Kids Club

Nursing – support student needs across all sites and on field trips. Medications and student intervention. Support with certification.

Nutrition Services – healthy meals including catered breakfast, lunch and snack program. Summer includes an occasional ice cream treat for snack.

Transportation – field trip drivers! One of our most popular activities is made possible by our bus drivers!

Custodians – Exceptional at supporting the needs of summer cleaning and projects while helping with activities like our all program carnival, water days with hoses and water slides, and so muchmore!

In the bottom right corner, there are two overlapping circles. The larger one is a light beige color, and the smaller one overlapping its bottom right edge is a bright red color.

The background features several overlapping circles: a large teal circle on the right, a yellow circle at the bottom left, a green circle overlapping the yellow one, and a light beige circle on the left side.

“Staff was absolutely fantastic at kids club. They listened to advice given by teachers about my child and utilized great systems for helping my child. I was very pleased.”
