INDEPENDENT AUDITOR'S REPORT ON SUPPLEMENTARY INFORMATION

To the Board of Education
Dolton School District No. 149
Calumet City, Illinois

We have audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Dolton School District No. 149 (District) as of and for the year ended June 30, 2019, and the related notes to the financial statements which collectively comprise the District's basic financial statements and have issued our report thereon dated December 16, 2019, which contained a unmodified opinion. Our audit was performed for the purpose of forming opinions on the basic financial statements as a whole.

The accompanying Annual Financial Report, ISBE Form SD50-35/JA50-60, as of and for the year ended June 30, 2019, has been prepared in the form prescribed by the Illinois State Board of Education, is presented for purposes of additional analysis and is not a required part of the basic financial statements referenced in the preceding paragraph. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information, except for the financial profile information, estimated financial profile summary, supplementary schedules, statistical section, report on shared services or outsourcing, administrative cost worksheet, and itemization schedules, which were not audited and on which we render no opinion, has been subjected to the auditing procedures applied to the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

The answers to questions 1 through 23 contained in the "Auditor's Questionnaire" on page 2 are based solely on the procedures performed and data obtained during the audit of the basic financial statements of the District as of and for the year ended June 30, 2019.

DOLTON SCHOOL DISTRICT NO. 149
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. REPORTING ENTITY

Dolton School District 149 (the "District") is governed by an elected Board of Education. The accounting policies of the District conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principals. The financial statement also includes the Management's Discussion and Analysis (MD&A) which provides an analysis of the District's overall financial position and results of operations.

The District includes all funds of its governmental operations that are controlled by or dependent upon the District as determined on a basis of financial accountability. Financial accountability includes appointment of the organization's governing body, imposition of will, and fiscal dependency.

This report includes all of the funds of the District. The reporting entity for the District consist of the primary government and its component units. Component units are legally separate organizations for which the primary government is financially accountable or other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the reporting entity's financial statements to be misleading. The District has not identified any organizations that meet this criteria.

B. BASIS OF PRESENTATION

Government-Wide Financial Statements:

The statement of net position and the statement of activities display information about the primary government. These statements include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities. These statements present governmental activities of the District. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements:

The fund financial statements provide information about the District's funds, including its fiduciary funds. Separate statements for each fund category – governmental and fiduciary – are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

Governmental Funds are those through which most governmental functions of the District are financed. The acquisition, use, and balances of the District's expendable financial resources and the related liabilities are accounted for through governmental funds.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. BASIS OF PRESENTATION (CONTINUED)

The District reports the following major governmental funds:

The *General Fund* is the general operating fund of the District. It is used to account for all financial resources except those accounted for in other funds. This fund is primarily used for most of the instructional and administrative aspects of the District's operations. Revenues consist largely of local property taxes and state government aid. The General Fund include the Educational, Operation and Maintenance, Working Cash and Tort Immunity subfunds.

The *Transportation Fund* is a special revenue fund used to account for costs of transporting pupils for any purpose. Revenue is derived primarily from a separate tax levy and state grants.

The *Capital Projects Fund* is a capital projects fund created to account for financial resources to be used for the acquisition or construction of major capital facilities.

The District reports the following nonmajor governmental funds:

The *Municipal Retirement/Social Security Fund* is a special revenue fund created when separate tax is levied for the purpose of providing resources for the District's share of retirement benefits and/or Social Security and Medicare only payments for covered employees.

The *Debt Service* is a debt service fund maintained to account for separate taxes levied to provide cash to retire bonds and to pay the interest and other related costs on them.

Fiduciary fund types are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governments, or other funds. The District reports the following fiduciary fund type:

Agency Funds include Student Activity Funds. They account for assets held by the District as an agent for the students. These funds are custodial in nature and do not involve the measurement of the results of operations. The amounts due to the activity fund organizations are equal to the assets.

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING

Government-wide and Fiduciary Fund Financial Statements

The district-wide and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Nonexchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (i.e., intended to finance). Revenue from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied.

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING (CONTINUED)

Governmental Fund Financial Statements

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available.

The District considers all revenues reported in the governmental funds to be available if the revenues are due (or past due) within sixty days after year-end. Property taxes, grants, tuition, and interest are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants, categorical block grants, and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, followed by categorical block grants, and then by general revenues.

D. DEPOSIT AND INVESTMENTS

Investments held by the District which are short-term highly liquid investments having a remaining maturity of one year or less at the time of purchase are reported by the District at fair market value. All other investments are reported at fair value. Investments are placed according to guidelines provided by the Illinois Compiled Statutes.

Under Illinois law, the District is restricted to investing funds in specific types of investments instruments. The following generally represents the types of instruments allowable by state law:

- Securities issued and guaranteed by the United States.
- Interest-bearing accounts of financial institutions insured by the Federal Deposit Insurance Corporation.
- Short-term obligations (less than 270 days) of U.S. corporations with assets over \$500,000,000 rated in the three highest classifications by at least two rating agencies.
- Insured accounts of an Illinois credit union chartered under United States or Illinois law.
- Money market mutual funds with portfolios of securities issued or guaranteed by the United States or agreements to repurchase these same types of obligations.
- Illinois Public Treasurers' Investment Pool.
- Repurchase agreements which meet instrument transactions requirements of Illinois law.

