Dear Morton Students and Families/Guardians: J. Sterling Morton High School District 201 prides itself on course offerings that challenge, inspire and provide career pathways for all students. We believe that our mission, Every Student Succeeds, drives the array of courses in this guide. This course offering guide showcases the various opportunities within each academic department, providing visuals to the pathways that students can explore in their years with us at Morton.

For incoming freshmen, the course selection process begins with one of our AAA Open Houses in December. With the information available on our website ([www.morton201.org](http://www.morton201.org)) and from our curriculum directors, students can prepare for course selection at their school during the months of January and February.

To all of our students, families, and guardians, we encourage conversation and collaboration when reviewing this guide, engaging in discussions about your student's goals so that course selection is student-driven and reflective of future plans. Do not hesitate to reach out to your student's counselor, teacher(s), and building administrator. Everyone at Morton is here to ensure your child's success.

We sincerely hope this course offering guide will be a clear resource for course selection and a tool to revisit often for answers and guidance in your decision making. In closing, please accept our sincerest gratitude for entrusting us with your student(s); it is our great honor to serve you. Go Mustangs!

Sincerely,

Dr. Timothy Truesdale

## ACADEMIC ACHIEVEMENT

### GRADING PHILOSOPHY

Today's educational climate endorses the concept that all children are capable of learning and that no child should be left behind. Assessing student achievement is a necessary part of the educational process. In J.S. Morton District 201, grades are used to communicate the academic progress and achievement level of students. Semester grades provide an official record of each student's achievement. Grades are assigned in a manner that is fair, consistent, non-biased, and intended to motivate and inspire students to achieve academic excellence. Grades will be based on high standards that are aligned with Common Core State Standards, Objectives, and Benchmarks. In accordance with these concepts, it is imperative to accurately assess each student's learning and communicate the student's progress to parents.

### GUIDING PRINCIPLES

Teachers have academic freedom in assessing student achievement, provided the grading is consistent with District 201 philosophy and is academically justifiable, consistently applied, and legally defensible. Teacher expectations are consistent with departmental course outlines. Grading are not to be used for disciplinary purposes. Assessments are valid and measure what they propose to measure. Therefore, course grades communicate a continuum of development ranging through the following levels:

GRADING SCALE	
<b>Advanced</b>	A: 4.0 - 5.0
<b>Proficien</b>	B: 3.0 - 3.9
<b>Basic</b>	C: 2.0 - 2.9
<b>Passing - Needs Improvement</b>	D: 1.0 - 1.9
<b>Failure to Achieve</b>	E: 0.0 - 0.9
<b>Pass Fail</b>	P/F
<b>Audit</b>	R
<b>Incomplete</b>	I
<b>No Grade</b>	N

## GRADUATION REQUIREMENTS (BOE POLICY #6:300)

The administration and professional staff shall establish a system of grading, develop procedures of reporting academic achievement to parents and students, and determine when the requirements for graduation have been met. **A student must take the SAT as part of graduation requirements per the Illinois State Board of Education.**

**Please note: No repeat courses will be offered during the regular school day. Students who must repeat a course due to failure or withdrawal may register for the course in night school or summer school or other approved program. Students in the Special Education program will be reviewed on a case by case basis.**

### SAT GRADUATION REQUIREMENT

The SAT is a standardized test widely used for college admissions in the United States and abroad. The SAT School Day Test is a graduation requirement by the Illinois State Board of Education for all 11th grade students.

The SAT measures literacy, problem-solving, and writing skills that are needed for academic success in college. The use of the SAT in combination with high school grade point average (GPA) provides a better indicator of success in college than high school grades alone. The SAT consists of three major sections: English-Based Reading, Mathematics, and English-Based Writing.

To prepare for the SAT Assessment, students along with their counselor should develop a systematic academic plan. Students can also access Official SAT Practice on Khan Academy® to receive personalized study resources based on their test results from the SAT Suite of Assessments (including PSAT 8/9 and PSAT/NMSQT). The best preparation for the SAT is successful completion of academic courses.

GRADUATION REQUIREMENTS

1.0	Career and Technical Education OR Fine Arts OR 2 credits of the same Modern Language
0.5	Health
3.5	P.E.
	Remainder of credits to be Electives
TOTAL CREDITS REQUIRED FOR GRADUATION: 20	

## REPORT CARDS

### REPORT CARDS

Parents should expect to receive a report card in the mail approximately two weeks after the end of each semester. In addition, parents will receive a progress report in the mail approximately halfway through each semester. The best way to monitor students' grades is on Skyward Family Access.

An incomplete grade due to medical or other attendance-related reasons must be made up by the end of the subsequent semester or the grade will become an "E". An incomplete due to academic reasons must be made up by the end of the third week of the subsequent semester or the grade will become an "E".

### GRADE POINT AVERAGES

Grade point averages are computed by adding up the number of points (A=4, B=3, C=2, D=1, E/F=0) and dividing by the number of courses a student has taken.

### HONOR COURSES TO BE GIVEN WEIGHTED GRADES

Students who enroll in the following advanced placement courses or designated accelerated and/or enrichment courses will be given an extra honor point when their grade point average is determined (A=5, B=4, C=3, and D=1).

### HONOR ROLL

Only full-time students are eligible for honor roll and class rank recognition. ***A full-time student is defined as a student enrolled in the equivalent of two and one-half credits per semester (5 courses).*** Only one-half of the two and one-half credits may be P.E.

### GOLD HONOR ROLL

Gold Honor Roll is achieved by full-time students who are enrolled in at least five courses (two and one-half credits), only one of which may be P. E. and earn a 4.0 or higher grade point average.

### SILVER HONOR ROLL

Silver Honor Roll is achieved by full-time students who are enrolled in at least five courses (two and one-half credits), only one of which may be P.E. and earn a 3.0 to a 3.99 grade point average.

A grade of "D" or "E" in any subject including P.E. will disqualify a student from the Honor Roll. Any student having questions regarding the Honor Roll should consult with the advisor of the National Honor Society or a guidance counselor.

### GRADUATION RECOGNITION

Morton recognizes graduates for academic achievement according to a Collegiate Honors framework. The distinctions for graduation recognition are:

- Summa Cum Laude - "With Highest Praise or Distinction"  
3.90+ weighted GPA
- Magna Cum Laude - "With Great Distinction"  
3.70 - 3.89 weighted GPA
- Cum Laude - "With Distinction"  
3.50 - 3.69 weighted GPA

## EARLY GRADUATION

### EARLY GRADUATION

The Superintendent or designee shall implement procedures for students to graduate early, provided they finish seven (7) semesters of high school and meet all graduation requirements.

