

## Consonant -le Syllables Information

In this intervention group, the following skills are taught:

-Teach Consonant -le Syllable-There are three spelling patterns involving consonant -le.

1. Two different consonants before -le (ex.- can/dle)
2. A double consonant before -le (ex. bot/tle)
3. One consonant before -le (ex.bee/tle)

Remember to divide before the consonant-l-e syllable - if the syllable ends in a vowel, it's "open" and has a long sound (a/ble, ma/ple, ea/gle), and if it ends in a consonant it's "closed" and has a short sound (sin/gle, han/dle, scrab/ble).

-Read and Spell Words With Consonant -le Syllable- lit/tle, cir/cle, cra/dle, i/ci/cle, spar/kle, rec/tan/gle, ex/am/ple

-Consonant -le Syllable Exception (stle -castle)- The consonant-le exception involves the letter combination stle. Whenever a word ends in stle both the t and e are silent. The l is the only letter sounded in the syllable and the s is considered part of the previous syllable. (nes/tle, whis/tle, wres/tle, jos/tle, bris/tle, this/tle)
