School Breakfast and Lunch Update

The supply chain continues to be affected by unprecedented issues that may cause us to have to alter our posted menu with little or no notice. We continue to work closely with our distributors and manufacturers to secure both the food and supply items needed to support our program.

We make every effort to serve the posted menu each day at every school. Supply chain issues may make this difficult throughout the school year or until they can be rectified. We will always attempt to notify you of any substitution or changes to the scheduled menu item.

Please check the school lunch menu posted on the website for changes.

Please know that we will always provide wholesome meals each and every day.