E. PROPERTY TAXES RECEIVABLE

Property taxes receivable represent the 2018 net uncollected tax levies. An allowance for estimated collection losses of 6% of the total levy has been provided to reduce the receivable to the estimated amounts collectible. See additional information on allowance under footnote 6.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

F. CAPITAL ASSET

Capital assets, which include land, buildings, furniture, and equipment, are reported in the applicable governmental activities column in the district-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of \$2,500 or more and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Capital Assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Life</u>
Improvements	10-20
Buildings	20-40
Transportation equipment	5
Other equipment	5-20

G. DEFERRED OUTFLOWS/INFLOWS OF RESOURCES

Deferred revenues at the fund level arise when potential revenue does not meet the available criterion for recognition in the current period. Deferred revenues also arise when the District receives resources before it has a legal claim to them. In subsequent periods, when the revenue recognition criterion is met, or when the District has a legal claim to the resources, the liability for deferred revenue is removed from the balance sheet and revenue is recognized. Deferred revenues at the government-wide level arise only when the District receives resources before it has a legal claim to them. The District has deferred outflows and inflows in relation to pensions (see footnote 10 and 11) and other post-employment benefits (see footnote 13 and 14) that are reflected on the statement of net position.

H. VACATION AND SICK LEAVE

Employee vacation and sick leave, including salary related payments, is recorded when it is paid. Accumulated unpaid employee vacation and sick leave which was earned prior to the current fiscal year but unused at the end of the current fiscal year is not significant. Vacation and sick leave will be paid with future tax collections and therefore has not been reported as a current liability of the governmental funds.

DOLTON SCHOOL DISTRICT NO. 149
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

I. LONG-TERM OBLIGATIONS

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method which approximates the effective interest method. Bond issuance costs are expensed as incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the period incurred. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

J. USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

K. USE OF RESTRICTED RESOURCES

When both restricted and unrestricted resources are available to use, it is the District's policy to use restricted resources first, then unrestricted resources, as they are needed.

L. ELIMINATIONS AND RECLASSIFICATIONS

In the process of aggregating data for the government-wide financial statements, some amounts reported as interfund activity and balances were eliminated or reclassified.

M. PERSONAL PROPERTY REPLACEMENT TAXES

Personal property replacement tax revenues are first allocated to funds where taxes were automatically abated by county clerk and to the Municipal Retirement/Social Security Fund, with the balance allocated to the remaining funds at the discretion of the District.

N. NET POSITION/FUND BALANCE

Equity is classified as net position in the government-wide financial statements and displayed in three components:

- *Net investment in capital assets* – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets less than any unspent debt proceeds.
- *Restricted net position* – Consists of net position placed on its use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments or, 2) laws through constitutional provisions, or enabling legislation.
- *Unrestricted net position* – All other net position that does not meet the definition of “restricted” or “net investment in capital assets”.

DOLTON SCHOOL DISTRICT NO. 149
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

N. NET POSITION/FUND BALANCE (CONTINUED)

Fund balance is reported in the fund financial statements in the following five categories:

- Nonspendable: includes amounts not in spendable form or amounts required to be maintained intact legally or contractually (e.g. inventory, pre-paid items, permanent scholarships).
- Restricted: fund balances that are constrained by external parties, constitutional provisions, or enabling legislation. Restrictions imposed by creditors, grantors, and contributors.
- Committed: fund balances that contain self-imposed constraints of the District from its highest level of decision-making authority, the Board of Education. This formal action (a resolution) must occur prior to the end of the reporting period, but the amount of the commitment, which will be subject to the constraints, may be determined in the subsequent period. Those committed amounts cannot be used for any other purpose unless the Board of Education removes or changes the specified use by taking the same type of formal action it employed to previously commit those amounts.
- Assigned: fund balances that contain self-imposed constraints of the District to be used for a particular purpose. Intent should be expressed by a) the governing body itself or b) a body (a budget or finance committee, for example) or official to which the governing body has delegated the authority to assign amounts to be used for specific purposes.
- Unassigned: includes residual positive fund balance within the General Fund which has not been classified within the other above-mentioned categories. Unassigned fund balance may also include negative balance for any governmental fund if expenditures exceed amounts restricted, committed or assigned for those specific purposes.

Unless specifically identified, expenditures act to reduce restricted balances first, then committed balances, then assigned balances and finally unassigned balances. Expenditures for a specifically identified purpose will act to reduce the specific classification of fund balance that is identified.

NOTE 2. DEPOSITS AND INVESTMENTS

Under Illinois Compiled Statutes, the Thornton Township School Treasurer is the lawful custodian of all school funds. The Treasurer is appointed by the Township School Trustees, an independent elected body, to serve the school districts in the township. The Treasurer is the direct recipient of property taxes, replacement taxes and most state and federal aid and disburses school funds upon lawful order of the school board. The Treasurer invests excess funds at his discretion, subject to the legal restrictions discussed below. For these purposes, the Treasurer is permitted to combine monies from more than one fund of a single district and to combine monies of more than one district in the township. Monies combined under these circumstances as well as investment earnings are accounted for separately for each fund and/or district.

