WHY ARE BEACH CLEAN UPS IMPORTANT?

PHOTO OF INSTITUT CUBELLES INSTAGRAM:

Nowadays, many people throw the rubbish to the ground when they are on the beach. This is bad for a number of reasons.

In the first place, throwing rubbish to the beach is ugly. And if you live on a big village, where there are a lot of tourist, the tourists would think, that the place is not clean. In conclusion, ti's a bad viex for the people that came from other countries.

Secondly, the waves of the sea suck this rubbish, and the go away of the sea shore. The problem is that the animals eat it and some boats can be stuck on plastic

In my opinion, the town council should build bins on the sand of the beach or ban the plastic on the beach

Why are beach clean-ups important

Volume IV, No. 1 — Special Edition

Lots of people are helping to clean the beach and there are a lot of organizations that do beach clean-ups.

First of all, I think that beach clean-ups are very important, because when people go to the beach instead of throwing the things in the bin they leave it in the sand, and, in consequence of that the rubbish ends up in the see.

In addition, it is normal that you prefer to stay in the beach getting fun and relaxing instead of cleaning the beach. However, it is important to do it and if everybody helps we can make a better place.

A beach clean-up.

To sum up, I believe that beach clean-ups are very important to save the world.

Beneficios

Nuestros océanos y playas están muy contaminadas, sin duda. Puede parecer que no hay nada que podamos hacer para solucionarlo y que nuestra contribución no hiciera una diferencia en el gran esquema de las cosas, pero eso está mal. Cualquier ayuda, cualquier limpieza, es más que útil. Persona por persona, pieza por pieza, podemos ayudar la diferencia en nuestros océanos y comunidades de playa.

Que significa

Es cierto que es mejor limpiar las playas en mayor número, pero no dejes que eso te para de salir y recoger basura cuando quieras.

When cleaning up the the beach, you could discover a new perspective on life and your community as a whole.

Así que toma el tiempo y haga lo correcto para su comunidad, limpie la playa, una pieza de basura a la vez.

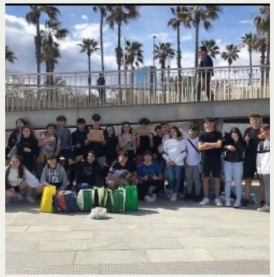

EL MEDIO AMBIENTE

LIMPIEZA DE PLAYAS

Por que debemos de limpiar nuestras playas? Muchos se preguntan esto ya que limpiar las playas es una accion muy pequeña pero tiene un impacto aun mas grande en el planeta.

Toda la basura desde la envoltura de un dulce hasta una botella de agua puede dañar a nuestro planeta y los animales marinos asi que nosotros como personas tenemos que hacer todo lo posible para mantener limpias nuestras playas. Con esta ayuda, se puede traer atencion a como estas limpiezas son algo bueno para todos y como podemos generar menos basura.

COSTAL CLEANUPS

Although beach cleanups may seem like such as small action, there is an even bigger impact to the environment. By cleaning our beaches, we get to protect the marine life and even bring awareness to the damage that waste causes in our planet.

KAREN ROMAN

El Poder de la Limpieza

Grupos de adolescentes ayudan al medio ambiente a través de la limpieza de una playa.

LOS BENEFICIOS

Las limpiezas de playas son excelentes oportunidades de voluntariado para los adolescentes. Les brinda una forma agradable de relajarse, al mismo tiempo que sienten una sensación de orgullo y alivio. El entorno, que es la playa, es un lugar relajante para empezar, por lo que saber que lo están embelleciendo puede llenar a la persona de alegría. Limpiar los desechos y la basura que otras personas dejan en las costas puede ser beneficioso tanto para el individuo como para el medio ambiente.

Al recoger las montañas de basura, estos adolescentes pueden volver a embellecer las playas. Son capaces de convertirlos en lugares a los que valga la pena volver, sin pisar constantemente fragmentos de vidrio o pedazos de plástico. Sin mencionar que estas limpiezas ayudan seriamente a los animales, lo que hace que sea menos probable que la basura los dañe en estas costas. Estos adolescentes le están haciendo un favor no solo al medio ambiente, sino a todos.

THE BENEFITS

Beach cleanups are great volunteering opportunities for adolescents. It provides them with a nice way to relax, while also feeling a sense of pride and relief. The setting, that being the beach, is a relaxing place to begin with, so knowing that they are beautifying it can fill up person up with joy. Cleaning up the scraps and trash that other people leave behind on the coastlines can be for the well being of both the individual and the environment. By picking up the mountains of trash, these adolescents are able to make beaches beautiful again. They are able to make them places worth going to again, without constantly stepping of shards of glass or plastic bits. Not to mention, these cleanups seriously help animals, making it less likely they will be harmed by the trash on these coasts. These adolescents are doing , not only our environment, but everyone a favor.
