockwood School District for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2016. This was the 12th year that the District has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current Comprehensive Annual Financial Report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

The District has been awarded the Association of School Business Officials International (ASBOi) Certificate of Excellence in Financial Reporting (COE) for the years ended June 30, 2004 - 2016. The District will also submit this 2017 Comprehensive Annual Financial Report for that coveted award. The District also participates in ASBO International's Meritorious Budget Award (MBA) Program. For the past 17 years, the District has applied for and received the prestigious award for excellence in budgeting.

Closing Statement

It is the District's intention that this Comprehensive Annual Financial Report will provide the District's management, parents and other interested patrons, outside investors and the local business community with the most meaningful financial presentation possible. In this report we intend to provide all readers a clear and concise picture of the District's financial condition as of June 30, 2017.

Rockwood School District is an award-winning district with exemplary students, staff and resources. We are thankful for the loyalty and support of our taxpayers, the vision of the Board of Education, the dedication and hard work of fellow employees and the success of our students.

Respectfully submitted,

Dr. Eric Knost Superintendent

Mr. Paul Northington, SFO Chief Financial Officer

Mr. Dan Steinbruegge, CPA Director of Finance

Rockwood School District

Board of Education

2017-2018

Matt Doell, President, was elected to the Rockwood Board of Education in 2011. Mr. Doell is a Licensed Professional Engineer and holds a master's degree in Business Administration from the University of Missouri St. Louis and a bachelor's degree in Electrical Engineering from the Missouri University Science and Technology.

Loralee Mondl, Vice President, was elected to the Rockwood Board of Education in 2013. She holds bachelors' degrees in Chemistry, Math and Education from the University of Missouri, St. Louis in addition to a master's degree in Education from Lindenwood University. She was a teacher and coach at Marquette High School for five years. Her family has lived in Rockwood for the past seven years, and her sons attend Rockwood Schools. For the past 11 years, she has been active as PTO Treasurer and Co-President.

Jaime Bayes, Director, was sworn into the Rockwood Board of Education in 2015. She holds a bachelor and master's degree in Education from Saint Louis University. Her family has lived in Rockwood for the past seven years and her two school-age children attend Rockwood Schools. She and her husband, Matt, also have a young child at home. During her time in Rockwood she has been active as PTO Co-President, VP of Caring Schools Community, Co-Vice President of President's Forum, Girls on the Run coach, and has served on many other committees and forums in her children's schools as well as the district.

Dr. Keith Kinder, Director, was elected to the Rockwood Board of Education in 2011. Dr. Kinder, a career educator, previously worked for the Rockwood School District as both associate principal and principal for three of the district's high schools. Currently, he is an assistant professor of education at Maryville University, helping prepare teachers and administrators for advanced masters and doctoral degrees in education.

Lynne Midyett, Director, was appointed to the Rockwood Board of Education in June 2016. She has a history of service in public education, including her work as the former Assistant Superintendent of Partner Districts with Special School District. She began her career as a special education teacher serving Rockwood students. Ms. Midyett earned her master's degree in Special Education and her certification in Educational Administration. Her family has lived in Rockwood for many years, and her children graduated from Marquette High School. She currently has a grandchild attending Kehrs Mill Elementary School.

Randy Miller, Director, I spent 16+ years building and installing smart home systems. In 2011, when our only son started school, my wife and I made the decision for me to become a stay-home parent. I immediately started volunteering in the school but realized we needed more for our child than our school offered. In 2012 we made the decision to move to Rockwood for its reputation and the opportunities it would offer. I joined the PTO at Stanton Elementary and have served as the VP of School Support for two years and Co-President for the two years prior to being elected. Volunteering in Rockwood has turned out to be the most rewarding years of my life, and I want to continue to give back to the district.

Tamara Jo Rhomberg, Director, Tamara is a long-time resident of Rockwood having taught or been an administrator in the district for 23 years. During her years in Rockwood, she served on district committees, wrote language arts curriculum, supervised a summer school program, and coordinated OASIS tutors and after school tutoring programs. She has two grown children and two grandchildren who graduated from Rockwood schools.

I believe in education as a cornerstone for the development of responsible citizenship and as such have dedicated my career to ensuring that every child is enabled to reach his or her greatest potential. Strengths I would bring to the board are my years of educational and professional experience, and the ability to listen and be objective in my commitment to Rockwood's goals.

Board of Education Rockwood R-VI School District

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Rockwood R-VI School District as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the Rockwood R-VI School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Rockwood R-VI School District, as of June 30, 2017, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 through 16, budgetary comparison information on pages 64-65, the Schedule of Other Postemployment Benefit Obligation on page 67, and the Schedule of Proportionate Share of the Net Pension Liability and Employer Contributions on page 68 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Rockwood R-VI School District's basic financial statements. The introductory section on pages i-xxiii, budgetary comparison information on pages 69-70, the statistical information on pages 71 through 101 and the schedule of selected statistics on pages 103 through 106 are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of selected statistics on pages 103 through 106 are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards on page 108 is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The budgetary comparison information and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory section, statistical section, and schedule of selected statistics have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 30, 2017, on our consideration of the Rockwood R-VI School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Rockwood R-VI School District's internal control over financial reporting and compliance.

ROCKWOOD SCHOOL DISTRICT St. Louis County, Missouri MANAGEMENT'S DISCUSSION AND ANALYSIS THE YEAR ENDED JUNE 30, 2017 (UNAUDITED)

The Management's Discussion and Analysis (MD&A) of Rockwood School District's (District) financial performance provides a comprehensive overview of the District's financial activities and the results of operations for the fiscal year ended June 30, 2017. Readers of the District statements, including this MD&A, are encouraged to review the notes to the basic financial statements to enhance their understanding of the District's financial performance.

The MD&A is provided at the beginning of the audit report to communicate the past and current position of the District's financial condition.

Financial Highlights

The key government-wide financial highlights for fiscal year 2016-17 are as follows:

• At the government-wide level, the total net position was \$137.4 million compared to a total net position of \$152.0 million at the end of fiscal year 2015-16 for a decrease of \$14.6 million. Of the total net position, \$225.2 million is the District's net investment in capital assets. At June 30, 2017, \$37.1 million of net position is restricted by Missouri Statute for debt service (\$17.6 million) and certified employees' compensation and benefits (\$19.5 million). Net position restricted for debt service decreased \$0.2 million and net position restricted for certificated employee's compensation and benefits decreased \$0.5 million. In the prior year the District allocated local revenue for the certificated employees compensation and benefits to help support expenses. The decrease in the current year is a result of current year spending from these balances. The District does reflect an unrestricted net position of (\$124.8) million as a result of the net pension liability.

Total assets and deferred outflows increased \$17.1 million and total liabilities and deferred inflows increased \$31.6 million from fiscal year 2015-16. The major changes in total assets and deferred outflows and total liabilities and deferred inflows were due to the following:

- Cash decreased \$32.3 million of which \$28.2 million is related to the District spending proceeds from the general obligation bonds issued in prior years to fund special maintenance projects as well as regular cycle maintenance projects which were approved through the April 2015 bond authorization. Of the total bond monies received from that authorization, the District has \$32.8 million in cash remaining on hand as of June 30, 2017 that will fund approved projects through the fiscal year 2017-18. The District's cash balance decreased \$2.4 million in the operating funds and \$0.6 million in the debt service funds from fiscal year 2016-17.
- Capital assets increased \$5.0 million as the District spent \$17.9 million on construction in progress, building improvements, bus purchases and machinery and equipment. This is offset by \$12.9 million in depreciation on District capital assets. A significant portion of the capital asset purchases were funded by bond issue funds and the bus lease purchase agreement.
- Deferred outflows of resources related to pensions increased \$44.3 million. These changes are referenced in footnote VII.
- The net OPEB obligation liability increased \$2.2 million based on estimates established through the current year OPEB actuarial study. Additional information can be found in footnote IX.
- The decrease in bonds payable and related accrued interest was \$19.9 million which relates to the District's payments of principal and interest on outstanding general obligation bonds.
- The decrease in capital leases was \$1.2 million which was related to the principal payments on the bus lease purchases.
- Pension liability increased \$49.4 million primarily due to the net difference between the projected and actual investment earnings on the Plan investments.
- Deferred inflows of resources related to pensions decreased \$1.9 million. These changes are referenced in footnote VII.

General revenues accounted for \$231.0 million or 85% of the District's \$270.9 million total revenue. Of this general revenue, \$193.5 million or 84% was from local effort including all taxes and the revenue from the Voluntary Student Transfer program. Program specific revenue in the form of charges for services and operating grants and contributions accounted for approximately \$39.9 million or 16% of the total revenue.

The dependence upon local tax revenues is apparent. Approximately 73% of instructional activities are supported through local effort (mainly taxes) showing, again, that the community is the primary support for this District. The assessed valuation for the fiscal year ended June 30, 2017, which was a non-reassessment tax year, increased \$23,925,485 to \$3,425,378,078 from the prior year. The District's tax rate increased \$0.066 and does include recoupment of prior year settlements. The State statute allows a District to recoup lost taxes from settlement reductions with an individual taxpayer. The process involves recalculating the tax rate for each year affected by the settlement. For fiscal year 2016-17, this process had a net decrease of \$0.03 towards the tax rate as compared to fiscal year 2015-16. Local property tax revenues increased \$3.7 million and revenue from other local and intermediate sources decreased \$0.4 million in fiscal year 2016-17 compared to fiscal year 2015-16. The District's revenue from the State increased \$1.0 million in fiscal year 2016-17 compared to fiscal year 2015-16. Program revenue's increased a net \$1.3 million and is related to the Community Education program partnership with the Parkway School District resulting in the increase in program revenue.

At the government-wide level, the District had \$285.4 million in expenses. Of these expenses approximately \$39.9 million were offset by program specific charges for services, grants or contributions. General revenues were adequate to provide for the District's programs in fiscal year 2016-17.

Enrollment

The District served a student body of 20,853 students which included 19,035 resident students, 1,474 Voluntary Transfer Students (VTS) and 344 Special School District (274 resident and 70 VTS) students as of the September 2016 official enrollment. The District's enrollment has experienced slight annual enrollment reductions over the last six years. However, the District is experiencing residential growth which will result in additional students in the next two to five years.

