

EMI Health is excited to partner with Davis School District employees as the vision carrier for the 2024 plan year! Your vision network through EMI is through VSP Choice which is the largest network of independent doctors in the country.

Network

In-Network: VSP Choice Plus network gives access to over 50,000 providers nationwide; paneled providers include Visionworks, Costco, Walmart, Sam's Club and private practitioners. In addition to store locations, In-Network vision benefits can also be used online through Eyeconic, VSP's online retailer. In-Network providers offer lenses, frames, and contact benefits at the point of service.

- Veterans, First Responders, Seniors, Teachers, and Students all save 10% on purchases made through Eyeconic
- Some In-Network locations are labeled as a "**Premier Edge**" provider. These provider locations deliver several value-added benefits:
 - Up to \$100 rebate on glasses and up to \$310 rebate on contact lenses
 - Eyewear guarantees: if a featured frame brand is purchased and is accidentally broken or damaged, return to your Premier Edge provider within first 12 months for a replacement frame at no charge (\$40 processing fee applies to new lenses if needed)

Out-of-Network: For any benefits received outside of VSP's panel of providers a reimbursement claim form would need to be submitted.

Benefit

Through your EMI/VSP vision plan your frame and contact allowances vary based on provider, to ensure you receive the maximum possible benefit.

- Your lens/frames/contact allowance resets every January 1, regardless of the date of service.

Frames

- Costco/Sam's Club/Walmart provider frame allowances are based off **wholesale pricing**. You have a \$70 frame allowance at these providers but that is not based off the sticker price-it is based off a negotiated rate at which that provider can charge for the frame. Due to those providers negotiating power their wholesale rates can be lower than other retail locations.
- Visionworks and other contracted provider frame allowances are \$130 based off **retail pricing**. This is based on the sticker price-it's important to shop around to get the best price for your allowance.
