Fourth Grade Math

| 4th Grade | | |
|------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
| Problem Solving with Whole Numbers | | |
| 4.OA.1 | Interpret a multiplication equation as a comparison, e.g., interpret $35 = 5 \times 7$ as a statement that 35 is 5 times as many as 7 and 7 times as many as 5. Represent verbal statements of multiplicative comparisons as multiplication equations. | |
| 4.OA.2 | Multiply or divide to solve word problems involving multiplicative comparison, e.g., by using drawings and equations with a symbol for the unknown number to represent the problem, distinguishing multiplicative comparison from additive comparison. | |
| 4.OA.3 | Solve multistep word problems posed with whole numbers and having whole-number answers using the four operations, including problems in which remainders must be interpreted. Represent these problems using equations with a letter standing for the unknown quantity. Assess the reasonableness of answers using mental computation and estimation strategies including rounding. | |
| 4.OA.4 | Find all factor pairs for a whole number in the range 1–100. Recognize that a whole number is a multiple of each of its factors. Determine whether a given whole number in the range 1–100 is a multiple of a given one-digit number. Determine whether a given whole number in the range 1–100 is prime or composite. | |
| Decimal C | oncepts | |
| 4.NF.5 | Express a fraction with denominator 10 as an equivalent fraction with denominator 100, and use this technique to add two fractions with respective denominators 10 and 100. (Students who can generate equivalent fractions can develop strategies for adding fractions with unlike denominators in general. But addition and subtraction with unlike denominators in general is not a requirement at this grade.) For example, express $3/10$ as $30/100$, and add $3/10 + 4/100 = 34/100$. | |
| 4.NF.6 | Use decimal notation for fractions with denominators 10 or 100. For example, rewrite 0.62 as 62/100; describe a length as 0.62 meters; locate 0.62 on a number line diagram. | |
| 4.NF.7 | Compare two decimals to hundredths by reasoning about their size. Recognize that comparisons are valid only when the two decimals refer to the same whole. Record the results of comparisons with the symbols, >, <, =, and justify the conclusions, e.g., by using a visual model. | |
| Fraction C | | |
| 4.NF.1 | Express a fraction with denominator 10 as an equivalent fraction with denominator 100, and use this technique to add two fractions with respective denominators 10 and 100. (Students who can generate equivalent fractions can develop strategies for adding fractions with unlike denominators in general. But addition and subtraction with unlike denominators in general is not a requirement at this grade.) For example, express $3/10$ as $30/100$, and add $3/10 + 4/100 = 34/100$. | |
| 4.NF.2 | Compare two fractions with different numerators and different denominators, e.g., by creating common denominators or numerators, or by comparing to a benchmark fraction such as 1/2. Recognize that comparisons are valid only when the two fractions refer to the same whole. Record the results of comparisons with symbols >, =, or <, and justify the conclusions, e.g., by using a visual fraction model. | |
| 4.NF.3 | Understand a fraction a/b with a > 1 as a sum of fractions 1/b. A) Understand addition and subtraction of fractions as joining and separating parts referring to the same whole. B) Decompose a fraction into a sum of fractions with the same denominator in more than one way, recording each decomposition by an equation. Justify decompositions, e.g., by using a visual fraction model. Examples: $3/8 = 1/8 + 1/8 + 1/8 + 1/8 = 1/8 + 1/8 + 1/8 = 1/8 + 1/8 + 1/8 = 1/8 + 1/8 = 1/8 + 1/8 = 1/8 + 1/8 = 1/8 + 1/8 = 1/8 = 1/8 + 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/8 = 1/$ | |

|-------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 4.NF.4 | Apply and extend previous understandings of multiplication to multiply a fraction by a whole number. A) Understand a fraction a/b as a multiple of 1/b. For example, use a visual fraction model to represent 5/4 as the product $5 \times (1/4)$, recording the conclusion by the equation $5/4 = 5 \times (1/4)$. B) Understand a multiple of a/b as a multiple of 1/b, and use this understanding to multiply a fraction by a whole number. For example, use a visual fraction model to express $3 \times (2/5)$ as $6 \times (1/5)$, recognizing this product as $6/5$. (In general, $n \times (a/b) = (n \times a)/b$.) C) Solve word problems involving multiplication of a fraction by a whole number, e.g., by using visual fraction models and equations to represent the problem. For example, if each person at a party will eat $3/8$ of a pound of roast beef, and there will be 5 people at the party, how many pounds of roast beef will be needed? Between what two whole numbers does your answer lie? |
| Whole Numi | ber Operations |
| 4.NBT.4 | Fluently add and subtract multi-digit whole numbers using the standard algorithm. |
| 4.NBT.5 | Multiply a whole number of up to four digits by a one-digit whole number, and multiply two two-digit numbers, using strategies based on place value and the properties of operations. Illustrate and explain the calculation by using equations, rectangular arrays, and/or area models. |
| 4.NBT.6 | Find whole-number quotients and remainders with up to four-digit dividends and one-digit divisors, using strategies based on place value, the properties of operations, and/or the relationship between multiplication and division. Illustrate and explain the calculation by using equations, rectangular arrays, and/or area models. |
| Place Value | |
| 4.NBT.1 | Recognize that in a multi-digit whole number, a digit in one place represents ten times what it represents in the place to its right. For example, recognize that $700 \div 70 = 10$ by applying concepts of place value and division. |
| 4.NBT.2 | Read and write multi-digit whole numbers using base-ten numerals, number names, and expanded form. Compare two multi-digit numbers based on meanings of the digits in each place, using >, =, and < symbols to record the results of comparisons. |
| 4.NBT.3 | Use place value understanding to round multi-digit whole numbers to any place. |
| Geometry a | nd Measurement |
| 4.MD.2 | Use the four operations to solve word problems involving distances, intervals of time, liquid volumes, masses of objects, and money, including problems involving simple fractions or decimals, and problems that require expressing measurements given in a larger unit in terms of a smaller unit. Represent measurement quantities using diagrams such as number line diagrams that feature a measurement scale. |
| 4.MD.3 | Apply the area and perimeter formulas for rectangles in real world and mathematical problems. |
| 4.MD.4 | Make a line plot to display a data set of measurements in fractions of a unit $(1/2, 1/4, 1/8)$. Solve problems involving addition and subtraction of fractions by using information presented in line plots. |
| 4.MD.5 | Recognize angles as geometric shapes that are formed wherever two rays share a common endpoint, and understand concepts of angle measurement. |
| 4.MD.6 | Measure angles in whole-number degrees using a protractor. Sketch angles of specified measure. |
| 4.MD.7 | Recognize angle measure as additive. When an angle is decomposed into non-overlapping parts, the angle measure of the whole is the sum of the angle measures of the parts. Solve addition and subtraction problems to find unknown angles on a diagram in real world and mathematical problems, e.g., by using an equation with a symbol for the unknown angle measure. |
| 4.G.1 | Draw points, lines, line segments, rays, angles (right, acute, obtuse), and perpendicular and parallel lines. Identify these in two-dimensional figures. |
