

**Be a Consultant! Be a Guide! Be a CaringAdult!
Become a Middle School Project Cornerstone (PC) Volunteer!**

OUR Middle Schoolers need us/YOU now more than ever! At this moment in time, what is very important to our students are: **independence & voice-and-choice!** As CaringAdults! we have a job to move from being a “*manager*” to being a *consultant* for our students. WE need to shift from being in charge of everything they do and say, to being more of their guide. We can accomplish this by ***listening with empathy, being available and present, and setting limits*** but ***provide them with autonomy*** (in choices and sharing power). We need to provide these opportunities to our students to help them learn and practice skills
