Cookies are Sweet, but Kindness is Sweeter!

We caught a lot of kids being kind last week! We are looking forward to more kindness this week. Our kids are AWESOME!

Family Night

We hope you can join us for family night on September 14th from 6:00-7:00. We have been gathering lots of information from you, our staff, and our kids to help us set our school goals for the year. We would like to get your input on our goal recommendations and share ideas about how we can work together to help our kids reach the goals. Please come! Our sixth graders are working on a service learning project. They hope to be ready to launch a goodie sale during our family night to support the hurricane relief efforts. We will share more info with a flyer home when the details are in place.

Attendance Policy

It is really important for our students to be at school every day. We are doing lots of great learning and building important relationships at school. If your child must be absent, a phone call or note must be received at the school from the parent excusing the child. Students missing excessive days of school will be issued a citation which will mandate that the student and parent appear in front of the North Canyon Consolidated Court in Colorado City, AZ. The student could be in risk of retention in their current grade level. Watch for a yellow flyer with more details. Also, watch for a yellow form for both you and your child to sign. Thank you for your support with this. To keep things positive and proactive, we will be honoring students with perfect attendance every month during our monthly award assembly. Thank you!

Math SMAD Program

Please watch for a red flyer this week that explains our new math facts program. We will answer any questions you have at our family night. Thanks!
