PREFACE

Non Discrimination

The Board reaffirms the principle that every child - regardless of race, creed, color, sex, cultural or economic background, or handicap - should be given maximum educational opportunity for educational development.

Further, no student will, on the basis of sex, be excluded from participating in, denied the benefits of, or subjected to discrimination under any educational program or activity conducted by the district. The school district will treat its students without discrimination on the basis of sex as this pertains to course offerings, athletics, counseling, employment assistance, and extra-curricular activities.

Students, their parents, and employees of the Dell Rapids District are hereby notified that this school district does not discriminate on the basis of sex and is required by Title IX not to discriminate on the basis of sex in its educational activities and employment practices. Any person having inquiries concerning the Dell Rapids School District's compliance with Title IX is directed to contact Mr. John Silvernail at 428-5473. Mr. Silvernail has been designated by the Board of Education to coordinate the school district's effort to comply with Title IX.

Foreword

We encourage parents to be involved with their child's education. This involvement may take many forms. Use the Parent Portal to stay current on assignments and grades. Attend our many student activities (fine arts, athletic and academic). Join us for parent-teacher conferences. Call the school any time you wish to speak with teachers or administration. Open communication between school and home is essential in meeting students' needs.

We look forward to working with you! Please feel free to contact us with questions or concerns.

Discipline & Attendance Policy Definitions & Procedures

The following are intended to help students and parents understand terms used to describe actions which may be taken by school personnel as a consequence of a student's actions. Serious and frequent violations of rules will result in more serious consequences. Consequences are specified in the school's Progressive Discipline Plan (PDP). At times, some disciplinary actions may be used in conjunction with others. The due process rights of the individual will be honored in administering disciplinary and attendance procedures.

Expulsion

Denial of the opportunity to attend school for more than ten school days. This action can be administered only by the Superintendent with an appeal process to the Board of Education. No credit will be granted during the time of the expulsion, and credit will not be allowed to be made up.

Long Term Out-of-School Suspension (OSS)

Denial of the opportunity to attend school for more than ten school days but not exceeding ninety days. This action can be administered only by the Superintendent with an appeal process to the Board of Education. Student will receive full credit during the suspension. A parent conference is required before a student can return to school following a suspension.

Short Term Out-of-School Suspension (OSS)

Denial of the opportunity to attend school for one to ten school days. This action can be imposed by the Superintendent, Principal, or other person designated to be in charge of the school. Student will receive full credit during the suspension. A parent conference is required before a student can return to school following a suspension.

In-School Suspension (ISS)

Occurs when a student displays inappropriate behavior which is disruptive to the learning environment. This could include the classroom, hallways, lunch room, or other areas on school grounds. Student is expected to complete homework missed during ISS. Student will receive full credit during the suspension. Contact with other students will be limited while the suspension is served and all electronic devices will be removed from student possession unless they are necessary for coursework. In-School Suspension will be assigned by the Principal. Parents will be notified when In-School Suspension is assigned.

Permanent Removal from a Class

Occurs when a student violates safety procedures established for the class, when the student's misbehavior is serious (threatening to others either verbally or physically), or frequent (three or more times in a semester), or when a student does not put forth reasonable efforts to complete course requirements. When a student is permanently removed from a class he/she will be assigned to a study hall, or the student's class schedule may be adjusted to assign a partial school day, after which the student will be sent home. No credit will be granted for the class from which the student has been removed. This action may be administered only by the Principal. Parents will be notified when this action is taken.

Temporary Removal from a Class

Occurs when a student's behavior is in violation of classroom rules and is disruptive to classroom procedures. This action may be initiated by the teacher by sending a student to the office. Removal from class for a period of time of more than one class period will be administered cooperatively between the teacher and Principal. If a student has been removed from class for more than one class period, a conference between the student, teacher and Principal will be required before a student can return to the class. No credit will be granted during the time the student is removed from the class. Credit may be allowed to be made up at the discretion of the teacher. Parents will be notified if the student is removed for more than one class period and may be asked to attend a conference prior to the student's return to class.

Early Morning Detention

Will be held before school from 7:45 AM to 8:30 AM. Teachers and the Principal may assign Early Morning Detention for being late to class or for other violations of classroom or school rules. Failure to serve Early Morning Detention may result in the assignment of In-School Suspension or Out-of-School Suspension.

Classroom Detention

Classroom Detention is assigned by teachers and may be held before or after school for a period of time not to exceed 30 minutes per detention period. Teachers may also require a student to eat lunch in a noon detention. Classroom Detention must be served as assigned, or the student may be assigned three days of Early Morning Detention. Students are responsible for making whatever transportation arrangements necessary and may delay the Classroom Detention assignment to the next day as long as arrangements are made with the teacher in advance.

Notification of Parents

Classroom Instructors will notify parents about their child's misconduct or detention assignments when it becomes apparent they may need to become involved in support of the school or when their attendance at conferences is required. While it is best to notify parents in advance, with large numbers of both parents working during the day, telephone notification is difficult, if not impossible. When parents cannot be reached by telephone, a notice may be mailed to the student's home address or email notification may be utilized. Students, too, have a responsibility to inform their parents of disciplinary action taken as a result of their violations of rules and procedures or instances of misconduct.

ATTENDANCE

Mandatory Attendance

Education is a state function under the control of the state legislature. It is compulsory that all children from age six up to age eighteen regularly attend school. The basic responsibility for regular school attendance lies with the students and with their parents. It is the duty of the school officials to know the whereabouts of students during the school hours. Dell Rapids School District Board of Education lists "punctual and regular attendance" as a responsibility for all students.

There is much that happens during a class period which cannot be replicated. When students miss classroom instruction and presentations, discussions, time for guided practice, and classroom participation, they have missed learning opportunities. Students miss a vital part of their education when absent.

Predictably, according to the National Assessment of Educational Progress (2013), the students who missed the most school — particularly those absent for three or more days in the last month, the report's definition of poor attendance — had the lowest test scores.

After an absence, students are responsible to complete all make-up assignments. Two days will be allowed to make up work for every excused absence unless otherwise specified by a classroom teacher. Students may not receive full credit for being in class when they have not been in attendance.