Using this Annual Report

The District's annual report consists of a series of financial statements that show information for the District as a whole including the Rockwood School District Educational Facilities Authority (a component unit) and its individual funds. The Statement of Net Position on page 17 and the Statement of Activities on page 18 provide information about the activities of the Government as a whole based on the accrual basis of accounting and present a longer-term view of the District's finances. The Fund Financial Statements, the Balance Sheet–Governmental Funds and Statement of Revenue, Expenditures and Changes in Fund Balance, provide the next level of detail about the District's four required funds; the General Fund, the Special Revenue (Teachers) Fund, the Debt Service Fund and the Capital Projects Fund. These statements tell how the District financed program services in the short-term, as well as what remains for future spending. The fund level statements are prepared on the modified accrual basis of accounting and include bridge schedules to reconcile them to the government-wide level statements.

The annual report also includes the notes to the basic financial statements. The user of the annual report should read the independent auditors' report, as well as the notes to the basic financial statements, to gain a clear picture of the financial position of the District.

Reporting the District as a Whole

The District adheres to Missouri State requirements for school districts and uses four major funds to account for the revenues, programs and activities each fiscal year. These statements provide information on these funds individually, and the view of the District as a whole. The Statement of Activities answers the question of how well did the District do financially during the year.

The Statement of Activities explains the types of resources: revenues, charges for services, grants and contributions and the uses of resources: instructional and support services expenses. In addition, the Statement of Activities reports the District's net position and changes in the assets, deferred outflows, liabilities and deferred inflows. This statement tells the reader that, for the District as a whole, the financial position during the current year has either improved or diminished.

These statements report revenues and expenses, assets, deferred outflows, liabilities, deferred inflows and net position using the accrual basis of accounting similar to the accounting used by most private-sector entities. This basis of accounting recognizes all of the current year's revenues and expenses regardless of when cash is received or paid.

In the Statement of Net Position and the Statement of Activities, the District reports governmental activities including instruction, support services, operation and maintenance of plant, pupil transportation and extracurricular and miscellaneous activities. The District does not have any business-type activities. The Rockwood School District Educational Facilities Authority activities are reported as a blended component unit and shown with the District activities. See Note I for further information. The District also maintains an Internal Service Fund – Self Insurance Fund. These statements are shown separately.

The District as a Whole

Table 1 provides a summary of the District's net position as of June 30, 2017 compared to June 30, 2016:

Table 3Total and Net Costs of Governmental ActivitiesFor the years ended June 30,

Capital Assets

At June 30, 2017, the District had \$604,921,536 invested in capital assets at the gross level with \$390,315,880 net of depreciation. Table 4 shows June 30, 2017 compared to June 30, 2016.

	Ca	Table 4 npital Assets June 30,		Increase
		2017	2016	(decrease)
Land and land improvements	\$	28,947,476	\$ 28,319,392	\$ 628,084
Buildings and building improvements		528,607,359	523,630,091	4,977,268
Machinery and equipment		18,090,592	17,171,526	919,066
Automotives and other vehicles		14,426,055	13,719,567	706,488
Construction in progress	_	14,850,054	4,419,301	10,430,753
Totals	\$	604,921,536	\$ 587,259,877	\$ 17,661,659

Overall capital assets increased \$17.7 million from June 30, 2016. The increase in capital assets is related to a net \$10.4 million of construction in progress as the District funds projects approved through the April 2015 bond authorization, \$4.9 million in building improvements and \$0.7 million in vehicles and buses. The District also purchased an additional \$0.9 million of machinery and equipment during the current year.

Further information may be found in Note IV, Changes in Capital Assets.

Debt Administration

At June 30, 2017, the District had general obligation bonds outstanding of \$166,380,000 and capital leases of \$11,407,041. The District has made major additions and renovations on its campuses in recent years including classrooms, labs, gymnasiums and theaters.

In April 2015, the Community approved Proposition 4, a \$68.95 million bond issue. Bonds from the sale of this approval occurred in two authorizations with the first authorization of \$35 million being approved by the Board and sold by the District in May 2015. The second authorization of \$33.95 million was approved by the Board and sold by the District in March 2016. This bond issue allows the District to provide technology updates throughout all schools, strengthen safety and security for our students and staff, perform annual preventive maintenance at our schools and install synthetic fields and replace our tracks at our high schools. Included in the March 2016 sale was the authorization for the advanced refunding of a portion of the general obligation bonds, Series 2008B. Total bond issue for 2016 was \$72.8 million.

In April 2016, the Board authorized a lease purchase with respect to the acquisition, purchase, financing and leasing of school buses and certain equipment related thereto. The amount of this lease purchase was \$12.5 million.

In April 2017, the Community approved Proposition T, a \$95.5 million bond issue. The bond authorization is expected to cover special projects and cycle maintenance through the 2024-25 school year. The District will issue the bonds as needed to complete the project list over that time period.

(continued)

Table 5 shows outstanding obligations at June 30, 2017 compared to June 30, 2016.

Table 5 **Outstanding Obligations** June 30,

			Increase
	2017	2016	(decrease)
Bonds Issued			
2008	\$ 4,125,000	\$ 8,675,000	\$ (4,550,000)
2010	50,855,000	58,370,000	(7,515,000)
2011	9,750,000	11,895,000	(2,145,000)
2015	29,125,000	33,410,000	(4,285,000)
2016	72,525,000	72,805,000	(280,000)
Total bonded debt	166,380,000	185,155,000	(18,775,000)
Other financing			
Transportation	11,336,774	12,500,000	(1,163,226)
Energy Financing	70,267	137,819	(67,552)
Total other financing	11,407,041	12,637,819	(1,230,778)
Total all obligations	\$ 177,787,041	\$ 197,792,819	\$ (20,005,778)

Other long-term obligations include accrued compensated absences, other post-employment benefit obligations and the net pension liability related to the State's retirement systems.

Further information may be found in Note V, Changes in Long-Term Obligations, VII, Pension Plans and IX, Other Post-Employment Benefit Obligation.

Missouri statute allows school districts to incur debt up to an amount equal to 15% of the most current assessed valuation. The District's allowable debt level ceiling was \$513.8 million at June 30, 2017, far above the District's current level of debt. Missouri law also requires school districts to set a tax levy adequate to service the outstanding debt. The District's Debt Service levy for fiscal year 2016-17 was \$0.68 on each \$100 of assessed valuation. The Debt Service Fund balance at June 30, 2017, was \$19.9 million. The District maintains an AAA bond rating, which was reaffirmed during a rating call with Standard & Poors' during the 2015-16 school year.

Reporting the District's Most Significant Funds

The District's Funds

The District had actual revenues of \$271.1 million, actual expenditures of \$302.8 million, which resulted in an overall fund balance decrease of \$31.7 million from \$133.8 million in fiscal year 2015-16 to \$102.2 million in fiscal year 2016-17. The major changes in fund balances were:

- The General Fund balance increased \$0.6 million.
- The Teachers Fund decreased \$0.5 million
- The Debt Service Fund decreased \$0.2 million.
- The Capital Projects Fund decreased \$31.6 million as the District spent general obligation bond proceeds received in prior years on projects approved in the April 2015 authorization.

Schedules showing the District's original and final budget compared with actual operating results are provided in the CAFR on pages 64 and 65 for the General Fund and Teachers (Special Revenue) Fund and on pages 69 and 70 for the Debt Service Fund and Capital Projects.

The District's budget and reporting structure follow the statutes of the State of Missouri and as such consists of four major funds: the General Fund, the Teachers (Special Revenue) Fund, the Debt Service Fund and the Capital Projects Fund. At the fund level, the District accounts for the annual activities and prepares the budget using the modified accrual basis of accounting. Revenues are recognized in the accounting period in which they become measurable and available or collectible within sixty days after the end of the current period (June 30). Expenditures are recognized in the accounting period in which the liability is incurred, if measurable, except for unmatured interest on general long-term debt, which is recognized when due.

The General Fund actual revenues of \$96.7 million were \$0.8 million lower than final budgeted revenues of \$97.5 million. The General Fund actual expenditures of \$95.1 million were \$1.3 million less than the final budgeted expenditures of \$96.3 million. This variance is due to the budget recapture of salaries, benefits, supplies and services. The General Fund had \$1.0 million in transfers to the Capital Projects Fund. The result is an increase in fund balance of \$0.6 million to \$38.9 million.

The Teacher's (Special Revenue) Fund had actual revenues of \$146.4 million and \$146.9 million of expenditures resulting in a decrease in fund balance of \$0.5 million to \$17.7 million.

The Debt Service Fund had revenues of \$25.8 million and \$26.0 million of expenditures to decrease the fund balance by \$0.2 million to \$19.9 million.

The Capital Projects Fund revenue was \$2.1 million, expenditures of \$34.7 million and other financing sources of \$1.0 million for a net decrease of fund balance by \$31.6 million. Total fund balance for the Capital Projects Fund at June 30, 2017 is \$25.6 million. In fiscal year 2016-17 the District continued to fund projects from the sale of the general obligation bonds that was approved by the Community in April 2015. During fiscal year 2016-17, the District had \$29.1 million of bond related expenditures in the Capital Projects Fund. In addition, the District had \$1.5 million in expenditures to complete the acquisition of our bus fleet as the District transitioned to a District owned transportation department. Included in the other financing sources were fund transfers from the General Fund to meet state accounting requirements.

For the Future

Rockwood School District continues to be in excellent financial health and is committed to wise financial management. The operating fund balances are 22.0% of expenditures. The current Board of Education policy is to ensure year-end operating fund balances equal to 18% of the subsequent budgeted annual operating expenditures plus an additional 4% of expenditures for a stabilization fund.

During fiscal year 2014-15, the Community overwhelmingly passed Proposition 4, a \$68.95 million bond issue, with a 73.9% pass rate. The result of this approval allowed the District to improve facilities, including adding measures to strengthen safety and security for our students and staff as well as perform annual preventative maintenance throughout all schools. The Community also passed Proposition T during fiscal year 2016-17 which allows the District to plan for significant growth occurring within the District as approximately 2,300 homes will be built over the next 5 years. Also during fiscal year 2016-17, the District successfully transitioned to a District operated transportation system that saved the District money as well as increased services to our Community. The Districts fiscal year 2017-18 operating budget approved by the Board of Education reflects a balanced budget. The District does anticipate being faced with many financial constraints over the next couple years; however, it is the intention of the District to retain a balanced budget. Revenue sources are projected to increase modestly over next three fiscal years as the local assessed valuation improves but this will be offset by a commitment to raise average staff salaries to St. Louis County school district median as well as additional classroom staffing costs as the District is focused on decreasing classroom size, specifically at grades K-1. With residential growth the District is estimating an increase in student enrollment which will provide additional funding from State sources. However, the State revenue sources are dependent on funding at the State level and currently the District is being conservative with our revenue estimates from State sources as we monitor current legislative actions.

