

STAFF PARTICIPATION IN COMMUNITY ACTIVITIES

The Board urges the staff to participate constructively in all activities of the community which have as their objectives the improvement of the general welfare of the community, state, and nation.

In their relationships with community groups, a conscientious effort should be made by all teachers to make school life real and a part of community life. Teachers should endeavor to know the community, its influence, and its opportunities for students as well as for themselves.

It is hoped that staff members will recognize their responsibilities to community living and assume a part in the various civic and charitable projects of the town.
