

Research Application Pre-Approval Proposal Form

You must present your proposal and receive pre-approval from each appropriate sponsor:

- **PSJA Study Site Sponsor** – Your proposal must be pre-approved by **each** study site’s administrator (Director-Administration Office/Principal-Campus). This step allows the study-site administrator to review the research you are requesting, answer questions, and agree or disagree to the study.
- **Faculty Advisor/Chairperson Sponsor** – Your proposal must be pre-approved by your thesis/dissertation Chairperson from your University or College.
- **Research Agencies** – If you are conducting a study for an outside-research organization, you must obtain approval from an assistant superintendent/executive officer.
