May 12 @ 4:30pm Opening reception for SLCSE Art Show (Day Riverside Library)

June 6 Senior Showcase

June 9 @5pm Graduation Libby Gardner Hall, University of Utah

Note from Ms. Powell

SLCSE Families,

We are beyond thrilled that spring has finally sprung! As we approach the end of the academic year, it's important to take a moment to reflect on our successes and the challenges we faced during the year.

It has been an outstanding year for our students, and I am proud of their achievements and growth. Students have had and will continue to have opportunities to expand their knowledge and skills, discover and deepen their interests, and prepare for their future endeavors.

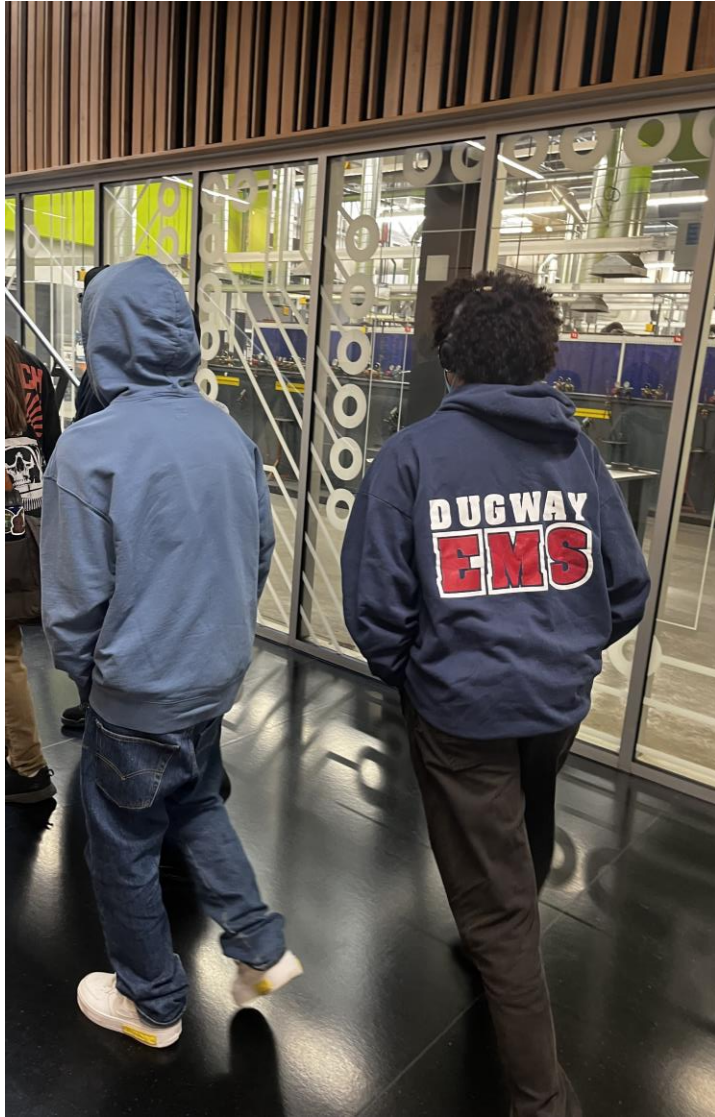

I appreciate your continued support in ensuring your child's academic success.

Much gratitude,
Britnie Powell

Thank You!

Our Washington DC trip was a huge success, and we want to express our appreciation for all those who helped with fundraising to make this trip happen. We are also so appreciative of the teachers who work so hard prior to the trip and then give up part of their spring break to chaperone. Applications will open for next year at the beginning of May.

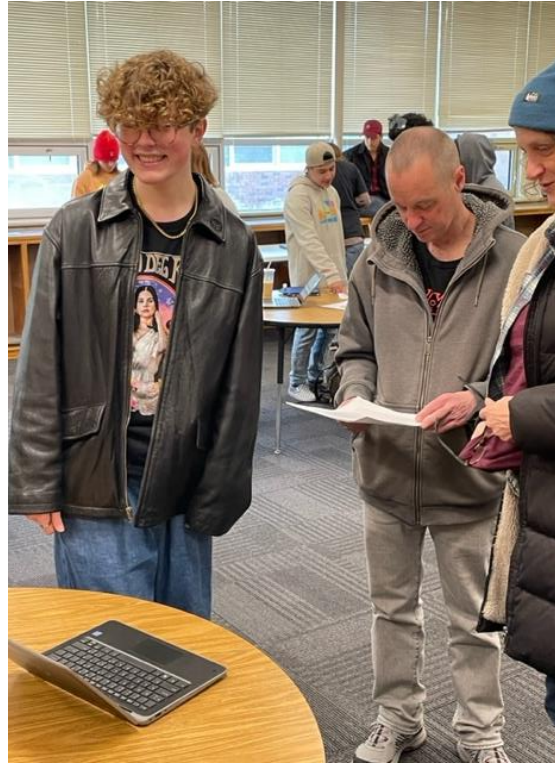

Ninth Grade

One of our goals at SLCSE is to expose students to a range of college and career opportunities. Our 9th grade students recently visited the Westpointe campus at Salt Lake Community College to learn about training and careers in Aviation Mechanics and Non-destructive Testing.