### GRADE CLASSIFICATION:

Grade 10	5 Credits
Grade 11	10 Credits
Grade 12	15 Credits and completion of the SAT School Day Test during 11th grade year.

### STUDENT VOLUNTEERS (BOE POLICY #6:250)

The Board of Education encourages the use of resource persons and volunteers to: (1) increase students' educational attainment, (2) provide enrichment experiences for students, (3) increase the effective utilization of staff time and skills, (4) give more individual attention to students, and (5) promote greater community involvement.

Resource persons and volunteers may be used:

1. For non-teaching duties not requiring instructional judgment or evaluation of students;
2. For supervising study halls, long distance teaching reception areas used incident to instructional programs transmitted by electronic media (such as computers, video, and audio), detention and discipline areas, and school-sponsored extracurricular activities;
3. To assist with academic programs under a certificated teacher's immediate supervision;
4. As a guest lecturer or resource person under a certificated teacher's direction and with the administration's approval; or
5. As supervisors, chaperones, or sponsors for non-academic school activities.

The Superintendent shall establish procedures for securing and screening resource persons and volunteers. A person who is a "sex offender", as defined by the Sex Offender Registration Act, or a "violent offender against youth," as defined in the Child Murderer and Violent Offender against Youth Registration Act, is prohibited from being a resource person or volunteer.

## ACADEMIC CRITERIA FOR PARTICIPATION IN CO-CURRICULAR ACTIVITIES

Selection of members or participants is at the discretion of the teachers, sponsors, or coaches, provided that the selection criteria conform to the District's policies. Participation in co-curricular activities is dependent upon course selection and successful progress in those courses. In order to be eligible to participate in any school-sponsored or school-supported athletic or extracurricular activity, a student must satisfy the Illinois High School Association's scholastic standing requirements (passing at least 20 credit hours of high school work per week). Any student-participant failing to meet these academic criteria shall be suspended from the activity until the specified academic criteria are met.

## MORTON ATHLETIC PROGRAM

Morton High Schools offers a comprehensive sports program for young men and women dedicated to developing athletic achievement as an integral part of the student's overall education.

Involvement in the program encourages and builds the student's self-confidence and esteem, develops leadership and group interaction skills, and fosters a sense of accomplishment. Participation in the program inspires a will to succeed in athletics, in academics, and in life.

Sports at Morton are a tradition and an honor. Morton athletes contribute significantly to the school and community through their efforts, hard work, and dedication.

An enthusiastic and qualified coaching staff works with the athletes, guiding their interest and abilities in the sport(s) of their choice, and urging academic excellence.

Morton High School is a member of the West Suburban Conference, which is made up of 14 schools in the western suburbs. There are two divisions in the conference. Morton is in the Gold Division. Other schools in their division include Addison Trail, Downers Grove South, Hinsdale South, Leyden, Proviso East, and Willowbrook.

Students at Morton can compete in 26 different sports and on multiple levels for each sport. Through the years, Morton teams have achieved more than their share of league and tournament championships. Individuals have also set numerous records and won All-State and All-Conference honors.

### ATHLETE REQUIREMENTS

In Computer Programming, students will learn the script of Java Script in an interactive development gaming environment. Java is an object oriented language and students will use this to create interactive computer games. Students will develop knowledge in designing, writing, testing, and running programs for computer games in a collaborative, student-centered environment. After creating their own games, students will compete in game tournaments with the games they developed. They will also work collaboratively with each other to develop fun, creative games by using Greenfoot, a game development platform. This class has no pre-requisite, is an elective available for all grades, and one semester course.

This foundation-level course prepares students to use technology in a proficient and responsible manner in school, in the workforce, and in everyday life. The course contains skills for working in an Internet or networked environment and the knowledge of what it means to be a good digital citizen and the ability to use technology responsibly. Topics include the benefits and risks of sharing information online, and the possible consequences of inappropriate sharing (oversharing). Students explore the legal and ethical dimensions of respecting creative work. Technology use is a vital employability skill for entry-level and upper-level management positions. Students may be provided with the opportunity to seek industry-recognized digital literacy certifications.

Web Page Design I is an entry skill-level course designed to prepare students to plan, design, create and maintain web pages and sites. Students will learn the essentials of web page design using HTML and CSS coding and text editors. Students will work in a project-based environment to create interactive websites. Students will learn to create pages, add hyperlinks, make tables and frames, create forms, integrate images, and set styles. Students will use interactive menus and buttons, and visually appealing backgrounds. Students will use hardware and software to capture, edit, create, and compress audio and video clips. After learning html coding, students use Dreamweaver, which is computer software for designing and maintaining web sites. The students will learn multi-media skills to combine Flash and Dreamweaver to make engaging and integrated web sites.

Web Page Design II is a skill-level course for students who have completed Web Page Design I. Instruction will include using multimedia authoring applications and programming tools such as JavaScript to create a web site that combines text, hyperlinks, images, video, and sound. Instruction will include using hardware and software to capture, edit, create, and compress audio and video clips as well as create animated text, graphics, and images. Other topics will include using tables to align images with text, creating newspaper-style columns, and inserting side menus and call-outs. Students will learn how to use templates, cascading style sheets and interactive elements to enhance web pages. Students will learn to create dynamic forms that include multiple-choice questions, comment boxes, and buttons. Students will learn how to connect to a database and retrieve and write data. Students are encouraged to develop a portfolio project that demonstrates their expertise in areas such as multimedia authoring, web development, audio and video editing, and advanced JavaScript applications to create interactive web pages.

Graphic Arts 1 Photoshop is an engaging and exciting course that keeps each student involved on a daily basis. The course integrates both independent and group work. Graphic Arts 1 Photoshop is the 1st in the 3 year sequence of Graphic Arts courses at Sterling Morton High School. Students begin by being introduced to various Career Pathways in the Graphic Design and Printing Industry. Students develop skills in file management and navigation on various network drives including file transfer from mobile devices and internet. Additionally, students will be introduced to Photoshop interface and tools including: selection tools, clone tools, filters, shapes and typography. This is a fun way for students to learn about the added features that are available in the Photoshop application. Students will apply the design loop to develop an idea into a professional quality, finished product. Design projects are created using this software then printed, trimmed and built into a real world, hands on project. Major class projects include various sized posters, professional quality buttons, personal and customized magazines and a custom 13 month individual calendar to take home. Students will gain the ability to learn and understand the purpose of various digital printing machines, as we use these to print out specific projects. Graphic Arts 1 Photoshop is an interactive course that is designed to be a form of hands on learning. Through the various projects and in classroom work, students not only learn how adobe Photoshop works, but gain and understanding of how organizations use this type of tool for various industry purposes.