Cash and investments, other than the student activity, imprest funds and petty cash, are part of a common pool for all school districts and cooperatives within the township. The Treasurer maintains records which segregate the cash and investment balance by district or cooperative. Income from investments is distributed annually based on the District's percentage participation in the pool.

DOLTON SCHOOL DISTRICT NO. 149
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 2. DEPOSITS AND INVESTMENTS (CONTINUED)

The Treasurer's investment policy is established by the Thornton Township School Trustees as prescribed by the Illinois School Code and the Illinois Compiled Statutes. The Treasurer is authorized to invest in obligations of the U.S. Treasury, backed by the full faith and credit of the associations, and commercial paper rated within the three highest classifications by at least two standard rating services (subject to certain limitations).

Because all cash and investments are pooled by a separate legal governmental agency (Treasurer), categorization by risk category is not determinable. Further information regarding collateralization of investments and insurance is available from the Treasurer's financial statements. As of June 30, 2019, the amount of cash and investments held by the Thornton Township School Treasurer to the District was \$20,072,313.

In prior years, the District refunded (defeased) certain general obligation bonds by placing the refunding portion of the proceeds of new bonds in irrevocable trusts to provide for future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the District's financial statements. As of June 30, 2019, there are no longer any defeased bonds.

At June 30, 2019, the annual cash flow requirements of bond principal and interest as follows:

NOTE 5. OPERATING LEASE

District entered into a copier lease agreement on January 26, 2017. The lease requires a monthly payment of \$5,648 for a term of sixty (60) months. Lease payments are paid through the Educational Fund.

At June 30, 2019, the future minimum lease payments for the above lease is as follows:

Year Ending June 30,	Total

2021	67,772
2022	<u>56,477</u>
Total	<u>\$ 192,021</u>

NOTE 6. PROPERTY TAXES

The District's property tax is levied each year on all taxable real property located in the District on or before the last Tuesday in December. Property is appraised by the County Assessor at various percentages of fair market value and then subjected to equalization by standard of 33-1/3 of fair market value. The District has a statutory tax rate limit in various operating funds subject to change only by approval of the voters of the District. Also, the District is subject to the Property Tax Extension Limitation Act, which, in general, limits the increase in the amount of taxes to be extended to the lesser of 5% or the percentage increase in the consumer price index for the year preceding the levy. Certain bond issue levies and referendum increases are exempt from this limitation.

Property taxes levied for any year attach as an enforceable lien on property as of January 1 and are due and payable in the following calendar year. Real estate tax bills are payable in two installments. The first installment is computed at 55% of the prior year's bill and is mailed in late January with a March 1 due date. The second installment is computed after the assessed valuations for the current year have been determined, usually in June or July. Final tax bills are mailed with a penalty date at least 30 days after the date of mailing, but not earlier than August 1. The District normally collects property taxes within 60 days of the respective installment dates. The District considers that the first installment of the 2018 levy is to be used to finance operations in fiscal 2019. The District has determined that the second installment of the 2018 levy is to be used to finance operations in fiscal 2020 and has deferred the corresponding receivable.

For taxing districts in Cook County, including the District, the tax rate limit is required to be applied to the equalized assessed valuation (EAV) of property for the levy year prior to the levy year for which taxes are then being extended. The actual levy rate is stated based on the current EAV of property. As a result, a tax rate may be at its maximum for the levy year even though it is less than its corresponding limit. The Board passed the current levy on December 13, 2018.

Reserves for uncollectible property taxes are netted against the receivable as follows:

Receivable - gross	\$ 8,339,745
Allowance for uncollectibles	<u>(919,434)</u>

NOTE 7. JOINT AGREEMENT

The District is a participant in Exceptional Children Have Opportunities (ECHO), which was established as a result of a joint agreement between 17 local public-school districts for the purpose of providing special education services to the children of its member districts.

The joint agreement is governed by a Board of Directors composed of superintendents (or an alternative person appointed by the superintendent) from each member district. Complete financial statements of the joint agreement may be obtained from its administrative office at 350 West 154th Street, South Holland, Illinois 60473. The District paid \$2,238,858 to ECHO for tuition and services during the year ended June 30, 2019.

NOTE 8. CONTINGENCIES

The District has received funding from State and Federal grants in the current and prior years, which are subject to audits by the granting agencies. Such audits could lead to requests for reimbursement to the grantor agency for expenditures disallowed under terms of the grant. Based on prior experience, District management believes that such disallowances, if any, would be immaterial.

NOTE 9. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the District carries commercial insurance. Premiums have been displayed as expenditures in appropriate funds. The District also operates a self-insurance program for medical coverage for employees. No material reductions in insurance coverages have occurred from the previous year nor have any insurance claims in excess of insurance coverages been paid or reported during the last three years.

The District maintains a self-insurance plan to provide medical insurance to its employees. An outside administrator administers claims for a fixed fee per enrolled employee. The District makes periodic payments to an escrow account established by the plan administrator. The administrator pays employee claims from this escrow account and requires the District to cover any deficiencies. The District liability is limited by private insurance which provides a \$65,000 specific stop loss and a minimum aggregate stop loss of \$2,236,926. There were no significant reductions in insurance coverage in the current fiscal year.

