ATTENDANCE OPTIONS/PERMITS – EC 48980(h)

Residency Requirements – EC 48200, 48204, and 48204.3

A minor between the ages of 6 and 18 years is subject to compulsory education and, unless exempted, must enroll in school in the school district in which the residence of either the parent or legal guardian is located.

A pupil may alternatively comply with the residency requirements for school attendance in a school district, if he or she is any of the following: placed in a foster home or licensed children’s institution within the boundaries of the school district pursuant to a commitment of placement under the Welfare and Institutions Code; a pupil who is a foster child who remains in his or her school of origin; a pupil who lives in the home of a caregiving adult that is located within the boundaries of the school district; or a pupil residing in a state hospital located within the boundaries of the school district; or a pupil whose parent is transferred or is pending transfer to a military installation within the state while on active military duty pursuant to an official military order.

Intradistrict Transfers – EC 35160.5(b)

Residents of the School District may apply to other schools within the District for their child to attend on a space available basis. Information on each school within the District and application materials are provided on the District website. Transportation to any other school is the responsibility of the parent. For further information please contact your school site.

Interdistrict Attendance – EC 46600 *et seq.*

The parent or legal guardian of a pupil may seek release from the home district to attend a school in any other school district. School districts may enter into agreements for the interdistrict transfer. The agreement must specify the terms and conditions for granting or denying transfers, and may contain standards of reapplication and specify the terms and conditions under which a permit may be revoked. Unless otherwise specified in the agreement, a pupil will not have to reapply for an interdistrict transfer, and the school board of the district of enrollment must allow the pupil to continue to attend the school in which he/she is enrolled.

The parent or legal guardian of a pupil may seek release from the school district of residence to attend a school in any other school district. School districts may enter into agreements for the interdistrict transfer of one or more pupils for a period of up to five years. The agreement must specify the terms and conditions for granting or denying transfers, and may contain standards of reapplication and specify the terms and conditions under which a permit may be revoked. Unless otherwise specified in the agreement, a pupil will not have to reapply for an interdistrict transfer, and the school board of the district of enrollment must allow the pupil to continue to attend the school in which he/she is enrolled.

Regardless of whether an agreement exists or a permit is issued, the school district of residence cannot prohibit the transfer of a pupil who is a child of an active military duty parent to a school district of proposed enrollment if that district approves the application for transfer. Nor may a district prohibit an interdistrict permit release when no intradistrict permit options are available to a victim of bullying. “Bullying” means any severe or pervasive physical or verbal communication made in writing or by means of an electronic act directed toward one or more pupils that results in placing a reasonable person in fear of harm of self or property. It may cause a substantially detrimental effect on physical or mental health, interfere with academic performance or the ability to participate in or benefit from the services, activities, or privileges provided by a school, and may be done in person or online. Bullying may be exhibited in the creation or transmission of bullying online, on or off the school site, by telephone or other device in a message, text, sound, video, or image in a post on a social network internet website or burn page that creates a credible impersonation of another student knowingly and without consent for the purpose of bullying. Sharing or forwarding messages contributes to the act of bullying.

A student who is appealing a decision for an interdistrict permit approval through the County Office of Education may be eligible for provisional admission to the desired district in grades TK through 12, while continuing through the process of appeal, if space is made available by the desired district, not to exceed two months.

A pupil who has been determined by personnel of either the school district of residence or the district of proposed enrollment to have been the victim of an act of bullying, as defined in EC 48900(r), shall, at the request of the parent or legal guardian, be given priority for interdistrict attendance under any existing agreement or, in the absence of an agreement, be given additional consideration for the creation of an interdistrict attendance agreement.

Each school district shall post their interdistrict policy agreements and local district caps on their district and/or school websites. Reasons for approval and denial of interdistrict transfer requests must be updated on the district website according to board policies. The County appeals process will be offered with the final denial in writing by the school district. The County appeal process may take up to a maximum of two months. If you have any questions about the interdistrict process *please call the Enrollment Department at the district office at (650) 312-7345.*

Intradistrict Choice – EC 35160.5(b)

Residents of the school district may apply to other schools that serve the same grade levels within the district. *[Insert information regarding the process, including, but not limited to, timelines, application requirements, priority enrollment, and criteria for selection.]* No pupil who currently resides in the attendance area of a school can be displaced by pupils transferring from outside the attendance area. Students who are a victim of bullying shall be allowed an intradistrict permit to transfer if space is available at the same grade level. If there is no “intra-district” space to attend, the student may seek an “inter-district” permit to another district without any delay in release from the home district, but it does not guarantee entrance to an outside district. The process to enter another school district will be according to the desired district’s transfer policies. “Bullying” means any severe or pervasive physical or verbal communication made in writing or by means of an electronic act directed toward one or more pupils that results in placing a reasonable person in fear of harm of self or property. It may cause a substantially detrimental effect on physical or mental health, interfere with academic performance or the ability to participate in or benefit from the services, activities, or privileges provided by a school, and may be done in person or online. Bullying may be exhibited in the creation or transmission of bullying online, on or off the school site, by telephone or other device in a message, text, sound, video, or image in a post on a social network internet website or burn page that creates a credible impersonation of another student knowingly and without consent for the purpose of bullying. Sharing or forwarding messages contributes to the act of bullying.