Students will not be allowed to participate in or attend co-curricular activities if he/she has not attended all classes after 12:00 noon of the day of the event, unless special permission is obtained in advance from the Principal. Valid reasons for exceptions to this rule will include medical appointments, family emergencies or attendance at other scheduled school events. In the interest of student health and well-being, they will not be allowed to participate in or attend co-curricular functions if they have been too ill to attend school by the 12:00 noon deadline.

Closed School Day

Dell Rapids High School conducts a closed school day. Students may not be outside the building at any time during the day unless permitted by the Principal or accompanied by a teacher. **STUDENTS ARE NOT ALLOWED TO BE IN THE PARKING LOT OR AT THEIR CARS DURING THE SCHOOL DAY UNLESS IN POSSESSION OF A CAR PASS FROM THE OFFICE.** High School students who have been granted open lunch or open campus privileges will be exempt from the closed school day policy.

Tardiness to School

Students who arrive to their first class or study hall after the scheduled starting time for any reason other than school district provided transportation are recorded tardy. **All students who are tardy to school must report to the high school office. Parents will be notified of the tardy through Parent Portal.**

Students who are late to school will be assigned consequences in compliance with the Progressive Discipline Plan (PDP). All reasons for being late to school will be considered as unexcused unless verified by the parent or guardian in advance of arrival. If a student is more than twenty (20) minutes late to school, it will be recorded as either an excused or unexcused absence from that class. Parents will be notified each time a student is late via Parent Portal.

The school will accept only the following reasons for excused tardies:

- Illness of the student / student's family
- Family emergency
- Medical or dental appointment
- Court summons
- Religious observation/instruction
- Weather related reason
- School Reason (late bus / school-sponsored activity / pass from school official)

Tardiness to Class

Students who are late to class cause a disruption in the educational process; therefore, students should always do their best to be on time. Students who arrive at a class without a valid pass after the tone sounds signaling the beginning of the class period will be recorded as tardy. **The teacher will then assign detention before or after school in his/her room, and will notify his/her parents.** Students who are chronically late for class may be sent to the office with a Discipline Referral for Morning Detention and/or ISS. **If a student is more than twenty (20) minutes late to class, it will be recorded as either an excused or unexcused absence from that class.**

Absences

Any student missing **four or more** meetings of a specific class period, attendance in a term/quarter **may have credit for the class withheld.** Exceptions may be made for extenuating circumstances accompanied by appropriate and official documentation presented to the Principal.

- A student missing four to six absences may make up class time before or after school. This time must be made up, documented, and reported to the Principal by the last day of the term for which the absences were excessive.
- After six absences, the student will be dropped from the class and no credit will be given.

For Clarification:

- Students absent for medical / doctor appointments and court summons are only absent for a reasonable amount of time before and after the appointment. Full day absences are only excused if deemed necessary by medical professionals or court officials.
- School-sponsored activities do not count towards total number of absences.
- Absences due to prolonged illness, hospitalization, counseling, or a series of medical treatments may be counted as one absence (only if medical documentation supports this action).
- Absences due to bereavement or serious illness in the immediate family may be counted as one absence.
- All other absences will count as one-for-one days missed.
- A student may be excused for an exceptional reason with approval of Principal.
- **Special Note...** the school does not condone nor does it excuse students on a **“senior skip day.”** If students choose to be absent on such a day, documentation must accompany the parental excuse or the student will be counted unexcused and student consequences will be assigned.

Leaving School

If a student must leave school once the school day has begun, he/she must check out at the main office. **Students who leave school without checking out at the office will have their absence recorded as unexcused and will be subject to the rules and penalties for unexcused absences.** Students who know they must leave school early (i.e. medical appointment) should have their parents either call/email the office or provide a written note explaining and excusing the absence prior to leaving the building. Only students of majority age (18 years or older and not living at home or married) may excuse themselves for illnesses and appointments. Making arrangements in advance is the student's responsibility and is strongly encouraged.

When applicable, students enrolled in courses from another educational institution will be released from school for attendance at the other institution for a period of time that shall allow for travel and attendance. The principal shall determine the release and return time. A student released for attendance at another institution will be the sole responsibility of the parent/guardian and shall not be the responsibility of the school or its employees.

Returning to School

A student who has been absent for any reason other than for a school event must report to the office prior to attending any class or study hall. Teachers will not admit students to class after an absence without this documentation.

Students who return to school after an absence must have a written note or verbal confirmation from their parent

or guardian excusing the absence (making arrangements in advance is strongly encouraged). All absences not verified by student's parent or guardian will be considered **unexcused**. When a student absence is recorded as "**Unexcused**," he/she will not receive credit for the work. Parents will be notified of all "**Unexcused**" absences, and students will be required to serve Early Morning Detention or ISS as assigned by the Principal.

Lunch Hour

Students in grades 9 through 10 have a closed lunch. They are not to leave the school building at any time during their lunch hour. If a student must leave for a specific reason (and on a rare occasion), the student must have permission from a parent or the Principal. Students in grades 12 and 11 in good standing have an open lunch and are allowed to leave the building.

Permission to earn credit from courses not offered at DRHS must be obtained in advance from the Principal.

Students who have successfully earned the required credits (24 required and elective credits) will participate in the Graduation Exercises and earn a signed diploma. Grades and Report Cards

The school will report student progress via Parent Portal at each midterm and quarter of the school year. The high school grading scale is listed below:

Grade	Percentage	Grade Point		Grade	Percentage	Grade Point
A	95-100%	4.0		D	70.5-73.49%	1.0
A-	92.5-94.49%	3.67		D-	68-70.49%	0.67
B+	90-92.49%	3.33		F	0%-67.49%	0 GP
B	86.5-89.49%	3.0		I	Incomplete	0 GP
B-	83.5-86.49%	2.67		WP	Withdraw Pass	0 GP
C+	81.5-83.49%	2.33		WF	Withdraw Fail	0 GP
C	78.5-81.49%	2.0		WD	Withdraw Discipline	0 GP
C -	75.5-78.49%	1.67		P	Pass	0 GP
D+	73.5-75.49%	1.33				

An "I" may be recorded for "Incomplete" in the event course requirements are not complete. A grade of zero will be calculated with other grades earned for all incomplete work unless it is completed within ten days after the end of the grading period. The grade earned, with credit for work completed, or with zeros factored in for work not completed, will then be recorded for the grading period.

Parent Portal

Parents and students are able to check grades by using the Infinite Campus Parent Portal (http://dr-k12.org/parents_public/parent_portal). User names and passwords can be requested from the high school office.

