NJ Colleges: Public vs. Private

- **State colleges are the least expensive** and are schools such as Rutgers, Kean, Montclair, Stockton, Ramapo, Rowan, William Paterson, and The College of NJ.
- **Because they cost less, it may be harder to get accepted into state colleges** and universities. Academic standards are higher, making them very competitive.

Paying for College

Discuss college finances with your family.

As you conduct your college search, you need to know how much your family will be able to contribute towards your college education. Always remember, just because a college may seem expensive and out of your reach, never assume anything. There are several types of financial aid that may enable you to attend a college that may seem too expensive. **(Remember, loans have interest rates.)**

Attend a financial aid night to learn the basics of financial aid.

You can search the Internet to find out additional information or contact the Department of Education. The Sayreville Public Library offers a Financial Aid Program. Sign-up online at **Sayrevillelibrary.org**. If you haven't already, start researching scholarships through the Internet, and your school counselor's office. If you have already started, continue searching. Register for free online scholarship searches, like **www.fastweb.com** or **www.scholarships.com**.

★ TIP: Local scholarships are sent via your Naviance email and also posted on counselor Google Classrooms!

EARLY DECISION VS. EARLY ACTION

EARLY DECISION:

- This is a **binding decision**. If a student is offered admission under ED, he/she must withdraw all other applications.
- ED should only be used if a student has a very strong preference for the first choice college.
- Deadline is usually mid-October/November with the decision received by the end of December
- Pro: Admission rates can be higher for ED students
- Con: Financial Aid: you will not be able to compare financial aid packages from several universities

EARLY ACTION:

- Same timeline as ED but the **decision is non-binding**.
- Students have until May 1st to make their final decision.

The Common Application

www.commonapp.org

- More than 900 colleges and universities nationwide use the **Common Application**.
- If you are applying to more than one participating school, you can use the **Common Application**. Complete the application only once and then pay each college's application fee separately.
- You don't have to complete two different applications!

The Coalition Application

www.coalitionforcollegeaccess.org/

- The Coalition for College is a diverse group of 140 distinguished colleges and universities across the U.S. that is committed to making college a reality for all high school students through its set of free, online college planning tools that helps them learn about, prepare for, and apply to college.