Residency Investigations – EC 48204.2

If a school district elects to undertake an investigation, as specified, require the governing board of the school district to adopt a policy regarding the investigation of a pupil to determine whether the pupil meets the residency requirements for school attendance in the school district before investigating any pupils. Requires the policy to, among other things, identify the circumstances upon which the school district may initiate an investigation, describe the investigatory methods that may be used, including whether the school district will be employing the services of a private investigator, prohibit the surreptitious photographing or video-recording of pupils who are being investigated, as provided, and provide for an appeal process, as specified. Requires the policy to be adopted at a public meeting of the governing board of the school district.

AVAILABILITY OF PROSPECTUS – EC 49063, 49091.14

It is intended to ensure that pupils in grades 7-8 are provided with the knowledge and skills necessary to: 1) protect their sexual and reproductive health from HIV, other sexually transmitted infections, and unintended pregnancy; 2) develop healthy attitudes concerning adolescent growth and development, body image, gender, sexual orientation, relationships, marriage, and family; and 3) have healthy, positive, and safe relationships and behaviors. CALIFORNIA LAW REGARDING SAFE STORAGE OF FIREARMS – PC 25100-25125; 25105; 25205 & CC 17143

To help everyone understand their legal responsibilities, this memorandum spells out California law regarding the storage of firearms. Please take some time to review this memorandum and evaluate your own personal practices to assure that you and your family are in compliance with California law.

- California makes a person criminally liable for keeping a loaded firearm, under their custody and control, where that person knows or reasonably should know that a child is likely to gain access to the firearm without the permission of the child’s parent or legal guardian and the child obtains access to the firearm and thereby:

- (1) causes death or great bodily injury to the child or any other person;
- (2) carries the firearm to a public place, including to any preschool or school grades kindergarten through twelfth grade, including to any school-sponsored event, activity, or performance; or
- (3) brandishes a firearm to others. The criminal penalty may be greater if someone dies or suffers great bodily injury as a result of the child gaining access to the firearm.¹

- As of 2014, California makes a person criminally liable if they negligently store or leave any loaded firearm on their premises where a child is likely to gain access to it—regardless of whether or not the child brings the gun to a public place.¹

- A parent or guardian may also be civilly liable for damages resulting from the discharge of a firearm by that person’s child or ward. These damages may be up to \$30,000 per victim.

- Gun owners may avoid criminal liability under California Penal Code Section 25100 by keeping their firearm in a locked container or secured with a locking device that renders the firearm inoperable.

- Thank you for helping to keep our children and schools safe. Remember that the easiest and safest way to comply with the law is to keep firearms in a locked container or secured with a locking device that renders the firearm inoperable.

CAREER COUNSELING & COURSE SELECTION – EC 221.5(d)

Commencing grade 7, school personnel shall assist pupils with course selection or career counseling, exploring the possibility of careers, or courses leading to careers based on the interest and ability of the pupil and not on the pupil’s gender. Parents or legal guardians are notified so that they may participate in such counseling sessions and decisions.

A school district, *charter school, or private school* that elects to offer *an athletic program* must immediately remove from a school-sponsored athletic activity for the remainder of the day a student who is suspected of sustaining a concussion or head injury during that activity. The student may not return to that activity until he or she is evaluated by, and receives written clearance from, a licensed health care provider. If the licensed health care provider determines the athlete has a concussion or head injury, the athlete shall also complete a graduated return-to-play protocol of no less than 7 days in duration under the supervision of a licensed health care provider. On a yearly basis, a concussion and head injury information sheet must be signed and returned by the student and the student’s parent or guardian before the *student initiates* practice or competition. Should any such situation become a disruption to the school, law enforcement will be contacted and an officer requested to intervene. GUN-FREE SCHOOL ZONE – PC 626.9 AND 30310

Recasts the provisions relating to a person holding a valid license to carry a concealed firearm to allow that person to carry a firearm in an area that is within 1,000 feet of, but not on the grounds of, a public or private school providing instruction in kindergarten or grades 1 to 12, inclusive. This update deletes the exemption that allows a person holding a valid license to carry a concealed firearm to bring or possess a firearm on the campus of a university or college. Creates an additional exemption from those prohibitions for certain appointed peace officers who are authorized to carry a firearm by their appointing agency, and an exemption for certain retired reserve peace officers who are authorized to carry a concealed or loaded firearm.

