## School Closings

Should the need for a school closing arise as a result of inclement weather, or any other reason, the district will utilize a rapid notification system.

***The rapid notification system, FASD Messenger, will be used to notify parents/guardians in the event of school closings, early dismissals or school emergencies. Please keep all contact information updated in Infinite Campus to ensure timely, accurate notification of emergencies. To update your contact information in Infinite Campus select MORE from the left side menu, then Family Information and scroll to find the parent name. Make necessary changes to contact information, then click Update on the right hand side. Here is the link to the update page: [Infinite Campus](#)***

The information will also be posted on the district website and may also be found on local news websites WRFY-FM 102.5, WHUM 1240, WEEU 850, and in Allentown, WAEB, WFMZ/Channel 69. You can also follow Dr. Greg Miller on Twitter- [@MillerFASD](#).

When it is necessary to cancel school due to inclement weather (i.e. snow), irrespective of the length of time involved (early dismissal or whole day) no co-curricular or extra-curricular activities are to be held. This includes “voluntary” practice whatever the nature of the practice might be.

If school is in session when roads are slippery with snow or ice, students are strongly urged by Administration to take school transportation. Driving of personal vehicles is the responsibility of the student and parents/guardians.

2. School Boards may not make rules which are arbitrary, capricious, or outside their grant of authority from the General Assembly. Their rules must stand the test of fairness and reasonableness. A rule is generally considered reasonable if it uses a rational means of accomplishing some legitimate school purpose.
3. Each Board of School Directors shall adopt a code of student conduct which includes policies governing student discipline and a listing of student rights and responsibilities as outlined in this chapter. This conduct code shall be published and distributed electronically to students and parents. Copies of the code shall also be available in each school library and school office.
4. It is the goal of the high school to establish a fair, firm, consistent and progressive discipline system.\*

\* Therefore, in most cases, initial infractions of the rules will result in the assigning of minimum discipline options available. As infractions increase in either proportion or severity, discipline options will increase accordingly.

#### **E. Discrimination**

Consistent with the Pennsylvania Human Relations Act (43 P.S. SS951-963) no student shall be denied access to a free and full public education on account of race, religion, sex, national origin or handicap.

## **Freedom Of Expressions**

### **A. Policy Statement of Freedom of Expressions**

1. Supreme Court in the case of *Tinker vs. Des Moines Community School District*, 303 U.S. 508 (1969), where the court said. "It can hardly be argued that students or teachers shed their constitutional rights to freedom of speech or expression at the school house gate. Students in school as well as out of school are 'persons' under our Constitution. They are possessed of fundamental rights which the State must respect, just as they themselves must respect their obligations to the State. The United States Supreme Court further stated that:  
"...but conduct by the student, in class or out of it, which for any reason – whether it stems from time, place, or type of behavior – materially disrupts class work or involves substantial disorder or invasion of the rights of others, is of course, not immunized by the constitutional guarantee of freedom of speech.
2. Students have the right to express themselves in any manner unless such expression directly interferes with the educational process, threatens immediate harm to the welfare of the school or community, or encourages unlawful activity, or interferes with another individual's rights.

3. Students may use publications, handbills, announcements, assemblies, group meetings, buttons, arm bands, and any other means of common communication, provided that the use of public school communications are in accordance with the regulations as described below. Students have the responsibility to obey laws governing libel and obscenity, and to be aware of the full meaning of their expression. Students have the responsibility to be aware of the feelings and opinions of others and to give others a fair opportunity to express their views.
4. Identification of the individual student or at least one responsible person in the student group may be required on any posted or distributed materials.
5. School officials may require students to submit for prior approval a copy of all materials to be displayed, posted or distributed on school property.

## **B. Bulletin Boards**

1. The principal of each building will designate certain bulletin boards for school announcements. Bulletin board space will be provided for the use of students and student organizations, in addition.
2. The following general limitations on posting are applied.
  - a. The principal will prohibit material which is obscene according to current legal definitions; which is libelous; or which inflames or incites students so as to create a clear and present danger of the commission of unlawful acts or physical disruption of the orderly operation of the school.
  - b. Identification on any posted notice will be required of the student or student group. Including the name of at least one person of the group posting such notice.
  - c. The principal will require that notices or other communications be officially marked for posting and removal.
  - d. Nothing will be posted on bare walls or windows without prior approval of the principal.

## **C. School Newspaper and Publications**

1. Students have the responsibility to refrain from libel and obscenity, and to observe the rules for responsible journalism. Within these bounds, students have a right and are as free as editors of other newspapers to report the news and editorialize.
2. The principal or a designated advisor will supervise and remove obscene or libelous material. In addition, he will edit material that would cause a substantial disruption or material interference with school activities.
3. The above is subject to the following:

  - b. Rules of the school for prior submissions for review of obscene, libelous material, and material advocating illegal actions will be reasonable, and not calculated to delay distribution.
  - c. Each principal will establish prior approval procedures. They will identify to whom the material is to be submitted, the criteria by which the material is to be evaluated, and a limitation on the time within which a decision must be made. If the prescribed time for approval elapses without a decision, the literature will be considered as authorized for distribution.
4. Students who are not members of the newspaper staff and other members of the school community will have access to its pages. The criteria for submission of material by non-staff members will be prepared, published, and distributed to all students by the principal or a designee.
5. Students' and staff members will be held responsible for materials which are libelous or obscene, and such publications may be prohibited by the building principal.

#### **D. Unofficial Publications**

The constitutional right of freedom of speech guarantees the freedom of public school students to publish their own materials other than those sanctioned by the school. The school has no responsibility to assist students or to provide facilities in the publishing of such materials, nor may the school be held responsible for any statements published in them. The newspaper staff members themselves have sole responsibility for any statements published. Unofficial publications have moral and legal obligations to observe the rules of responsible journalism.

#### **E. Distribution of Literature, Leaflets, and Newspapers**

1. The principal may prohibit the distribution or dissemination of student originated material on school grounds when such material would, in their judgment, materially and substantially interrupt the educational process or intrude upon the rights of others.

The principal will find the location best suited for the distribution to reach fellow students without interference with normal flow of traffic within or outside of the school buildings such as busy corridors, exterior doors, and entrances and exits from parking areas. The principal will see that proper protection from harassment is provided to those distributing approved material.

#### **F. Button, Badges, and Armbands**

1. The wearing of buttons and badges or armbands bearing slogans or sayings by students will be permitted even though unpopular with some students and school district employees unless one of the following conditions is determined by the principal.

  - c. The wearing of the object presents a clear and present danger to the physical safety of the wearer.

However, students may decline to recite the Pledge of Allegiance and may refrain from saluting the Flag on the basis of personal belief or religious convictions. Students who choose to refrain from such participation shall respect the rights and interests of classmates who do wish to participate in a meaningful ceremony. We realize that no matter what your age, caring for others and showing affection is important to you. The “right” relationship between two (2) people is and should remain private. Public displays of affections are not appropriate in a high school setting. Any student who is reported for improper conduct should report directly to the high school main office.

If a student has asthma and needs to carry an inhaler, or has an allergy to insect stings and needs to carry an epi-pen, it is necessary to provide the school nurse with a note from the physician stating that the student is capable of managing the administration of the medication, and must have it in their possession for PRN use. A note from the parent should accompany the physician's note. Request to Administer Medication forms are available in the high school main office and on the district website.

The Pennsylvania Public School Code, Section 1414.2(g) allows parents/guardians to request an exemption to the administration of an epinephrine auto-injector for their student. Parents/guardians wishing to choose this option should meet with the school nurse to discuss their decision and then review and sign the opt-out form in the presence of the school nurse.

2. The conduct was sanctioned or approved by the school or organization.

**Student activity or organization** means any activity, society, corps, team, club or service, social or similar group, operating under the sanction of or recognized as an organization by the district, whose members are primarily students or alumni of the organization.

For purposes of this policy, **bodily injury** shall mean impairment of physical condition or substantial pain.

For purposes of this policy, **serious bodily injury** shall mean bodily injury which creates a substantial risk of death or which causes serious, permanent disfigurement, or protracted loss or impairment of the function of any bodily member or organ.

The Board prohibits hazing in connection with any student activity or organization regardless of whether the conduct occurs on or off school property or outside of school hours.

No student, parent/guardian, coach, sponsor, volunteer or district employee shall engage in, condone or ignore any form of hazing.

The Board encourages students who have been subjected to hazing to promptly report such incidents to the building principal.

### **Delegation of Responsibility**

Students, parents/guardians, coaches, sponsors, volunteers, and district employees shall be alert to incidents of hazing and shall report such conduct to the building principal.

### **Discrimination/Discriminatory Harassment**

Every report of alleged hazing that can be interpreted at the outset to fall within the provisions of policies addressing potential violations of laws against discrimination and discriminatory harassment shall be handled as a joint, concurrent investigation into all allegations and coordinated with the full participation of the Compliance Officer. If, in the course of a hazing investigation, potential issues of discrimination or discriminatory harassment are identified, the Compliance Officer shall be promptly notified, and the investigation shall be conducted jointly and concurrently to address the issues of alleged discrimination as well as the incidents of alleged hazing.

