STARRT

A CHRYSALIS HEALTH
RISK REDUCTION PROGRAM

SEXUAL TRAUMA AND RISK REDUCTION TREATMENT

Finding help for children and adolescents, ages 3-17 who have displayed inappropriate sexualized behaviors can feel like an impossible task.

Chrysalis Health's STARRT Program offers a team of specially trained therapists who follow both an educational and supportive curriculum. Our therapy is tailored to every need and involves important components to help the participant establish a productive and meaningful life.

If you suspect a child or adolescent has been exposed to abusive behaviors or is sexually reactive, we want you to know we can help.

• Psychiatry • Family Therapy • Case Management • Safety Planning

Confidentiality is guaranteed