Honor Roll

The Honor Roll is computed at the end of each grading period. Students are placed on one of three Honor Rolls:

Gold	3.75 – 4.00	Silver	3.4 – 3.74	Bronze	3.00 – 3.39
-------------	-------------	---------------	------------	---------------	-------------

No student will be included on any of the Honor Rolls if he/she has earned a grade lower than a C- or if he/she has and Incomplete (I) at the time the Honor Roll is calculated.

Adding and Dropping Course Work

Students may request permission to add or drop a class without penalty, provided the request is within the first two (2) days of the class. Students will be allowed to drop a course after the first two (2) days through midterm with a grade of WF or WP with the permission of parents, teacher, and an administrator.

After midterm of a term or skinny class, all drops will be an “F”, which will appear on their transcript and be included in their grade point average. Students must carry the required number of classes assigned to each grade

level. Extenuating circumstances may be considered by the Principal.

Withdrawal from School

Any student withdrawing from school must present a written note from his/her parents or guardian consenting to the withdrawal. He/she will be given a clearance slip in the office which must be returned once completed. A permission to transfer records sheet must be signed by a parent/guardian or the student if he/she is over 18. Documents will be sent directly from this school to the new school (not handed over to a student or parent).

Study Hall

Study Hall is selectively provided to give students an opportunity to study and complete assignments. All students are required to bring books and materials to study hall and to comply with all rules established by the study hall teachers. Students in study halls are subject to the same rules which govern behavior in classroom. Students having academic difficulty may be assigned to small group study hall at the Principal's discretion.

Homework

Homework is an important part of student life. It is very difficult to pass classes unless homework assignments are completed when due. Students at the high school level should expect to have some homework assigned to them each day. Many students report they need to schedule one to two hours daily to complete their homework assignments. **Homework assignments are due as assigned by the teacher. Homework turned in late may not be accepted, and students may receive no credit or a reduced amount of credit for work handed in late.** Participation in or attendance at school-sponsored functions is not a valid reason for not completing homework assignments. Students are responsible for completing homework with assistance from teachers and parents. Teachers will communicate with parents when a pattern of incomplete work is established by a student.

Guidance

The school has a full time guidance counselor who is available to help students with information about courses, scheduling, colleges, military service and other careers. The counselor is also available to assist students with personal problems. Students who would like to arrange for a meeting should do so before school, after school, or during study hall.

Discipline

Students at Dell Rapids High School are responsible for:

1. doing their best on all assigned school work.
2. bringing appropriate books, equipment and materials to each class period and study hall.
3. doing their own school work, not copying work from others, and not allowing others to copy work from them.
4. attending all classes regularly and on time.
5. respecting the rights of other students to attend school without classroom disruptions.
6. respecting the right of other students to attend school without fear of physical or verbal abuse.
7. following the rules and regulations governing conduct established by law, the Board of Education, the administration, and the teaching staff.

Students who continually display a lack of responsibility may be denied the opportunity to attend Dell Rapids Public High School.

The Board of Education may suspend or expel from school any student who is insubordinate or habitually disobedient, and the person in charge of the school may temporarily suspend any such students for a period of time not to exceed ten school days for each violation of school rules.

All school employees have a responsibility to maintain order and to enforce rules. In addition to their classrooms,

school employees have a responsibility to enforce school rules in all other areas of the school and at school events when present.

Classroom teachers have a variety of strategies to maintain proper order:

- Verbal reprimand
- Behavior plans to improve student conduct or approach to learning
- Parent notification via phone or email
- Classroom or office detention.
- Parent-Teacher Meeting and/or Conference
- Office referral

Students who misbehave or do not follow the rules will be subject to the actions outlined in the school's Progressive Discipline Plan (PDP).

Students must not use offensive language or gestures at any time in school, on school grounds, or while participating in or attending school sponsored events. In addition, student clothing must be free of any (overt or implied) references to offensive language or gestures. Violation of these rules will result in Detention, In-School Suspension (ISS), and/or Out-of-School Suspension (OSS).

Public Display of Affection (PDA)

All students are expected to refrain from unacceptable public displays of affection whether in school, on school grounds, on busses, or at any district sponsored event, on campus or elsewhere. Unacceptable public displays of affection include, but are not limited to, any prolonged embracing and/or kissing, inappropriate touching, and touching of a sexual nature. Unacceptable public displays of affection at school are in poor taste, disruptive to the educational environment, and may violate sexual harassment laws. Students who violate this policy may be subject to disciplinary action, counseling and/or parental intervention.

Sexual Harassment

It is the policy of the Dell Rapids School District that sexual harassment is illegal, unacceptable and shall not be tolerated; that no employee or student of the school district may sexually harass another. Any employee or student will be subject to disciplinary action including possible expulsion or termination for violation of this policy.

Student Bullying

DRHS is committed to maintaining a constructive, safe school climate which is conducive to student learning and fosters an environment in which all students are treated with respect and dignity. Persistent bullying can severely inhibit a student's ability to learn and may have lasting negative effects on a student's life. The bullying of students by students, staff or third parties is strictly prohibited and shall not be tolerated.

Bullying consists of physical, verbal, written, or electronic conduct directed toward a student that is so severe, pervasive and objectively offensive that it:

1. has the purpose of effecting or creating an intimidating, hostile, or offensive academic environment, or
2. has the purpose or effect of substantially or unreasonably interfering with a student's educational opportunities (academic, curricular activities, & social opportunities within the school environment).

This policy shall apply to persons on school property and at school activities and events on non-school property, including when the person is in any school vehicle or when in a private vehicle located on school property. The prohibition against bullying shall also apply to DRHS students when not on school property or at a school event off school property when the bullying conduct results in substantial interference with school work and discipline, or reasonably causes school authorities to forecast substantial disruption of or material interference with school activities.

DRHS students who violate this policy shall be subject to appropriate disciplinary action, up to and including expulsion.

Tobacco, Alcohol and Drugs

The use or possession of tobacco, any device or product that contains nicotine, a device that is used for inhaling or ingesting unless used for medicinal purposes with a prescription, alcohol or drugs in the school building, on the school grounds, in school vehicles, or at school events at home or away is strictly forbidden. Students who are in violation of the rules governing tobacco (and tobacco-like devices), alcohol, or drugs will

Electronic devices which have the capability to take photographs shall not be used for such purposes in locker rooms or restrooms at any time. Violation of this will result in severe consequences as established within the PDP.