### **Guidelines**

In addition to posting this policy on the district's website, the district shall annually inform students, parents/guardians, sponsors, volunteers and district employees of the district's policy prohibiting hazing, including district rules, penalties for violations of the policy, and the program established by the district for enforcement of the policy by means of distribution of written policy, publication in handbooks, presentation at an assembly, verbal instructions by the coach or sponsor at the start of the season or program.

This policy, along with other applicable district policies, procedures and Codes of Conduct, shall be provided to all school athletic coaches and all sponsors and volunteers affiliated with a student activity or organization annually, prior to coaching an athletic activity or serving as a responsible adult supervising, advising, assisting or otherwise participating in a student activity or organization together with a notice that they are expected to read and abide by the policies, procedures and Codes of Conduct.

### **Complaint Procedure**

A student who believes that s/he has been subject to hazing is encouraged to promptly report the incident to the building principal or designee.

Students are encouraged to use the district's report form, available from the building principal, or to put the complaint in writing; however, oral complaints shall be accepted and documented. The person accepting the complaint shall handle the report objectively, neutrally and professionally, setting aside personal biases that might favor or disfavor the student filing the complaint or those accused of a violation of this policy.

The Board directs that verbal and written complaints of hazing shall be provided to the building principal or designee, who shall promptly notify the Superintendent or designee of the allegations and determine who shall conduct the investigation. Allegations of hazing shall be investigated promptly, and appropriate corrective or preventative action be taken when allegations are substantiated. The Board directs that any complaint of hazing brought pursuant to this policy shall also be reviewed for conduct which may not be proven to be hazing under this policy but merits review and possible action under other Board policies.

#### Interim Measures/Police

Upon receipt of a complaint of hazing, the building principal or designee, in consultation with the Superintendent or designee, shall determine what, if any interim measures should be put in place to protect students from further hazing, bullying, discrimination or retaliatory conduct related to the alleged incident and report. Such interim measures may include, but not be limited to, the suspension of an adult who is involved, the separation of alleged victims and perpetrators, and the determination of what the complaining student needs or wants through questioning.

Those receiving the initial report and conducting or overseeing the investigation will assess whether the complaint, if proven, would constitute hazing, aggravated hazing or organizational hazing and shall report it to the police consistent with district practice and, as appropriate, consult with legal counsel about whether to report the matter to the police at every stage of the proceeding. The decision to report a matter to the police should not involve an analysis by district personnel of whether safe harbor provisions might apply to the person being reported, but information on the facts can be shared with the police in this regard.

#### Consequences for Violations

##### *Students -*

If the investigation results in a substantiated finding of hazing, the investigator shall recommend appropriate disciplinary action up to and including expulsion, as circumstances warrant, in accordance with the Code of Conduct. Additionally, the student may be subject to disciplinary action by the coach or sponsor, up to and including removal from the activity. The fact of whether a student qualified for and received safe harbor under a criminal investigation shall be considered in assigning discipline.

##### *Nonstudent Violators/Organizational Hazing -*

If the investigation results in a substantiated finding that a coach, sponsor, or volunteer affiliated with the student activity or organization engaged in, condoned or ignored any violation of this policy, s/he shall be disciplined in accordance with Board policy and applicable laws and regulations. Discipline could include, but is not limited to, dismissal from the position as coach, sponsor, or volunteer, and/or dismissal from district employment.

##### *Safe Harbor –*

An individual needing medical attention or seeking medical attention for another shall not be subject to criminal prosecution if s/he complies with the requirements under law, subject to the limitations set forth in law.

##### *Criminal Prosecution –*

## **Student Expression/Distribution and Posting of Materials # 220**

### **Purpose**

The right of public school students to freedom of speech is guaranteed by the Constitution of the United States and the constitution of the Commonwealth. The Board respects the right of students to express themselves in word or symbol and to distribute and post materials in areas designated for posting as a part of that expression. The Board also recognizes that exercise of that right must be limited by the district's responsibility to maintain a safe and orderly school environment and to protect the rights of all members of the school community.

This policy addresses student expression in general and distribution and posting of materials that are not part of district-sponsored activities. Materials sought to be distributed or posted as part of the curricular or extracurricular programs of the district shall be regulated as part of the school district's educational program.

### **Definitions**

**Distribution** - means students issuing nonschool materials to others on school property or during school-sponsored events; placing upon desks, tables, on or in lockers; or engaging in any other manner of delivery of nonschool materials to others while on school property or during school functions. When email, text messaging or other technological delivery is used as a means of distributing or accessing nonschool materials via use of school equipment or while on school property or at school functions, it shall be governed by this policy. Off-campus or after hours distribution, including technological distribution, that does or is likely to materially or substantially interfere with the educational process, including school activities, school work, discipline, safety and order on school property or at school functions; threatens serious harm to the school or community; encourages unlawful activity; or interferes with another's rights is also covered by this policy.

**Expression** - means verbal, written, technological or symbolic representation or communication.

**Nonschool materials** - means any printed, technological or written materials meant for posting or general distribution that are not prepared as part of the curricular or approved extracurricular programs of the district. This includes, but is not limited to fliers, invitations, announcements, pamphlets, posters, Internet bulletin boards, personal web sites and the like.

**Posting** - means publicly displaying nonschool materials on school property or at school-sponsored events, including but not limited to affixing such materials to walls, doors, bulletin boards, easels, the outside of lockers; on district-sponsored or student web sites; through other district-owned technology and the like. When email, text messaging or other technological delivery is used as a means of posting nonschool materials via use of school equipment or while on school property or at school functions, it shall be governed by this policy. Off-campus or after hours posting, including technological posting, that does or is likely to materially or substantially interfere with the educational process, including school activities, school work, discipline, safety and order on school property or at school functions; threatens serious harm to the school or community; encourages unlawful activity; or interferes with another's rights is also covered by this policy.

### **Authority**

Students have the right to express themselves unless such expression is likely to or does materially or substantially interfere with the educational process, including school activities, school work, discipline, safety and order on school property or at school functions; threatens serious harm to the school or community; encourages unlawful activity; or interferes with another's rights.

Student expression that occurs on school property or at school-sponsored events is fully governed by this policy. In addition, off-campus or after hours expression is governed by this policy if the student expression involved constitutes unprotected expression as stated in this policy and provided the off-campus or after hours expression does or is likely to materially or substantially interfere with the educational process, including school activities,

school work, discipline, safety and order on school property or at school functions; threatens serious harm to the school or community; encourages unlawful activity; or interferes with another's rights.

The Board requires that distribution and posting of nonschool materials shall occur only at the places and during the times set forth in written procedures. Such procedures shall be written to permit the safe and orderly operation of schools, while recognizing the rights of students to engage in protected expression.

### Unprotected Student Expression

The Board reserves the right to designate and prohibit manifestations of student expression that are not protected by the right of free expression because they violate the rights of others or where such expression is likely to or does materially or substantially interfere with school activities, school work, or discipline, safety and order on school property or at school functions. While the following list is not intended to be exhaustive, such expression shall not be protected if it:

1. Violates federal, state or local laws, Board policy or district rules or procedures.
2. Is libelous, defamatory, obscene, lewd, vulgar or profane.
3. Advocates the use or advertises the availability of any substance or material that may reasonably be believed to constitute a direct and serious danger to the health or welfare of students, such as tobacco/nicotine, alcohol or illegal drugs.
4. Incites violence, advocates use of force or threatens serious harm to the school or community.
5. Is likely to or does materially or substantially interfere with the educational process, such as school activities, school work, discipline, safety and order on school property or at school functions.
6. Interferes with, or advocates interference with, the rights of any individual or the safe and orderly operation of the school and their programs.
7. Violates written school district procedures on time, place and manner for posting and distribution of otherwise protected expression.

Spontaneous student expression which is otherwise protected speech is not prohibited by this section.

### Discipline for Engaging in Unprotected Expression

The Board reserves the right to prohibit the posting or distribution of nonschool materials containing unprotected expression and to prohibit students from engaging in other unprotected student expression, as well as to stop unprotected student expression when it occurs. The Board reserves the right to discipline students for engaging in unprotected expression. Where such expression occurs off campus and away from school functions, a nexus between the unprotected expression and a substantial and material disruption of the school program must be established.

### Distribution of Nonschool Materials

The Board requires that students who wish to distribute or post nonschool materials on school property shall submit them at least three (3) school days in advance of planned distribution or posting to the building principal or designee for approval.

If the nonschool materials contain unprotected expression as stated in this policy, the building principal or designee shall notify the students that they may not post or distribute the materials because the materials constitute a violation of Board policy.

If notice is not given during the period between submission and the time for the planned distribution or posting, students may proceed with the planned distribution or posting, provided they comply with written procedures on time, place and manner of posting or distribution of nonschool materials.

Students who post or distribute nonschool materials in compliance with this provision may still be ordered to desist such distribution if the materials are later found to be unprotected expression under this policy.

Students who distribute printed materials shall be responsible for clearing any litter that results from their activity and shall schedule the event so that they do not miss instructional time themselves.

### Posting of Nonschool Materials

If a school building has an area where individuals are allowed to post nonschool materials, students may post such items as well, if the materials do not constitute unprotected expression and the items are submitted for prior review in the same manner as if the students were going to distribute them.

