

Parent Access

Schoology Parent Access is where parents and legal guardians get information about their student's assignments and classwork. Schoology parent access accounts are currently being offered to parents of students in 5th through 12th grades.

Register for a Schoology Parent Account

Parents create a Schoology account by using a Parent Access Code available from any of your student's teachers. All your children can be connected to one parent login; each child will have a separate Parent Access Code. (See below.) The code should look like 1A2E-B3C4-5KD6.

Once you have your parent access code, go to: <https://app.schoology.com/register.php>.

1. Select the Parent button.
2. Enter the access code you received and click Continue.
3. Enter YOUR OWN name and email (not the student's) and choose a password.

----- No, I would not like to participate on this initiative.

----- Yes, I would like to participate on this initiative.

Student Name: _____

Parents Name: _____
