

reconnect^o opportunity

King County and the Road Map Project are partnering to help reconnect young people ages 16-24, who have not graduated from high school, to education and employment.

Our goal is to ensure you get connected to opportunities - no matter your background, and whether or not you've finished high school. Depending on your future goals and interests, your schedule, and any obstacles you may be dealing with, we will connect you with a program to help you accomplish your goals.

Let's pick the one that's best for you!