The Rockwood School District has a long tradition of success and has demonstrated an ability to make appropriate changes to meet the needs of District students. The District's systems for financial planning, budgeting and internal control are well regarded. The District will continue to be prudent in financial management in order to meet the challenges of the future.

Contacting the District's Financial Management:

This report is designed to give an overview of the financial conditions of the Rockwood School District. If you desire additional information, you may contact the following persons:

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE OF GOVERNMENTAL FUNDS WITH THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2017

Total net change in fund balances - total governmental funds		\$ (31,662,834)
Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for government-wide activities those costs are shown in the Statement of Net Position and allocated over their estimated useful lives as annual depreciation expenses in the Statement of Activities. This is the amount by which capital assets exceed depreciation in the period. Capital asset purchases Depreciation expense	\$ 17,873,048 (12,834,569)	5,038,479
Because some property taxes and other revenues will not be collected for several months after the District's fiscal year ends, they are not considered as available revenues in the governmental funds, and are instead counted as deferred property taxes. They are, however, recorded as revenues in the Statement of Activities. This includes the reversal of the prior year and the accrual of the current year.		(240,341)
Repayment of long-term obligations is an expenditure in the governmental funds, but it reduces long-term obligations in the Statement of Net Position and does not affect the Statement of Activities in the government-wide statements.		20,005,778
The changes in liabilities for compensated absences are recorded in the Statement of Activities and are based on actual days outstanding and estimated employees who are affected. These liabilities are not recognized in the fund statements.		390,287
Interest on long-term obligations in the Statement of Activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the Statement of Activities, however, interest expense is recognized as the interest accrues, regardless of when it is due.		13,096
The fund financial statements do not recognize the liability related to postemployment benefits other than pensions. This liability is recognized in the Statement of Activities.		(2,211,115)
The fund statements do not recognize the establishment or amortization of premium or discount on the general obligation bonds or other debt outstanding.		1,149,825
Pension benefit (expense) in the Statement of Activities differs from the amount reported in the governmental funds because pension expense is recorded as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the Statement of Activities, however, pension benefit (expense) is recognized based on the present value of the projected benefit payments for current and past employees.		(7,031,795)

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2017

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Rockwood R-VI School District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. Following are the more significant accounting policies of the District.

Rockwood R-VI School District (the District) was established under the Statutes of the State of Missouri. The District operates as a "six director" district (with seven members of the Board of Education) as described in RSMo Chapter 162. The District provides educational services to primarily pre-kindergarten through high school students. The Rockwood School District Board of Education (The Board) is the basic level of government that has financial accountability and control over all activities related to public education in the District.

Reporting Entity

These financial statements present the District (primary government) and its component unit, the Rockwood School District Educational Facilities Authority (the Authority). As defined by applicable GASB statements, component units are legally separate entities that are included in the District's reporting entity because of the significance of their operating or financial relationship with the District. The District is not a component unit of another reporting entity.

The District created the Authority, a nonprofit corporation, to partially finance construction of an Early Childhood Center and to pay off existing HVAC indebtedness. The Authority's debt that was issued related to this finance is expected to be repaid entirely with the resources of the primary government. Although legally separate, the Authority is blended and presented as a "nonmajor governmental fund" in the accompanying financial statements. Separate financial statements for the Authority are not issued.

Basis of Presentation

The District's basic financial statements consist of government-wide statements, including a Statement of Net Position and a Statement of Activities, and fund financial statements which provide a more detailed level of financial information.

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2017

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Government-Wide Financial Statements

The Statement of Net Position and the Statement of Activities include the financial activities of the primary government, as a whole. Proprietary fund activity is eliminated to avoid 'doubling up' revenues and expenses. Governmental activities generally are financed through taxes, intergovernmental revenues and other non-exchange transactions.

The government-wide statements are prepared using the economic resources measurement focus and accrual basis of accounting. This is the same approach used in the preparation of proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. These financial statements include a reconciliation with brief explanations to better identify the differences between the government-wide statements and the statements for governmental funds.

The government-wide Statement of Net Position presents the financial condition of the governmental activities at year end. The government-wide Statement of Activities presents a comparison between direct expenses and program revenues for each program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. Amounts reported as program revenues include (a) charges paid by the recipient of the goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues, which are not classified as program revenues, are presented as general revenues of the District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

Fund Financial Statements

The fund financial statements report detailed information about the District's funds. The District segregates transactions related to certain functions or activities into separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Non-major funds (if applicable) are aggregated and presented in a single column. The internal service fund, which funds the District's self-insured health benefits, is presented in a single column on the face of the proprietary fund statements.

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2017

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fund Financial Statements (Concluded)

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are the balance sheet, which generally includes only current assets and current liabilities, and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financial resources.

Fund Accounting

The accounts of the District are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are summarized by providing a separate set of self-balancing accounts which include its assets, liabilities and fund balances arising from revenues and expenditures. The measurement focus is upon determination of changes in the financial position rather than upon net income determination. District resources are allocated to and accounted for, in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The following are the District's major funds:

Governmental Funds

General Fund: This fund is the general operating fund of the District, and accounts for expenditures for non-certified employees, pupil transportation costs, operation of plant, fringe benefits, student body activities, community services, the food service program and any expenditures not required or permitted to be accounted for in other funds.

Special Revenue (Teachers) Fund: A special revenue fund is required to be established by state law which accounts for expenditures for certified employees involved in instruction and administration, and includes revenues restricted by the state and local tax levy allocations for the payment of teacher salaries and certain benefits.

Debt Service Fund: Accounts for the accumulation of resources for, and the payment of, principal, interest and fiscal charges on long-term obligations.

Capital Projects Fund: Accounts for the proceeds of long-term debt, taxes and other revenues designated for acquisition or construction of major capital assets.

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2017

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fund Accounting (Concluded)

Proprietary Funds

The Proprietary Fund focuses on the determination of changes in net position, financial position, and cash flows and is classified as either enterprise or internal service. The District does not have any enterprise funds. The District's Proprietary Fund is:

Internal Service Fund – Accounts for the financing of services provided by one department or agency to other departments or agencies of the District on a cost-reimbursement basis. This fund was established to account for the District's self-funded medical and dental insurance benefits for participating employees and their families. The revenues received by the internal service fund represent District contributions and premiums withheld as payroll deductions from employees. Claims paid, direct insurance payments, and administrative costs are the only expenses of this fund. A liability for estimated claims incurred, but not reported, is recorded in this fund.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary funds also use the accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue (property and sales taxes), the recording of deferred inflows and outflows, and in the presentation of expenses versus expenditures.

Government-wide financial statements prepared on the accrual basis of accounting recognize and record revenues when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flow. Property taxes, sales taxes, grants and similar revenue are susceptible to accrual and so have been recognized as revenues of the current fiscal year. Property taxes are recognized as revenues in the year they are levied. Grants and similar revenue are recognized as revenue as soon as all of the eligibility requirements have been met.

Government fund financial statements prepared on the modified accrual basis of accounting recognize revenues as soon as they are both measurable and available. The District considers available to mean collectible within sixty days after the end of the current period. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on general long-term debt, which is recognized when due. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds at the fund reporting level.

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2017

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of Accounting (Concluded)

Amounts reported as program revenues include 1) charges to users for goods, services, or privileges provided, 2) operating grants and contributions 3) capital grants and contributions (if applicable).

In the Statement of Net Position and the Statement of Activities, the District reports governmental activities. The District does not have any business-type activities. The Rockwood School District Facility Authority's activities are reported as a blended component unit and shown with governmental activities.

Proprietary funds distinguish between operating and non-operating revenues and expenses. Operating revenues and expenses normally result from providing services and producing and delivering goods in connection with the fund's principle function. The principal operating revenue in the internal service fund includes payroll withholdings or payments on insurance premiums. Operating expenses are related to providing insurance coverage and paying third party administrative fees. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses. The statement of cash flows provides information about how the District finances and meets the cash flow needs of its proprietary fund.

It is District policy to use restricted resources prior to unrestricted when both are available for use.

Revenues – Exchange and Non-Exchange Transactions

Revenues resulting from exchange transactions, in which each party receives essentially equal value, are recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenues are recorded in the fiscal year in which the resources are measurable and available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of the fiscal year-end.

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2017

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Revenues – Exchange and Non-Exchange Transactions (Concluded)

Non-exchange transactions, in which the District receives value without directly giving value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenues from non-exchange transactions must also be available before they can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes, sales tax, interest, tuition, grants, student fees and rentals.

Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of costs, such as depreciation and amortization, are not recognized in the governmental funds at the fund reporting level.

Pooled Cash and Temporary Investments

Cash resources are combined to form a pool of cash and temporary investments, which is managed by the District Treasurer, except resources from the Debt Service Fund, as state law requires these deposits to be separately maintained.

The District may invest in bonds of the State of Missouri, of the United States, or any wholly-owned corporation of the United States; or in other short-term obligations of the United States. Interest income earned is allocated to contributing funds based on each funds' proportionate shares of funds invested.

For purposes of the statement of cash flows, the District's internal service fund considers all highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents.

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2017

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Restricted Cash and Investments

Restricted cash and investments represent amounts whose use is limited by legal requirements and consist of amounts escrowed for future general obligation bond principal and interest payments in the Missouri Securities Investment Program, as discussed in Note II.

Inventories and Prepaid Items

Inventories are valued at cost, on a first-in, first-out (FIFO) basis, and consist of purchased food and supplies of \$1,103,365. An expenditure is recorded at the time the inventory is used. Prepaid items of \$1,751,864 consist of insurance premiums on policies that provide coverage past the current year-end. These premiums will be expensed through the balance of the policy terms within one year. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the year in which services are consumed.

Receivables

Taxes receivable include property taxes and sales taxes. Property taxes receivable is reported net of an allowance for uncollectible calculated from historical collection rates. Other receivables include interest earned but not yet credited to the District's accounts, amounts due the District from the State, amounts due to the District from federal grants, and some miscellaneous receivables from various local activities.

Unearned Revenue

Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

Capital Assets

Capital assets, which include land, land improvements, buildings, machinery and equipment, automobiles and other vehicles, and construction in progress, are reported in the governmental activities column of the government-wide financial statements. The District defines capital assets as assets with an initial, individual cost of more than \$5,000. All land purchases are capitalized. Assets are recorded at historical cost or estimated historical cost if actual historical cost is not available and are updated for additions and retirements during the year. Donated assets are recorded at their fair market values as of the date received. The District does not own any infrastructure.