Such materials shall be officially dated, and the district may remove the materials within ten (10) days of the posting or other reasonable time as stated in the procedures relating to posting.

### Review of Student Expression

School officials shall not censor or restrict nonschool materials or other student expression for the sole reason that it is critical of the school or its administration, or because the views espoused are unpopular or may make people uncomfortable.

Student-initiated religious expression is permissible and shall not be prohibited except as to time, place and manner of distribution, or if the expression involved violates some other part of this policy, e.g., because it is independently determined to be unprotected expression under the standards and definitions of this policy.

The review for unprotected expression shall be reasonable and not calculated to delay distribution.

Appeal of the reviewer's decision may be made to the Superintendent and then to the Board, in accordance with Board policy and district procedures.

### Delegation of Responsibility

The Superintendent shall assist the building principal in determining the designation of the places and times nonschool materials may be distributed in each school building. Such designations may take into account maintenance of the flow of student traffic throughout the school and shall limit distribution of nonschool materials to noninstructional times.

The building principal may determine disciplinary action for students who distribute or post nonschool materials in violation of this policy and district procedures, or who continue the manifestation of unprotected expression after a person in authority orders that they desist. Disciplinary actions shall be included in the disciplinary Code of Student Conduct.

This Board policy shall be referenced in student handbooks so that students can access them for further information.

### **Authority**

The Board shall provide parents/guardians the opportunity to purchase insurance coverage, at no cost to the Board, for injury to the students resulting from accidents in any activity during school hours, any activity sponsored by the school, or any activity round-the-clock.

The premium will be paid by the parents/guardians.

### **Delegation of Responsibility**

The Superintendent or designee shall be responsible to:

1. Prepare specifications and secure suitable coverage from qualified insurance carriers for recommendation and Board approval.
2. Notify all students and parents/guardians of students who may be eligible for insurance.
3. Ascertain that where the Board assumes the full cost of insurance, each eligible student is properly insured.

## **Controlled Substances/Paraphernalia # 227**

### **Purpose**

The Board recognizes that the abuse of controlled substances is a serious problem with legal, physical and social implications for the whole school community. As an educational institution, the schools shall strive to prevent abuse of controlled substances.

It is the desire of the district, through curricular procedures and administrative action, to work for the prevention of misuse and abuse of controlled substances within the school district. Consistent with the aims of prevention activities, every effort shall be made to intervene and alleviate controlled substances related problems as they may develop within the domain of the school district.

For purposes of this policy, **look-alike drug** shall include any pill, capsule, tablet, powder, plant matter or other item or substance that is designed or intended to resemble a controlled substance prohibited by this policy, or is used in a manner likely to induce others to believe the material is a controlled substance.

### **Authority**

The Board prohibits students from using, possessing, distributing, and being under the influence of any controlled substances during school hours, at any time while on school property, at any school-sponsored activity, and during the time spent traveling to and from school and to and from school-sponsored activities.

The Board may require participation in drug counseling, rehabilitation, testing or other programs as a condition of reinstatement into the school's educational, extracurricular or athletic programs resulting from violations of this policy.

### **Off-Campus Activities**

This policy shall also apply to student conduct that occurs off school property and would otherwise violate the Code of Student Conduct if any of the following circumstances exist:

1. The conduct occurs during the time the student is traveling to and from school or traveling to and from school-sponsored activities.
2. Student expression or conduct materially and substantially disrupts the operations of the school, or the administration reasonably anticipates that the expression or conduct is likely to materially and substantially disrupt the operations of the school.
3. The conduct has a direct nexus to attendance at school or a school-sponsored activity, for example, a transaction conducted outside of school pursuant to an agreement made in school, that would violate the Code of Student Conduct if conducted in school.
4. The conduct involves the theft or vandalism of school property.
5. There is otherwise a nexus between the proximity or timing of the conduct in relation to the student's attendance at school or school-sponsored activities.

### **Delegation of Responsibility**

The Superintendent or designee shall develop administrative regulations to identify and control substance abuse in the schools which:

1. Establish procedures to deal with students suspected of using, possessing, being under the influence, or distributing controlled substances in school, up to and including expulsion and referral for prosecution.
2. Disseminate to students, parents/guardians and staff the Board policy and administrative regulations governing student abuse of controlled substances.
3. Provide education concerning the dangers of abusing controlled substances.
4. Establish procedures for education and readmission to school of students convicted of offenses involving controlled substances.

The Superintendent shall react promptly to information and knowledge concerning possible or actual incidents of possession, use or sale of controlled substances. Such action shall be in compliance with state law and regulation and with the procedures set forth in the memorandum of understanding with local law enforcement officials.

The Superintendent shall annually, by July 31, report all incidents of possession, use and sale of controlled substances by any person on school property to the Office of Safe Schools on the required form in accordance with state law and regulation.

### **Guidelines**

In all cases involving students and controlled substances, the need to protect the school community from undue harm and exposure to drugs shall be recognized.

No student may be admitted to a program that seeks to identify and rehabilitate the potential abuser without the intelligent, voluntary and aware consent of the student and parent/guardian.

### **Anabolic Steroids**

The Board prohibits the use of anabolic steroids by students involved in school-related athletics, except for a valid medical purpose. Body building and muscle enhancement of athletic ability are not valid medical purposes. Human Growth Hormone (HGH) shall not be included as an anabolic steroid.

Students shall be made aware annually of the dangers of steroid use; that anabolic steroids are classified as controlled substances; and that their use, unauthorized possession, purchase, or sale could subject students to suspension, expulsion and/or criminal prosecution.

### **Reasonable Suspicion/Testing**

If based on the student's behavior, medical symptoms, vital signs or other observable factors, the building principal has reasonable suspicion that the student is under the influence of a controlled substance, the student may be required to submit to drug or alcohol testing. The testing may include but is not limited to the analysis of blood, urine, saliva, or the administration of a Breathalyzer test.

## **Electronic Devices #237**

**During the school day parents/guardians are asked not to contact their student(s) by way of their cell phones. Please contact the high school main office and the message will then be relayed to your student(s).**

### **Purpose**

The Board adopts this policy in order to maintain an efficient educational environment that is safe and secure for district students and employees.

### **Definition**

**Electronic devices** shall include all devices that can take photographs; record audio or video data; store, transmit or receive messages or images; or provide a wireless, unfiltered connection to the Internet.

### **Authority**

The Board prohibits **use of** electronic devices by students in locker rooms, bathrooms, health suites and other changing areas at any time. The use of any electronic equipment on school buses that interferes with safety on the bus is prohibited.

The Board prohibits **possession of** laser pointers and attachments and telephone paging devices/beepers by students in district buildings; on district property; on district buses and vehicles; and at school-sponsored activities.

The district shall not be liable for the loss, damage or misuse of any electronic device.

Students are permitted to bring mobile telephones to school which shall be turned off during instructional and class time, during passing times between classes, as they enter the building at the start of the school day, and at any other time where use of the device would cause a disruption of school activities.

The building administrator may grant approval for possession and use of an electronic device by a student at the administrator's discretion.

### **Electronic Images and Photographs**

The Board prohibits the taking, storing, disseminating, transferring, viewing, or sharing of obscene, pornographic, lewd, or otherwise illegal images or photographs, whether by electronic data transfer or other means, including but not limited to texting and emailing on district property and school buses. Because such violations/behavior may constitute a crime under state and/or federal law, the district shall report such conduct to relevant law enforcement agencies.

### **Off-Campus Activities**

This policy shall also apply to student conduct that occurs off school property and would otherwise violate the Code of Student Conduct if any of the following circumstances exist:

1. The conduct occurs during the time the student is traveling to and from school or traveling to and from school-sponsored activities.
2. Student expression or conduct materially and substantially disrupts the operations of the school, or the administration reasonably anticipates that the expression or conduct is likely to materially and substantially disrupt the operations of the school.
3. The conduct has a direct nexus to attendance at school or a school-sponsored activity, for example, a transaction conducted outside of school pursuant to an agreement made in school that would violate the Code of Student Conduct if conducted in school.
4. The conduct involves the theft or vandalism of school property.
5. There is otherwise a nexus between the proximity or timing of the conduct in relation to the student's attendance at school or school-sponsored activities.

### **Delegation of Responsibility**

The Superintendent or designee shall annually notify students, parents/guardians and employees about the Board's electronic device policy.

### **Guidelines**

Violations of this policy by a student shall result in disciplinary action and may result in confiscation of the electronic device and possible referral to law enforcement.

The confiscated item shall not be returned until a conference has been held with a parent/guardian.

The building administrator may grant approval for possession and use of an electronic device such as a telephone paging device/beeper by a student for the following reasons:

1. Student is a member of a volunteer fire company, ambulance or rescue squad and meets school eligibility requirements.
2. Student has a need due to the medical condition of an immediate family member.
3. Other reasons determined appropriate by the building administrator.

## **Audio/Video Monitors #810.1**

### **Purpose**

The Board recognizes the district's responsibility to maintain order and discipline on school property and in school vehicles. The Board also desires to afford students and staff privacy in respect to the records maintained by the district.

The Board recognizes the value of electronic surveillance systems in monitoring activity on school property and in school vehicles in furtherance of protecting the health, welfare, and safety of its students and staff. The students and staff of the district recognize that their security and safety depends upon the capacity of the district to maintain discipline and that a certain amount of restraint upon the activities of students is assumed and expected.