Students are involved in creating the “magic of theatre” from behind the scenes; this course should be taken after the students have already participated in Theatre Arts. Students explore principles of theatrical design, as well as the jobs required to produce successful productions in all media. This “hands on minds on” course offers students the opportunity to design and construct scenery, engage in make-up, lighting, sound, costuming, and stage management. There is also opportunity for Stagecraft students to work for outside performing organizations who rent the Morton theatre spaces.

### TSI (Tech Service Internship)

Morton District 201 Instructional and Informational Technology Department consists of 2 Senior Network Analyst's, 4 building technicians, 3 TSI Technicians and 1 Help Desk specialist. Additionally, the Technology Support Internship (TSI) programs are an invaluable asset to the district as students are working to gain life changing certifications as well as providing first level tech support to fellow students and staff. These certifications also serve to make the students career ready as they strive to earn the certifications used in the technology field.

### For those interested in the nuts and bolts stuff, below are some of the current technologies used at Morton 201:

- 2Gbps fiber optic connections between all buildings to provide for district wide private WAN services and high speed Internet
- 2Gbps Internet speeds
- 10Gbps fiber optic LAN backbone with up to 1Gbps connections to end user devices
- Wireless AC networking throughout the district with a single unified administrative interface using HP / Aruba wireless
- Over 10,000 end user devices to include PC laptops and desktops, tablets, iPads, and Mac OS
- Over 70+ virtualized servers with multiple VMWare high availability hosts and network RAID 10 iSCSI SAN
- Interactive white boards and projectors in every classroom
- Office 365 accounts for all students and staff

Computer Installation and Repair  
Technology/Technician Pathway

- STUDENTS WHO EARN A C OR BETTER IN TSI II, III AND IIII ARE ELIGIBLE FOR UP TO SIX HOURS OF MORTON COLLEGE CREDIT.

The Tech Service Internship (TSI) class directly supports students, teachers and administrators through the 1:1 program in the district. Students in TSI get experience working in a real life, tech support environment, rotating through stations, each station providing students the ability to develop and maintain necessary 21st Century workplace skills. Students also work to earn certifications in a variety of programs, including Microsoft and A+, ensuring that students will better their future, regardless if they pursue a career in technology or not. In this class, students will not only learn how to troubleshoot and fix technological devices, but they will learn how to be competitive professionals in a demanding and ever-changing workforce. It is preferred that students enrolled in this course take the summer boot camp.

ONE YEAR

This course will focus on attaining competency in the analysis, quantitative literacy and problem solving. This course is intended for students whose career occupations are not STEM focused and where they will be able to be placed in a non-calculus based mathematics course sequence. Topics focused will be numeracy, algebra, functions and modeling. Students earning a C or better in this course will be able to enroll in a credit bearing course as a college freshman without taking a placement test. This course meets the requirements of the PWR law.

## 21ST CENTURY MATH SKILLS (ELECTIVE)

M20CHF- SEMESTER 1  
GRADE 9-10  
PREREQUISITE: NONE  
CREDIT: 1

M20CHS - SEMESTER 2  
COREQUISITE: M14CCF/S  
ONE YEAR

The objective of this class is to provide additional support to students in their effort to meet the standards of more rigorous and relevant mathematics course. This course should be taught concurrently with a student's regular math class, giving extra time and utilizing a variety of strategies to help students build a stronger foundation for success in their current and future mathematics courses.

## PRE INTEGRATED MATHEMATICS 2 (HONORS)

M20CHF- SEMESTER 1

GRADE 9-10

PREREQUISITE: M14HFF/M14HFS-  
CREDIT: 0.5

COREQUISITE: M20C0S/M20C0F

SUMMER SEMINAR COURSE

This summer course is intended for students who want to progress from Core to Honors Math between their Freshman and Sophomore year. Course is 0.5 Elective Credits.

## ALGEBRA 3 (CORE)

M41C0F - SEMESTER 1

GRADE 12

PREREQUISITE: M31C0S/M31C0F  
CREDIT: 1.0

M41C0S - SEMESTER 2

COREQUISITE: M41C0F/M41C0S  
ONE YEAR

Course review and extend algebraic concepts for students who have already taken Integrated I-III. Course topics include (but are not limited to) operations with rational and irrational expressions, factoring of rational expressions, linear equations and inequalities, quadratic equations, solving systems of linear and quadratic equations, properties of higher degree equations, and operations with rational and irrational exponents. The course introduce topics in discrete math, elementary probability and statistics; matrices and determinants; and sequences and series. Students must earn a C or better both semesters in order to waive the Morton College Placement Test and enroll in credit bearing mathematics as a college freshman.

## COLLEGE ALGEBRA TRIGONOMETRY (CORE)

M44C0F - SEMESTER 1

GRADE 12

PREREQUISITE: M31C0S/M31C0F  
CREDIT: 1.0

M44C0S - SEMESTER 2

COREQUISITE: M44C0F/M44C0S  
ONE YEAR

**This is a dual credit course.**

Students study advanced topics in algebra and trigonometry. Content includes simultaneous equations, matrices, inequalities, relations, algebra functions, polynomial equations, transcendental functions, trig functions of acute angles, trig functions and identities, solutions of triangles, graphing and complex numbers. Emphasis on stats and data is supported with the graphing calculator. If a student earns a C or better in semester 1, they they will earn 4 semester hours dual credit from Morton College in MAT 105. If a student earns a C or better in semester 2 they will earn 3 semester hours dual credit from Morton College in MAT 110. In order to receive the credit the student has to have earned the dual credit in the fall semester.

## AP STATISTICS (CORE)

M36H0F - SEMESTER 1

GRADE 12

PREREQUISITE: M31C0S/M31C0F  
CREDIT: 1.0

M36H0S - SEMESTER 2

COREQUISITE: M36H0F/M36H0S  
ONE YEAR

**This is a dual credit course.**

This course introduces students to the major concepts and tools for collecting, analyzing, and drawing conclusions from data. Students are required to take the AP Exam. Students are exposed to four broad conceptual themes: 1. Exploring Data: Describing patterns and departures from patterns 2. Sampling and Experimentation: Planning and conducting a study 3. Anticipating Patterns: Exploring random phenomena using probability and simulation 4. Statistical Inference: Estimating population parameters and testing hypotheses. 3 semester hours of credit in MAT 141 from Morton College will be earned if student earns a C or better in the course.