An analysis of health insurance claims activity consisted of the following:

NOTE 10. TEACHERS' RETIREMENT SYSTEM

Plan Description

The District participates in the Teachers' Retirement System of the State of Illinois (TRS). TRS is a cost-sharing multiple-employer defined benefit pension plan that was created by the Illinois legislature for the benefit of Illinois public school teachers employed outside the City of Chicago. TRS members include all active non-annuitants who are employed by a TRS-covered employer to provide services for which teacher licensure is required. The Illinois Pension Code outlines the benefit provisions of TRS, and amendments to the plan can be made only by legislative action with the Governor's approval. The TRS Board of Trustees is responsible for the System's administration.

TRS issues a publicly available financial report that can be obtained at <https://www.trsil.org/financial/cafrs/fy2018>; by writing to TRS at 2815 W. Washington Street, P.O. Box 19253, Springfield, Illinois 62794; or by calling (888) 678-3675, option 2.

NOTE 10. TEACHERS' RETIREMENT SYSTEM (CONTINUED)

Benefit Provided

TRS provides retirement, disability, and death benefits. Tier 1 members have TRS or reciprocal system service prior to January 1, 2011. Tier 1 members qualify for retirement benefits at age 62 with five years of service, at age 60 with 10 years, or age 55 with 20 years. The benefit is determined by the average of the four highest years of creditable earnings within the last 10 years of creditable service and the percentage of average salary to which the member is entitled. Most members retire under a formula that provides 2.2 percent of final average salary up to a maximum of 75 percent with 34 years of service. Disability and death benefits are also provided.

Tier 2 members qualify for retirement benefits at age 67 with 10 years of service, or a discounted annuity can be paid at age 62 with 10 years of service. Creditable earnings for retirement purposes are capped and the final average salary is based on the highest consecutive eight years of creditable service rather than the last four. Disability provisions for Tier II are identical to those of Tier 1. Death benefits are payable under a formula that is different from Tier 1.

Essentially all Tier 1 retirees receive an annual 3 percent increase in the current retirement benefit beginning January 1 following the attainment of age 61 or on January 1 following the member's first anniversary in retirement, whichever is later. Tier 2 annual increases will be the lesser of three percent of the original benefit or one-half percent of the rate of inflation beginning January 1 following attainment of age 67 or on January 1 following the member's first anniversary in retirement, whichever is later.

Public Act 100-0023, enacted in 2017, creates an optional Tier 3 hybrid retirement plan, but it has not yet gone into effect. The earliest possible implementation date is July 1, 2020. Public Act 100-0587, enacted in 2018, required TRS to offer two temporary benefit buyout programs that expire on June 30, 2021. One program allows retiring Tier 1 members to receive a partial lump-sum payment in exchange for accepting a lower, delayed annual increase. The other allows inactive vested Tier 1 and 2 members to receive a partial lump-sum payment in lieu of a retirement annuity. Both programs will begin in 2019 and will be funded by bonds issued by the State of Illinois.

Contributions

The State of Illinois maintains the primary responsibility for funding TRS. The Illinois Pension Code, as amended by Public Act 88-0593 and subsequent acts, provides that for years 2010 through 2045, the minimum contribution to the System for each fiscal year shall be an amount determined to be sufficient to bring the total assets of the System up to 90 percent of the total actuarial liabilities of the System by the end of fiscal year 2045.

Contributions from active members and TRS contributing employers are also required by the Illinois Pension Code. The contribution rates are specified in the pension code. The active member contribution rate for the year ended June 30, 2018, was 9.0 percent of creditable earnings. The member contribution, which may be paid on behalf of employees by the District, is submitted to TRS by the District.

On-behalf Contributions to TRS

The State of Illinois makes employer pension contributions on behalf of the District. For the year ended June 30, 2019, State of Illinois contributions recognized by the District were based on the state's proportionate share of the collective net pension liability associated with the employer, and the District recognized revenue and expenditures of \$1,621,398 in pension contributions from the State of Illinois.

2.2 Formula Contributions to TRS

Employers contribute 0.58 percent of total creditable earnings for the 2.2 formula change. The contribution rate is specified by statute. Contributions for the year ended June 30, 2019, were \$98,298, and are deferred because they were paid after the June 30, 2018 measurement date.

Federal and Special Trust Funds Contributions

When TRS members are paid from federal and special trust funds administered by the District, there is a statutory requirement for the District to pay an employer pension contribution from those funds. Under Public Act 100-0340, the federal and special trust fund contribution rate is the total employer normal cost beginning with the year ended June 30, 2019.

Previously, employer contributions for employees paid from federal and special trust funds were at the same rate as the state contribution rate to TRS and were much higher.

For the year ended June 30, 2019, the District's pension contribution was 9.85 percent of salaries paid from federal and special trust funds. For the year ended June 30, 2019, salaries totaling \$486,949 were paid from federal and special trust funds that required employer contributions of \$47,964. These contributions are deferred because they were paid after the June 30, 2018 measurement date.

