

Distribution of Flyers and Announcements by External Organizations

The Lyon County School District expects that academic achievement be the primary focus of each school. In addition, the LCSD Board of Trustees is obligated and committed to being good stewards of the limited, precious resources they receive to educate students. Distributing flyers and announcements for external organizations expends these limited, precious resources that could otherwise be used on students. Further, there are a multitude of options for the dissemination of information such as social media and other digital communication outlets. Therefore, the Lyon County School District and the schools within the LCSD will not distribute flyers and/or announcements from external organizations.

For purposes of this policy flyers and/or announcements do not include internal communications of the LCSD regarding school activities or events, communications by organizations whose sole purpose is to fundraise or promote schools within the LCSD and location or event signs placed around schools to notify the public of a current activity on school property.
