

## Homework schedule 2023/24

At CWS we believe that home learning supports our students in becoming independent and resilient learners.

Please note the following guidance regarding homework:

- Homework will be set each week on the allocated subject day shown in the schedule on the next page and recorded on Google Classroom.
- The times in brackets shown in the table indicate the maximum time a student should spend on a task.
- We have high expectations for our students but we also recognise that students have differing needs and abilities. As a result, homework will be adapted to suit each student.
- Homework will be relevant to what is being studied in class and help students to prepare for their learning and/or support/extend their learning.
- Homework will be used for revision purposes for two weeks prior to exams and during exam weeks. In Year 11, homework is likely to be based on revision in many subjects and is designed to help embed revision strategies.
- Teachers will use the medium that is most relevant to their subject e.g. Seneca, written tasks etc.
- Teachers will set a one hour detention if students fail to complete homework on time and to an appropriate standard.

Please note: Year 7 students will not have homework set until they return to school from the Autumn half term break on Wednesday 1st November 2023.