Early Retirement Cost Contribution

Under GASB Statement No. 68, contributions that an employer is required to pay because of a TRS member retiring are categorized as specific liability payments. The District is required to make a one-time contribution to TRS for members granted salary increases over 6 percent if those salaries are used to calculate a retiree's final average salary.

A one-time contribution is also required for members granted salary sick leave days in excess of the normal annual allotment if those days are used as TRS service credit. For the year ended June 30, 2019, the District paid \$539 to TRS for employer contributions due on salary increases in excess of 6 percent and \$0 for sick leave days granted in excess of the normal annual allotment.

Pension Liabilities Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2019, the District reported a liability for its proportionate share of the net pension liability (first amount shown below) that reflected a reduction for state pension support provided to the employer. The State's support and total are for disclosure purposes only. The amount recognized by the District as its proportionate share of the net pension liability, the related state support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the net pension liability	\$ 1,838,032
State's proportionate share of the net pension liability associated with the District	<u>125,912,867</u>
Total	<u>\$ 127,750,899</u>

The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2017, and rolled forward to June 30, 2018. The District's proportion of the net pension liability was based on the District's share of contributions to TRS for the measurement year ended June 30, 2018, relative to the projected contributions of all participating TRS employers and the state during that period. At June 30, 2018, the District's proportion was 0.0023581184 percent, which was an decrease of .0029392464 percent from its proportion measured as of June 30, 2017.

Actuarial Assumptions

The total pension liability in the June 30, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50 percent
Salary Increases	Varies by amount of service credit
Investment rate of return	7.00 percent, net of pension plan investment expense, including inflation

In the June 30, 2018 actuarial valuation mortality rates were based on the RP-2014 White Collar Table with appropriate adjustments for TRS experience. The rates are on a fully-generational basis using projection table MP-2017. In the June 30, 2017, actuarial valuation, mortality rates were also based on the RP-2014 White Collar Table with appropriate adjustments for TRS experience. The rates were used on a fully generational basis using projection table MP-2014.

The long-term (20-year) expected rate of return based on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class that were used by the actuary are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
U.S. equities large cap	15.0%	6.70%
U.S. equities small/mid cap	2.0%	7.90%

U.S. bonds high yield	4.2%	4.40%
International debt developed	2.2%	1.30%
Emerging international debt	2.6%	4.50%
Real estate	16.0%	5.40%
Real return	4.0%	1.80%
Absolute return	14.0%	3.90%
Private equity	15.0%	10.20%
Total	<u>100.0%</u>	

Discount Rate

At June 30, 2018, the discount rate used to measure the total pension liability was a 7.0 percent, which was a change from the June 30, 2017 rate. The projection of cash flows used to determine the discount rate assumed that employee contributions, employer contributions, and state contributions will be made at the current statutorily-required rates.

NOTES TO FINANCIAL STATEMENTS

NOTE 10. TEACHERS' RETIREMENT SYSTEM (CONTINUED)

Based on those assumptions, TRS's fiduciary net position at June 30, 2018 was not projected to be available to make all projected future benefit payments to current active and inactive members and all benefit recipients. Tier 1's liability is partially-funded by Tier 2 members, as the Tier 2 member contribution is higher than the cost of Tier 2 benefits. Due to this subsidy, contributions from future members in excess of the service cost are also included in the determination of the discount rate. All projected future payments were covered, so the long-term expected rate of return on TRS investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.00 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00 percent) or 1-percentage-point higher (8.00 percent) than the current rate.

	1% Decrease 6.00%	Current Discount Rate 7.00%	1% Increase 8.00%

NOTE 11. ILLINOIS MUNICIPAL RETIREMENT FUND

Plan Description

The District's defined benefit pension plan for regular employees provides retirement and disability benefits, post-retirement increases, and death benefits to plan members and beneficiaries. The District's plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of a multi-employer public pension fund. A summary of IMRF's pension benefits is provided in the "Benefit Provided" section of this document. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Comprehensive Annual Financial Report that includes Financial Statements, detailed information about the pension plan's fiduciary net position, and other information. The report is available for download at www.imrf.org.

Benefit Provided

IMRF benefit plans have two tiers. Employees hired before January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

NOTE 11. ILLINOIS MUNICIPAL RETIREMENT FUND (CONTINUED)

Benefit Provided (Continued)

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the lesser of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

Employees Covered by Benefit Terms

As of December 31, 2018, the following employees were covered by the benefit terms:

Retirees and Beneficiaries currently receiving benefits	245
Inactive Plan Members entitled to but not yet receiving benefits	113
Active Plan Members	73
Total	<u>431</u>

Contributions

As set by statute, the District's Regular Plan Members are required to contribute 4.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The District's annual contribution rate for calendar year 2018 was 15.64%. For the fiscal year ended June 30, 2019, the District contributed \$556,245 to the plan. The District also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by IMRF's Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Net Pension Liability

The District's net pension liability was measured as of December 31, 2018. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions

The following are the methods and assumptions used to determine total pension liability at December 31, 2018:

- The Actuarial Cost Method used was Entry Age Normal.
- The Asset Valuation Method used was Market Value of Assets.
- The Inflation Rate was assumed to be 2.50%.
- Salary Increases were expected to be 3.39% to 14.25%, including inflation.
- The Investment Rate of Return was assumed to be 7.25%.