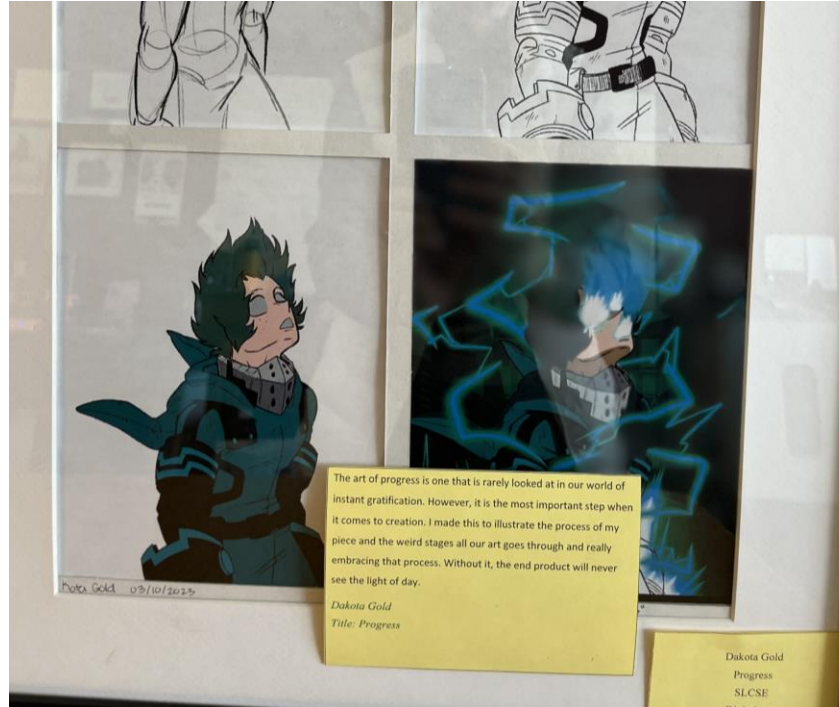

Plan B Theatre Performance

Queer Club and Theatre attending a performance of Fire! - a play about a black, queer West High graduate who played a pivotal role in the Harlem Renaissance as a writer, playwright, and poet

10th graders crafted their very own science fiction stories and presented them during the Science Fiction Festival. The project was another example of the collaboration that exists between curriculum departments, this time Science, Social Studies and Language Arts contributed to this amazing project.

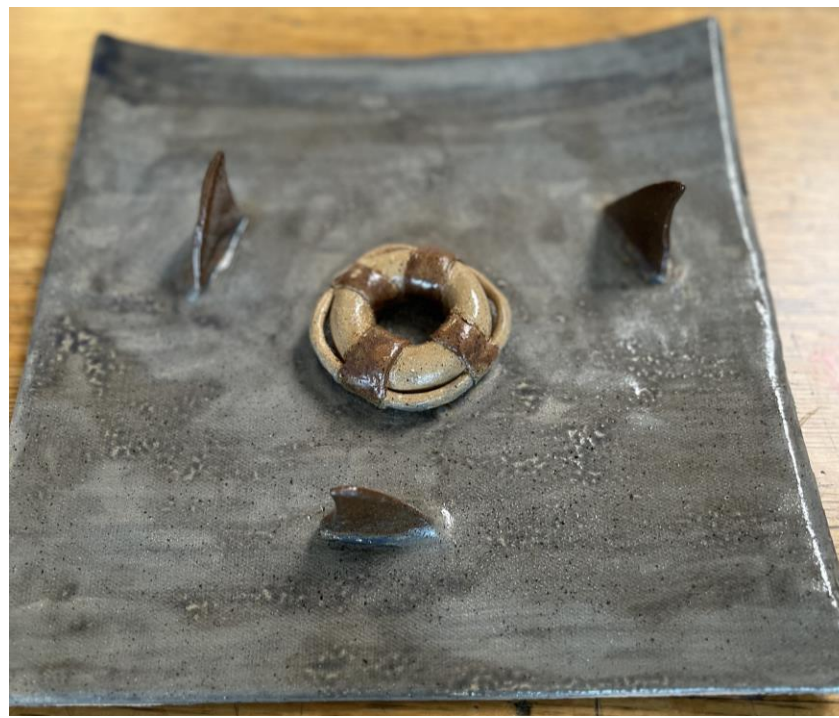

The art of progress is one that is rarely looked at in our world of instant gratification. However, it is the most important step when it comes to creation. I made this to illustrate the process of my piece and the weird stages all our art goes through and really embracing that process. Without it, the end product will never see the light of day.

SLCSE ART SHOW

A collection of art work created by students from Salt Lake Center for Science Education. The Artists are 9th-12th graders working in a variety of mediums including printmaking, painting, drawing, collage mixed media, and sculpture. Students draw from personal interests to create the subject for their artwork.

Day Riverside Library
April 21 – June 2

Congratulations!

Amy Reyes Renova will be competing at the State competition for National History Day. Amy created a documentary called Era of Colorblindness

SLCSE Graduation

The class of 2023 will be graduating on June 9th at 5:00 pm at the University of Utah, Libby Gardner Hall, more details to follow. Here are some reminders regarding graduation:

1. Students must meet state requirements and be cleared to participate in graduation by June 9th. Students will not receive their cap and gown until they are on track for graduation.
2. All graduating students wishing to participate in the ceremony must wear approved graduation regalia which includes the black cap and gown and designated tassel. Additions to graduation regalia should reflect culturally significant objects to the students, families, and their communities. Students may decorate their cap. Modifications to the gown cannot alter the overall appearance. Any additions cannot include representations of drugs, violence, political speech, hate speech, or other non-religious or non-culturally significant objects.
3. Please refrain from bringing any items that may leave a mess behind (no confetti, confetti cannons, poppers, etc.)

We thank you in advance for adhering to these expectations and look forward to celebrating this huge milestone with you and your senior soon!