Electronic devices can be disruptive to the learning environment and used for cheating. If students are observed using a cell phone or other electronic device without staff member permission during the school day, the item will be confiscated. If the student does not turn the device over, it will be viewed as insubordination. Permission may also be granted by administration or the secretary for use in the office. Lockers

Each student is assigned a locker at the beginning of the school year and may not change his/her locker assignment without permission from the Principal. Each locker has a combination lock with a combination known only to the student assigned that locker. Students must not share the locker combination with anyone. Students are to keep materials, books, supplies, and equipment locked in their lockers at all times when they are not in use. The locking mechanism on lockers must not be altered or prevented from working.

Lockers are the property of the school and are loaned to students for their use. Students are responsible for their proper use and care, and they may be assessed a fine for damages. School administrators have the responsibility to search lockers if there is any reason to believe they contain articles which violate the law, school rules, or pose a potential hazard to others.

Hallways

Students in hallways are subject to the same rules which govern behavior in classroom. Quiet and courteous behavior is expected.

The school maintains a well-stocked and equipped media center for student use. It is a place for study, research, or leisure. Materials may be loaned to students. Students are responsible for the prompt return of all materials checked out so others may benefit from them. Fines may be assessed for materials returned late, and replacement costs may be charged for materials damaged or lost.

All school dances will be properly chaperoned by class sponsors and other school personnel and must be approved by the Principal at least 6 weeks in advance. Students who leave the dance after they have paid will not be allowed to re-enter. Outside food or drink is not permitted. **The school dress code will be enforced.** Dances are for Dell Rapids High School students only. Any other persons wishing to enter the dance must have prior approval from the Principal.

The Dell Rapids School District strives to promote an atmosphere of mutual respect and an environment of safety for all students during all school activities, including school dances. Students will not be admitted into any school activity, including dances, if dressed inappropriately for the school function. Any student who alters his/her dress inappropriately during the dance will be asked to leave at the discretion of the Principal or his/her designee. Transportation To and From Events

Students traveling to a school-sponsored event in a school vehicle must return in the same vehicle unless permission is requested by parents to the sponsor of the activity or Principal before the vehicle departs. Students are required to travel to and from all events in school vehicles unless special arrangements have been made. Under no circumstances will students be given permission to travel with peers or anyone other than a parent or guardian. Students failing to cooperate with rules regarding transportation to and from events may be dropped from the activity.

Students must have their activity ticket with them when they attend events, or they will be charged the established entrance fee. Replacements for lost activity tickets may be purchased in the district office.

Fire, Tornado, and School Safety Drills

Fire, tornado, and school safety drills are important safety precautions. It is essential when the first signal is given, everyone obeys orders promptly and follows all directions. The teacher in each classroom will give specific instructions and students are expected to follow those instructions quickly and efficiently.

In addition to fires and tornados, there may be situations in which the school personnel may have reason to place security measures in place for the health, safety, or well-being of students and/or staff.

- **Stay Put** – there is no threat to the safety of students... students held in classrooms until notified.
- **Secured Perimeter** – threat is outside of our building... students held in the building until notified.
- **Lockdown** – imminent threat to the safety of students... students held in the building until notified.

School Health Policies

The Dell Rapids School District employs a full-time school nurse. If a student becomes ill or is hurt (outside of minor scrapes and bruises), the school will attempt to contact the parent(s)/guardian(s). If contact is not successfully made, the school will attempt to contact the person identified on the Student Health and Emergency Update form. For more serious injuries, an accident report will be completed.

Medication Sent to School

It is our hope that medication can and will be administered at home. Only professionally prescribed medicine by a doctor and filled by a pharmacy will be administered by the school. In the event that there is a need for the student to take medicine during the school day, the medicine must be brought to the office and administered by trained personnel. As described by Board of Education policy, the following procedures must be followed:

Medications required to be taken at school **must be** in a container from the pharmacy labeled with the student's name, name of medication, correct dose, time to be given, and doctor's name (no unlabeled medication will be given). Ask your pharmacist for a second container with the above information provided. Every medication must have a Medical Authorization Form with the student's name, medication name, dose, time to be given, and a parent's signature. No telephone permission will be allowed.

Only the School Nurse and those who have taken the medication administration course will be allowed to measure medications. If a liquid medication must be taken at school, it must be sent to school on a daily basis with only the amount to be given that day. The container will be returned to the student to be refilled for the next day. A small bottle with the correct label should be obtained from your pharmacist.

All scheduled II controlled substances, such as Ritalin and Dexedrine, must be brought to the school by the parents. Transportation of these medications by the student will not be allowed. Parents must bring in enough medication for one calendar month at the beginning of the month and the empty bottle will be sent home with the student at the end of the month for a refill.

Any health related service provided at the school, particularly physician prescribed services, may or may not be appropriate for the district to provide. Requests to determine if specific services are appropriate for the district to provide are made to the school nurse. Requests made to the nurse are subject to referral, review, and determination by the administration. Such services as medication and tube feedings fall under such review and determination.

The following rules shall apply:

- The district shall not provide medical diagnosis and treatment of illness by any school personnel including the school nurse. Medical diagnosis and treatment are not the responsibilities of the district and shall not be practiced by any school personnel.
- School personnel shall not provide aspirin or any other medication to students. The only exception to this rule shall be school personnel specifically designated by the school nurse and confirmed by the building Principal.

 - Medication shall be brought to school by the parent in a bottle, labeled by the pharmacy, including the student's name, medication name, physician and dosage of the drug to be taken.

- The medication shall be supervised and recorded immediately after being administered by trained school personnel as delegated and supervised by the school nurse.
- In specific situations, students may be responsible for their own medication and self- administration. Parents shall send only the medication needed for the day with the student.
- All medication not picked up by a parent by the last day of school will be destroyed.
- The need for other physician prescribed services shall be reported to the Principal and school nurse.
- Recording forms for physician prescribed services will be retained at school in a Health Services working file for a year and then destroyed. The Health Record for physician prescribed services other than oral, topical and inhalation medications will reflect that services were provided by a summary in the space provided for additional information. Records for services reimbursed by Medicaid will be retained for six years.

