Greetings,

It is time to authenticate/update your account in the ISACS Member Portal. Please note that if you are a new hire in the last year or two, you may need to create a new account. Everyone else will need to “sign-up” if they have not already completed the process. Either way, it should only take about 5 minutes to answer all the questions. It is especially important that ISACS have the best and most up to date information possible to represent our school and you in the system. For anyone who has successfully logged into the Member Portal since July 2021, we ask that you too take a few minutes to update your account. View complete instructions to create/sign up/log into your account.

Simple Instructions:

1. Visit the ISACS Member Portal
2. Select one of two options:
   a. the “sign up” tab to create an account or sign into a previous account (using your school email address & create a new password)
   b. the “log in” tab (if you have successfully completed the process before)
3. Verify your school email address and Sync to your school
4. Input/Update your account information

Issues? Contact Jacob Isaac, ISACS Director of Technology & Client Services