Recognizes those exceptions: deletes the exemption that allows a person to carry ammunition or reloaded ammunition onto school grounds if the person is licensed to carry a concealed firearm. Creates an additional exception to that prohibition by authorizing a person to carry ammunition or reloaded ammunition onto school grounds if it is in a motor vehicle at all times and is within a locked container or within the locked trunk of the vehicle.

GUN SAFETY – EC 49390, 48391, 49392

Section 48986 requires parents and guardians are informed annually that firearms are to be safely stored away from children and teens. The accidental shooting of children and youth is the third leading cause of death following accidents and suicides. All K-12 California public schools are mandated to inform families to keep their children safe from such fire arm potential dangers. If there is a threat, then the public schools will cooperate with local law enforcement to conduct an immediate threat assessment. It is our collective responsibility to ensure that students, staff, families, and communities are as prepared and safe as possible. Thank you for your attention and commitment to school safety. A pupil who chooses to refrain from participation in an education project involving the harmful or destructive use of an animal may receive an alternative education project, if the teacher believes that an adequate alternative education project is possible. The teacher may work with the pupil to develop and agree upon an alternative education project so that the pupil may obtain the knowledge, information, or experience required by the course of study in question.

IMMUNIZATIONS – HSC 120325, 120335, 120338, 120365, 120370, AND 120375

Students must be immunized against certain communicable diseases. Students are prohibited from attending school unless immunization requirements are met for age and grade. The school district shall cooperate with local health officials in measures necessary for the prevention and control of communicable diseases in school age children. The district may use any funds, property, or personnel and may permit any person licensed as a physician or registered nurse to administer an immunizing agent to any student whose parents have consented in writing.

Beginning January 1, 2016, parents of students in any school, will no longer be allowed to submit a personal beliefs exemption to a currently required vaccine. A personal beliefs exemption on file at school prior to January 1, 2016 will continue to be valid until the student enters the next grade span at kindergarten (including transitional kindergarten) or 7th grade.

Students are not required to have immunizations if they attend a home-based private school or an independent study program and do not receive classroom-based instruction. However, parents must continue to provide immunizations records for these students to their schools. The immunization requirements do not prohibit students from accessing special education and related services required by their individualized education programs.

A student not fully immunized may be temporarily excluded from a school or other institution when that child has been exposed to a specified disease and whose documentary proof of immunization status does not show proof of immunization against one of the communicable diseases described above.

State law requires the following immunizations before a child may attend school:

- (a) All new students, in transitional kindergarten through grade 8, to the San Mateo Foster City School District must provide proof of polio, diphtheria, pertussis, tetanus, measles, and mumps, rubella, and varicella immunizations.

SUDDEN CARDIAC ARREST – EC 33479 *et seq.*

Sudden cardiac arrest (SCA) is when the heart stops beating, suddenly and unexpectedly. When this happens, blood stops flowing to the brain and other vital organs. SCA is not a heart attack; it is a malfunction in the heart's electrical system, causing the victim to collapse. The malfunction is caused by a congenital or genetic defect in the heart's structure. SCA is more likely to occur during exercise or sports activity, so athletes are at greater risk. These symptoms can be unclear and confusing in athletes. Often, people confuse these warning signs with physical exhaustion. If not properly treated within minutes, SCA is fatal in 92 percent of cases. In a school district, charter school, or private school that elects to conduct athletic activities, the athletic director, coach, athletic trainer, or authorized person must remove from participation a pupil who passes out or faints, or who is known to have passed out or fainted, while participating in or immediately following an athletic activity. A pupil who exhibits any of the other symptoms of SCA during an athletic activity may be removed from participation if the athletic trainer or authorized person reasonably believes that the symptoms are cardiac related. A pupil who is removed from play may not return to that activity until he or she is evaluated by, and receives written clearance from, a physician or surgeon. On a yearly basis, an acknowledgement of receipt and review of information regarding SCA must be signed and returned by the pupil and the pupil's parent or guardian before a pupil participates in specific types of athletic activities which generally does not apply to those conducted during the regular school day or as part of a physical education course.

SUICIDE PREVENTION POLICIES – EC 215

Student suicide rates are of concern to all members of the school community. One child, ages 12 and older, dies by suicide every five days in California. Local Districts were required by California law to provide suicide prevention education, according to age-appropriate and sensitive local policies, for grades 7 to 8. Legislators have determined that training in mental health and coordination around improved services is extended to our elementary students. A shared goal by all staff educators is to keep a safe place to learn, free from harm to any of our students.