ACAA Sexual Harassment

It is the policy of the Dell Rapids School District that sexual harassment is illegal, unacceptable and shall not be tolerated; that no employee or student of the school district may sexually harass another. Any employee or student will be subject to disciplinary action including possible expulsion or termination for violation of this policy.

Definition of Sexual Harassment:

Unwelcome sexual advances; requests for sexual favors; or other verbal or physical conduct of a sexual nature may constitute sexual harassment when:

1. Submission to such conduct is made either explicitly or as a term or condition of a person's employment or educational development.
2. Submission to or rejection of such conduct by an individual is used as the basis for employment or conditions relating to employment or education decisions affecting such individual.
3. Such conduct has the purpose or effect of unreasonably interfering with an individual's work or educational performance or creating an intimidating, hostile, or offensive working or educational environment.

Responsibility:

School district officers, employees and students are responsible for maintaining a working and learning environment free from sexual harassment. Careful scrutiny will be undertaken of all allegations of sexual harassment. False allegations that are malicious or ill-founded may constitute libel or slander. Copies of the policy will be displayed throughout district facilities and will be available at all administrative offices.

Complaint Procedure:

Any employee who believes that he/she has been a subject of sexual harassment by a district employee or officer should report this incident immediately to his/her immediate supervisor. If the immediate supervisor is involved in the activity, the alleged violation should be reported to the supervisor's immediate supervisor. Students should report such incidents to the guidance counselor and/or the responsible administrator. Resolution of complaints or problems may be pursued informally or formally at the option of the person who feels he/she has been subject to sexual harassment.

If the guidance counselor receives a report of sexual harassment he/she may pass the report on to the building administrator. If the building administrator is involved in the activity, the alleged violation should be reported to the building administrator's immediate supervisor.

After receiving a complaint of sexual harassment, the grievance officer will attempt to resolve the problem in an informal manner through the following process (For purposes of clarity, the grievance officer shall be the supervisor or administrator receiving the complaint):

1. The grievance officer will confer with the charging party in order to obtain a clear understanding of that party's statement of the facts.
2. The grievance officer will then attempt to meet with the charged party in order to obtain his/her response to the complaint.
3. The grievance officer may hold as many meetings with the parties as is necessary to gather facts.
4. On the basis of the grievance officer's perception of the situation, he/she may:
 - a. Attempt to resolve the matter informally through conciliation.
 - b. Report the incident and transfer the record to the superintendent or his/her designee, and so notify the parties by certified mail.

After reviewing the record made by the grievance officer, the superintendent or designee may attempt to gather any more evidence necessary to decide the case, and thereafter impose any sanctions deemed appropriate, including a recommendation to the Board for termination or expulsion.

All matters involving sexual harassment complaints will remain confidential to the extent possible.

If an employee or student files a written complaint because of dissatisfaction with the handling of the complaint, he/she may utilize any applicable grievance procedure.

JFC Student Conduct

The Board of Education recognizes that acceptable behavior is essential to the development of responsible and self-disciplined citizens and to provide an effective school program. Positive behavior is based on respect for one's self and for the worth and human dignity of others. Development of such positive behavior in students is a dual function of the home and of the school.

The Board of Education requires that each student adhere to the rules of conduct and submit to corrective action taken as a result of conduct violations. The rules of conduct are applicable during the school day as well as during any school activity conducted on or off campus. Special rules are also applicable while riding on a school bus (see policy JFCC or EEACC).

Each student is responsible for the following areas if he/she is to receive an education in the Dell Rapids School District:

All students have individual responsibilities and obligations in their conduct towards other people and with respect to property.

Examples of student conduct on school grounds or at school activities which will subject a student to suspension, expulsion or other disciplinary action, and which may be reported to the legal authorities and subject to legal consequences, include, but are not limited to:

1. Intentionally or recklessly causing or attempting to cause damage to school property; or stealing or attempting to steal school property.

JFC Student Dress Code

The Board recognizes that it is the prerogative of parents to determine what is appropriate dress and grooming for their children in accordance with the age and grade of these students. It is hoped that decisions made by parents and students in these matters will reflect favorably upon the individual, the school, and the community.

There are certain restrictions necessary on a student's dress and grooming when such dress and grooming may create a health or safety hazard; invade the rights of others; or, be disruptive to the educational environment by detracting from the decency and decorum in school. These restrictions can be found in the student handbook for each building. It will be the responsibility of the building Principal to determine violations of the intent to this policy and to take necessary corrective action.

Students attending any of the schools in the Dell Rapids School District 49-3 or representing the school district at a school sponsored function will not be allowed to wear any articles of clothing which convey any message of profanity, or drug, alcohol or tobacco, are sexually suggestive, or display racial slurs.

JFCC Student Conduct on School Buses

Buses are provided for those students whose distance from school or health makes this service essential. Misconduct on buses will not be tolerated and will result in forfeiture of the privileges of riding.

Students are expected to discipline themselves and comply with the instructions of the bus operator. The driver will be in full charge of the bus and the passengers. There must be no disturbance of any kind that might distract the driver and imperil the safety of the passengers.

Students will observe the following rules of conduct while riding school buses:

1. Students must be on time at bus stops. Students should always be at the bus stop at least five minutes before the bus is scheduled to be there. Students should remain away from the roadway while awaiting the arrival of the bus.
2. The bus drivers shall not start the bus until all students are seated. While the bus is in motion all students must remain seated. When students are leaving the bus, they must wait until the bus comes to a complete stop before leaving their seats. This rule is critical to student safety and must be enforced.
3. Students must keep their hands, arms, and heads inside the bus at all times.
4. Students should not cross a highway before the bus arrives.
5. When leaving the bus, if it is necessary to cross the road, do not cross before the driver signals you to do so. Students should cross at least 10 feet in front of the bus and cross only after looking both ways to be sure no cars are approaching from either direction.
6. Bus drivers will not discharge students at any place other than the regular bus stop at home or at school without proper authorization from the parents or school officials.

