September 19, 2023

Dear Churchville-Chili Families,

We thank you and your family for being our valued partners as we work together to educate all children in our district. One of our district goals focuses on the development of well-rounded graduates who are goal-oriented, civic-minded, culturally respectful, responsible and strive to be lifelong learners. We have many systems in place to support each and every student academically, including social-emotional wellness.

Currently, we use multiple data points to drive decisions about our instruction, including the Math Inventory and Scholastic Reading Inventory. This year, in order to support our goal of fostering social, emotional, and physical well-being in our school community, we will be introducing a social-emotional learning screening tool for students in grades 3-12 published by Panorama Education. Students will be screened throughout the school year to monitor their needs.

During the 2023-24 school year, our district is beginning to transition to Multi-Tiered Systems of Support (MTSS) to further strengthen our current Response to Intervention framework. MTSS focuses on evidence-based practices, relies on student progress data to inform instructional decisions, and ensures that each student, based on their unique needs, receives the level and type of support necessary to be successful.

If your family has any questions, please visit our Office of Instruction page on our district website or contact your child's building principal.

Sincerely,

Dr. Loretta Orologio