### **Authority**

Having carefully weighed and balanced the right of privacy of students and staff against the district's duty to maintain order and discipline, the Board deems it appropriate to provide for the use of audio/video camera surveillance in its transportation vehicles, in buildings, and on school grounds.

### **Guidelines**

The following guidelines shall govern the use of electronic surveillance equipment:

1. The district shall notify its students and staff that surveillance may occur on any school property or on any transportation vehicle. The district shall incorporate said notice in the student handbook.
2. The use of surveillance equipment on transportation vehicles shall be supervised by the district transportation secretary. The use of surveillance equipment in district building, on school grounds, and on other district property, shall be supervised and controlled by the building administrator or other responsible administrator.
3. The use of information from surveillance equipment shall be subject to the other policies of the district, concerning the confidentiality of student and staff records.
4. Surveillance shall only be used to promote the order, safety, and security of students, staff, and property.
5. This policy authorizes the district and its transportation contractor to intercept audio on school buses or school vehicles for safety, security, and disciplinary reasons.
6. The district shall notify students and their parents/guardians of this policy through student handbooks and a posting on the district website.
7. A notice shall be placed on each school bus or school vehicle that is furnished with audio recording equipment stating that students may be audiotaped. This notice shall be clearly visible to all who are entering the vehicle.

## **Searches Policy #226**

### **Purpose**

The Board acknowledges the need to respect the rights of students to be free from unreasonable searches and seizures while fulfilling the district's interest in protecting and preserving the health, safety and welfare of the school population, enforcing rules of conduct, and maintaining an appropriate atmosphere conducive to learning.

### **Authority**

School officials have the authority to lawfully search students or their belongings, including lockers, automobiles, electronic devices, purses, backpacks, clothing, and other possessions, without a warrant, when in school, on school grounds or when otherwise under school supervision, if there is a reasonable suspicion that the place or thing to be searched contains prohibited contraband, material that would pose a threat to the health, safety and welfare of the school population, or evidence that there has been a violation of the law, Board policy, or school rules. The scope and extent of searches must be reasonable in relation to the nature of the suspected evidence, contraband or dangerous material and to the grounds for suspecting that it may be found in the place or thing being searched.

The district has a compelling interest in protecting and preserving the health, safety and welfare of the school population, which under certain circumstances may warrant general or random searches of students and their lockers, vehicles or other belongings without individualized suspicion, for the purpose of finding or preventing entry onto school property of controlled substances, weapons or other dangerous materials.

### **Delegation of Responsibility**

The Board authorizes the administration to conduct searches of students or their belongings, including lockers, automobiles, electronic devices, purses, backpacks, clothing, and other possessions in accordance with the standards set forth in this policy.

The Superintendent or designee, in consultation with the district solicitor, shall develop guidelines and procedures to implement this policy, and shall ensure that school staff who are involved in carrying out arches or determining when searches will be conducted receive appropriate periodic training about such procedures and currently applicable legal standards.

Students, parents/guardians and staff shall be notified at least annually, or more often if deemed appropriate by administration, about the standards and procedures in effect pursuant to this policy.

### **Guidelines**

#### **Individualized Suspicion Searches**

Students or their belongings, including lockers, automobiles, electronic devices, purses, backpacks, clothing, and other possessions, may be searched without a warrant when in school, on school grounds or when otherwise under

school supervision, if there is a reasonable suspicion that the place or thing to be searched contains prohibited contraband, material that would pose a threat to the health, safety and welfare of the school population, or evidence that there has been a violation of the law, Board policy, or school rules. The scope and extent of searches must be reasonable in relation to the nature of the suspected evidence, contraband or dangerous material and to the grounds for suspecting that it may be found in the place or thing being searched.

In determining whether reasonable suspicion exists, the principal or designee always should be able to articulate what is being looked for, and why it is thought to be located in the particular place to be searched. The scope of a search should be limited to the place or places the item sought is believed to be.

Examination by school staff of text messages, call logs, files, images or other data contained in a student's mobile telephone or other electronic device, without the student's consent, normally constitutes a search that must be justified by reasonable suspicion that material in violation of law, district policy or school rules, or evidence of such a violation, is contained in the particular files, directories or other data locations being examined in the device.

### **Random or General Searches Without Individualized Suspicion**

Under certain circumstances, random or general searches of students and their belongings, including student lockers or vehicles parked on school property, may be conducted during the school day or upon entry into school buildings or school activities, in the absence of suspicion focused on a particular student or students, for the purpose of finding or preventing entry onto school property or activities of controlled substances, weapons or other dangerous materials. Such searches normally will be conducted in a minimally intrusive manner. When a search provides a reasonable suspicion that particular students, items or places possess or contain controlled substances, weapons or other dangerous material, a more intensive search may be conducted of those particular students, items or places on an individualized basis.

Random or general searches for weapons may be conducted when there are circumstances, information or events tending to indicate increased likelihood that students may be armed or headed for physical confrontation because of community strife or tensions, or as a continuation or escalation of a prior incident, in or out of school, which threatens to spill over into school, into a school-sponsored activity, or into other times and places that students are under school supervision.

Random or general searches for controlled substances may be conducted when there are circumstances, events or information tending to indicate significant drug use, possession or trafficking among students in school.

Searches conducted by the administration may include but not be limited to utilization of certified drug dogs, metal detection units, or any device used to protect the health, safety and welfare of the school population.

Random or general searches not based on individualized suspicion must be approved in advance by the Superintendent or designee.

### **Searches by or at the Request of Law Enforcement Officials**

The legal standards governing searches initiated by school officials are less strict than the standards applicable to law enforcement authorities in many situations. When searches of students, student belongings, vehicles or lockers are conducted by or at the request of law enforcement officials, with or without the involvement of school staff, the law enforcement officials are solely responsible for ensuring that a warrant has been issued or that the circumstances otherwise permit the search to be lawfully conducted in accordance with the standards applicable to law enforcement actions. School staff will not interfere with or obstruct searches initiated by law enforcement, but may assist when law enforcement officials have requested such assistance and have represented that a warrant has been issued or that they otherwise have proper authority for a lawful search.

### **Locker Inspections and Searches**

Lockers are assigned to or otherwise made available to students as a convenience for the safe storage of books, clothing, school materials and limited personal property, and to facilitate movement between classes and activities

to and from school. Such lockers are and shall remain the property of the school district, and to the extent students have any expectation of privacy of lockers at all, it is very limited.

No student may place or keep in a locker any substance or object that is prohibited by law, Board policy or school rules, or that constitutes a threat to the health, safety or welfare of the occupants of the school building or the building itself. Students are required to ensure that their lockers do not contain spoiled food items or beverages, or soiled clothing which may attract pests, create odors or cause unhealthy conditions. A student locker may be opened and inspected for cleanliness, with or without the consent of the student, whenever there are odors, pests or other indications that a locker contains spoiled food, soiled clothing in need of laundering or similarly unhealthy matter.

Students are exclusively responsible for locking their assigned lockers to ensure the security of their personal belongings and school property entrusted to them. Students are permitted to secure their assigned lockers only with locks provided by the district, or if the district does not provide locks, personal combination locks for which the combination has been provided to designated school staff.

Prior to an individual locker search or inspection, the student to whom the locker is assigned shall be notified and be given a reasonable opportunity to be present. However, when there is a reasonable suspicion that a locker contains materials which pose a threat to the health, welfare or safety of the school population, student lockers may be searched without prior notice to the student.

The principal or a designated staff person shall be present whenever a student locker is inspected for cleanliness or is searched. The principal or designee shall maintain written records of all occasions when a locker is searched or inspected. Such records shall include the reason(s) for the search, persons present, objects found and their disposition.

### **Handling and Disposal of Items Found in the Course of Searches**

Any items or material found during a search or inspection, the student's possession of which is in violation of law, district policies or school rules, or otherwise is evidence of such a violation, may be confiscated, and may be used as evidence in student discipline proceedings or a criminal investigation, even if such items or material were not the original objective of the search or inspection.

The principal shall be responsible to ensure that confiscated items or material are properly inventoried and secured until the conclusion of disciplinary action, if any, and are then properly disposed of if not appropriate to be returned to the student. Items or materials that are evidence of a criminal offense, or that are not lawful for ordinary citizens to possess will be promptly turned over to proper law enforcement authorities for custody or disposal.

## **Tobacco Policy #222**

### **Purpose**

The Board recognizes that tobacco, nicotine and nicotine delivery products present a health and safety hazard that can have serious consequences for both users and nonusers and the safety and environment of the schools.

### **Definitions**

For purposes of this policy, **tobacco** includes a lighted or unlighted cigarette, cigar, cigarillo, little cigar, pipe, other smoking product or material, and smokeless tobacco in any form including chewing tobacco, snuff, dip or dissolvable tobacco pieces. It also includes any similar devices (including e-cigarettes) even if they do not contain any tobacco or nicotine.

For the purpose of this policy, **nicotine** shall mean a product that contains or consists of nicotine in a form that can be ingested by chewing, smoking, inhaling or through other means.

