Dear Parents and Guardians,

This letter is to remind you of the immunization requirements for all students entering Preschool in the State of Ohio. All students are required to have the following immunizations and/or must be in the process of being immunized against all of the following diseases:

- **Chicken Pox**
- **Diphtheria**
- **Haemophilus Influenzae Type B**
- **Hepatitis A**
- **Hepatitis B**
- **Influenza**
- **Measles**
- **Mumps**
- **Pertussis**
- **Pneumococcal Disease**
- **Poliomyelitis**
- **Rotavirus**
- **Rubella**
- **Tetanus**

Proof of your daughter's completed immunization requirements will need to be provided as soon as possible, and no later than the 30th day of enrollment for continued school attendance.

A child is not required to be immunized against a disease specified above if:

- Immunization against the disease is medically contraindicated for the child
- The child's parent/guardian has declined to have the child immunized against the disease for reasons of conscience, including religious convictions
- Immunization against the disease is not medically appropriate for the child's age

If your daughter has an Immunization Exemption for medical, religious, or good cause reasons, you must submit a State of Ohio Legal Immunization Exemption Form (available in my office).

Please talk to your health care provider to make sure your daughter is up to date on all of her immunizations.

Thank you, and please do not hesitate to contact me with any questions you may have!

Sincerely,
Jen Scheiderer, RN, BSN