M14HFS - SEMESTER 2  
COREQUISITE: M14HFF/M14HFS  
ONE YEAR

Students in this course study; expressions, introduction to functions and interpreting functions, linear relationships and modeling linear functions, congruence of geometry, systems of equations, inferential statistics, exponential functions, and comparing exponential functions and linear functions by modeling, extending the number systems, representing quadratic functions, and working with and modeling quadratic functions. Students in this course will study the same materials as in Integrated Mathematics 1 CORE and 1st semester of Integrated Mathematics 2 CORE, but at a faster pace. Acceleration and depth-of-study are characteristics of this program.

**This course is a part of the School for Biliteracy Program**

## INTEGRATED MATHEMATICS 2 (HONORS)

COREQUISITE: M44C0F/M44C0S  
ONE YEAR

**It is preferred for students to enroll in Summer Boot Camp**

The Honors section carries an Honor Point In this course, students will prepare for college mathematics and for the Advanced Placement AB exam. The content includes differentiation and integration of polynomial functions, circular functions, logarithmic functions and exponential functions. A graphing calculator is highly recommended; the type of graphing calculator is to be determined by the teacher. Students are required to take the AP exam in May. The test will require an additional fee. It is preferred that students enrolling in AP Calculus AB take a 4 (four) day Summer Boot Camp.

## AP CALCULUS BC<sup>3</sup> (HONORS)

**It is required for students to enroll in Summer Boot Camp**

This course deals with the BC content of the Advanced Placement Curriculum beyond that of the Calculus AB sequence. Additional topics include sequences, infinite series, solutions of differential equations, advanced techniques of integration, as well as parametric and polar equations. Students are required to take the AP exam in May. The test will require an additional fee. It is required that students enrolling in AP Calculus BC take a 5 day Summer Boot Camp.

Mathematics STEM (Science, Technology, Engineering, Mathematics) Honors Pathway

- 1. STUDENTS WHO ACHIEVE A SCORE OF 3 OR BETTER ON THE AP EXAM IN MAY CAN RECEIVE COLLEGE CREDIT FROM ANY PUBLIC UNIVERSITY OR COLLEGE IN ILLINOIS AND STUDENTS WHO EARN A C OR BETTER EARN CREDIT FOR COURSES AT MORTON COLLEGE BASED ON SEMESTER OUTCOMES.
- 2. STUDENTS NEED TO PASS AP CALCULUS BC EXAM WITH A SCORE OF 3 OR BETTER DURING MAY OF THEIR JUNIOR YEAR IN ORDER TO ENROLL IN THIS COURSE. THE COURSES ARE TAUGHT BY MORTON COLLEGE FACULTY AT MORTON COLLEGE.

Calculus 3 course includes the study of hyperbolic functions, improper integrals, directional directives, and multiple integration and its applications. The student must have scored a 3 or better on the AP Calculus BC exam in May of their junior year to qualify to register for the course. If a student earns a C or better in the course they will earn 4 semester hour of credit from Morton College in MAT 203. Differential Equations course includes the student of elementary differential equations including first d high order differential equations, partial differential equations, linear equations, systems of linear equations, transformations, series solutions, numerical method, boundary value problems, and existence theorems. If a student earns a C or better in the course they will earn 3 semester hours of credit from Morton College in MAt 215.

The mission of the J. Sterling Morton High School District 201 English Learner and Modern Language Department is to utilize students' target language to develop multilingual, lifetime learners with an understanding and appreciation of diverse cultures, empowered to become productive citizens in all communities. Our vision is to transform learning by enhancing all students' prior knowledge and existing skills to be successful socially, emotionally, academically and professionally with the target language.

### Modern Language Courses Required for Graduation (2.0 credits of same language course):

- Morton identifies Modern Language courses as electives. These courses fulfill the one credit toward graduation.
- Students should take two credits of the same language to meet graduation requirements.
- Some colleges require two years of a foreign language. Be sure to investigate the requirements for your college of choice.

# EARNED HONORS CREDIT

WWW.MORTON201.ORG/MODERNLANGUAGE

All students enrolled in pre-AP Modern Language courses (Spanish/French/Chinese I-III; Spanish Language Arts IV and V) are eligible to earn honors credit for their language coursework. To earn honors credit, students will work with their teachers to develop a portfolio that both showcases their language development and demonstrates their participation in the school and global community using their developing modern language skills. Students who elect to participate in the Earned Honors opportunity and earn an A, B, or C in class will earn weighted credit for their GPA and will take steps towards earning the Illinois Seal of Biliteracy.

	Semester 1	Semester 2
Level I & II	Students will complete the Steps to the Seal assessment to measure their proficiency in speaking and writing.*	Students will develop a portfolio using Padlet that showcases their language development in speaking and writing and demonstrates their participation and leadership in the school and global community.*
Levels III, IV & V	Students will take the AAPPL Seal of Biliteracy test to measure their proficiency in reading, writing, speaking, and listening.*	Students will develop a portfolio using Padlet that showcases their language development in speaking and writing and demonstrates their participation and leadership in the school and global community.*

\*All students must earn an A, B, or C in their language class to earn honors credit.

Every student will acquire the skills necessary to become life-long participants in physical activities and pursue and value a healthy lifestyle. J. Sterling Morton High School District 201's Physical Education Department believes that every student will learn the foundational skills of physical activity and wellness through movement-centered and knowledge-based activities within a safe and supportive learning environment. Physical Education is an integral part of the total education program and provides growth physically, mentally, and socially through movement. Students will be challenged to recognize the diversity of individual ability and participate with respect to those around them.

### We Believe:

- Students will develop an effective understanding of basic health promotion and establish a foundation for achieving and maintaining personal health and well-being by making informed wellness decisions.
- Students should learn the positive and negative effects of their decisions in the areas of health and physical education.
- All students should be given the opportunity to become physically fit.
- All students are learners, and we accept responsibility for teaching them through differentiated instruction.

### Physical Education Courses Required for Graduation (4.0 credits - 3.5 credits for PE and 0.5 credits for Health):

- Students must be enrolled in PE (0.5 credit) and Health (0.5 credit) their freshmen year.
- Sophomore, junior and senior year students must be enrolled in PE course each semester.

# PHYSICAL EDUCATION DRESS PROCEDURE

Physical Education in the J. Sterling Morton High School District is regarded as a vital part of general education and an integral part of the schools total educational program. It encompasses certain developmental goals, which include the physical, mental, and emotional aspects of child growth and maturity.