NOTE 11. ILLINOIS MUNICIPAL RETIREMENT FUND (CONTINUED)

Actuarial Assumptions (Continued)

- Projected Retirement Age was from the Experience-based Table of Rates, specific to the type of eligibility condition, last updated for the 2017 valuation according to an experience study from years 2014 to 2016.
- The IMRF-specific rates for Mortality (for non-disabled retirees) was used with fully generational projection scale MP-2017 (based year 2015). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience.
- For Disabled Retirees, an IMRF-specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF-specific rates were developed from the RP-2014 Disabled Retirees Mortality Table, applying the same adjustments that were applied for non-disabled lives.
- For Active Members, an IMRF-specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF-specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.
- The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table as of December 31, 2018:

Asset Class	Portfolio Target Percentage	Return 12/31/18	Projected Returns/Risk	
			One Year Arithmetic	Ten Year Geometric
Equities	37%	-6.08%	8.50%	7.15%

Single Discount Rate

A single discount rate of 7.25% was used to measure the total pension liability. The projection of cash flow used to determine this single discount rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The single discount rate reflects:

1. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and

2. The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the plan's projected fiduciary net position is not sufficient to pay benefits).

For the purpose of the most recent valuation, the expected rate of return on plan investments is 7.25%, the municipal bond rate is 3.31% (based on the daily rate closest to but no later than the measurement date of the "20-Bond Go Index") and the resulting single discount rate is 7.25%.

NOTE 13. TEACHERS HEALTH INSURANCE SECURITY

Plan and Benefit Description

The District participates in the Teacher Health Insurance Security (THIS) Fund, a cost-sharing, multiple-employer defined benefit post-employment healthcare plan that was established by the Illinois legislature for the benefit of retired Illinois public school teachers employed outside the City of Chicago.

The THIS Fund provides medical, prescription, and behavioral health benefits, but it does not provide vision, dental, or life insurance benefits to annuitants of the Teachers' Retirement System (TRS). Annuitants not enrolled in Medicare may participate in the state-administered participating provider option plan or choose from several managed care options. Annuitants who are enrolled in Medicare Parts A and B may be eligible to enroll in a Medicare Advantage plan. The State Employees Group Insurance Act of 1971 (5 ILCS 375/6.5) outlines the benefit provisions of the THIS Fund and amendments to the plan can be made only by legislative action with the Governor's approval. The plan is administered by the Illinois Department of Central Management Services (CMS) with the cooperation of TRS.

Contributions

The State Employees Group Insurance Act of 1971 (5 ILCS 375/6.6) required that all active contributors of the TRS, who are not employees of a state agency, make contributions to the plan at a rate of 1.24% of salary and for every employer of a teacher to contribute an amount equal to .92% of each teacher's salary. The Department determines, by rule, the percentage required, which each year shall not exceed 105% of the percentage of salary actually required to be paid in the previous fiscal year. Employer and non-employer contributing entity contributions are recognized as revenue when due pursuant to statutory or contractual requirements.

The State of Illinois makes employer retiree health insurance contributions on behalf of the District. State contributions are intended to match contributions to the THIS fund from active members which were 1.24% of pay during the year ended June 30, 2019. State of Illinois contributions were \$210,153, and the District recognized revenue and expenditures of this amount during the year.

The District made contributions to the THIS Fund during the year ended June 30, 2019. For the year ended June 30, 2019, the District paid \$366,073 to the THIS Fund, which was 100% of the required contribution.

OPEB Liabilities, Expense, and Deferred Outflows and Inflows of Resources Related to OPEB

At June 30, 2019, the District reported a liability for its proportionate share of the net OPEB liability to the District. The State's support and total are for disclosure purposes only. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

The net OPEB liability was measured as of June 30, 2018, and the OPEB pension liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2017 and rolled forward to June 30, 2018. The employer's proportion of the net OPEB liability was based on the employer's share of contributions to THIS for the measurement year ended June 30, 2018, relative to the projected contributions of all participating THIS employers and the State during that period. At June 30, 2018, the employer's proportion was 0.071431%, which was an decrease of 0.00386 from its proportion measured as of June 30, 2017.

OPEB Liabilities, Expense, and Deferred Outflows and Inflows of Resources Related to OPEB (Continued)

For the year ended June 30, 2019, the District recognized OPEB expense of \$837,857 and revenue of \$210,153 for support provided by the State. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources

Actuarial Assumptions

The following assumptions and trust information are applicable to the plan as a whole.

