

# Student Letter Writing

## Foothill Horizons Extension Activity

After attending Foothill Horizons with your class you have an opportunity to have your students write letters. You can use the ideas below or think of your own.

- Students each write a letter about why they think outdoor education is important. The letters can be written to: the superintendent or school board of your district, the 5<sup>th</sup> graders in your school or district.
- Students each write a thank you letter about their outdoor education experience. The letters can be written to: Foothill Horizons staff, an organization that helped with student scholarships/grants, their parents, the superintendent or school board of your district, any other group that may have helped your students attend outdoor education.
