Pre-Order your Dance Little Red Sweatshirt!

Solving a jigsaw works both of the brain's hemispheres which enhances our ability to focus and successfully placing a puzzle piece to create the wider picture encourages the production of dopamine, the neurotransmitter that regulates mood and affects concentration, motivation, memory and motor control (Dr Newton, 2017). Piecing together a jigsaw is a great way to combat stress, but it is also beneficial for your physical health too. By refocusing the mind away from negative and stressful thoughts decreases your cortisol and blood pressure levels, making both your body and mind healthy (Dr Newton, 2017).

Puzzle Donations

SWHS is now offering "Puzzles!" as an enrichment SWORD class topic! Our students are flying through the puzzles that we have on hand, so we are enthusiastically accepting donations of 300-550 piece puzzles, both new and used! Our puzzlers especially like the puzzles that feature the larger pieces, but we will gladly accept any size. Thank you for your support of this exciting new SWORD course offering!

Congratulations!

We are proud of our Spartan Academic Team. We won the district championship in quick recall, FPS, and placed several individuals. This won us the Overall Governor's Cup District Championship. Go Sparta!