The total OPEB liability in the June 30, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial cost method	Entry Age Normal
Asset valuation method	Market Value of Assets
Inflation	2.75%
Salary increases	3.25% to 9.25%, including inflation
Healthcare cost trend rates	Actual trend used for fiscal year 2018. For fiscal years on and after 2019, trend starts at 8.00% and 9.00% for non-Medicare costs and post-Medicare costs, respectively, and gradually decreases to an ultimate trend of 4.50%. Additional trend rate of 0.36% is added to non-Medicare costs on and after 2022 to account for the Excise Tax.
Mortality	Mortality rates for retirement and beneficiary annuitants were based on the RP-2014 White Collar Annuitant Mortality Table, adjusted for TRS experience. For disabled annuitants mortality rates were based on the RP-Disabled Annuitant table. Mortality rates for pre-retirement were based on the RP-2014 White Collar Table. All tables reflect future mortality improvements using Projection Scale MP-2014.

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2014. The projections of the sharing of benefit-related costs are based on an established practice.

Projected benefit payments were discounted to their actuarial present value using a single discount rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the plan's fiduciary net position is projected to be sufficient to pay benefits), and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bond with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met). Since THIS is financed on a pay-as-you-go basis, a discount rate consistent with fixed-income municipal bond with 20-years to maturity that included only federally tax-exempt municipal bonds are reported in Fidelity's index's "20-year municipal GO AA index" has been selected. The discount rates are 3.56% as of June 30, 2017, and 3.62% as of June 30, 2018.

DOLTON SCHOOL DISTRICT NO. 149
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 13. TEACHERS HEALTH INSURANCE SECURITY (CONTINUED)

The increase in the single discount rate from 3.56% to 3.62% caused the total OPEB liability to decrease by approximately \$285 billion from 2017 to 2018.

The actuarial valuation was based on the entry age normal cost method. Under this method, the normal cost and actuarial accrued liability are directly proportional to the employee's salary. The normal cost rate equals the present value of future benefits at entry age divided by the present value of future salary at entry age. The normal cost at the member's attained age equals the normal cost rate at entry age multiplied by the salary at attained age. The actuarial accrued liability equals the present value of benefits at attained age less present value of future salaries at attained age multiplied by normal cost rate at entry age.

During plan year ending June 30, 2018, the trust earned \$743,000 in interest, and due to a significant benefit payable, the market value of assets at June 30, 2018, was a negative \$18.5 million. Given the significant benefit payable, negative asset value and pay-as-you-go funding policy, the long-term expected rate of return assumption was set to zero.

Sensitivity of Net OPEB Liability to Changes in the Single Discount Rate

The following presents the District's net OPEB liability, calculated using a single discount rate of 3.62%, as well as what the District's net OPEB liability would be if it were calculated using a single discount rate that is one percentage point higher (4.62%) or lower (2.62%) than the current rate:

	1% Decrease (2.62%)	Current Discount Rate (3.62%)	1% Increase (4.62%)
District's proportionate share of the net pension liability	\$ 22,627,933	\$ 18,819,209	\$ 15,812,534

Sensitivity of Net OPEB Liability to Changes in the Healthcare Cost Trend Rate

The following presents the District's net OPEB liability, calculated using the healthcare cost trend rates as well as what the District's net OPEB liability would be if it were calculated using a healthcare cost trend rate that is one percentage point higher or lower, than the current healthcare cost trend rates. The key trend rates are 8.00% in 2018 decreasing to an ultimate trend rate of 4.86% in 2026, for non-Medicare coverage, and 9.00% decreasing to an ultimate trend rate of 4.86% in 2028 for Medicare coverage.

(b) One percentage point increase in healthcare trend rates are 9.00% in 2018 decreasing to an ultimate trend rate of 5.86% in 2026, for non-Medicare coverage, and 10.00% in 2019 decreasing to an ultimate trend rate of 5.50% in 2028 for Medicare coverage.

NOTE 14. POST RETIREMENT MEDICAL PLAN

Plan Description

The medical benefit plan for the District is a single-employer defined benefit plan administered by the District. The District has the authority to establish and amend benefit provisions of the medical benefit plan. The following benefit provisions are below:

TRS Employees- Upon retirement, TRS employees who retire on or after August 1, 2017 are eligible to have their TRS premiums (retiree's portion of single coverage only) paid for by the District until the retiree becomes eligible for Medicare.

IMRF Retirees- Eligible IMRF retirees may elect to pay the COBRA premiums and continue coverage in the District's medical and dental plans indefinitely.

Effective July 1, 2018, IMRF employees who worked during the 2018-2019 fiscal year and retire with twelve or more years of service may elect to receive the District medical and dental coverage for the same employee contribution as active employees for a one-year period. At the end of the 1st year retirement, the IMRF retiree would be required to pay the Cobra rate for this coverage.

Funding Policy

The District has not established a trust fund to finance the cost of the Postretirement medical plan. Premiums are paid by retirees based on the rates established for active employees. The postretirement benefit plans for the District are funded on a pay-as-you-go basis

Eligible Plan Participants

All active and retired employees who are participants in the medical plan as of the valuation date and who are eligible, or may become eligible, in the future for District OPEB benefits are included in the calculations in this report.

