

**Board of Education Policy**

**STUDENTS WITH HIV-RELATED ILLNESS**

---

The Board of Education recognizes the public concern over the health issues surrounding Human Immunodeficiency Virus (HIV) and Acquired Immune Deficiency Syndrome (AIDS). The Board recognizes, based upon the current state of medical knowledge, that the virus associated with AIDS is not easily transmitted and there is no evidence that AIDS or the HIV virus can be transmitted by casual social contact in the open school setting.

The Board further recognizes the privacy rights of students diagnosed with HIV infection or AIDS and their right to a free appropriate public education; the rights of HIV infected employees to privacy and reasonable accommodations; the rights of all non-infected individuals to a safe environment free of any significant risks to their health; and the rights of all students to instruction regarding the nature, transmission, prevention, and treatment of HIV infection, pursuant to the Commissioner's Regulation, Part 135.3.

No individual shall be denied access to any program or activity sponsored by or conducted on the grounds of the district, solely on the basis of his/her status as an HIV-infected individual.

Students

It is the policy of the Board that:

1. A student's education shall not be interrupted or curtailed solely on the basis of his/her actual or perceived HIV status. HIV-infected students shall be afforded the same rights, privileges, and services available to every other student.
2. No student shall be referred to the Committee on Special Education solely on the basis of his/her actual or perceived HIV status. A student who is infected with HIV shall be referred to the Committee on Special Education (CSE) only when the student's disability interferes with his/her ability to benefit from instruction. Such referral shall be made in accordance with Part 200 of Commissioner's Regulations.
3. If a student who is HIV-infected requires special accommodations to enable him/her to continue to attend school, the student shall be referred to the appropriate multi-disciplinary team as required by §504 of the Rehabilitation Act.
4. No disclosure of HIV-related information involving a student shall be made without first obtaining the informed consent of the parent, guardian or student on the Department of Health (DOH) approved form, unless otherwise permitted by law.