For the purpose of this policy, a **nicotine delivery product** shall mean a product or device used, intended for use or designed for the purpose of ingesting nicotine or another substance. This definition includes, but is no limited to, any device or associated product used for what is commonly referred to as vaping or juuling.

#### **Authority**

The Board prohibits possession, use or sale of tobacco, nicotine and nicotine delivery products by students at any time in a school building and on any property, buses, vans and vehicles that are owned, leased or controlled by the school district.

The Board prohibits possession, use or sale of tobacco, nicotine and nicotine delivery products by students at school-sponsored activities that are held off school property.

In the case of a student with a disability, including a student for whom an evaluation is pending, the district shall take all steps required to comply with state and federal laws and regulations, the procedures set forth in the memorandum of understanding with local law enforcement and Board policies.

The school district may initiate prosecution of a student who possesses or uses tobacco, nicotine and nicotine delivery products in violation of this policy.

#### **Delegation of Responsibility**

The Superintendent or designee shall annually notify students, parents/guardians and staff about the district's tobacco/nicotine policy by publishing such policy in the student handbook, posted notices, district website and other efficient methods.

The Superintendent or designee shall develop procedures to implement this policy.

#### **Guidelines**

##### Reporting

The Superintendent or designee shall notify the parent/guardian of any student directly involved in an incident involving possession, use or sale of tobacco, nicotine and nicotine delivery products immediately, as soon as practicable. The Superintendent or designee shall inform the parent/guardian whether or not the local police department that has jurisdiction over the school property has been or may be notified of the incident. The Superintendent or designee shall document attempts made to reach the parent/guardian.

The Superintendent or designee may report incidents of possession, use or sale of tobacco, nicotine and nicotine delivery products by students on school property, at any school-sponsored activity or on a conveyance providing transportation to or from a school or school-sponsored activity to the local police department that has jurisdiction over the school's property, in accordance with state law and regulations, the procedures set forth in the memorandum of understanding with local law enforcement and Board policies.

In accordance with state law, the Superintendent shall annually, by July 31, report incidents of possession, use or sale of tobacco, nicotine and nicotine delivery products on school property to the Office for Safe Schools on the required form in accordance with state law and regulation.

A student convicted of possessing or using tobacco in violation of this policy may be fined up to fifty dollars (\$50) plus court costs or admitted to alternative adjudication in lieu of imposition of a fine.

### **Nondiscrimination – Qualified Students With Disabilities # 103.1**

#### **Authority**

The Board declares it to be the policy of this district to ensure that all district programs and practices are free from discrimination against all qualified students with disabilities. The Board recognizes its responsibility to provide academic and nonacademic services and programs equally to students with and without disabilities.

The district shall provide to each qualified student with a disability enrolled in the district, without cost to the student or parent/guardian, a free and appropriate public education (FAPE). This includes provision of education and related aids, services, or accommodations which are needed to afford each qualified student with a disability equal opportunity to participate in and obtain the benefits from educational programs and extracurricular activities without discrimination, to the same extent as each student without a disability, consistent with federal and state laws and regulations.

The Board encourages students and parents/guardians who believe they have been subjected to discrimination or harassment to promptly report such incidents to designated employees. Complaints of disability discrimination, including disability harassment, carried out by employees, other students, or third parties may be filed under the district's Complaint Procedure contained in this policy.

The Board directs that complaints of discrimination or harassment shall be investigated promptly, and corrective action be taken for substantiated allegations. Confidentiality of all parties shall be maintained, consistent with the district's legal and investigative obligations.

The district shall not intimidate, threaten, coerce, discriminate or retaliate against any individual for the purpose of interfering with any right or privilege secured by this policy.

### **Definitions**

**Qualified student with a disability** - a student who has a physical or mental disability which substantially limits or prohibits participation in or access to an aspect of the district's educational programs, nonacademic services or extracurricular activities.

**Section 504 Team** - a group of individuals who are knowledgeable about the student, the meaning of the evaluation data and the placement options for the student. This could include, as appropriate, documentation or input from classroom teachers, counselors, psychologists, school nurses, outside care providers and the student's parents/guardians.

**Section 504 Service Agreement (Service Agreement)** - an individualized plan for a qualified student with a disability which sets forth the specific related aids, services, or accommodations needed by the student, which shall be implemented in school, in transit to and from school, and in all programs and procedures, so that the student has equal access to the benefits of the school's educational programs, nonacademic services, and extracurricular activities.

**Disability harassment** - intimidation or abusive behavior toward a student based on disability that creates a hostile environment by interfering with or denying a student's participation in or receipt of benefits, services, or opportunities in the school's educational programs, nonacademic services, or extracurricular activities.

**Delegation of Responsibility** In order to maintain a program of nondiscrimination practices that is in compliance with applicable laws and regulations, the Board designates the Superintendent as the district's Section 504 Coordinator.

In addition, each school within the district shall have a Section 504 building administrator.

The district shall publish and disseminate this policy and complaint procedure on or before the first day of each school year by posting it on the district's web site, if available, and in the student handbook. The district shall notify parents/guardians of students residing in the district of the district's responsibilities under applicable laws and regulations, and that the district does not discriminate against qualified individuals with disabilities.

### **Guidelines**

#### **Identification and Evaluation**

The district shall conduct an annual child find campaign to locate and identify every district student with a disability thought to be eligible for Section 504 services and protections. The district may combine this search with the district's IDEA child find efforts, in order to not duplicate efforts.

If a parent/guardian or the district has reason to believe that a student should be identified as a qualified student with a disability, should no longer be identified as a qualified student with a disability, or requires a change in or modification of the student's current Service Agreement, the parent/guardian or the district shall provide the other party with written notice.

The district shall establish standards and procedures for initial evaluations and periodic re-evaluations of students who need or are believed to need related services because of a disability.

The district shall specifically identify the procedures and types of tests used to evaluate a student, and provide the parent/guardian the opportunity to give or withhold consent to the proposed evaluation(s) in writing.

The district shall establish procedures for evaluation and placement that assure tests and other evaluation materials:

1. Have been validated and are administered by trained personnel.
2. Are tailored to assess educational need and are not based solely on IQ scores.
3. Reflect aptitude or achievement or anything else the tests purport to measure and do not reflect the student's impaired sensory, manual or speaking skills (except where those skills are what is being measured).

#### Service Agreement

If a student is determined to be a qualified student with a disability, the district shall develop a written Service Agreement for the delivery of all appropriate aids, services, or accommodations necessary to provide the student with FAPE.

The district shall not implement a Service Agreement until the written agreement is executed by a representative of the district and a parent/guardian.

The district shall not modify or terminate a student's current Service Agreement without the parent's/guardian's written consent.

#### Educational Programs/Nonacademic Services/Extracurricular Activities

The district shall educate a qualified student with a disability with students who are not disabled to the maximum extent appropriate to the needs of the student with a disability. A qualified student with a disability shall be removed from the regular educational environment only when the district determines that educating the student in the regular educational environment with the use of related aids, services, or accommodations cannot be achieved satisfactorily. Placement in a setting other than the regular educational environment shall take into account the proximity of the alternative setting to the student's home.

The district shall not discriminate against any qualified student with a disability in its provision of nonacademic services and extracurricular activities, including but not limited to, counseling services, athletics, transportation, health services, recreational activities, special interest groups or clubs, and referrals to agencies which provide assistance to individuals with disabilities.

#### Discipline

When necessary, the district shall discipline qualified students with disabilities in accordance with state and federal laws and regulations and Board policies.

#### Parental Involvement

Parents/Guardians have the right to inspect and review all relevant school records of the student, meet with the appropriate school officials to discuss any and all issues relevant to the evaluation and accommodations of their child, and give or withhold their written consent to the evaluation and/or the provision of services.

#### Confidentiality of Student Records

All personally identifiable information regarding a qualified student with a disability shall be treated as confidential and disclosed only as permitted by the Family Educational Rights and Privacy Act (FERPA) and its implementing regulations, state regulations, and Board policy.

## **PROCEDURAL SAFEGUARDS**

The district shall establish and implement a system of procedural safeguards that includes notice of rights to the parent/guardian of a student suspected of being a qualified student with a disability, an opportunity for the parent/guardian to review relevant records, an impartial hearing with an opportunity for participation by the student's parent/guardian, and a review procedure.

A student or parent/guardian filing a claim of discrimination need not exhaust these procedures prior to initiating court action under Section 504.

### **Parental Request for Assistance**

Parents/Guardians may file a written request for assistance with the Pennsylvania Department of Education (PDE) if one (1) or both of the following apply:

1. The district is not providing the related aids, services and accommodations specified in the student's Service Agreement.
2. The district has failed to comply with the procedures and state regulations.

PDE shall investigate and respond to requests for assistance and, unless exceptional circumstances exist, shall, within sixty (60) calendar days of receipt of the request, send to the parents/guardians and district a written response to the request. The response to the parents'/guardians' request shall be in the parents'/guardians' native language or mode of communication.

### **Informal Conference**

At any time, parents/guardians may file a written request with the district for an informal conference with respect to the identification or evaluation of a student, or the student's need for related aids, services or accommodations. Within ten (10) school days of receipt of the request, the district shall convene an informal conference. At the conference, every effort shall be made to reach an amicable agreement. Note that this informal complaint process is voluntary and is not a mandatory prerequisite to filing a formal complaint. The complainant may end the informal process at any time to begin a formal complaint.

