PERSONNEL

Administrative Employee Recruiting

It shall be the policy of the Board to advertise openings for administrative positions to appropriate college placement officers and to employees. District personnel with the necessary qualifications will be given an opportunity to apply for administrative positions where the vacancy would constitute an advancement or a preferred assignment.

All other things being equal, an applicant from within the District shall be given preferential consideration.

In all other positions other than that of the Superintendent of Schools, the Superintendent shall provide for a screening procedure that will ensure the identification and nomination of the best qualified candidate.