7. The aisles must be kept clear. All articles such as athletic equipment, books and book bags, musical instruments, etc., must be kept out of the aisles.
8. Conversation must be carried on in a normal tone of voice. Shouting, screaming, running, fighting, vulgar language, and pushing are not permitted on the bus. When approaching a railroad crossing, absolute quiet is required.
9. It is against state laws to throw anything from a vehicle upon the streets or highways.
10. Students will not be destructive (removing screws from back of seats or cutting upholstery) as it could affect the safety of the bus. Any damage to the bus will be paid for by the rider or riders inflicting the damage and will be subject to suspension or expulsion from school.
11. The driver of the bus is in charge and must be obeyed.
 - a. In the event of road emergency, children are to follow the directions of the driver.
 - b. The bus driver is authorized to assign seats.
12. Drivers and students will treat each other with mutual respect. If a student becomes a problem the bus driver will assign the students to a seat and inform the student of what is expected of him or her. The driver will also inform the parents of his or her action and why it was necessary to take the action.

If the student continues to violate the bus regulation after he or she has been assigned a seat, the driver will report the violation to the appropriate Principal (Public or St. Mary's). The Principal will talk to the student and inform the parents of the rule violation, and will inform the parents that another violation will result in the student losing the bus privileges for the balance of the school year.

Students are expected to obey the rules or they will lose the privilege of riding the bus. Drivers are expected to enforce the rules or they will be replaced.

If the student is accepting treatment, the recommendation for expulsion may be commuted. Fees for this assessment and treatment are the responsibility of the student and the family.

The following procedures will be used in dealing with students supplying/distributing or selling chemical (drugs/alcohol) or material represented to be a controlled substance:

JO Student Records

Privacy of school records, as protected under law, continues to be an important issue facing education. Public law 93-380, to extend and amend the Elementary and Secondary Education Act of 1965, containing Section 513(a) known as the "Family Educational Rights and Privacy Act of 1974," was signed into law by President Ford on August 21, 1974, and became effective November 20, 1974. Full regulations were published in the Federal Register on June 17, 1976, effective immediately.

This law makes it necessary for schools to develop policies and procedures that insure parents and students the right to inspect and review any and all official records, files and data directly related to their children.

Student records are an essential part of the educational process. To serve this end, information about students as may be required by law, and considered necessary to achieve the educational goals and objectives as stated in the philosophy of the Dell Rapids School District, will be collected and maintained under the supervision of the certified staff. This collection, maintenance, accessibility, dissemination, retention, and confidentiality of such information will be controlled by procedures designed to enhance the primary task of the school while protecting individual student rights and preserving the confidential nature of the various types of records.

A parent of a student or a student may waive any of his/her rights by a written waiver signed by the parent or student, as appropriate. The school may request, but not require, such a waiver and it may be revoked by the student or parent at any time after he/she becomes an eligible student. Any revocation must be in writing.

It is the responsibility of the School Board to annually, through public notice, inform parents of students and eligible student of their right to inspect and review educational records. Requests for review must be directed to the student's building Principal.

Parents and students over 18 years of age are entitled:

1. To know the records that are kept;
2. To inspect and review the records or material that pertains to them or their offspring;
3. To receive a copy of the record;
4. To receive a response to a reasonable request for explanation and interpretation;
5. To challenge a record claimed to be inaccurate, false or misleading or otherwise in violation of the privacy or other rights of students, and to a hearing if, after review, no change is made;
6. To place a statement of rebuttal in the challenged record if not change is made;
7. To file a written complaint with the Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, D.C. 20202-5920, if they believe any of these rights are violated.

Students under 18 years of age are entitled to the same privileges as parents and students over 18 years of age. Public notice must also be made by the School Board of intent to disclose to the news media personally identifiable data designed as directory information.

The parent of a student or an eligible student may refuse to be personally identified in any or all of the information categories. Such refusal must be made in writing to the student's building Principal within fifteen (15) days after the notice is given.

The following information will be classified as "directory" information:

1. The student's name.
2. The student's address.
3. The student's phone number.
4. The student's date and place of birth.
5. The student's grade level.
6. The student's electronic mail address.
7. Dates of attendance.
8. Participation in officially recognized activities and sports.
9. Weight & height of members of athletic teams.
10. Degrees, honors, and awards received.
11. The most recent educational agency or institution attended.
12. The student's photograph.

KL Public Complaints and/or Concerns

Constructive criticism of the schools will be welcomed by the Board when it is motivated by a sincere desire to improve the quality of the educational program or to equip the schools to do their tasks more effectively. Persons wishing to submit official concerns or complaints relating to the School District, its policies, personnel or instructional materials should begin at the level closest to the source of the concern or complaint. KLC Public Complaints about the Curriculum or Instructional Materials

One of the most important goals of education is to help young people understand the diversity of viewpoints, religions, and cultures in the world and learn to make informed choices. An individual’s freedom to read and explore diverse ideas and viewpoints is guaranteed in the First Amendment to the Constitution of the United States. As expressed in the American Library Association’s Freedom to Read statement, “We believe that free communication is essential to the preservation of a free society and a creative culture.”

Despite careful review and selection of instructional materials, parents/guardians and/or students may occasionally have objections to materials that are used in the classroom or that are available through the school library or the school computer network.

When a student or parent/guardian feels significant sensitivity, embarrassment, or moral conflict with the ideas, language, and/or graphics presented in required instructional materials, he or she should express these concerns to the teacher and then the Principal. The teacher shall work with the parent/guardian and student as specified in Regulation KLC-R under the heading "Procedure for Requesting Alternatives to Required Instructional Materials."

If the parent/guardian or student feels that the required material is not appropriate for any student's use, the parent/guardian or student should follow the procedures specified in Regulation KLC-R under the heading "Procedure for Reconsideration of Curriculum Adopted Instructional Materials."

The building Principal shall review with the complainant the procedures for filing the complaint and shall provide the parent/guardian or student with the appropriate form to file a complaint.

A review of the material shall begin within ten (10) school days of the written complaint reaching the Superintendent, and all steps of the process shall be followed as spelled out in Regulation

Appendix B

Grievances for Discrimination Dell Rapids School District 49-3 Student Grievance Procedure and Policy for Discrimination

A grievance procedure is a means of inviting communication on matters of concern to the school and its students, short of their having to engage in disruptive behavior. The grievance procedure is not meant to lessen in any way the legal authority of the school officials to administer rules and regulations which govern student behavior.

A grievance is defined as a complaint lodged by a student with a member of the staff or administration alleging one or more of the following unfair practices: (1) that a school rule is unfair in that it hinders or obstructs students in pursuit of an education, (2) that a school rule or practice discriminates between students within the same grade, class, or activity, (3) that an unfair procedure has been used in arriving at a punishment.

