STUDENTS

Entrance Age

Children are welcome to enroll in the public schools of the District as soon as it can be demonstrated that they are mature enough to profit from the school's instruction.

Because chronological age is the best single indicator of maturity, children will routinely be admitted to Kindergarten or first grade who have attained minimum ages specified in the law. Exceptions from routine admission may be made by the approval of a provisional early admittance.

Children who apply for initial admission to the District's schools by transfer from nonpublic schools or from schools outside the district will be placed at the grade they would have reached elsewhere pending observation and evaluation by classroom teachers, guidance personnel, and the school principal. After such observations and evaluations have been completed, the principal will determine the final grade placement of the children.
