NAMING OF NEW SCHOOL

Schools will be named for physical locations, historical/geographical areas, desirable conditions, or significant or pertinent events. Schools will not be named after individuals.

Students enrolled in the attendance area where the new school will be constructed are eligible to submit one name each to a screening panel for consideration. The screening panel, consisting of one teacher from each of the community schools and one Board member, will submit five school names to the Board of Trustees for consideration. The Board will select one name for the school, and the student whose submission is chosen will receive a \$100 savings bond. The four runners-up will each receive a \$50 savings bond.
