

Chase

Class of 2024

From: Manhattan

First Year at HM: The 3s

Favorite Classes: Overall I'd say Math but depending on the year and course it could be history.

Why HM?: The community and environment I've been able to be a part of. Whether it's the various mentorship programs or being able to just talk with your teacher after class about something totally unrelated to that class's discussion, HM is a really special place.

Activities: Baseball Team, For the Win, Sports Analytics Club, HMO Peer Leader.

Out-of-School Activities: I love watching sports, hanging out with my family, and trying new restaurants.

Favorite TV Show: Seinfeld

Favorite School Trip: The spring sports trip to Universal Studios in Orlando has been the highlight of my Horace Mann career. Just the amount of fun and team bonding we had was such a great, unique experience. I'll always remember being dragged on a rollercoaster for the first time there and actually having a fun time on it.

Favorite In-Class Discussion: I think the discussions in history relating something we've studied in the past to the present is always engaging. I remember for my Current Events project in 10th grade I related the rise of unions in the nineteenth century to the then-ongoing MLB lockout.

Favorite HM Event: Homecoming. Seeing everyone on campus just having fun and enjoying the day is always great.

Best Food at the International Food Festival: An everything bagel and cream cheese. It's nothing exotic, but it's consistently great.
