

# Administrator Institute

Investigate powerful P-3 practices! The San Diego County Office of Education (SDCOE) P-3 team invites district and school administrators to a two-day institute where participants will develop and explore their P-3 system. This institute provides intentional, in-depth time for participants to examine their current strengths and opportunities within their P-3 system in order to make actionable and relevant site-based changes. This exciting opportunity will foster learning, collaboration, and action-planning to build a cohesive P-3 continuum. Come and leverage county partners in this exciting work.

**Breakfast and lunch will  
be provided!**
