

TEST TAKING STRATEGIES

- Be positive and relax
- Eat breakfast and get rest before the test
- Read directions carefully
- Highlight, underline and circle important words/numbers/evidence
- Read question first, then read problem or passage
- Look for clues and key words
- Be sure to carefully look at each answer choice and cross out answers you know are wrong
- Include labels (if necessary) for math problems
- Show and/or explain your work
- Answer all parts of the question
- Answer questions you know, first
- Completely fill in bubbles for multiple choice questions
- Pace yourself
- Always check your work and make sure you answered each question
