Please share any thoughts you have regarding the way action items in Initiative 1 have been prioritized. Should we put an item at a higher priority? If so, what item would you place at a lower priority?

2 responses

Being able to adjust the tool based on each student's progress/level

I can't wait for a composite student data dashboard. For SSTs I'm often looking in 8-12 different systems/tools for data to get a complete picture of a student.