The cost of routine maintenance and repairs that do not add to the value of the asset or materially extend the asset life are not capitalized.

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2017

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Capital Assets (Concluded)

Capital assets under construction and not yet in use by the District as of the date of the financial statements are reported as construction in progress. Assets reported as construction in progress will include individual assets with a cost less than \$5,000.

All reported capital assets except land and construction in progress are depreciated using the straight-line method over the useful lives of the assets.

Capital asset type	Estimated useful life
Land improvements	20
Buildings	50
Machinery and equipment	15
Technology (including machinery	
and equipment)	5
Automobiles and other vehicles	5-10

Deferred Outflows of Resources

The District reports decreases in net position that relate to future periods as deferred outflows of resources in a separate section of its government-wide and proprietary fund statements of net position. The only deferred outflows of resources reported in this year's financial statements are deferred amounts related to the District's defined benefit pension plans as further discussed in Note VII. No deferred outflows of resources affect the governmental funds financial statements in the current year.

Deferred Inflows of Resources

The District's statements of net position and its governmental fund balance sheet report a separate section for deferred inflows of resources. This separate financial statement element reflects an increase in net position that applies to a future period(s). Deferred inflows of resources are reported in the District's statement of net position for actual pension plan investment earnings in excess of the expected amounts included in determining pension expense. This deferred inflow of resources is attributed to pension expense over multiple years, including the current year. In its governmental funds, the only deferred inflow of resources is for revenues that are not considered available. The District will not recognize the related revenues until they are available (collected not later than 60 days after the end of the District's fiscal year) under the modified accrual basis of accounting. Accordingly, unavailable revenues from property taxes are reported in the governmental funds balance sheet.

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2017

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Compensated Absences and Early Retirement

An accrual for certain salary related payments associated with vacation time and unused sick leave are included in the government-wide financial statements.

District employees earn vacation time throughout the fiscal year to be taken by the end of the subsequent fiscal year. Any unused vacation days remaining will be forfeited by the employee. Unused vacation is payable to the employee upon termination. Employees who meet certain requirements may receive compensation for unused sick leave payable at time of retirement.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, payables and accrued liabilities that will be paid from governmental funds are reported on the governmental fund financial statements regardless of whether they will be liquidated with current resources. However, special termination benefits, claims and judgments, and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment. In general, liabilities that mature or come due for payment during the fiscal year are considered to have been made with current available financial resources. Bonds, capital leases and other long-term obligations that will be paid from governmental funds are not recognized as a liability in the fund financial statements until due.

Post Employment Benefits

COBRA Benefits - Under the Consolidated Omnibus Budget Reconciliation Act (COBRA), the District provides healthcare benefits to eligible former employees and eligible dependents. Certain requirements are outlined by the federal government for this coverage. The premium is paid in full by the insured on or before the tenth (10th) day of the month for the actual month covered. The program provides continuation of benefits for the number of months as prescribed by law.

There is no associated cost to the District under this program. The District prepares the initial COBRA enrollment forms and the former employee makes the premium payments directly to a division of the third party administrator.

The District also offers continued healthcare benefits to retired employees who elect to participate. The retiree pays the premium.

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2017

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fund Balances – Governmental Funds

In the fund financial statements, governmental funds report the following classifications of fund balance:

Nonspendable – includes amounts that cannot be spent because they are either not spendable in form or are legally or contractually required to be maintained intact.

Restricted – includes amounts restricted by external sources (creditors, laws of other governments, etc.) or by constitutional provision or enabling legislation.

Committed – includes amounts that can only be used for specific purposes. Committed fund balance is reported pursuant to resolutions passed by the Board of Education, the District's highest level of decision making authority. Commitments may be modified or rescinded only by the Board. The District does not have any committed fund balances.

Assigned – includes amounts that the District intends to use for a specific purpose, but do not meet the definition of restricted or committed fund balance. Amounts are assigned by the District's highest level of decision making authority or a body or official that has been given the authority to assign funds. Under the District's adopted fund balance policy, amounts may be assigned by the Chief Financial Officer.

Unassigned – includes amounts that have not been assigned to other funds or restricted, committed or assigned to a specific purpose within the General Fund. In other governmental funds, if expenditures incurred for specific purposes exceed the amounts restricted, committed or assigned to those purposes, a negative unassigned fund balance may be reported.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Board has provided otherwise in its commitment or assignment actions.

The details of the fund balances are included in the Balance Sheet – Governmental Funds.

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2017

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONCLUDED)

Net Position

Net position represents the difference between assets, and deferred outflows of resources, liabilities, and deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets, net of any unspent bond proceeds, plus deferred amounts on refundings resulting from advance refundings. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. The remaining balance of net position is reported as unrestricted. When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first and then unrestricted resources as they are needed.

Interfund Activity

Interfund transfers are reported as other financing sources/ (uses) in governmental funds. Missouri statute requires the District to report all equipment purchases in the Capital Projects Fund. During the year the District accounts for certain capital outlay expenditures in the various General Fund sub-categories (Student Activity, Community Education and Child Nutrition). The District then records a transfer for these expenditures to the Capital Projects Fund at year end. For the year ended June 30, 2017, these transfers amounted to \$1,033,041.

Use of Estimates

In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities, deferred inflows of resources, and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. However, it is management's belief that the actual results will materially approximate the estimates used.

Teachers Salaries

The salary payment schedule of the District for the 2016-17 school year requires the payment of salaries over a twelve month period. Consequently, the final three teacher payrolls related to the 2016-17 school year are included in accrued liabilities on the basic financial statements.

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2017

II. CASH AND TEMPORARY INVESTMENTS

Cash balances from all funds, except the Debt Service Fund, are combined and invested to the extent available in short-term securities. State laws require that all deposits of the Debt Service Fund be kept separate and apart from all other funds of the District. Earnings from such investments are allocated to the General Fund, Teachers Fund and Capital Projects Fund on the basis of the applicable cash balance participation by each fund. Separate accounts are maintained for the Debt Service Fund and the Internal Service Fund. Interest is deposited directly into these accounts. State statutes authorize the District to invest in obligations of the United States government or any agency or instrumentality, including repurchase agreements; bonds of the State of Missouri, or the United States, or of any wholly owned corporation of the United States, and other short-term obligations of the United States; under limited circumstances, commercial paper and bankers' acceptances; and deposit accounts with insured financial institutions, provided the accounts are entirely insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized with government securities that have a fair value exceeding the deposit amount.

Investments with the Missouri Direct Deposit Program and escrow agents for refunding escrow accounts are regulated by investment contracts that only authorize investments in obligations of the United States government or any agency or instrumentality thereof.

The District's investments in external investment pools are stated at amortized cost, which approximates fair value, except for the term investments, which are stated at net asset value. The net asset value of the term investments was \$21,200,000 as of June 30, 2017.

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2017

II. CASH AND TEMPORARY INVESTMENTS (CONTINUED)

The cash deposits and temporary investments are summarized and presented in the financial statements at fair value as follows as of June 30, 2017:

Cash deposits	\$ 8,215,926
Cash on hand	11,453
Investments	
External investment pools	 118,053,638
Total	\$ 126,281,017
Cash and investments - governmental funds	\$ 1,844,741
Restricted cash and investments - governmental	
funds	118,053,638
Cash and investments - proprietary funds	 6,382,638
Total reporting entity	\$ 126,281,017

Deposits

Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At June 30, 2017, the carrying amount of the deposits under District control was \$8,215,926 and the bank balance was \$17,543,207, which was covered by federal depository insurance and collateral held at the Bank of New York, the District's safekeeping agent, pledged in the name of the District.

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2017

II. CASH AND TEMPORARY INVESTMENTS (CONTINUED)

Investments

MISSOURI SECURITIES INVESTMENT PROGRAM (MOSIP)

At June 30, 2017, the District had \$118,053,638 invested in the MOSIP program with an average maturity of six months. All funds in this program are invested in accordance with Section 165.061 RSMo. Each school district owns a pro-rata share of each investment or deposit, which is held in the name of the Fund. The fair value for the external investment pool is the same as the value of the pool shares. A separate financial report for the MOSIP program can be obtained from the PFM Asset Management LLC, 77 West Port Plaza Drive, Suite 220, St. Louis, Missouri 63146. The MOSIP program is exempt from regulatory oversight as it is a Local Government Investment Pool.

The District may purchase any investments allowed by the State Treasurer. These include (1) obligations of the United States Government or any agency or instrumentality thereof maturing and becoming payable not more than three years from the date of purchase, or (2) repurchase agreements maturing and becoming payable within 90 days secured by U.S. Treasury obligations or obligations of U.S. Government agencies or instrumentalities of any maturity, as provided by law.

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. The District has a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. One of the ways the District manages its exposure to interest rate risk is by purchasing investments with short-term maturities to provide the cash flow and liquidity needed for operations, and by timing cash flows from maturities so a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2017

II. CASH AND TEMPORARY INVESTMENTS (CONTINUED)

Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. State law limits investments that can be held by government agencies to safe high quality securities. The investments authorized under the investment policy are limited to federal government-backed securities, certificates of deposit, bankers' acceptance, repurchase agreements (under certain conditions), local and state government bonds (limited to one of the highest three credit ratings) and District policy is also to use diversification to minimize credit risk. The District has a formal policy and supporting regulation which governs the investment funds. District administrators will be guided by the criteria of legality, safety, liquidity and yield. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The District's investments in MOSIP are rated AAAm, AA+ and A-1 to A-1+ by Standard and Poor's.

Custodial Credit Risk

Custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investment or collateral securities that are in possession of an outside party. The District's investment policy states that the District will manage custodial credit risk by pre-qualifying the financial institutions and advisors with which the District will do business; and, diversifying the portfolio so that potential losses on individual securities will be minimized. The District's investment policy further mandates that all securities purchased be perfected in the name of or for the account of the District and be held by a third-party custodian as evidenced by appropriate safekeeping receipts.

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2017

II. CASH AND TEMPORARY INVESTMENTS (CONCLUDED)

Concentration of Credit Risk

As a means of limiting its exposure to losses arising from concentration of investments, the District's investment policy mandates that the portfolio not have a concentration of assets in specific maturity or specific class of securities. At a minimum, diversification standards by security type and issuer are established as (a) U.S. treasuries, securities issued by State of Missouri, and securities having principal and/or interest guaranteed by the U.S. Government – 100%; (b) collateralized time and demand deposits – 100%; (c) U.S. Government agencies, and government sponsored enterprises, no more than 60%; (d) collateralized repurchase agreements, no more than 50%; (e) U.S. Government callable securities, no more than 15%; (f) qualified commercial paper, no more than 25%; and (g) bankers' acceptances, no more than 25%.