### **Formal Due Process Hearing**

If the matters raised by the district or parents/guardians are not resolved at the informal conference, the district or parents/guardians may submit a written request for an impartial due process hearing. The hearing shall be held before an impartial hearing officer and shall be conducted in accordance with state regulations.

### **Judicial Appeals**

The decision of the impartial hearing officer may be appealed to a court of competent jurisdiction.

## **COMPLAINT PROCEDURE**

This complaint procedure is in addition to and does not prevent parents/guardians from using any option in the procedural safeguards system at any time, including during the district's investigation.

### **Step 1 – Reporting**

A student or parent/guardian who believes s/he has been subject to conduct that constitutes a violation of this policy is encouraged to immediately report the incident to the Section 504 building administrator.

A school employee who suspects or is notified that a student has been subject to conduct that constitutes a violation of this policy shall immediately report the incident to the Section 504 building administrator.

If the Section 504 building administrator is the subject of a complaint, the student, parent/guardian or employee shall report the incident directly to the district's Section 504 Coordinator.

The complainant or reporting employee is encouraged to use the report form available from the Section 504 building administrator, but oral complaints shall be acceptable. Oral complaints shall be documented by the Section 504 building administrator.

### Step 2 – Investigation

Upon receiving a complaint of discrimination, the Section 504 building administrator shall immediately notify the district's Section 504 Coordinator. The Section 504 Coordinator shall authorize the Section 504 building administrator to investigate the complaint, unless the Section 504 building administrator is the subject of the complaint or is unable to conduct the investigation.

The investigation shall be impartial and may consist of individual interviews with the complainant (who shall have an opportunity to present witnesses and other evidence), the accused, and others with knowledge relative to the incident. The investigator may also evaluate any other information and materials relevant to the investigation.

If the investigation results in a determination that the conduct being investigated may involve a violation of criminal law, the Section 504 building administrator shall inform law enforcement authorities about the incident.

The obligation to conduct this investigation shall not be negated by the fact that a criminal investigation of the incident is pending or has been concluded.

### Step 3 – Investigative Report

The Section 504 building administrator shall prepare and submit a written report to the Section 504 Coordinator within fifteen (15) days, unless additional time to complete the investigation is required. The report shall include a summary of the investigation, a determination of whether the complaint has been substantiated as factual and whether it is a violation of this policy, and a recommended disposition of the complaint. The Section 504 Coordinator shall review the report to ensure the district's adherence to the requirements of Section 504 and its implementing regulation.

The complainant and the accused shall be informed of the outcome of the investigation, including the recommended disposition within twenty-five (25) days of receipt of the complaint.

### Step 4 – District Action

If the investigation results in a finding that the complaint is factual and constitutes a violation of this policy, the district shall take prompt, corrective action to ensure that such conduct ceases and will not recur. District staff shall document the corrective action taken and, where not prohibited by law, inform the complainant.

Disciplinary actions shall be consistent with the Student Code of Conduct, Board policies and administrative regulations, district procedures, applicable collective bargaining agreements, and state and federal laws.

### Appeal Procedure

1. If the complainant is not satisfied with a finding of no violation of the policy or with the recommended corrective action, s/he may submit a written appeal to the district's Section 504 Coordinator within fifteen (15) days.
2. The Section 504 Coordinator shall review the investigation and the investigative report and may also conduct a reasonable investigation.
3. The Section 504 Coordinator shall prepare a written response to the appeal within fifteen (15) days. Copies of the response shall be provided to the complainant, the accused and the Section 504 building administrator who conducted the initial investigation.

## **Nondiscrimination/Title IX Sexual Harassment Affecting Staff #104**

Inquiries regarding discrimination should be directed to the Superintendent of Schools, Dr. Greg M. Miller, 801 North Richmond Street, Fleetwood, PA 19522, 610.944.8111 ext. 10100, gmiller@fleetwoodasd.org, Title IX Coordinator, Fleetwood Area School District, or the Director of the Office of Civil Rights, Department of Health, Education of Health, Education and Welfare, Washington, D.C.

## **Maintaining Professional Adult/Student Boundaries #824**

### **Authority**

This policy applies to district employees, volunteers, student teachers, and independent contractors and their employees who interact with students or are present on school grounds. For purposes of this policy, such individuals are referred to collectively as adults. The term adults as used in this policy, does not include district students who perform services on a volunteer or compensated basis.

All adults shall be expected to maintain professional, moral and ethical relationships with district students that are conducive to an effective, safe learning environment. This policy addresses a range of behaviors that include not only obviously unlawful or improper interactions with students, but also precursor grooming and other boundary-blurring behaviors that can lead to more egregious misconduct.

The Board directs that all adults shall be informed of conduct that is prohibited and the disciplinary actions that may be applied for violation of Board policies, administrative regulations, rules and procedures.

This policy is not intended to interfere with appropriate pre-existing personal relationships between adults and students and their families that exist independently of the district or to interfere with participation in civic, religious or other outside organizations that include district students.

### **Definition**

For purposes of this policy, legitimate educational reasons include matters or communications related to teaching, counseling, athletics, extracurricular activities, treatment of a student's physical injury or other medical needs, school administration or other purposes within the scope of the adult's job duties.

### **Delegation of Responsibility**

The Superintendent or designee shall annually inform students, parents/guardians, and all adults regarding the contents of this Board policy through employee and student handbooks, posting on the district website, and by other appropriate methods.

The building principal or designee shall be available to answer questions about behaviors or activities that may violate professional boundaries as defined in this policy.

Independent contractors doing business with the district shall ensure that their employees who have interaction with students or are present on school grounds are informed of the provisions of this policy.

### **Guidelines**

Adults shall establish and maintain appropriate personal boundaries with students and not engage in any behavior that is prohibited by this policy or that creates the appearance of prohibited behavior.

### **Prohibited Conduct**

#### Romantic or Sexual Relationships -

Adults shall be prohibited from dating, courting, or entering into or attempting to form a romantic or sexual relationship with any student enrolled in the district, regardless of the student's age. Students of any age are not legally capable of consenting to romantic or sexual interactions with adults.

6. Spreading sexual or romantic rumors.
7. Touching a student's body or clothes in a sexual or intimate way.
8. Accepting massages, or offering or giving massages other than in the course of injury care administered by an athletic trainer, coach, or health care provider.
9. Restricting a student's freedom of movement in a sexually intimidating or provocative manner.
10. Displaying or transmitting sexual objects, pictures, or depictions.

#### Social Interactions -

2. Exchanging notes, emails or other communications of a personal nature with a student.

Electronic communications include, but are not limited to, emails, instant messages and communications made by means of an Internet website, including social media and other networking websites.

As with other forms of communication, when communicating electronically, adults shall maintain professional boundaries with students.

Electronic communication with students shall be for legitimate educational reasons only.

When available, district-provided email or other district-provided communication devices shall be used when communicating electronically with students. The use of district-provided email or other district-provided communication devices shall be in accordance with district policies and procedures.

Adults shall not follow or accept requests for current students to be friends or connections on personal social networking sites and shall not create any networking site for communication with students other than those provided by the district for this purpose, without the prior written approval of the building principal.

**Exceptions**

An emergency situation or a legitimate educational reason may justify deviation from professional boundaries set out in this policy. The adult shall be prepared to articulate the reason for any deviation from the requirements of this policy and must demonstrate that s/he has maintained an appropriate relationship with the student.

Under no circumstance will an educational or other reason justify deviation from the "Romantic and Sexual Relationships" section of this policy.

There will be circumstances where personal relationships develop between an adult and a student's family, e.g., when their children become friends. This policy is not intended to interfere with such relationships or to limit activities that are normally consistent with such relationships. Adults are strongly encouraged to maintain professional boundaries appropriate to the nature of the activity.

It is understood that many adults are involved in various other roles in the community through nondistrict-related civic, religious, athletic, scouting or other organizations and programs whose participants may include district students. Such community involvement is commendable, and this policy is not intended to interfere with or restrict an adult's ability to serve in those roles; however, adults are strongly encouraged to maintain professional boundaries appropriate to the nature of the activity with regard to all youth with whom they interact in the course of their community involvement.

**Reporting Inappropriate or Suspicious Conduct**

Any person, including a student, who has concerns about or is uncomfortable with a relationship or interaction between an adult and a student, shall immediately notify the Superintendent, principal or other administrator.[5]

All district employees, independent contractors and volunteers who have reasonable cause to suspect that a child is the victim of child abuse, shall immediately report the suspected abuse, in accordance with applicable law, regulations and Board policy.

An educator who knows of any action, inaction or conduct which constitutes sexual abuse or exploitation or sexual misconduct under the Educator Discipline Act shall report such misconduct to the Pennsylvania Department of Education on the required form, and shall report such misconduct to the Superintendent and his/her immediate supervisor, within fifteen (15) days of discovery of such misconduct.

If the Superintendent or designee reasonably suspects that conduct being reported involves an incident required to be reported under the Child Protective Services Law, the Educator Discipline Act or the Safe Schools Act, the Superintendent or designee shall make a report, in accordance with applicable law, regulations and Board policy.

It is a violation of this policy to retaliate against any person for reporting any action pursuant to this policy or for participating as a witness in any related investigation or hearing.