Physical education is a directed, purposeful activity, centering on the development, movement, care, and use of the total body. Physical education stresses the development of physical, social, and mental skills through organized learning experiences based on several principles of child growth and development.

## DRESS REQUIREMENTS

### 1. Uniform

- a. Morton PE uniform can be purchased in the school bookstore.
- b. Student must wear a Morton PE uniform during class
- c. No street clothes are allowed to be worn under PE clothes during activity.

### 2. Shoes and Socks

- a. No slippers, flats, just socks, various type of shoe boots, sport sandals, and gym shoes with heels, gym shoes without backs are Unacceptable.
- b. Shoes must have laces.

### 3. Sweatshirt and Pants

- a. A sweat outfit is recommended for outside activity when it is cold.
- b. Sweats must be solid color of black or gray. Morton sweats are preferred but not mandatory.

### 4. Jewelry

- a. No metal, hanging or dangling jewelry is to be worn during the PE class. This is for the student's personal safety.
- b. Cloth, rubber, or plastic adornments must be removed upon the request of the teacher for the safety of the student.

### 5. Swim participation (East and West campuses only)

- a. 100% participation is expected of students enrolled in an aquatic activity.
- b. Days out of the water must be made up unless the days out are because of a written note from a doctor. Swim make-ups will be done in the pool with the PE teacher on pre-arranged days.
- c. If a student is in swimming class but not swimming, they must have a note from a doctor. If a note exempts the student from swimming, they must come prepared to exercise and run if possible. If the note exempts them from all activity, they must be prepared to do written work for the class period.
- d. Students are responsible for providing their own swimsuits. Students must also provide goggles and swim caps. Towels and all other equipment will be provided by the department. Girls must have a swimsuit to be allowed to participate. Boys must have a swim suit with liner. (PE gym clothes will not be allowed in the pool.) This course is for students who want to develop their science skills and their Spanish language skills. This course is for students who have speaking skills in Spanish. Most of the topics will be covered in Spanish. Students will take their assessments with a bilingual exam. Students learn the principles underlying chemical changes and their theoretical applications. Laboratory work emphasizes techniques of observation, analysis of data and formation of conclusions based on data.

CREDIT: 1.0

S11HCS - SEMESTER 2  
COREQUISITE: S11H0S/S11H0F  
ONE YEAR

Students in this accelerated course will develop the understanding of molecular biology, genetics, evolution and ecology. Work will emphasize critical thinking, writing skills, and mathematical analysis of biological data. Students will be expected to do independent research and more in-depth lab work than in regular biology.

This course is for students who want to develop their science skills and their Spanish language skills. This course is for students who have speaking skills in Spanish. Most of the topics will be covered in Spanish. Students will take their assessments with a bilingual exam. Students develop an understanding of laws which govern the existence of all life. Student work emphasizes experimentation, observation and analysis of experimental data. Concepts involving problem solving, biochemistry, ecology, evolution, reproduction, heredity, plant and animal physiology and the pattern of unity among living things are also studied. This course is accepted for college preparation in laboratory science.

PREREQUISITE: S22C0S/S22H0S  
CREDIT: 1.0

S31H0S - SEMESTER 2  
COREQUISITE: S31H0F/S31H0S  
ONE YEAR

Students are able to further their biological knowledge and skills, as well as prepare themselves to take additional courses of a biological nature in college. Students are introduced to techniques and equipment normally used in general college biology. Selected topics such as anatomy, physiology, population genetics and cell chemistry are covered in more detail than is done in Biology. Individual initiative, study and class discussion are expected. (A "B" average in Biology, Chemistry and Integrated Mathematics 1 is highly recommended for success in this course.) Students are required to take the AP exam. It is preferred that students enrolled in AP Biology take the summer boot camp.

### AP CHEMISTRY (HONORS)

S42H0S - SEMESTER 2  
COREQUISITE: S42H0S/S42H0F  
ONE YEAR

Students in Advanced Chemistry cover material similar to a general chemistry course on the college level. Students work on chemical calculations, mathematical formulation of principles and extensive laboratory experimentation. Students learn to think clearly and to express their ideas orally and in writing. (A "B" average in Chemistry, Physics, and Integrated Math 3 is highly recommended for success in this course.) Students are required to take the AP exam in May. It is preferred that students enrolled in AP Chemistry take the summer boot camp.

### AP ENVIRONMENTAL SCIENCE (HONORS)

S45H0F - SEMESTER 1  
GRADE 11  
PREREQUISITE: S22C0S OR S24C0S  
CREDIT: 1.0

S45H0S - SEMESTER 2  
COREQUISITE: S45H0S/S45H0F  
ONE YEAR

This college-level course provides students with scientific principles, concepts, and methodologies required to understand the interrelationships of the natural world, to identify and analyze environmental problems both natural and human-made, to evaluate the relative risks associated with these problems, and to examine alternative solutions for resolving or preventing them. Students are required to take the AP exam in May. It is preferred that students enrolled in AP Environmental Science take the summer boot camp.

## ZOOLOGY (CORE)

S28H0F - SEMESTER 1	S28H0S - SEMESTER 2
GRADE 11/12	COREQUISITE: S34H0F/S34H0S
PREREQUISITE: S22C0F OR S24C0F	ONE YEAR
CREDIT: 1.0	

Zoology is a course that will survey a large portion of the Animal Kingdom. Students will research many facets of animals, including: anatomy, interrelationships, physiology, genetics, distributions, and habits. Students in the Zoology course will continue to develop knowledge in the core disciplinary ideas of Zoology as described in the Next Generation Science Standards, while focusing on science as a method of inquiry.

## AP PHYSICS 1 (HONORS)

S34H0F - SEMESTER 1	S34H0S - SEMESTER 2
GRADE 11	COREQUISITE: S34H0F/S34H0S
PREREQUISITE: S22C0S OR S24C0S	ONE YEAR
CREDIT: 1.0	

AP Physics 1 provides students with an introductory experience in the concepts and methods of physical analysis, focused on classical mechanics and simple electrical circuits. Building the ability to reason qualitatively and quantitatively is a primary focus, with inquiry and investigation, modeling and diagramming, symbolic algebra, unit analysis, communication and argumentation, laboratory techniques, data analysis, and integration and application of concepts as emphasized skills. Students have the primary responsibility for building understanding, with the instructor as a resource and guide. Students will spend instructional time engaging with the textbook, online lecture videos, simulations, online discussions, hands-on labs (constituting 25% of instructional time), problem-solving screencasts, online homework problems, and tests/exams. Students are required to take the AP exam in May. It is preferred that students enrolled in AP Physics 1 take the summer boot camp.