The investment policy of the District contains no limitations on the amount that can be invested in any one issuer beyond what is provided by law. There were no investments in any one issuer representing 5% or more of total investments (excluding investments issued or explicitly guaranteed by the U.S. government, investments in mutual funds, external investment pools and other pooled investments).

III. TAXES

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on November 1 and are payable by December 31. All unpaid taxes become delinquent January 1 of the following year. The county collects the property taxes and remits them to the District on a monthly basis. An allowance for uncollectible taxes has been provided for delinquent taxes.

At the fund reporting level, property tax revenues are recognized when they become measurable and available. Available includes those property tax receivables expected to be collected within sixty (60) days after year-end. Revenue recognition of delinquent property taxes not collected within sixty (60) days of fiscal year end is deferred.

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2017

III. TAXES (CONCLUDED)

The District also receives sales tax collected by the State of Missouri and remitted to the District based on eligible pupil counts. The District is required to reduce its sales tax levy by one-half of the amount of sales tax estimated to be received in the subsequent calendar year, Prop C rollback. However, the District's voters approved a full waiver of the Prop C rollback in the 1994/1995 school year, so sales taxes are not reduced to the District. The final assessed valuation of the tangible taxable property (excluding state assessed railroad and utilities) for the calendar year 2016 for purposes of local taxation was:

Real estate	
Residential	\$ 2,262,580,705
Agricultural	2,684,833
Commercial including locally assessed	
railroad and utility	703,394,700
Personal property including locally assessed	
railroad and utility	479,598,070
	3,448,258,308
Less tax increment financing	22,880,230
	\$ 3,425,378,078

Accounts receivable-property taxes at June 30, 2017, were \$4,052,736 (less an allowance for uncollectible taxes of \$442,037).

The tax levy per \$100 of the assessed valuation of tangible taxable property for the fiscal year ending June 30, 2017 for purposes of local taxation was:

	Un	Unadjusted		djusted
General Fund	\$	1.7394	\$	1.7394
Special Revenue Fund		2.2064		2.2064
Debt Service Fund		0.6800		0.6800
Capital Projects Fund		0.0420		0.0420
	\$	4.6678	\$	4.6678

The receipts of current and delinquent property taxes during the fiscal year ended June 30, 2017, aggregated approximately 96.8% of the current assessment computed on the basis of the levy as shown above.

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2017

IV. CHANGES IN CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2017 was as follows:

		Balance						Balance
]	July 1, 2016	 Transfers	Additions		 Deletions	J	une 30, 2017
Governmental activities								
Capital assets that are not depreciated

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2017

V. CHANGES IN LONG-TERM OBLIGATIONS

The following is a summary of changes in long-term obligations for the year ended June 30, 2017:

	Balance			Balance	Amounts due
	July 1,			June 30,	within
	2016	Additions	Reductions	2017	one year
Governmental activities					
Bonds payable					
General obligation bonds	\$ 185,155,000	\$ -	\$ (18,775,000)	\$ 166,380,000	\$ 19,015,000
Deferred amounts for					
issuance discounts	(817,072)	-	87,951	(729,121)	-
Deferred amounts on					
issuance premiums	13,338,397		(1,237,776)	12,100,621	
Total bonds payable, net	197,676,325	-	(19,924,825)	177,751,500	19,015,000
Capital leases	12,637,819	-	(1,230,778)	11,407,041	1,247,002
Interest	2,881,948	2,868,852	(2,881,948)	2,868,852	2,868,852
Compensated absences	8,107,508	7,717,221	(8,107,508)	7,717,221	1,528,552
Total governmental activity long-term	¢ 221 202 con	¢ 10 50 6 0 7 0	¢ (22.145.050)	¢ 100 744 <14	¢ 04 650 406
obligations	\$ 221,303,600	\$ 10,586,073	\$ (32,145,059)	\$ 199,744,614	\$ 24,659,406

Payments on the general obligation bonds are made by the Debt Service Fund. The obligations under capital leases are paid by the Capital Projects Fund. The compensated absences will be liquidated by the General Fund or the Teachers Fund depending on which fund the employee's salary was charged.

The District issues general obligation bonds to provide funds to erect, improve and equip school buildings. The District has built three new elementary schools, one middle school and major renovations to each of the four high schools in addition to improvements to every school site in the District in recent years. From time to time the District issues general obligation bonds to refund prior bond issuances to reduce cash flows and interest costs.

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2017

V. CHANGES IN LONG-TERM OBLIGATIONS (CONTINUED)

Bonds payable consist of the following at June 30, 2017:

Date issued	Maturity date	Rate of interest	Original issue amount	 Balance at June 30, 2017
6/5/08	2/1/22	3.25% - 5.00%	\$ 70,000,000	\$ 4,125,000
12/1/09	2/1/20	3.00% - 4.00%	24,465,000	16,950,000
6/29/10	2/1/24	4.00% - 4.75%	33,905,000	33,905,000
9/10/10	2/1/27	4.75%	7,295,000	7,295,000
9/21/10	2/1/18	2.00% - 3.00%	13,800,000	2,455,000
6/11/15	2/1/35	3.25% - 5.00%	35,000,000	29,125,000
3/17/16	2/1/36	2.00% - 5.00%	72,805,000	 72,525,000
				\$ 166,380,000

The annual requirements to amortize all general obligation (GO) bonded debt outstanding as of June 30, 2017, including interest payments are as follows:

	 Principal	Interest		 Total
Year ending June 30,				
2018	\$ 19,015,000	\$	6,864,729	\$ 25,879,729
2019	18,255,000		6,219,179	24,474,179
2020	18,455,000		5,574,054	24,029,054
2021	20,005,000		4,833,349	24,838,349
2022	21,270,000		3,862,706	25,132,706
2023-2027	42,975,000		9,093,044	52,068,044
2028-2032	7,000,000		4,022,188	11,022,188
2033-2036	 19,405,000		1,570,925	 20,975,925
	\$ 166,380,000	\$	42,040,174	\$ 208,420,174

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2017

V. CHANGES IN LONG-TERM OBLIGATIONS (CONTINUED)

Advanced Refunding

In prior years, the District defeased certain general obligation bonds by placing the proceeds of the new bonds in irrevocable trusts to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for defeased bonds are not included in the District's financial statements. As of June 30, 2017, the total debt outstanding that is considered to be defeased is \$40,200,000.

Legal Debt Margin

Article VI, Section 26(b), Constitution of Missouri, limits the outstanding amount of authorized general obligation bonds of a district to fifteen percent of the assessed valuation of a district (including state-assessed railroad and utilities). The legal debt margin of the District calculated using the December 31, 2016, assessed valuation and excluding state-assessed railroad and utilities was as follows at June 30, 2017.

Constitutional debt limit	\$ 513,806,712
General obligation bonds payable	(166,380,000)
Amount available in Debt Service Fund	19,902,825
Available bonding capacity	\$ 367,329,537

Capital Leases

In 2008 the District entered into a \$600,000 lease purchase agreement with Bank of America. Proceeds were used for an energy conservation lighting project which was finalized in 2009. The principal balance at June 30, 2017, was \$70,267.

In 2016, the District entered into a \$12,500,000 lease purchase agreement with Banc of America Public Capital Corp. Proceeds were used to purchase school buses for the District. The principal balance at June 30, 2017, was \$11,336,774.

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2017

V. CHANGES IN LONG-TERM OBLIGATIONS (CONCLUDED)

Other Financing

The annual requirement to amortize the capital leases as of June 30, 2017, including interest payments are as follows:

	 Principal		Interest		Total
Year ending June 30,					
2018	\$ 1,247,002	\$	184,225	\$	1,431,227
2019	1,196,655		161,481		1,358,136
2020	1,216,911		141,225		1,358,136
2021	1,237,511		120,625		1,358,136
2022	1,258,459		99,677		1,358,136
2023-2026	 5,250,503		182,042		5,432,545
	\$ 11,407,041	\$	889,275	\$	12,296,316

VI. TAX ABATEMENTS

Saint Louis County has granted four tax incentives in the Rockwood R-VI School District. The total amount of tax abated for 2016 was \$426,818. These tax abatements are considered immaterial to the overall financial statements.

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2017

VII. PENSION PLANS

Public School Retirement System of Missouri

The District contributes to the Public School Retirement System of Missouri (PSRS) and the Public Education Employee Retirement System (PEERS), a cost-sharing multiple-employer defined benefit pension plan.

PLAN DESCRIPTION

PSRS is a mandatory cost-sharing multiple employer retirement system for all full-time certificated employees and certain part-time certificated employees of all public school districts in Missouri (except the school districts of St. Louis and Kansas City) and all public community colleges. PSRS also includes certificated employees of PSRS, Missouri State Teachers' Association, Missouri State High School Activities Association, and certain employees of the state of Missouri who elected to remain covered by PSRS under legislation enacted in 1986, 1987 and 1989.

The majority of PSRS members are exempt from Social Security contributions. In some instances, positions may be determined not to be exempt from Social Security contributions. Any PSRS member who is required to contribute to Social Security comes under the requirements of Section 169.070 (9) RSMo, known as the "2/3's statute." PSRS members required to contribute to Social Security are required to contribute two-thirds of the approved PSRS contribution rate and their employer is required to match the contribution. The members' benefits are further calculated at two-thirds the normal benefit amount.

PEERS is a mandatory cost-sharing multiple employer retirement system for all public school district employees in Missouri (except the school districts of St. Louis and Kansas City), employees of the Missouri Association of School Administrators, and community college employees (except the Community College of St. Louis). Employees of covered districts who work 20 or more hours per week on a regular basis and who are not contributing members of the Public School Retirement System of Missouri (PSRS) must contribute to PEERS. Employees of PSRS who do not hold Missouri educator certificates also contribute to PEERS. PEERS was established as a trust fund by an Act of the Missouri General Assembly effective October 13, 1965. Statutes governing the System are found in Sections 169.600 - 169.715 and Sections 169.560-169.595 RSMo. The statutes place responsibility for the operation of PEERS on the Board of Trustees of the Public School Retirement System of Missouri.