Grievances are to be processed through three steps in the following order: A, to the counselor, B, to the building Principal, C, to the Superintendent. On all three levels an informal conference is to be held within five school days of the date of filing of the complaint so that no student complaint shall consume more than twenty-one school days in all. The burden of proof is on the student to show that a rule is unfair, discriminatory, or that an unfair procedure has occurred.

Grievance Procedure

A grievance should be presented in writing within five school days of the occurrence of the alleged unfair practice to:

Level 1: School Counselor: The school counselor will schedule with the grievant an informal discussion of said grievance within five school days of the date of filing. It is expected that many grievances may be resolved at this level.

Level 2: Building Principal: If a student is not satisfied with the resolution made at level one, the student may appeal in writing to the building Principal for an informal conference and discussion of said grievance. Said appeal must occur within three school days of the resolution made at level one.

Level 3: Superintendent: If a student is not satisfied with the resolution made at level two, the student may appeal in writing to the superintendent for an informal conference and discussion of said grievance. The decision at this level is considered final. The final resolution of the grievance at this level is to be in writing.

The student may be represented at each conference by an adult, but the student must be present to elaborate on the grievance at the given time and place of the conference. Failure to appear at the appointed time and place waives the grievant's right to the conference at each level and succeeding levels, unless extenuating circumstances make it impossible for the student to appear. Unexcused absences are not considered an extenuating circumstance.

Discrimination Grievance Form

A grievance is defined as a complaint in writing presented by a student to the school staff/authorities alleging one or more of the following:

- A. That a rule is unfair in that it hinders or obstructs students in pursuit of an education.
- B. That a rule in practice discriminates between students within the same grade, class, or activity.
- C. That school personnel used an unfair procedure in assessing a form of punishment.

Dell Rapids School District Code of Conduct for Students in SDHSAA Activities

Student participation in SDHSAA and DRSD sponsored activities (hereafter referenced as “activities”) is a privilege, not a right. Students who choose to participate in activities are expected to positively represent their school by demonstrating appropriate behavior year round and also by adhering to the following training rules.

Any middle school or high school student wishing to participate in school activities must adhere to the following training rules. Students cannot:

- **possess, sell, dispense, or use tobacco.**
- **possess, sell, dispense, or use a controlled or mood-altering substance, such as steroids, marijuana, inhalants, alcohol and other drugs.**
- **commit any crime against a person or against property.**

These training rules will be enforced year-round regardless of whether or not the student is participating in an activity at the time. Students who violate these rules will be ineligible to participate according to the activity consequences listed below.

School District Consequences for Violations:

1. **First Violation:** The student will be suspended for ten percent of the regular scheduled season during the season in which they are a participant* or the upcoming activity season in which they would be a participant. The number of suspended events may carry over into the next season that the student is a participant.
2. **Second Violation:** The student will be suspended for forty percent of the regular scheduled season during the season in which they are a participant* or the upcoming activity season in which they would be a participant. The number of suspended events may carry over into the next season that the student is a participant.
3. **Third Violation and every subsequent violation:** The student will not participate in any activity for twelve calendar months. The student will not be eligible for activity awards during the twelve-month period.

* Student being deemed a participant in an activity will be determined by the High School Principal, High School Activities Director, and applicable coach(es). Examples include but are not limited to student manager, set designer, and videographer.

School District Rules Regarding Violations:

1. Student conduct rules and training rules for students will begin on the first day of class (or activity, if the activity starts before the first day of class) of student’s seventh grade or the first day of enrollment to the district after that time.
2. Conduct violations accumulate over a student’s 7-12 grade middle school and high school career; however, students who have had only one violation and then remain violation-free for twelve consecutive months from the date of the last violation, start over with a clean record. This opportunity applies only once during a student’s 7-12 grade school career.
3. The consequences listed above are minimums only. The Activities Director, Principal, Superintendent and/or School Board may prohibit participation from activities for a greater period of time and/or impose penalties in addition to suspension from the activity.

4. If the violation occurs at school, at a school event, on school property, or while under the supervision of the activity advisor, the district rules of student conduct and discipline will also be applied.
5. The following steps will be taken when suspending a student from an activity:
 - a. The Activities Director and/or Principal will inform the student of the rule, regulation, or policy which has been allegedly violated and how the rule, regulation or policy was allegedly violated.
 - b. The student will be given an opportunity to answer the charges and present evidence on his or her behalf.
 - c. The Activities Director and/or Principal will render a decision as soon as possible after reviewing the case and inform the student and student's parents of the decision.
 - d. Upon suspending a student the Activities Director and/or Principal will provide oral or written notice of the suspension to the student's parent(s) or guardian(s).
6. In the event the student or parents believe that the student has been suspended from an activity without just cause, the student or parent may appeal the decision within five school days to the Superintendent or Superintendent's designee. The Superintendent or designee has five school days to respond to the appeal. The student will remain ineligible during the appeal process. Should the parent or student disagree with the Superintendent's or Superintendent's designee's decision, the parent or student may appeal the decision within five school days to the Board of Education. The School Board will schedule an executive session at the next regularly scheduled school board meeting, at which time the student, parent, and such other persons as may be deemed necessary must be present, and the Board will address the appeal.
7. Suspension begins with the date the student is informed by the Activities Director of the suspension.
8. Evidence of a violation may be the result of:
 - a. information received from law enforcement or court services personnel provides reasonable cause to believe that an infraction has occurred.
 - b. a student found guilty, pled guilty, or enters a no contest plea in either Juvenile Court or Adult Criminal Court.
 - c. a self-reported violation by either the parent or student.
 - d. an observed violation reported by a staff member.
 - e. an observed violation reported by a person not a school district employee, provided the information has been verified to the satisfaction of the Activities Director.
9. Students with pre-existing training rule violations will be allowed to join an activity once its first official day of practice (as outlined by the SDHSAA Calendar) has passed or has not passed. However, if they join an activity already in progress, the penalty/suspension from contests will be determined by the Athletic Director and coaches involved. Students must complete that activity in good-standing of that activity's head coach in order for suspensions served to be binding (if allowed to be served during that activity) and not carry over to the next season.
10. Students in violation of activity rules during their season of participation will not be eligible for any district post-season or year-end awards.
11. Students serving in-school or out-of-school suspension may not be eligible to participate in activity events on days they are suspended. This will be determined by the High School Principal and Athletic Director.

