2. At the bottom left, select **About ChromeOS**.
3. Under “Google ChromeOS,” find which version of the Chrome operating system your Chromebook uses.
4. Select **Check for updates**.
5. If your Chromebook finds a software update, it will start to download automatically.
6. You may need to **restart** the Chromebook for the update to finish installing.

## **CHROMEBOOK CASES**

All Chromebooks must remain in the PHSD cases provided. If a damaged Chromebook is found to be out of the case, the parent or guardian will be charged the full cost of the Chromebook repair, as stated in the Chromebook Responsible Use document.
