Welcome to Swank K-12 Streaming

The Swank K-12 Streaming library provides access to over 30,000 movies, documentaries and foreign language films for instructional support.

You now have access to a curated collection of top, educational films which are click-and-play ready in your streaming library. You are also able to search the entire library of films and request for new films to be added.

These requests will either be approved or denied by your district's Swank Administrator:

Swank K-12 Streaming District Administrator: Krista Sharin – krista.sharin@wcsb.us

The Swank K-12 Streaming Library is available in ClassLink.

If you have questions or challenges with the streaming platform, please contact your library media specialist.

Assigning Movies to Students:

1 **Identify the movie you want to assign to students.**

2 **Ensure the movie is already available in your streaming library for viewing.**

When clicking a movie, if you see "Watch" and "Share" buttons, the film is available.

If you see a "Request" button, you will need to request access and wait for approval from your Swank Administrator prior to assigning the film.

3 **Click "Share" on the movie page and select either the Direct Link or the LMS link.**

Direct Link: Direct Links are the full URL to the film, which enable access via any sharing option, such as email, course syllabus, and Learning Management Systems.

LMS Link: LMS Links are intended to be placed in Learning Management Systems that accept HTML, such as Canvas.

The website URL or any page URLs in the streaming platform should never be shared with students. Please only use either the Direct or LMS links when enabling student access to movies.
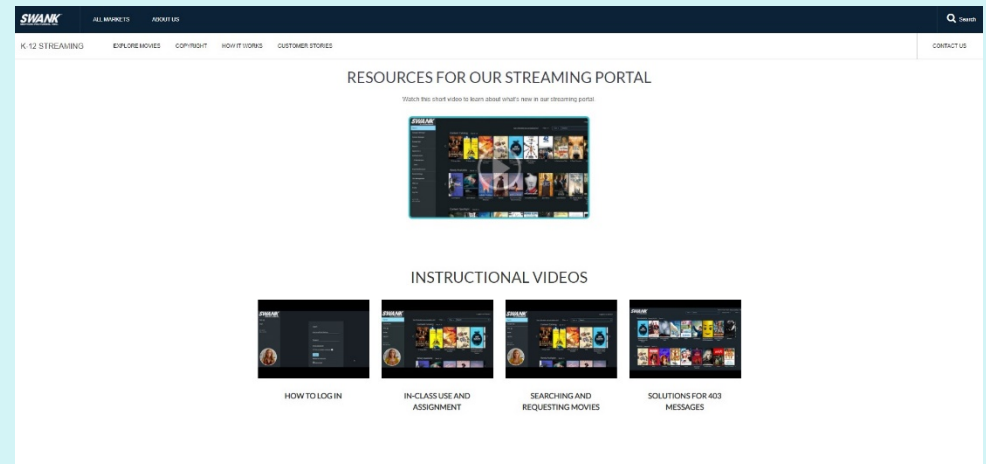

4 **Paste the link into whatever platform you intend to share movie access with students.**

Teacher login information should never be shared with students as you have different permissions than they do.
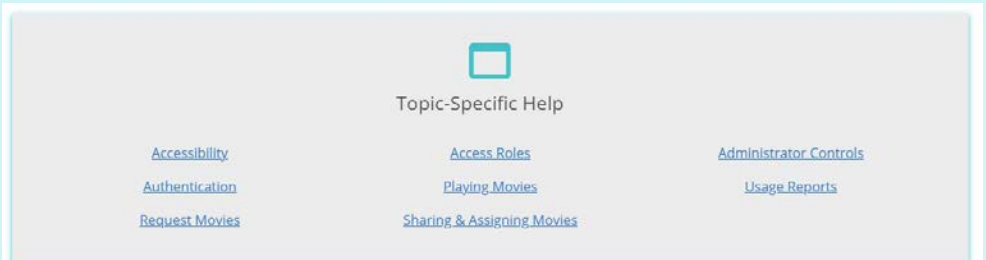

Helpful Resources:

To ensure you have all of the information necessary to watch and assign films, a resource page is included below that includes short how-to videos on various portal functionality with step- by-step instructions for navigating the streaming portal.