## AP PHYSICS C MECHANICS (HONORS)

S36H0F - SEMESTER 1	S36H0S - SEMESTER 2

Students are able to further their physics knowledge and skills, as well as prepare themselves to take additional courses of a physics nature in college. Students are introduced to techniques and equipment normally used in general college physics. Selected topics such as kinematics, Newton's laws of motion; work, energy and power; systems of particles and linear momentum; circular motion and rotation; and oscillations and gravitation. Individual initiative, study and class discussion are expected. (A "B" average in Chemistry, Physics, and Integrated Math 3 is highly recommended for success in this course.) AP Calculus AB or AP Calculus BC are a corequisite. Students are required to take the AP exam. It is preferred that students enrolled in AP Physics take the summer boot camp.

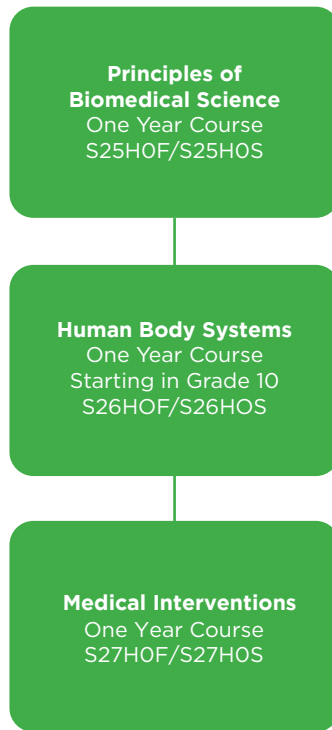

## PHARMACY TECHNICIAN CERTIFICATION & EXTERNSHIP

S36H0F - SEMESTER 1	S36H0S - SEMESTER 2
GRADE 12	COREQUISITE: S31H0F/S, S42H0F/S,

"The duration of the class is twenty-one (21) weeks and includes preparation for the certification examination administered by the Pharmacy Technician Certification Board (PTCB). In addition to 180 hours in the classroom, and homework study time, students are eligible to complete a 120 clock-hour externship experience following their senior year. The externship serves as working experience, as well as a reference for future employment. As a certified pharmacy technician, you are the liaison between medical professionals, doctors, pharmacists, insurance companies and patients. You will receive and verify prescriptions and prepare patient medication."

Project Lead the Way Pathway

STARTING IN GRADE 9

\* J. Sterling Morton High School District identifies Project Lead the Way courses as elective credit. These courses do not count toward the required Science credits for graduation.

**PRINCIPLES OF BIOMEDICAL SCIENCE (HONORS)**

S25H0F - SEMESTER 1 GRADES 9-12  
PREREQUISITE: NONE CREDIT: 1.0

S25H0S - SEMESTER 2  
COREQUISITE: S25H0F/S25H0S  
ONE YEAR

In the introductory course of the PLTW Biomedical Science program, students explore concepts of biology and medicine to determine factors that led to the death of a fictional person. While investigating the case, students examine autopsy reports, investigate medical history, and explore medical treatments that might have prolonged the person's life. The activities and projects introduce students to human physiology, basic biology, medicine, and research processes while allowing them to design their own experiments to solve problems.

**HUMAN BODY SYSTEMS (HONORS)**

S26H0F - SEMESTER 1  
GRADES 10-12  
PREREQUISITE: NONE  
CREDIT: 1.0

S26H0S - SEMESTER 2  
COREQUISITE: S26H0F/S26H0S  
ONE YEAR

Students examine the interactions of human body systems as they explore identity, power, movement, protection, and homeostasis. Exploring science in action, students build organs and tissues on a skeletal Maniken®; use data acquisition software to monitor body functions such as muscle movement, reflex and voluntary action, and respiration; and take on the roles of biomedical professionals to solve real-world medical cases.

**MEDICAL INTERVENTIONS (HONORS)**

S27H0F - SEMESTER 1  
GRADES 11-12  
PREREQUISITE: S26H0F  
CREDIT: 1.0

S27H0S - SEMESTER 2  
COREQUISITE: S26H0F/S26H0S  
ONE YEAR

Medical Interventions (MI) allows students to investigate the variety of interventions involved in the prevention, diagnosis, and treatment of disease as they follow the lives of a fictitious family. A "How-To" manual for maintaining overall health and homeostasis in the body, the course will explore how to prevent and fight infection, how to screen and evaluate the code in our DNA, how to prevent, diagnose, and treat cancer, and how to prevail when the organs of the body begin to fail. Through these scenarios students will be exposed to the wide range of interventions related to immunology, surgery, genetics, pharmacology, medical devices, and diagnostics.

The mission of the J. Sterling Morton District 201, Social Science department, is to ensure our students can use reading, writing, and critical thinking skills to understand historical, economic, and societal trends, to become active citizens in a participatory democracy. The Faculty of Social Sciences empower students with the tools for our students to become life-long learners, problem solvers, and productive members of society.

### Social Science Course Required for Graduation (2.5 credits):

- One Year (1 credit) must be US History or AP US History
- One Semester (.5 credit) must be Civics & Economics
- One Credit - (1 credit) remaining can be a combination of semester or yearlong courses within the Social Science course offerings

## SOCIAL SCIENCE CORE

AT THE CORE LEVEL, THE SOCIAL SCIENCES EMPOWER STUDENTS WITH THE TOOLS FOR STUDENTS TO BECOME LIFE-LONG LEARNERS, PROBLEM SOLVERS, AND PRODUCTIVE MEMBERS OF SOCIETY.

### CIVICS & ECONOMICS (CORE)

H40C0F - SEMESTER 1  
GRADE 12  
PREREQUISITE: NONE  
CREDIT: 0.5

H40C0S - SEMESTER 2  
COREQUISITE: NONE  
ONE SEMESTER

Students will examine the basic principles and foundations of American Government. Students will also learn financial literacy skills that will help them gain knowledge to be financially prepared after high school. Students will participate in legislative simulations, class debates, and complete a service learning project. This course is a graduation requirement.

### LATIN AMERICAN HISTORY (CORE)

H35R0F - SEMESTER 1  
GRADE 10  
PREREQUISITE:  
NONE CREDIT: 0.5

H35R0S - SEMESTER 2  
COREQUISITE: NONE  
ONE SEMESTER

Students will investigate the history of Latin America, the geography of that region, the cultures of that region (both Native American and the hybrid cultures which emerged after European settlement), and the relationship of this region to the rest of the world. The course will begin with learning about Pre-Columbian times and end with learning about Latin America in the 21st century.

