BUSINESS AND NONINSTRUCTIONAL OPERATIONS

First Aid

- I. Health Aides, as well as other school personnel, are not authorized to administer any medical service beyond first aid. First aid may legally be given for only those injuries received at school *at the time of the injury*. This may be administered either at the first aid facility in the school office or by the teacher making use of the first aid materials supplied to each classroom.

- II. By law, first aid may be given by school personnel only for an original injury received at school, and no further treatment can be given except on orders from a physician. No treatment can be given for any injury or infection incurred off the school premises unless it is directly related to school sponsored activity, nor can second treatment be given for any injury or ailment.