State Law Violation and Consequences Pursuant to SDCL 13-32-9:

In addition to school district consequences, state law (SDCL 13-32-9) can also result in the student not being able to participate in any activity sanctioned by the South Dakota High School Activities Association (SDHSAA). SDCL 13-32-9 requires:

- **First Violation:** SDCL 13-32-9 states that any person adjudicated, convicted, the subject of an informal adjustment or court approved juvenile diversion program, or the subject of a suspended imposition of sentence for possession, use, or distribution of controlled drugs or substances or marijuana as defined in SDCL 22-42, or for ingesting, inhaling, or otherwise taking into the body any substances as prohibited by SDCL 22-42-15, is ineligible to participate in any extracurricular

activity at any secondary school accredited by the DOE for one calendar year from the date of adjudication, conviction, diversion, or suspended imposition of sentence. The one year suspension may be reduced to thirty calendar days (which must include two SDHSAA sanctioned events) if the person participates in an assessment with a certified chemical dependency counselor or completes an accredited intensive prevention or treatment program. If the assessment indicates the need for a high level of care, the student is required to complete the prescribed program before becoming eligible to participate in extracurricular activities. In order for events to count toward the minimum number of events for which the student is ineligible following a reduction in the suspension, the student must participate in the entire activity season.

- **Second Violation:** SDCL 13-32-9 states that any person adjudicated, convicted, the subject of an informal adjustment or court approved juvenile diversion program, or the subject of a suspended imposition of sentence for possession, use, or distribution of controlled drugs or substances or marijuana as defined in SDCL 22-42, or for ingesting, inhaling, or otherwise taking into the body any substances as prohibited by SDCL 22-42-15, is ineligible to participate in any extracurricular activity at any secondary school accredited by the DOE for one calendar year from the date of adjudication, conviction, diversion, or suspended imposition of sentence. The one year suspension may be reduced to sixty calendar days (which must include six SDHSAA sanctioned events) if the person participates in an assessment with a certified chemical dependency counselor or completes an accredited intensive prevention or treatment program. If the assessment indicates the need for a high level of care, the student is required to complete the prescribed program before becoming eligible to participate in extracurricular activities. In order for events to count toward the minimum number of events for which the student is ineligible following a reduction in the suspension, the student must participate in the entire activity season.
- **Subsequent Violation:** SDCL 13-32-9 states that upon a subsequent adjudication, conviction, diversion, or suspended imposition of sentence for possession, use or distribution of controlled drugs or substances or marijuana as defined in SDCL 22-42, or for ingesting, inhaling, or otherwise taking into the body any substances as prohibited by SDCL 22-42-15, by a court of competent jurisdiction, that person is ineligible to participate in any extracurricular activity at any secondary school accredited by the Department of Education.

[The school will not reduce twelve-month suspensions from activities of students who have a second or third adjudication, conviction, diversion, or suspended imposition of sentence for possession, use, or distribution of controlled drugs or substances or marijuana as defined in SDCL 22-42, or for ingesting, inhaling, or otherwise taking into the body any substances as prohibited by SDCL 22-42-15.]

School District Rules Regarding Violations:

1. Student Code of Conduct will begin on the first day of class of student's ninth grade or the first day of enrollment to the district after that time.
2. Conduct violations accumulate over a student's high school career; however, students who have had only one violation and then remain violation-free for twelve consecutive months from the date of the last violation, start over with a clean record. This opportunity applies only once during a student's high school career.
3. If the Conduct violation occurs at school, at a school event, on school property, or while under the supervision of the activity advisor, the district rules of student conduct and discipline (PDP) will also be applied. If the student is also in SDHSAA and DRSD sponsored activities, the District's Code of Conduct for Students in SDHSAA and DRSD sponsored activities will be applied separately and in addition to this policy.
4. The following steps will be taken when assigning school service:
 - a. The Activities Director and/or Principal will inform the student of the rule, regulation, or policy which has been allegedly violated and how the rule, regulation or policy was allegedly violated.
 - b. The student will be given an opportunity to answer the charges and present evidence on his or her behalf.

- c. The Activities Director and/or Principal will render a decision as soon as possible after reviewing the case and inform the student and student's parents of the decision.
 - d. Upon assigning school service time to a student, the Activities Director and/or Principal will provide oral or written notice to the student's parent(s) or guardian(s).
5. In the event the student or parents believe that the student has been assigned school or community service time without just cause, the student or parent may appeal the decision within five school days to the Superintendent or Superintendent's designee. The Superintendent or designee has five school days to respond to the appeal. Should the parent or student disagree with the Superintendent's or Superintendent's designee's decision, the parent or student may appeal the decision within five school days to the Board of Education. The School Board will schedule an executive session at the next regularly scheduled school board meeting, at which time the student, parent, and such other persons as may be deemed necessary must be present, and the Board will address the appeal.
6. Evidence of a violation may be the result of:
 - a. information received from law enforcement or court services personnel provides reasonable cause to believe that an infraction has occurred.
 - b. a student found guilty, pled guilty, or enters a no contest plea in either juvenile court or adult criminal court.
 - c. a self-reported violation by either the parent or student.
 - d. an observed violation reported by a staff member.
 - e. an observed violation reported by a person not a school district employee, provided the information has been verified to the satisfaction of the Activities Director.

Student Conduct for Eligibility/Activities (9-12)

Grade/Eligibility for activities will be determined at the midterm and end of each quarter/semester. In order to be eligible, a student must pass all of his/her academic courses. Should a student become ineligible at midterm by receiving a failing grade in one or more courses, he/she won't be allowed to participate in activities for a period of one week or one contest, whichever is greater, effective the Monday after midterm grades have been submitted. If he/she is still receiving a failing grade after one week, he/she will become ineligible for an additional week or contest. Ineligibility will continue until a student can maintain a passing grade in all courses. Students can regain eligibility by showing evidence of a passing grade to the principal or activities director. Students will then become eligible the following Monday after proof of passing all courses. The minimum requirement for ineligibility is one full week or one contest. If a student receives a failing grade in a course(s) for a quarter or semester, he/she will become ineligible for two weeks or two contests, whichever is greater. All SDHSAA requirements and policies must also be met. Students will still be allowed to practice during a period of ineligibility.