Membership in the plan consisted of the following as of July 1, 2017, the most recent valuation date:

Active employees	185
Inactive employees entitled to but not yet receiving benefits	-
Retirees currently receiving benefits	<u>18</u>
Total	<u><u>203</u></u>

TRS Employees. Reimbursement of the retiree's portion of the single medical premium in the Teachers Retirement Insurance Program of the State of Illinois (TRIP) is offered to retired TRS staff after the employee has satisfied the eligibility requirements, as outlined below:

- Tier 1: Members hired prior to July 1, 2011
- Age 60 and at least 10 years of TRS service;

 - Age 55 and at least 20 years of TRS service
- Tier 2: Membership on or after July 1, 2011
- Age 62 and at least 10 years of TRS service

The difference in eligibility is consistent with the two TRS tier options. Employees who began accumulating TRS service before July 1, 2011 are categorized as Tier 1. Those who began accumulating TRS service on or after July 1, 2011 are Tier 2.

IMRF Employees. IMRF retirees may continue District medical and/or dental coverage after the employee has completed at least 8 years of IMRF service and is age 55 or greater at retirement if they were hired prior to January 1, 2011. For those hired on or after January 1, 2011, the requirement is 10 years of IMRF service and age 62 or greater. The difference in eligibility is consistent with the two IMRF tier options. Employees who began accumulating IMRF service before January 1, 2011 are categorized as IMRF Tier 1. Those who began accumulating IMRF service on or after January 1, 2011 are IMRF Tier 2.

Monthly Retiree and Employer Contributions

IMRF retirees contribute the COBRA rate which is based on the full monthly cost of coverage for the active group of employees. TRS retirees do not make any contributions to the District. The monthly contribution rates for medical/prescription drug and dental coverage for the year ended June 30, 2019 were as follows:

OPEB Plan	Retiree Only	Retiree + Spouse
IMRF retirees	\$ 877.51	\$ 1,729.42

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of the valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

Valuation Method. GASB 75 requires the use of the Entry Age Normal (EAN) actuarial cost method. Under the EAN method, the actuarial present value of the projected benefits of each individual included in an actuarial valuation is allocated on a level basis (either level dollar or level percent of pay) over the earnings or service of the individual between entry age and the assumed exit ages. The portion of the actuarial present value allocated to a valuation year is the normal cost. The portion of the actuarial present value not provided for at a valuation date by the actuarial present value of future normal costs is the actuarial accrued liability.

Valuation of Assets. No assets have been set aside to fund the liabilities of the plan.

DOLTON SCHOOL DISTRICT NO. 149
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

NOTE 16. FUTURE GASB PRONOUNCEMENTS

GASB Statement No. 84, Fiduciary Activities. The objective of this statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. This provision is effective for fiscal years beginning after December 15, 2018.

GASB Statement No. 87, Leases. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. This provision is effective for fiscal years beginning after December 15, 2019.

Instructions:

This schedule is to calculate the amount allowed on contracts obligated by the school district for the Indirect Cost Rate calculation. The greatest amount allowed in the indirect cost calculation is \$25,000 for each contract. The contracts should be only for purchase services and not for salary contracts.

1. In column (A) enter the name of the **Fund-Function-Object of the account** where the payment was made on each contract in the current year.
2. In column (B) enter the number of the **Fund-Function-Object (use this format [00-0000-000])** of the account where the payment was made on each contract for the current year. Use only the functions listed on page 30. Only enter contracts that were paid in the functions listed on the indirect cost calculation, page 30.
3. In Column (C) enter the name of the Company that is listed on the contract.
4. In column (D) enter the total amount **paid** in the AFR for the contract. The amount must be less than or equal to the amount reported in the AFR's "Expenditures 15-22" tab.
5. Column (E) and (F) are calculated automatically based on the information provided in Columns (A through D).
6. The amount in column (E) is the amount allowed on each contract in the Indirect Cost Rate calculation. The amount in column (F) is the amount that will be deducted from the base in the indirect cost rate (page 30) for Program Year 2021.
7. Do not include contracts for Capital Outlay (500) or Non-Capitalized Equipment (700) on this form, they are excluded from the Indirect Cost Rate calculation.

1	DEFICIT ANNUAL FINANCIAL REPORT (AFR) SUMMARY INFORMATION Provisions per Illinois School Code, Section 17-1 (105 ILCS 5/17-1)					
2	Instructions: If the Annual Financial Report (AFR) reflects that a "deficit reduction plan" is required as calculated below, then the school district is to complete the "deficit reduction plan" in the annual budget and submit the plan to Illinois State Board of Education (ISBE) within 30 days after accepting the audit report. This may require the FY2020 annual budget to be amended to include a "deficit reduction plan" and narrative.					
3	The "deficit reduction plan" is developed using ISBE guidelines and is included in the School District Budget Form 50-36, beginning with page 20. A plan is required when the operating funds listed below result in direct revenues (cell F6) being less than direct expenditures (cell f7) by an amount equal to or greater than one-third (1/3) of the ending fund balance (cell f9). That is, if the ending fund balance is less than three times the deficit spending, the district must adopt and submit an original budget/amended budget with ISBE that provides a "deficit reduction plan" to balance the shortfall within the next three years.					
4	If the FY2020 school district budget already requires a deficit reduction plan, and one was submitted, an updated (amended) budget is not required.					
5	If the Annual Financial Report requires a deficit reduction plan even though the FY2020 budget does not, a completed deficit reduction plan is still required.