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2017

VII. PENSION PLANS (CONTINUED)

Public School Retirement System of Missouri (Continued)

BENEFITS PROVIDED

PSRS is a defined benefit plan providing retirement, disability, and death/survivor benefits. Members are vested for service retirement benefits after accruing five years of service. Individuals who (a) are at least age 60 and have a minimum of 5 years of service, (b) have 30 years of service, or (c) qualify for benefits under the "Rule of 80" (service and age total at least 80) are entitled to a monthly benefit for life, which is calculated using a 2.5% benefit factor. Beginning July 1, 2001, and ending July 1, 2014, a 2.55% benefit factor is used to calculate benefits for members who have 31 or more years of service at age 55. Members who are younger than age 55 and who do not qualify under the "Rule of 80" but have between 25 and 29.9 years of service may retire with a lesser benefit factor. Members that are three years beyond normal retirement can elect to have their lifetime monthly benefits actuarially reduced in exchange for the right to also receive a one-time partial lump sum (PLSO) payment at retirement equal to 12, 24, or 36 times the Single Life benefit amount.

PEERS is a defined benefit plan providing service retirement and disability benefits to its members. Members are vested for service retirement benefits after accruing five years of service. Individuals who (a) are at least age 60 and have a minimum of five years of service, (b) have 30 years of service, or (c) qualify for benefits under the "Rule of 80" (service and age total at least 80) are entitled to a monthly benefit for life, which is calculated using a 1.61% benefit factor. Members qualifying for "Rule of 80" or "30-and-out" are entitled to an additional temporary .8% benefit multiplier until reaching minimum Social Security age (currently age 62). Actuarially age-reduced retirement benefits are available with five years of service at age 55. Members who are younger than age 55 and who do not qualify under the "Rule of 80" but have between 25 and 29.9 years of service may retire with a lesser benefit factor. Members that are three years beyond normal retirement can elect to have their lifetime monthly benefits actuarially reduced in exchange for the right to also receive a one-time partial lump sum (PLSO) payment at retirement equal to 12, 24, or 36 times the Single Life benefit amount.

Summary Plan Descriptions detailing the provisions of the plans can be found on the Systems' website at <u>www.psrs-peers.org.</u>

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2017

VII. PENSION PLANS (CONTINUED)

Public School Retirement System of Missouri (Concluded)

COST OF LIVING ADJUSTMENTS ("COLA")

The Board of Trustees has established a policy of providing a 0.00% COLA for years in which the CPI increases between 0.00% and 2.00%, a 2% COLA for years in which CPI increases between 2.00% and 5.00%, and a COLA of 5.00% if the CPI increase is greater than 5.00%. If the CPI decreases, no COLA is provided. For any PSRS member retiring on or after July 1, 2001, such adjustments commence on the second January after commencement of benefits and occur annually thereafter. For PEERS members, such adjustments commence on the fourth January after commencement of benefits and occur annually thereafter. The total of such increases may not exceed 80% of the original benefit for any member.

CONTRIBUTIONS

PSRS members were required to contribute 14.5% of their annual covered salary during fiscal years 2015, 2016 and 2017. Employers were required to match the contributions made by employees. The contribution rate is set each year by the PSRS Board of Trustees upon the recommendation of the independent actuary within the contribution restrictions set in Section 169.030 RSMo. The annual statutory increase in the total contribution rate may not exceed 1% of pay.

PEERS members were required to contribute 6.86% of their annual covered salary during fiscal years 2015, 2016 and 2017. Employers were required to match the contributions made by employees. The contribution rate is set each year by the PSRS Board of Trustees upon the recommendation of the independent actuary within the contribution restrictions set in Section 169.030 RSMo. The annual statutory increase in the total contribution rate may not exceed 0.5% of pay.

The District's contributions to PSRS and PEERS were \$17,912,866 and \$2,896,314, respectively, for the year ended June 30, 2017.

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2017

VII. PENSION PLANS (CONTINUED)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related To Pensions

At June 30, 2017, the District recorded a liability of \$194,089,325 for its proportionate share of PSRS' net pension liability and \$18,334,163 for its proportionate share of PEERS' net pension liability. In total, the District recorded net pension liabilities of \$212,423,488. The net pension liability for the plans in total was measured as of June 30, 2016 and determined by an actuarial valuation as of that date. The District's proportionate share of the total net pension liability was based on the ratio of its actual contributions paid to PSRS and PEERS of \$17,472,925 and \$2,420,725, respectively, for the year ended June 30, 2016, relative to the actual contributions of \$669,858,142 for PSRS and \$105,934,385 for PEERS from all participating employers. At June 30, 2016, the District's proportionate share was 2.6085% for PSRS and 2.2851% for PEERS.

For the year ended June 30, 2017, the District recognized pension expense of \$24,536,409 for PSRS and \$3,497,546 for PEERS, its proportionate share of the total pension expense. The District also recognized expense of \$7,652 for contributions to PSRS related to employee reciprocity and other service transfers.

At June 30, 2017, the District reported deferred outflows of resources from the following sources related to PSRS and PEERS pension benefits:

	Deferred Outflows of Resources					
Balance of Deferred Outflows Due to:		PSRS		PEERS	E	District Total
Differences between expected and actual experience	\$	13,964,641	\$	530,700	\$	14,495,341
Changes of assumptions		2,195,221		1,091,983		3,287,204
Net difference between projected and actual earnings on pension plan investments		65,953,240		6,664,469		72,617,709
Changes in proportion and differences between Employer contributions and proportionate share of contributions		678,170		188,416		866,586
Employer contributions subsequent to the measurement date		17,912,866		2,896,314		20,809,180
Total	\$	100,704,138	\$	11,371,882	\$	112,076,020

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2017

VII. PENSION PLANS (CONTINUED)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

At June 30, 2017, the District reported deferred inflows of resources from the following sources related to PSRS and PEERS pension benefits:

	Deferred Inflows of Resources					
Balance of Deferred Inflows Due to:		PSRS		PEERS	D	District Total
Differences between expected and actual experience	\$	14,829,625	\$	1,074,544	\$	15,904,169
Net difference between projected and actual earnings on pension plan investments		25,733,461		2,485,106		28,218,567
Changes in proportion and differences between Employer contributions and proportionate share						
of contributions		460,627		114,308		574,935
Total	\$	41,023,713	\$	3,673,958	\$	44,697,671

Deferred outflows of resources to PSRS and PEERS pensions in the amount of \$17,912,866 and \$2,896,314, respectively, resulting from contributions subsequent to the measurement date of June 30, 2016, will be recognized as a reduction to the net pension liability in the year ended June 30, 2017.

Other amounts reported as collective deferred (inflows)/outflows of resources to be recognized annually in pension expense are as follows:

Year Ending June 30:	PSRS	PEERS	District Total
2018	\$ 6,220,048	\$ 853,937	\$ 7,073,985
2019	6,220,048	864,897	7,084,945
2020	19,086,779	1,907,314	20,994,093
2021	11,938,168	1,175,462	13,113,630
2022	(1,124,136)	-	(1,124,136)
Thereafter	(573,349)		(573,349)
	\$ 41,767,558	\$ 4,801,610	\$ 46,569,168

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2017

VII. PENSION PLANS (CONTINUED)

Actuarial Assumptions

Actuarial valuations of the Systems involves estimates of the reported amount and assumptions about probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and future salary increases. Amounts determined regarding the net pension liability are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The Board of Trustees adopts actuarial assumptions, each of which individually represents a reasonable long-term estimate of anticipated experience for the Systems, derived from experience studies conducted every fifth year. The most recent comprehensive experience studies were completed in June 2016. All economic and demographic assumptions were reviewed and updated, where appropriate, based on the results of the study and effective with the June 30, 2016 valuation. Significant actuarial assumption and method changes are detailed below. For additional information please refer to the Systems' CAFR. The next experience studies are scheduled for 2021.

Significant actuarial assumptions and other inputs used to measure the total pension liability:

Measurement Date – June 30, 2016

Valuation Date – June 30, 2016

Expected Return on Investments -7.75% net of investment expenses and including 2.25% inflation.

Total Payroll Growth PSRS -2.75% per annum consisting of 2.25% inflation, 0.25% real wage growth due to the inclusion of health care costs in pension earnings, and 0.25% of real wage growth due to productivity.

Total Payroll Growth PEERS -3.25% per annum consisting of 2.25% inflation, 0.50% real wage growth due to the inclusion of health care costs in pension earnings, and 0.50% of real wage growth due to productivity.

Future Salary Increases PSRS -3.00% - 9.50%, depending on service and including 2.25% inflation, 0.25% real wage growth due to the inclusion of active health care costs in pensionable earnings, and 0.25% of real wage growth due the productivity.

Future Salary Increases PEERS -4.00% - 11.00%, depending on service and including 2.25% inflation, 0.50% real wage growth due to the inclusion of active health care costs in pensionable earnings, and 0.50% of real wage growth due to productivity.

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2017

VII. PENSION PLANS (CONTINUED)

Actuarial Assumptions (Continued)

Cost-of-Living Increases PSRS & PEERS – The long-tern cost-of-living adjustment (COLA) assumed in the valuation is 1.50% per year, based on the current policy of the Board to grant a 0.00% COLA when annual inflation, as measured by the CPI-U index for a fiscal year, increases between 0.00% and 2.00% and to grant 2.00% when the increase is between 2.00% and 5.00%. The actuarial assumption increases from 1.00% to 1.50% over ten years (from fiscal year 2017 to fiscal year 2027). The COLA applies to service retirements and beneficiary annuities. The COLA does not apply to the benefits for in-service death payable to spouses (where the spouse is over age 60), and does not apply to the spouse with children preretirement death benefit, the dependent children pre-retirement death benefit. The total lifetime COLA cannot exceed 80% of the original benefit. PSRS members receive a COLA on the second January after retirement, while PEERS members receives a COLA on the fourth January after retirement.

Morality Assumption –

- Actives PSRS: RP 2006 White Collar Employee Mortality Table, multiplied by an adjustment factor of 0.75 at all ages for both males and females, with static projection using the 2014 SSA Improvement Scale to 2028.
- Actives PEERS: RP 2006 Total Dataset Employee Mortality Table, multiplied by an adjustment factor of 0.75 at all ages for both males and females, with static projection using the 2014 SSA Improvement Scale to 2028.
- Nondisabled Retirees, Beneficiaries and Survivors PSRS: RP 2006 Mortality Tables with plan-specific experience adjustments and static projection to 2028 using the 2014 SSA Improvement Scale.
- Nondisabled Retirees, Beneficiaries and Survivors PEERS: RP 2006 Mortality Tables with plan-specific experience adjustments and static projection to 2028 using the 2014 SSA Improvement Scale.
- Disabled retirees: RP 2006 Disabled Mortality Tables with static projection to 2028 using the 2014 SSA Improvement Scale.

