**STUDENTS**

**Monitoring of Student Progress**

The Cambrian School District Board of Trustees acknowledges the importance of monitoring student progress toward district designated standards. The Board recognizes that the tracking of student progress provides the key ingredient in curriculum and school planning, and in guiding classroom instruction.

Systematic procedures for tracking student progress enables the teacher to determine where the student is functioning in the district required curriculum. The teacher is then able to effectively plan a program designed to help all children reach their potential.

The Board directs that each school have systematic procedures for reviewing and monitoring student progress. Included in these procedures will be the upkeep of individual student District adopted assessment reports, individual pupil reports on standardized tests, and current records of classroom work.