#### Investigation

Allegations of inappropriate conduct shall be promptly investigated in accordance with the procedures utilized for complaints of harassment.

It is understood that some reports made pursuant to this policy will be based on rumors or misunderstandings; the mere fact that the reported adult is cleared of any wrongdoing shall not result in disciplinary action against the reporter or any witnesses. If as the result of an investigation any individual, including the reported adult, the reporter, or a witness is found to have intentionally provided false information in making the report or during the investigation or hearings related to the report, or if any individual intentionally obstructs the investigation or hearings, this may be addressed as a violation of this policy and other applicable laws, regulations and district policies. Obstruction includes, but is not limited to, violation of “no contact” orders given to the reported adult, attempting to alter or influence witness testimony, and destruction of or hiding evidence.

### **Weapons Policy #218.1**

#### **Purpose**

The Board recognizes the importance of a safe school environment relative to the educational process. Possession of weapons in the school setting is a threat to the safety of students and staff and is prohibited by law.

## **Definitions**

**Weapon** - the term shall include but not be limited to any knife, cutting instrument, cutting tool, nunchaku, firearm, shotgun, rifle, replica of a weapon, and any other tool, instrument or implement capable of inflicting serious bodily injury.

**Possession** - a student is in possession of a weapon when the weapon is found on the person of the student; in the student's locker; and under the student's control while on school property, on property being used by the school, at any school function or activity, at any school event held away from the school, or while the student is coming to or from school.

## **Authority**

The Board prohibits students from possessing and bringing weapons and replicas of weapons into any school district buildings, onto school property, to any school-sponsored activity, and onto any public vehicle providing transportation to school or a school-sponsored activity or while the student is coming to or from school.

The Board shall expel for a period of not less than one (1) year any student who violates this weapons policy. Such expulsion shall be given in conformance with formal due process proceedings required by law and Board policy. The Superintendent may recommend modifications of such expulsion requirement on a case-by-case basis.

In the case of a student with disabilities, the district shall take all steps required to comply with the Individuals with Disabilities Education Act and Board policy.

## **Delegation of Responsibility**

The Superintendent or designee shall react promptly to information and knowledge concerning weapons on school property. Such action shall be in compliance with state law and regulation and with the procedures set forth in the memorandum of understanding with local law enforcement officials.

The Superintendent or designee shall immediately report the discovery of any weapon prohibited by this policy to local law enforcement officials and inform the student's parent/guardian.

The Superintendent shall annually, by July 31, report all incidents involving acts of violence or possession of a weapon to the Office of Safe Schools on the required form in accordance with state law and regulation.

## **Guidelines**

The building principal shall annually inform staff, students and parents/guardians about the Board policy prohibiting weapons and about their personal responsibility for the health, safety and welfare of the school community.

An exception to this policy may be made by the Superintendent, who shall prescribe special conditions or administrative regulations to be followed.

In accordance with federal law, possession or discharge of a firearm in, on, or within 1,000 feet of school grounds is prohibited. Violations shall be reported to the appropriate law enforcement agency.

## **Transfer Students**

When the school district receives a student who transfers from a public or private school during an expulsion period for an offense involving a weapon, the district may assign that student to an alternative assignment or may provide alternative education, provided the assignment does not exceed the expulsion period.

## **Homeless Student Resources**

### HOMELESS EDUCATION (MCKINNEY-VENTO ACT):

Children and youth are eligible for services under the McKinney-Vento Act if they have been displaced from their homes and are living in a place that is not fixed, regular, or adequate, such as:

- Sharing the housing of others due to loss of housing, economic hardship, or similar reason
- In a place not designated as regular sleeping accommodation, such as a vehicle, park, hotel, or campground
- In a homeless or domestic violence shelter or transitional housing placement
- Outside of his/her home as an unaccompanied youth
- Awaiting foster care
- In any of the situations listed above as the child of a migrant family

### YOUR RIGHTS:

Children and youth experiencing homelessness have the right to:

- Continue their education in their current school and receive transportation OR enroll immediately in the school where they are temporarily housed, even if lacking the paperwork normally required.
- Participate in all applicable school programs, including supplemental services
- Receive free lunch
- Receive assistance with school-related expenses such as supplies, clothing, uniforms, etc.

Experiencing Homelessness (Pennsylvania ECYEH) Program was established to make sure homeless youth have access to a free and appropriate public education while removing barriers that homeless children face with the help of a community-based partnership.

Some students who experience Homelessness may also require Title 1 services.

Title I is a federally funded program that provides extra academic support to students in the areas of reading and/or math. One of the goals of the program is to improve the academic achievement of the disadvantaged. The goal of Title 1 is to ensure a high-quality education for every child, by providing extra help to students who need it most.

Title I is a federally funded program that provides financial assistance to states and school districts to meet the needs of educationally at-risk students. Fleetwood Area School District offers targeted assistance for eligible students.

### Unaccompanied youth

Unaccompanied homeless youths often face unique barriers in enrolling and succeeding in school. These barriers may include school attendance policies, credit accrual, and legal guardianship requirements.

Without a parent or guardian to advocate for them and exercise parental rights, they may be denied enrollment and remain out of school for extended periods of time. Unaccompanied homeless youths also may not understand their educational rights or know how to acquire this information. Given their vulnerability to not graduating from high school on time or at all, special attention and support should be provided to this important subgroup of homeless youths.

Unaccompanied homeless youths often face unique barriers to enrolling and succeeding in school. They often lack consistent guidance and support from a caring adult, and many unaccompanied homeless youths confront the challenges and stressors of homelessness on their own. Schools are strategically positioned to support these vulnerable children and youths and may do so by, providing targeted supports to ensure regular school attendance.

Connecting youths with trained and committed mentors (including academic and peer mentors) to provide support, guidance, and a sense of connection to school. Such mentors can also help monitor youths' progress and develop graduation plans and connecting unaccompanied homeless youths to mental health supports, as needed.

Many of the identification strategies used for other subgroups of homeless students are also effective for identifying unaccompanied homeless youths, but additional strategies should be employed that target the students based on their unique characteristics. For example, establishing trust with unaccompanied youths, who may constitute their own community and culture or smaller networks and subcultures, is vital to ensuring they stay connected to school and openly share information needed to help them succeed in school.

Under Part B of the IDEA, public agencies must determine whether an unaccompanied homeless youth need a surrogate parent and pending the appointment of a surrogate parent when necessary, appropriate staff of emergency shelters, transitional shelters, independent living programs, and street outreach programs may be appointed as temporary surrogate parents, until a surrogate parent can be appointed that meets all applicable IDEA requirements.

Students who leave school during class time for a fire/emergency call need to sign out in the high school office when leaving and sign back in upon returning. Students will need to be academically eligible to participate in this privilege. If a student is assigned an in-school suspension, they will not be able to participate in fire/emergency calls for the duration of the in-school suspension.

### **Withdrawing From School**

If you are planning to withdraw your child from the Fleetwood Area High School, you should contact the counseling office @ 610.944.7656 ext. 2520 to schedule an appointment to complete the necessary forms. **All financial/material obligations must be met prior to the withdrawal being complete. All fines/obligations must be cleared in the main office.**

## **Working Papers**

General Employment Certificates (Working Papers) are required when minors between 16 and 18 are seeking employment. If a student between 16 and 17 years of age loses his job, their general employment certification is thereby automatically canceled, and the student must return to school until they are 17 years of age.

Vacation Employment Certificates are required when minors between 14 and 18 are employed before or after school hours or during school vacation.

**Employment Certifications (General or Vacation) are issued in the main office.**

- Be sure to bring your Birth Certificate, Baptismal Certificate, Learner's Permit, Driver's License, or U.S. Passport with you when you are applying for working papers.
- A parent should accompany a student when applying. Remember that the Child Labor Law states that no minor under 14 years of age shall be employed or permitted to work in an establishment or in occupation. No minor under 18 years of age shall be employed without an employment certificate (working papers).

## **Career and Technology Centers- Selection Process**

Students are selected for admittance to the Career and Technology Centers utilizing the following criteria:

## **Internship Program**

A student participating in the Internship Program must follow sign in and out procedures in the main office. If a student is assigned a school consequence (In-School Detention, In-School Suspension, or Out of School Suspension), they will need to fulfill this obligation prior to returning to internship location. All internship students must follow the student driving guidelines outlined on [page 70](#) of this handbook. Participation in the program could be terminated due to concerns with attendance, behavior and/or grades.

## **School Counseling Program**

It is the function of the school counseling program to aid students in seeking solutions to their personal, social, educational, and vocational needs. The service of the school counseling program is open to all Fleetwood Area High School students. When a student has a problem they should go to the counseling office and talk with a school counselor, as they are a valuable resource for any student.

Individual conferences will be scheduled for all students. During this conference, academic records, test results, and vocational interests will be discussed. Counselors will also assist students in researching schools to continue their education beyond high school. They will help to plan courses and electives so that post-high school entrance requirements may be met.

Information on a wide variety of occupations can be found in the school counseling office. Students may come to the counseling office during a study period, before, or after school. All students are encouraged to use these valuable resources to gain knowledge on occupations that interest them.