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2017

VII. PENSION PLANS (CONTINUED)

Actuarial Assumptions (Continued)

Changes in Actuarial Assumptions and Methods: An experience study was completed in June 2016 resulting in an update to the following assumptions:

- PSRS & PEERS The inflation assumption decreased from 2.50% to 2.25% per year.
- PSRS
 - \circ The payroll growth assumption decreased from 3.50% to 2.75% per year.
 - The future salary increase assumption decreased from 4.00%-10.00%, depending on service to 3.00%-9.50%, depending on service.
 - The investment return assumption decreased from 8.00% to 7.75% per year.
 - The active mortality assumption changed from the RP 2000 Mortality Table set back one year for males and six years for females, then projected to 2016 using Scale AA 75% of the RP-2006 White Collar Mortality Tables with static projection to 2028 using the 2014 SSA Improvement Scale.
 - The non-disabled retiree mortality assumption changed from the RP 2000 Mortality Table set back one year for both males and females, then projected to 2016 using Scale AA to the RP-2006 White Collar Mortality Tables with planspecific experience adjustments and static projection to 2028 using the 2014 SSA Improvement Scale.
 - The disabled retiree mortality assumption changed from RP 2000 Disabled Retiree Mortality Table to the RP-2006 Disabled Retiree Mortality Tables with static projection to 2028 using the 2014 SSA Improvement Scale.

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2017

VII. PENSION PLANS (CONTINUED)

- PEERS
 - The payroll growth assumption decreased from 3.75% to 3.25% per year.
 - The future salary increase assumption decreased from 5.00%-12.00%, depending on service to 4.00%-11.00%, depending on service.
 - The investment return assumption decreased from 8.00% to 7.75% per year.
 - The active mortality assumption changed from the RP 2000 Mortality Table set back one year for males and six years for females, then projected to 2016 using Scale AA to 75% of the RP-2006 Total Dataset Mortality Tables with static projection to 2028 using the 2014 SSA Improvement Scale.
 - The non-disabled retiree mortality assumption changed from the RP 2000 Mortality Table set back one year for males and no set back/forward for females, then projected to 2016 using Scale AA to the RP-2006 Total Dataset Mortality Tables with plan-specific experience adjustments and static projection to 2028 using the 2014 SSA Improvement Scale.
 - The disabled retiree mortality assumption changed from RP 2000 Disabled Retiree Mortality Table to the RP-2006 Disabled Retiree Mortality Tables with static projection to 2028 using the 2014 SSA Improvement Scale.
- PSRS & PEERS In addition, the Board adopted a new COLA policy during fiscal 2016 resulting in a decrease in the future COLA assumption from 2.00% per year to a variable, increasing assumption of 1.00%-1.50% over ten years beginning January 1, 2018.

Fiduciary Net Position: The Systems issue a publicly available financial report that can be obtained at www.psrs-peers.org.

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2017

VII. PENSION PLANS (CONTINUED)

Actuarial Assumptions (Continued)

EXPECTED RATE OF RETURN

The long-term expected rate of return on investments was determined in accordance with Actuarial Standard of Practice (ASOP) No. 27, Selection of Economic Assumptions for Measuring Pension Obligations. ASOP No. 27 provides guidance on the selection of an appropriate assumed rate of return. The long-term expected rate of return on Systems' investments was determined using a building-block method in which best-estimate ranges of expected future real rates of returns (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in Systems' target allocation as of June 30, 2016, is summarized below along with the long term geometric return. Geometric return (also referred to as the time weighted return) is considered standard practice within the investment management industry. Geometric returns represent the compounded rate of growth of a portfolio. The method eliminates the effects created by cash flows.

		Long-term	Weighted Long-	
		Expected Real	Term Expected	
	Target Asset	Return Arithmetic	Real Return	
Asset Class	Allocation	Basis	Arithmetic Basis

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2017

VII. PENSION PLANS (CONCLUDED)

Actuarial Assumptions (Concluded)

DISCOUNT RATE

The long-term expected rate of return used to measure the total pension liability was 7.75% as of June, 30, 2016, and is consistent with the long-term expected geometric return on the Systems' investments. The actuarial assumed rate of return was 8.0% from 1980 through fiscal year 2016. The Board of Trustees adopted a new actuarial assumed rate of return of 7.75% based on the actuarial experience studies and asset-liability study conducted during the current year. The projection of cash flows used to determine the discount rate assumed that employer contributions would be made at the actuarially calculated rate computed in accordance with assumptions and methods stated in the funding policy adopted by the Board of Trustees, which requires payment of the normal cost and amortization of the unfunded actuarially accrued liability in level percent of employee payroll installments over 30 years utilizing a closed period, layered approach. Based on this assumption, the Systems' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members.

DISCOUNT RATE SENSITIVITY

The sensitivity of the District's net pension liability to changes in the discount rate is presented below. The District's net pension liability calculated using the discount rate of 7.75% is presented as well as the net pension liability using a discount rate that is 1.0% lower (6.75%) or 1.0% higher (8.75%) than the current rate.

		1% Decrease 6.75%		Current Rate 7.75%		% Increase 8.75%
Proportionate Share of the Net Pension Liability PSRS	\$	329,264,501	\$	194,089,325	\$	81,535,451
PEERS	\$	31,883,752	\$	18,334,164	\$	6,962,724

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2017

VIII. DEFERRED COMPENSATION PLANS

The District offers its employees a choice of deferred compensation plans created in accordance with Internal Revenue Code Sections 403(b) or 457(b). These plans, available to all District employees, permit them to defer a portion of their salary until future years. The District makes these Plans available to its employees as an accommodation only. The District's role in connection with the Plans is generally limited to processing the paperwork necessary to remit participant's salary withholdings (deferrals) to annuity providers and custodians.

IX. OTHER POST-EMPLOYMENT BENEFIT OBLIGATION

Plan Description

In addition to providing the pension benefits described above, the District (under the provisions of the Rockwood Self-insurance Plan) provides continuation of medical, dental and vision insurance coverage, including prescription drugs to employees who are eligible for normal or early retirement under a single employer plan. Retirees who elect to participate must pay the premium in effect for the current plan year or any subsequent year at the premium rates in effect at that time. Since the retirees pay the premium for each year, the District's share of any premium cost is determined on the basis of a blended rate or implicit rate subsidy calculation. The plan is not accounted for as a trust fund since an irrevocable trust has not been established. A stand-alone financial report is not available for the plan.

Funding Policy

The District currently pays for the implicit rate subsidy associated with these postemployment health care benefits on a pay-as-you-go basis. The District determines contribution requirements and they may be amended by the District. As of June 30, 2017, no trust fund has been established for the funding of the plan's postemployment benefit obligation, resulting in the classification of the entire liability as unfunded. The schedule of funding progress is presented as required supplementary information.

Annual Other Postemployment Benefit Cost

The District's annual OPEB cost (expense) is calculated based on the annual required contribution of the employer (ARC). The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2017

IX. OTHER POST-EMPLOYMENT BENEFIT OBLIGATION (CONTINUED)

Annual Other Postemployment Benefit Cost (Concluded)

As of June 30, 2017, the schedule of employer contributions and net OPEB obligation is as follows:

Annual required contribution	\$ 4,350,006
Interest on net OPEB obligation	469,939
Adjustment to annual required contribution	 (453,297)
Annual OPEB cost (expense)	4,366,648
Contributions made	 2,155,533
Increase in net OPEB obligation	2,211,115
Net OPEB obligation at July 1, 2016	11,748,487
Net OPEB obligation at June 30, 2017	\$ 13,959,602

As of June 30, 2017, the annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation were as follows:

		Percentage	Net		
Plan	Annual	of OPEB Cost	OPEB		
Year	 OPEB Cost	Contributed	Obligation		
2017	\$ 4,366,648	49.36%	\$ 13,959,602		
2016	4,633,122	55.94%	11,748,487		
2015	4,435,830	55.48%	9,707,290		

As of July 1, 2016, the actuarial accrued liability for benefits was \$51,509,647, all of which was unfunded. The covered payroll (annual payroll of active employees covered by the plan) was \$155,928,280, and the ratio of the unfunded actuarial liability to covered payroll was 33.03%.

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2017

IX. OTHER POST-EMPLOYMENT BENEFIT OBLIGATION (CONCLUDED)

Funded Status and Funding Progress

The projection of future benefit payments for an ongoing plan involves estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revisions as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern to that point. The methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities consistent with the long-term prospective of the calculations. The initial unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis over 30 years.

In the actuarial valuation, the liabilities were computed using the projected unit credit cost method. The actuarial assumptions utilized a 4.0% discount rate per year based on 2.50% long-term inflation and 1.50% real rate of return. Because the plan is unfunded, reference to general assets, which are short-term in nature, was considered in the selection of the 4.0% rate. The healthcare trends used are based on long term healthcare trends generated by the Getzen Model.

X. SELF-INSURED MEDICAL BENEFITS

The District is under a self-insured plan to provide medical and dental benefits to participating employees and their families. The participating employees contribute to the self-insurance fund through payroll deductions based on their coverage election. The District's maximum liability for each employee and in the aggregate for a one-year period is limited by insurance coverage. Transactions for the self-funded insurance are recorded in the Internal Service Fund.

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2017

X. SELF-INSURED MEDICAL BENEFITS (CONCLUDED)

Liabilities of the fund are recorded when it is probable that a loss has occurred and the amount of loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNR). Claim liabilities are calculated based upon recent claim settlement trends. Settlements have not exceeded coverage for each of the past three fiscal years.

Changes in the balance of claims liabilities are as follows for the years ended June 30, 2017:

Unpaid claims, beginning of year	\$ 6,797,520
Incurred claims (including IBNRs)	22,718,598
Claim payments	(23,133,480)
Unpaid claims, end of year	\$ 6,382,638

XI. INSURANCE PROGRAM

The District, along with various other local school districts, participates in the Missouri United School Insurance Council (MUSIC), an insurance association for workers' compensation, general liability and property casualty insurance. The purpose of MUSIC is to distribute the cost of self-insurance over similar entities. MUSIC requires an annual premium payment to cover estimated claims payable and reserves for claims for each entity. Part of the assessment then goes to buy excess insurance contracts for the group as a whole. Should the contributions received by MUSIC be in excess or not be sufficient, rebates or special assessments can be made of the member Districts. There have been no significant changes in insurance coverage from the prior year. Settlements have not exceeded coverage for each of the past three fiscal years.

XII. COMMITMENTS AND CONTINGENCIES

Litigation – Various claims and lawsuits are pending against the District. In the opinion of District management, the potential loss on all claims and lawsuits will not be significant to the District's financial statements taken as a whole.