SURVEYS – EC 51513

Anonymous, voluntary and confidential research and evaluation tools to measure student's health behaviors and risks, including tests, questionnaires, and surveys containing age-appropriate questions about the student's attitudes and practices relating to sex, family life, morality, and religion may be administered to students if the parent is notified in writing that 1) this test, questionnaire, or survey is to be administered, 2) the student's parent is given the opportunity to review the test, questionnaire, or survey, and 3) the parent consents in writing. Questions pertaining to the sexual orientation and gender identity of a student shall not be removed from a survey that already includes them.

TITLE IX – EC 221.61

Title IX of the Education Amendments of 1972 is one of several federal and state anti-discrimination laws that ensure equality in educational programs and activities that receive federal funding. Specifically, Title IX protects male and female pupils and employees, as well as transgender pupils and pupils who do not conform to sex stereotypes, against discrimination based on sex, including sexual harassment. California law also prohibits discrimination based on gender, gender expression, gender identity, and sexual orientation. Under Title IX, pupils may not be discriminated against based on their parental, family, or marital status, and pregnant and parenting pupils may not be excluded from participating in any educational program, including extracurricular activities, for which they qualify. WILLIAMS COMPLAINT POLICY & PROCEDURE – EC 35186

Every school must provide sufficient textbooks and instructional materials. Every student, including English learners, must have textbooks or instructional materials, or both, to use at home or after school. School facilities must be clean, safe, and maintained in good repair. There should be no teacher vacancies or misassignments. If a school is found to have deficiencies in these areas, and the school does not take corrective action, then a complaint form may be obtained at [the school office](#). Parents, students, teachers or any member of the public may submit a complaint regarding these issues. However, it is highly encouraged that individuals express their concerns to the school principal before completing the complaint forms to allow the school to respond to these concerns. SAN MATEO FOSTER CITY SCHOOL DISTRICT 2023-2024 INTERNET SAFETY FOR STUDENTS

Dear Parents and Guardians:

The San Mateo Foster City School District prides itself on providing a safe learning environment for its students. An emerging national concern is the inappropriate use of the Internet by students. This problem has the potential to be harmful, and we ask your support in assisting us with this challenge.

Across the nation, schools have seen an increase in negative student behavior as a result of messages written using electronic technology, posted to popular social networking Web sites. Many sites contain instant messaging components that allow students to chat with other students and to post statements that ordinarily would not be said in a face-to-face conversation.

The popularity of these Web sites seems to be growing. FaceBook.com, for example, is said to have millions of members and has become one of the most popular “message exchange” sites among students nationwide.

Unfortunately, some of these Web sites are being used by child predators, “cyber bullies,” and con artists. To our knowledge, there are no adults officially responsible for monitoring the content on such Web sites, and some students use the sites to participate in online bullying or to threaten harm to other students. The so-called “cyber bullies,” mostly children between the ages of 9 and 14, use the anonymity of the Web to hurt others without witnessing the consequences. Students who are bullied online sometimes do not report these occurrences for fear that they will be barred from using the Internet.

Outside of our schools, there have been instances of adults posing as youths and gaining access to student chat rooms. In some cases, these contacts have led to tragedy. Some unsuspecting students post enough personal information that predators are able to locate students’ home or school addresses, thereby becoming easy targets for predators.

The San Mateo Foster City School District has blocked the use of these social networking Web sites from our school computers. We will continue to block objectionable material as we deem appropriate.

Parents should be aware of what their children are writing on the Internet and what others are posting in reply. These Web sites are public domain, and anything posted there can be seen by anyone who has Internet access. Although most of what is written is not immoral, offensive, or illegal, some of it is. If you choose to do so, you may investigate this site by personally logging on to the site. The services are free, and users may register using an e-mail address. Once you have registered, you can search by name and e-mail address to see if your child is registered. You can narrow the search results by entering the name of your city. You will be able to view the kinds of personal information, messages, diaries, and photographs that students post to this Web site.

Helpful Tips and Resources

We encourage you to talk with your son or daughter about the potential danger of the Internet. Ask if they have an account with Facebook, Instagram, Snapchat, or similar Web sites. If your child is using such a site with your permission, you may want to review his or her profile to ensure that no personal and identifiable information has been posted.

We also encourage you to establish rules and guidelines to ensure the safety of your child while on the Internet. Some Web sites offer parental or family guidance for Internet safety; for example, SafeKids.com, located online at <http://www.safekids.com>, and Web Wise Kids, located online at <http://www.webwisekids.org>, by telephone at 866-WEB-WISE, or by e-mail at webwisekids2@aol.com.

The San Mateo Foster City School District will continue to provide Internet security within our schools. It is important that parents also monitor Internet use at home.

Thank you for your support and cooperation in keeping our students safe. If you have questions or would like more information, please feel free to contact your school principal or the Technology Department (650) 312-7700.

Sincerely,

Diego R. Ochoa