### MODERN WORLD HISTORY (CORE)

H21R0F - SEMESTER 1  
GRADE 10  
PREREQUISITE: NONE  
CREDIT: 0.5

H21R0S - SEMESTER 2  
COREQUISITE: NONE  
ONE SEMESTER

In this course students will trace history from World War II to the present. World War II, The Cold War, postwar independence movements, the Vietnam War, and the Middle East are among the topics covered. This course also examines the technological and social changes that have taken place since World War II. Students will gain an understanding of how these events and changes have shaped the world they now live in.

### SOCIOLOGY (CORE)

Students study the social interactions and how they influence behaviors in society. Individuals will respond to group situation and solve everyday problems. Throughout the course students will examine topics such as culture, socialization, institutions, social stratification classes, deviance, and race relations. Theories regarding each topic will be discussed, explored, and applied to their daily lives.

### WORLD HISTORY (CORE)

H11CCF - SEMESTER 1  
GRADE 9  
PREREQUISITE: NONE  
CREDIT: 1

H11CCS - SEMESTER 2  
COREQUISITE: H11CCF/H11CCS  
ONE YEAR

Students trace the development of civilization from the Classical Period to the Modern Age and increase their awareness of man's role in creating the different societies. Students will be introduced to primary and secondary source analysis and Document Based Questions, Focus is on developing reading, writing, and critical thinking skills.

### UNITED STATES HISTORY (CORE)

H31C0F - SEMESTER 1  
GRADE 11  
PREREQUISITE: NONE  
CREDIT: 1

H31C0S - SEMESTER 2  
COREQUISITE: H31C0F/H31C0S

This course examines the evolution of Chicago by focusing on major themes in American urban history. More broadly, the course attempts to answer questions that help explain why Chicago and its entire social and economic community looks the way it does today. Why does Chicago look the way it does? What is distinctive about the social and physical environments of Chicago? How have different cultures and ethnicities help make Chicago what it is today? Where do our students fit in our urban environment? Students will be able to explain Chicago's history and how it relates to their culture and identity through critical thinking, analyzing, and communication skills. This course fulfills 1 semester of course credit of Social Science. Constitution and the role it plays in the day-to-day lives of American

## HISTORY OF AMERICAN POP CULTURE (CORE)

H37C0S - SEMESTER 2  
COREQUISITE: NONE  
ONE SEMESTER

During this semester-long course, students will learn the role popular culture has in reflecting key events in American history and shaping America's diverse culture and identity. Students will examine various types of popular culture such as music, film, literature, visual arts, fads and trends and evaluate how they serve as a mirror to historical events and trends through the decades since 1950. Students will also evaluate how popular culture reflects American values, challenges social norms and brings various groups of Americans together as one.

# SOCIAL SCIENCE HONORS

AP CLASSES/HONORS CLASSES SHARPEN STUDENTS' WRITING SKILLS, TEACH THEM HOW TO THINK BOTH CRITICALLY AND ANALYTICAL WHILE ALSO IMPROVING THEIR PROBLEM-SOLVING ABILITIES. AP STUDENTS LEARN TO NAVIGATE THE ACADEMIC EXPECTATIONS THEY WILL ENCOUNTER IN COLLEGE COURSES. STUDENTS WHO PASS THE AP EXAM FOR THE COURSE RECEIVE COLLEGE CREDIT.

## AP EUROPEAN HISTORY (HONORS)

H23H0F - SEMESTER 1  
GRADES 10-12  
PREREQUISITE: NONE  
CREDIT: 1

H23H0S - SEMESTER 2  
COREQUISITE: H23H0F/H23H0S  
ONE YEAR

AP European History carries an Honor Point. Highly motivated, successful history students study the history, political and economic development and influence of European countries. A "C" or better in this course will earn you an honors point, and a 3 or better on the AP exam will earn you a full college credit at any Illinois state college. Students are required to take the Advanced Placement Exam at the end of the year. Summer readings are required.

## AP GOVERNMENT & POLITICS (HONORS)

H42H0F - SEMESTER 1  
GRADE 12  
PREREQUISITE: NONE  
CREDIT: 0.5

H42H0S - SEMESTER 2  
COREQUISITE: NONE  
ONE SEMESTER

AP American Government and Politics carries an Honor Point. This is a semester long course that includes simulation of the law-making process. This course is a study of the origins, development, structure, and functions of American national government. Topics include the constitutional framework; federalism; the three branches of government, including the bureaucracy; civil rights and liberties; political participation and behavior; and policy formation. Upon completion, students should be able to demonstrate an understanding of the basic concepts and participatory processes of the American political system. Basic concepts of state and local government and their relationships with the federal government are also examined. This course is ideal for the student who likes more active learning that includes group work, class discussions and public speaking. A "C" or better in this course will earn you an honors point, and a 3 or better on the AP exam will earn you a full college credit at any Illinois state college. Students are required to take the Advanced Placement Exam at the end of the year.

## AP HUMAN GEOGRAPHY (HONORS)

GRADES 9-10  
PREREQUISITE: NONE  
CREDIT: 1

H20H0S - SEMESTER 2  
COREQUISITE: NONE  
ONE YEAR

Following the College Board's suggested curriculum designed to parallel college-level Human Geography courses, AP Human Geography introduces students to the systematic study of patterns and processes that have shaped the ways in which humans understand, use, and alter the earth's surface. Students use spatial concepts and landscape analysis to examine human social organization and its environmental consequences and also learn about the methods and tools geographers use in their science and practice. Students are required to take the AP test in May.

## AP MICROECONOMICS (HONORS)

H22H0F - SEMESTER 1  
GRADE 12  
PREREQUISITE: E31H0F/E31C0F  
AND E31H0S/E31C0S

H22H0S - SEMESTER 2

### This course is a part of the School for Biliteracy Program

The Honors section carries an Honor Point. The purpose of AP Microeconomics is to give students a thorough understanding of principles of economics that apply to the functions of individual decision makers, both consumers and producers, within the larger economic system. Students learn why individuals, businesses, governments and societies must make choices to get more of the goods and services they want. Topics include: supply and demand, market clearing prices, starting your own business, the role of the federal government in the economy, consumerism and personal investment strategies. Students are required to take the AP exam. This course fulfills the Consumer Education Graduation requirement.

