## Tracking Worksheet -Teachers

### Section A - Instructions

Written documentation and verification of completed activities applied toward CPE requirements are required. Educators are responsible for maintaining a record of their CPE credits. The tracking worksheet is provided for personal use and does not have to be submitted to TEA. It is the responsibility of the educator and the school district to determine which workshops or training sessions meet the requirements for standard certificate renewal. TEA staff will not make these determinations. This allows maximum flexibility for educators to identify appropriate CPE activities to meet their individual needs. At least 80% of the CPE activities should be directly related to the certificate(s) being reviewed and focus on the standards required for the initial issuance of the certificate(s), additionally 25% of that must be training in specific classroom instruction defined on the CPE link below, (EFFECTIVE MAY 18th, 2014). TEA is NOT requiring educators to submit written evidence of completed CPE hours, but rather keep that information available in the event your certification records are chosen for an audit. CPE Renewal, FAQ, and free online providers can be found on the [TEA web page for CPE](#).
