OUR PROCESS

Strategic planning is a core responsibility of Lake Mary Preparatory School. During the 2019-2020 school year, Lake Mary Preparatory launched a comprehensive strategic planning process spearheaded by a Strategic Planning Committee consisting of a dedicated group of faculty, administration, students, and LMP families. The committee focused on research, SWOT analysis, surveys, industry trends and met with an external consultant with expertise in both international education and independent schools.

As strategic initiatives were identified, the strategic planning committee expanded upon each one to outline specific goals and strategies. After a year of steadfast work, the leadership team approved the strategic plan identifying four strategic initiatives that positively impact the long-term success of the school:

Initiative #1:

Teaching and Learning

Initiative #2:

Finance and Future

Initiative #3

Organization and Leadership

Initiative #4:

Marketing and Communications

While this is an ambitious three-year plan, Lake Mary Preparatory School has already begun working on achieving some of the initiatives outlined in this plan, and other goals will evolve over time with a strong framework in place. These goals will serve to strengthen our academics, community engagement, and ensure our facilities are supportive of student success.

The leadership team will provide annual updates to the LMP community regarding progress in achieving this plan. At Lake Mary Prep, we know strategic thinking is essential to our continued growth and improvement, and with ongoing evaluations and reporting, we can ensure that we are fulfilling our mission and holding true to our school’s commitment to our faculty, students, and community.

We are grateful to all who took part in the strategic planning process and provided insight to guide Lake Mary Preparatory School in addressing our current and future challenges.