## AP PSYCHOLOGY (HONORS)

H41H0F - SEMESTER 1  
GRADE 12  
PREREQUISITE: NONE  
CREDIT: 1

H41H0S - SEMESTER 2  
COREQUISITE: H41H0S/H41H0F  
ONE YEAR

The Honors section carries an Honor Point. Highly motivated, successful social science students learn psychology through readings and experiments. At the conclusion of the year, students are required to take the Advanced Placement Test in Psychology for college credit. Summer readings may be required, so check with the appropriate instructor before the end of the school year. Students are required to take the AP exam.

R01SOS - SEMESTER 2  
COREQUISITE: NONE  
ONE YEAR

Students are enrolled in core classes for one or more periods of the day and need additional support to be successful in these classes. Students are assigned a resource period in place of their supervisory period. During the 30 minute resource period, the resource teacher will review progress in core classes, re-teach, review or modify curriculum, reinforce study skills, and work on improving student deficit areas, as delineated in the IEP. The resource teacher will provide testing accommodations either through a pull out or push in model, whichever is appropriate, as delineated in the IEP.

When needed, the resource teacher will work with the student and parent to monitor progress on a daily basis. Resource teacher will assist student with organizational skills. Resource teacher will work with students to improve self-advocacy and communication skills, so as to be successful in a post-secondary setting. Students may work to reduce the number of minutes of resource services required per week, so as to appropriately meet the needs of each student, keeping in mind least restrictive environment. The goal is for each student to access the minimum amount of resource minutes in order to be successful and make progress toward their IEP goals.

COREQUISITE: NONE  
ONE YEAR CREDIT: 0

Students are enrolled in general education core classes of 25-30 students that includes frequent push-in and pull-out by a Special Education Inclusion teacher for each content-area. Students are also assigned an Inclusion Resource period where they can receive small-group instruction, assistance with executive functioning skills, and have their academic and functional performance reviewed by a Special Education teacher. The Inclusion Resource teachers arrange testing accommodations such as extended time and the availability of a small-group environment. Inclusion Teachers work closely with their general education counterparts to ensure curriculum is appropriately delivered to Special Education students.

### INCLUSION TEACHERS PROVIDE THE FOLLOWING SUPPORTS TO SPECIAL EDUCATION STUDENTS:

- Push-in to General Education classes and Special Education Resource periods to provide support to students.
- Share IEP and BIP documents with fellow team members.
- Create materials that are geared towards supporting students' academic deficits.
- Support general education teacher on lab days, major activities, writing assignments, etc.
- Accommodate and modify daily lesson plans in collaboration with the general education teacher
- Provide accommodations as defined in the IEP
- Pull-out to alternate testing location

The Functional Skills Instruction (FSI) Program provides students with the opportunity to participate in classes which focus on the remediation of basic math and English skills, along with vocational training. All academics are presented on a functional level, and incorporated into real-world scenarios. Students in FSI are encouraged to work with peers in small groups in order to strengthen social skills. Appropriate responses and social interactions are fostered during all aspects of the program. With the completion of the program, students will earn an adjusted diploma. The ultimate goal of the program is to help students become as independent and successful members of society as possible.

The core classes for the program are Applied English and Applied Math. There is also a vocational training component. Vocational training includes volunteer positions within the building, supportive employment at an off-campus training site, and competitive employment within the community. The program also offers other content courses such as World Readiness, Office Skills, Health and PE.

Students independently follow their schedule, navigate the building and take general education electives when appropriate.

- Self-contained, small classroom environment
- SPED Teacher & Aide
- Adjusted Diploma
- Instruction facilitates transition from school to postsecondary life

## FSI SUPERVISORY

Students placed in the Functional Skills Program who need additional support to be successful in their classes can take a resource period in place of Academic Support Lab. During the 30 minute period, the FSI Supervisory teacher will review grades, reinforce executive functioning skills, and work on improving student deficit areas.

## LAB SAFETY RULES LANGUAGE

A violation of the rules below will result in disciplinary consequences. Upon the occurrence of a violation or of a pattern of violations that either jeopardizes or might jeopardize the safety of any student, any other person, or any property, the teacher may, in his or her discretion, refer the student to the Assistant Principal. Upon a referral to the Assistant Principal, a meeting shall be held between the Dean of Students, the Student and the Student's parents to review and discuss the student's conduct. Following the meeting, the Assistant Principal shall determine the appropriate disciplinary consequences necessary to address the behavior, which consequences might include up to an out of school suspension, the student's withdrawal from the class or a request for an expulsion hearing. An Assistant Principal's decision to issue an out of school suspension or to withdraw a student from the class may, upon a request by the student, a parent or guardian, be appealed to a hearing officer appointed by the Board of Education. In the event of an appeal, the hearing officer and the student, parents or guardian shall hold a hearing to review the student's conduct and the decision of the Assistant Principal. The hearing officer shall present a written summary of the evidence heard and a transcript of the hearing to the Board of Education who shall make the final decision on the appeal. Safety within a science or technology laboratory is of utmost importance to the faculty and staff of District 201. Students who work with potentially dangerous materials or equipment are well informed about safety procedures and precautionary techniques to avoid unnecessary injuries. It is the inappropriate behavior of the student within the laboratory that results in avoidable accidents. Examples of courses applicable to these rules include: Science labs, automotive, stage craft, etc.

Students are **NOT** to:

1. Throw any object or liquid.
2. Run.
3. Push another student.
4. Hit another student.
5. Vandalize anything.
6. Interfere with another student's experiment.
7. Engage in any physical confrontation.
8. Become a hazard due to lack of preparation for the lab experiment.
9. Fail to wear safety goggles when required.
10. Use chemicals or equipment in an inappropriate manner.
11. Remove lab materials from the lab.
12. Inappropriately use fire, chemicals, hot items, or liquids.
13. Fail to perform appropriate clean up or disposal of harmful materials.
14. Fail to return equipment to the designated areas after use.
15. Fail to immediately report chemical spills to the instructor.
16. Tamper with lab control devices (i.e., gas valves, electrical control boxes, air regulators, etc.) without permission.
17. Fail to immediately report accidents and/or breakage to the instructor.
18. Taste any chemical.

Students **MUST**:

1. Follow your teacher's directions.
2. Perform only authorized experiments.
3. Protect long hair, eyes, face, hands, and body.
4. Follow your teacher's clean up procedures.
5. Know where to get help in an emergency.
6. Know the location of first aid and firefighting equipment.
7. Report all accidents to the teacher IMMEDIATELY.
8. Ask questions if they do not understand anything pertaining to the class