The counseling office provides registration information for the National Merit Scholarship Qualifying Test/Preliminary Scholastic Aptitude Test (NMSQT/PSAT). This test is available to any student in grades 10 and 11. As well, the counseling office has registration information for the Scholastic Aptitude Test (SAT) and the American College Test (ACT). A detailed list of the test dates and registration deadlines are posted in the counseling office and can be found on the Fleetwood High School Counseling Office website: <https://hs.fleetwoodasd.org/resources/counseling-office>

## **Tiger Assistance Program (TAP)**

The Tiger Assistance Program is an intervention program staffed by teachers, school counselors, nurses, administrators, and appropriate agencies from the community. The “TAP Team” is trained to identify and refer “high risk” students for appropriate treatment. HIGH RISK CONCERNS may include: Substance Abuse – Depression – Suicide Prevention

**REFERRALS** for high risk students come from students, parents, teachers, counselors, and administrators. If there is a concern for the physical and emotional well-being of a student contact a “TAP Team” member immediately.

**COMMUNICATION** is the strength of the TAP Team. Meetings are held each week. Students with difficulties are identified and the network system of the home, school, and community agencies is initiated.

**TEAM INTERVENTIONS** occur for the benefit of the students, their families, and the school by relaying factual information to the students and their families. The goal of the intervention is to encourage the students to seek further assistance in addressing the problems that face them.

## **Academic Information**

### **Class Rank**

Class rank is computed on the basis of grades earned in subjects taken in grades 9 thru 12 for which credit and grade point credit is granted. Final senior class rank is calculated after all grades are completed after the second marking period. To be awarded valedictorian or salutatorian, the student must be in the school district four (4) semesters prior to final senior class rank be calculated. For grade point average calculations the following courses are weighted:

Honors Algebra II	AP U.S. History
Accelerated Chemistry	AP World History
Honors Geometry	AP U.S. Government
Honors Pre-Calculus	AP Macroeconomics
AP Calculus	Accelerated Biology
Honor Calculus	Biology II
4 <sup>th</sup> & 5 <sup>th</sup> Level Foreign Language	AP Biology
AP English	Accelerated Earth & Space Science
Accelerated English 11	AP Physics
Accelerated English 9	Chemistry II
Accelerated English 10	AP Chemistry
Acc. Am. History 1	AP Environmental Science

### **Honor Roll**

Honor Roll and High Honor Roll can be achieved each grading period. You must be enrolled in 4 courses to be eligible for Honor Roll and High Honor Roll. Students will be accorded Honor Roll recognition if they achieve an overall average of 86% or above. A minimum grade of 80% or better must be achieved in all courses.

Students will be accorded High Honor Roll recognition if they achieve an overall average of 92% or above. A minimum grade of 86% or better must be achieved in all courses.

**NOTE: An 'I' (incomplete) may keep a student off both Honor Rolls. A student who only attends school on a part-time basis is not eligible for Honor Roll status.** An incomplete will be calculated as a "0". Grades will NOT be recalculated until the next marking period for GPA and Honor Roll status.

### **National Honor Society (NHS)**

Admission to the National Honor Society (NHS) is one of the greatest honors that a high school student can earn. It stands for excellence of achievement not only in one field, but also in every field of endeavor. Scholarship alone will not admit a student to the National Honor Society. In addition, to Scholarship students must have added Service, Leadership, and Character. A student may, therefore, make the highest grades and still not be admitted to the National Honor Society if they do not participate in service to their school and community or if they show traits of Character that are undesirable.

Contact the counseling office or the National Honor Society advisor or check out the website: [FAHS National Honor Society](https://fleetwoodasd.org/nhs) for requirements for membership in the National Honor Society. All questions related to the application, submissions, or acceptance into the National Honor Society should be directed to Mrs. Dina Heffner at [dheffner@fleetwoodasd.org](mailto:dheffner@fleetwoodasd.org). Members must maintain these standards to remain in the National Honor Society.

A student to be considered a junior must have accumulated 12.5 credits by the end of their sophomore year. A student to be considered a senior must have accumulated a total of 18.75 credits by the end of their junior year.

### **SCHEDULE AND PROGRAM CHANGES**

*When students register for courses in the spring, they have the responsibility to be certain that the correct courses are requested.*

The master schedule is built so as to minimize the number of conflicts and maximize the number of students who are scheduled for all their course requests. The process begins early in the preceding year with a review of curriculum offerings by faculty and administration. Students must maintain a full schedule with a maximum of 1 study hall per semester, except students taking multiple AP courses, they are allowed a second study hall. Course Offerings, Staff Assignments, Class Sizes, and Materials are dependent on student requests, which is why it is crucial that requests are made thoughtfully.

Once the courses and other learning opportunities have been selected and approved by the parents, no changes will be made unless approved by a principal. Courses are offered based on student requests. This often results in courses not being offered due to another course with greater interest. Course selection changes often result in the denial of opportunities for some students and the over enrollment in other courses. Withdrawals from a course requires a principal's approval. The student must provide proof of extenuating circumstances that they cannot complete the course and parental approval before consideration by a principal. Any course that is dropped after the school year begins will be noted on the report card and becomes a permanent part of the student's transcript until the course is repeated and completed. A mark of WF (withdraw-failing) will be recorded.

### **GRADUATION INFORMATION**

The high school principal will determine a student's eligibility for a diploma from Fleetwood Area High School and certify that the student has met all course and credit requirements. Only students who have met all of the graduation requirements will be eligible to participate in the graduation ceremony. Seniors DO NOT walk in graduation in anticipation of completing classes over the summer or on-line.

## **Curriculum Reviewed By Parents/Guardians**

District policy #105.1 "Curriculum Review by Parents and Students" assures the parents/guardians have access to information about the curriculum, including expected student learning outcomes, instructional materials, and assessment techniques.

District policy #105.2 "Exemption from Instruction" assures that parents/guardians have the right to have their children excused from specific instruction which conflicts with their religious beliefs. Specific conditions are included in the policy that must be followed for an instructional exception to be granted.

## Final Examination Or Competency Test

- All quarter, semester, and year courses may administer examinations at the end of their respective course offering.
- For grading purposes, the final examination should not count more than 10% of the final grade (quarter, semester, or year course).
- All assignments for the 4<sup>th</sup> marking period must be handed in on the day of the final examination.

## Remediation

Rationale/Purpose: This remediation procedure for assessments places the responsibility on the student to take advantage of a fair opportunity to increase learning.

Student responsibility factors:

- Remediation will be initiated within one week of graded assessment being returned.
- Remediation will be initiated by the student, but the teacher may initiate remediation for students.
- To be eligible for remediation, students must satisfactorily engage in the learning process prior to the assessment.
- Cheating or plagiarizing on an assessment voids the opportunity to remediate. See Plagiarism Policy in student handbook.

Procedures:

A student is eligible for remediation when the student

- scores below 70% on an eligible assessment.
- satisfactorily engages in the learning process prior to the assessment.
- initiates remediation within one week of the graded assessment being returned.
- The final grade for a remediated assessment will be the average of the original assignment and the remediated assignment.
- Students will have one opportunity to retake an eligible assessment.
- Remediation work must be completed within two weeks from the day the original assessment was returned.
- **Remediation does not apply to final exams, Advanced Placement or Dual Enrollment courses.**

## Report Cards

A report indicating the progress of the student will be issued at the end of each nine (9) week period. A total of 4 reports are issued in one (1) school year. **Students must have cleared all obligations including textbooks, library fines, detention(s), etc. before report cards will be issued.**

A - 100 – 90 Excellent  
B - 89 – 80 Good  
C - 79 – 70 Average  
D - 69 – 60 Below Average  
F - Below 59

I – Incomplete  
U – Unsatisfactory  
M – Medical  
W – Withdrawal  
WF – Withdrawal/Fail  
S – Satisfactory

Unless special arrangements are made because of prolonged illness, the mark “I” will become an “F” if all work is not made up within 10 school days of when report cards are electronically released.

## **Summer School**

**\*\*\*Summer Credit Recovery is scored satisfactory/unsatisfactory. Scores earned do not replace or supplant any previously earned scores and will not replace failing scores on transcripts. Students earning satisfactory scores will earn credit toward graduation requirements only.\*\*\***

Where required, this curriculum, or its equivalent must be approved by, and conform to, the regulations of the State Board of Education and the Pennsylvania School Code, as well as many local policies established by the local school board. Any student failing two (2) or more subjects or one (1) subject with insufficient effort will be declared ineligible. Eligibility shall be cumulative from the beginning of a grading period, and shall be reported on a weekly basis. In cases where a student's cumulative work from the beginning of the grading period does not as of any Friday meet the standard provided for in these sections, they shall be ineligible from the immediately following Sunday through the next following Saturday. Student's grades will be reviewed each Thursday or school day proceeding in order to determine eligibility. Ineligible students will be notified each Friday or the proceeding school day on a weekly basis.

- b. Back work may be made up, providing it is in accordance with the regular rules of the school or the teacher.
- c. These eligibility rules would supersede all PIAA rules, because these rules are of higher standard than the PIAA rules.
- d. An appeal for waiver may be requested by the advisor or coach under unusual circumstances. The review committee will be composed of the principal and two (2) members of the faculty not associated with any of the extracurricular activities.