Grants – The District received financial assistance from federal and state agencies in the form of grants. The disbursements of funds received under these programs generally require compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material effect on the overall financial position of the District at June 30, 2017.

NOTES TO THE BASIC FINANCIAL STATEMENTS June 30, 2017

XII. COMMITMENTS AND CONTINGENCIES (CONCLUDED)

Construction – The District has entered into various contracts for building and grounds renovations and improvements which are included in the amount designated in the capital projects fund in the fund financial statements.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION JUNE 30, 2017

I. BUDGETS AND BUDGETARY ACCOUNTING

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. In accordance with Chapter 67, RSMo, the District adopts a budget for each major fund of the political subdivision.
- 2. Prior to July, the Chief Financial Officer, who serves as the budget officer, submits to the Board of Education a proposed modified accrual basis budget for the fiscal year beginning on the following July 1. The proposed budget includes estimated revenues and proposed expenditures for all funds. Budgeted expenditures cannot exceed available monies plus estimated reserves for the year.
- 3. A public hearing is conducted to obtain taxpayer comments. Prior to its approval by the Board of Education, the budget document is available for public inspection.
- 4. In June 2016 the budget was legally enacted by a vote of the Board of Education.
- 5. Subsequent to its formal approval of the budget, the Board of Education has the authority to make necessary adjustments to the budget by formal vote of the board. Adjustments made during the year are reflected in the budget information included in the budgetary comparison schedules.
- 6. Budgets are presented on the modified accrual basis of accounting for all governmental funds.

Comprehensive Annual Financial Report

2017

Statistical Section

SUMMARY OF STATISTICAL INFORMATION JUNE 30, 2017

This part of the District's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures and required supplementary information says about the District's overall financial position.

<u>C</u> (ontents	<u>Page</u>
•	Continuing Disclosure Information These schedules are required as part of the District's ongoing general obligation bonded debt disclosures and give additional information to investors about the financial position of the District.	72-74
•	Financial Trends These schedules contain trend information to help the reader understand how the District's financial performance and position have changed over time.	75-78
•	Revenue Capacity These schedules contain information to help the reader assess the District's most significant local revenue source – the property tax.	79-83
•	Debt Capacity These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.	84-88
•	Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.	89-90
•	Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.	91-101

Source: St. Louis and Jefferson County Assessor's Offices

Note: On January 1 of every second year the property values are rendered for appraisal (reassessment). The appraisal process for the Rockwood School District is conducted by the St. Louis or Jefferson county Assessor's office. For Rockwood School District residential real estate is appraised at 19% of market value, commercial at 32% of value, agricultural at 12% of value and personal property at 33% of value.

The Assessor's Office submits preliminary values to the school district by June. These values are usually a realistic estimate of the ultimate certified values that come by August. The preliminary values are good estimates upon which to base the tax levies for the operating and debt service budgets. Once the certified values are received by the district, the tax rate adoption is completed prior to September and the budgeting process can be begin for the subsequent fiscal year.

Property owners (both Real Estate and Personal Property) are taxed by the various taxing authorities (including the school district) in their county of residence. Tax levy rates (so much per \$100 of assessed valuations) are set by the taxing authorities according the State law. Assessed valuations are set by the county in which the property resides and every other year is a reassessment year. The tax obligation is billed by the county department of revenue and paid through that department to the taxing authorities. The tax billed is simply the levy rate multiplied by the assessed valuation. There are normally multiple taxing authority obligations included on one tax bill which is typically mailed to tax payers in November with a due date of December 31. The District receives the majority of its revenue in late December and January.

DIRECT AND OVERLAPPING GOVERNMENTAL DEBT June 30, 2017

Source: Individual entities

Notes: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the District. Percentage of overlap is calculated by the Collector of Revenue's Office as follows: For the purpose of determining the appropriate composite property tax rates, all properties are within areas defined by what are called school district sub-codes. Each sub-code accounts for what taxing districts have jurisdiction over a particular parcel, or property. Periodic ledgers comprising the total assessed values for each sub-code area are generated by County Revenue. Appropriate percentage overlap values have been culled from the appropriate ledger.

TOTAL ENROLLMENT LAST TEN FISCAL YEARS

ROCKWOOD R-VI SCHOOL DISTRICT CAPACITY SCHEDULES INFORMATION

June 30, 2017

The capacity of a school building depends on how many rooms are available for general classrooms and District standards regarding the number of students to be served in each classroom. In order to be used for classroom space, the size of the room needs to be appropriate, and it cannot be occupied by another program (e.g. SSD, early childhood, adventure club, remedial services, etc.) offered within the building. In general, when enrollment exceeds capacity, the school is likely using non-standard rooms as classroom space or the number of students in the classrooms exceed the guidelines. The non-standard rooms may include:

- The library, multi-purpose or cafeteria for classrooms
- Using a dedicated art or music room and providing that curriculum within each classroom
- If the over-capacity relates to projected enrollment, it may signal that a special program within the building may need to be relocated to accommodate the projected enrollment.

For grades 6-8, the District organizes students into middle school teams. There are eight curricular areas covered with four being offered in a general classroom and four offered in specially equipped rooms. Two of the specially equipped rooms are core classes offered to all students (science and PE) and two are encore classes (business, FACS, fine arts, gifted and technology). To determine the capacity of a middle school, it is important to determine the number of teams that can be served within these constraints and the number of students to be served in each room.

For high school, there are many more specialized rooms. Additionally, students have a wide range of courses they can select. Using the final master schedule, the class offerings are separated into those that are taught in general classrooms vs. specialized. Likewise, the rooms are separated into the same classifications. A capacity calculation can be created for each type of room. Due to scheduling conflicts, it is highly likely that some rooms will have open periods throughout the day. This is especially true when using a block schedule. An efficiency factor can be determined by dividing the total number of occupied periods by the number of classrooms times seven periods. To determine the capacity for a high school building, add the following:

- The number of regular classrooms times the average number of students to be served in each room times the efficiency factor for that category of room
- The number of specially equipped rooms times the average number of students to be served in each room times the efficiency factor for that category of room
- Some students enroll in work skill classes and, for a portion of the school day, the student is not being served within the classroom. Determine the full-time equivalency for these students.

When reviewing the capacity information on the attached chart, the following information is important:

- The capacity for each elementary school is computed the same and follows the approach outlined in the first paragraph above.
- With the exception of LaSalle Middle School and Eureka High School, the capacity numbers are based on the 2013 study by an outside demographer, RSP. Due to the rapid growth in the Eureka quadrant, a more in-depth analysis was completed using the approach described above.

Independent Accountants' Report on Compliance with Specified Requirements of Missouri Laws and Regulations

Board of Education Rockwood R-VI School District

We have examined Rockwood R-VI School District's compliance with the requirements of Missouri laws and regulations regarding budgetary and disbursement procedures; accurate disclosure by the Rockwood R-VI School District's records of average daily attendance and average daily transportation of pupils and other statutory requirements as listed in the Schedule of Selected Statistics for the year ended June 30, 2017. Management of Rockwood R-VI School District is responsible for Rockwood R-VI School District's compliance with the specified requirements. Our responsibility is to express an opinion on Rockwood R-VI School District's compliance with the specified requirements based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether Rockwood R-VI School District complied, in all material respects, with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether Rockwood R-VI School District complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Our examination does not provide a legal determination on Rockwood R-VI School District's compliance with specified requirements.

In our opinion, Rockwood R-VI School District complied, in all material respects, with the aforementioned requirements for the year ended June 30, 2017.

This report is intended solely for the information and use of the members of the Board of Education, District management, the Missouri Department of Elementary and Secondary Education and other audit agencies and is not intended to be and should not be used by anyone other than these specified parties.

Kerter, Eck & Brackel LLP

St. Louis, Missouri November 30, 2017

SCHEDULE OF SELECTED STATISTICS - UNAUDITED FOR THE YEAR ENDED JUNE 30, 2017

District Number: 096-091

1. Calendar (Sections 160.041 and 171.031, RSMo)

Standard day length (SDL) – The total number of hours between the starting time of the first class and the dismissal time of the last class, minus the time allowed for lunch and one passing time, and minus Channel One time. Reported with 4 decimal places.

Grades K-5	6.5000	SDL
Grades 6-8	6.4500	SDL
Grades 9-12	6.3200	SDL

The number and actual calendar days and hours classes were in session and pupils were under the direction of teachers during this school year were as follows:

	Days	Hours
Eureka Sr. High	173	1,056.46

Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

Board of Education Rockwood R-VI School District

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Rockwood R-VI School District as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the Rockwood R-VI School District's basic financial statements, and have issued our report thereon dated November 30, 2017.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Rockwood R-VI School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Rockwood R-VI School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Rockwood R-VI School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Rockwood R-VI School District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Rockwood R-VI School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Rockwood R-VI School District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditors' Report on Compliance For Each Major Program and on Internal Control Over Compliance Required by The Uniform Guidance

Board of Education Rockwood R-VI School District

Report on Compliance for Each Major Federal Program

We have audited Rockwood R-VI School District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Rockwood R-VI School District's major federal programs for the year ended June 30, 2017. Rockwood R-VI School District's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of Rockwood R-VI School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Rockwood R-VI School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Rockwood R-VI School District's compliance.

Opinion on Each Major Federal Program

In our opinion, Rockwood R-VI School District, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2017.

Report on Internal Control over Compliance

Management of Rockwood R-VI School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Rockwood R-VI School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Rockwood R-VI School District's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiencies, in internal control over compliance is a deficiency of a federal program will not be prevented, or detected and corrected, or a combination of deficiencies, in internal control over compliance is a deficiency of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS FOR THE YEAR ENDED JUNE 30, 2017

NOTE 1 – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal grant activity of the Rockwood R-VI School District under programs of the federal government for the year ended June 30, 2017. The information in this Schedule is presented in accordance with the requirements of *OMB Uniform Guidance, Cost Principles, and Audit Requirements for Federal Awards*. Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position or cash flows of the District.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Rockwood R-VI School District prepares its Schedule of Expenditures of Federal Awards on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenue is recorded when susceptible to accrual, i.e., both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are recorded when the related liabilities are incurred.

The District has not elected to use the 10% de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE 3 – SUBRECIPIENTS

There have been no awards passed through to subrecipients.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS FOR THE YEAR ENDED JUNE 30, 2017

SECTION I – SUMMARY OF AUDITORS' RESULTS

Financial Statements

Type of report issued on financial statements: Unmodified opinion
