INDEPENDENT AUDITOR'S REPORT

Board of Trustees
Kennedale Independent School District
120 W. Kennedale Parkway
Kennedale, Texas 76060

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Kennedale Independent School District (the "District") as of and for the year ended August 31, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of August 31, 2017, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 7-14 and 52 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Also included as required supplementary information are the schedule of the District's proportionate share of the net pension liability – Teacher Retirement System of Texas and schedule of District contributions – Teacher Retirement System of Texas on pages 53 and 54 respectively. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining fund financial statements and the required Texas Education Agency schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The combining fund financial statements, the required Texas Education Agency schedules, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining fund financial statements, the required Texas Education Agency schedules, and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Texas Education Agency requires school districts to include certain information in the Annual Financial and Compliance Report in conformity with laws and regulations of the State of Texas. This information is in Exhibits identified in the Table of Contents as J-1, J-4 and J-5.

Other Reporting Required By Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 8, 2017 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of law, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing on internal control over financial reports

and compliance with the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

KENNEDALE INDEPENDENT SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED AUGUST 31, 2017
UNAUDITED

As management of the Kennedale Independent School District (the "District"), we offer this narrative overview and analysis of the financial activities of the District for the fiscal year ended August 31, 2017. Please read this narrative in conjunction with the independent auditor's report and the District's financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

- The net position of the District at the close of its fiscal year was \$19,784,870, an increase of \$1,716,200 over last year. Unrestricted net position of \$3,067,105 may be used to meet the District's ongoing obligations to citizens and creditors. Net investment in capital assets is \$13,984,266. The remaining \$2,733,499 is restricted for federal and state programs, debt service and campus activities.
- As of the close of the current fiscal year, the District's governmental funds reported a combined ending fund balance of \$12,153,995, a net increase of \$1,617,942 over the prior year. The General Fund - Special Item – Royalties of \$310,357 accounted for 19% of this increase. The General Fund and Debt Service Fund increased by \$1,146,602 and \$297,149 from current year operations. The operating increases within the General Fund and Debt Service Fund were offset by a net decrease of \$135,410 within Other Funds.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$6,269,625 or 23% of total General Fund current year expenditures. Prior year unassigned fund balance for the General Fund was \$5,575,128, or 20% of total General Fund expenditures.
- No new programs were added during the year

OVERVIEW OF THE FINANCIAL STATEMENTS

The discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

- Government-wide financial statements - These statements provide information about the activities of the District as a whole and present both a long-term and short-term view of the District's finances. The government-wide financial statements include the statement of net position and the statement of activities.

The statement of net position presents information on all of the District's assets, deferred outflows, liabilities, and deferred inflows of resources with the difference being reported as net position. Over time, increases and decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information on all of the current year's revenues and expenses regardless of when cash is received or paid. Thus, revenues and expenses are reported in the statement for some items that will only result in cash flows in future fiscal periods.

Both of the District's government-wide financial statements distinguish the functions of the District as being principally supported by taxes and intergovernmental revenues (government activities) as opposed to business-type activities that are intended to recover all or a significant portion of their costs

KENNEDALE INDEPENDENT SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED AUGUST 31, 2017
UNAUDITED

through user fees and charges. The District has no business-type activities and no component units for which it is financially accountable.

- Fund financial statements – These statements report the District's operations in more detail than the government-wide statements by providing information about the District's most significant funds. Some funds are required by State law and/or bond covenants. Other funds may be established by the Board to control and manage money for particular purposes or to show that it is properly using certain taxes or grants.

All the funds of the District can be divided into three categories; governmental funds, proprietary funds, and fiduciary funds.

- Governmental funds – these financial statements tell how services were financed in the short term as well as what resources remain for future spending. They reflect the flow of current financial resources, and supply the basis for tax levies and the appropriations budget.
 - Proprietary funds – these financial statements tell how goods or services of the District were sold to departments within the District or to external customers and how the revenues covered the expenses of the goods or services. The District has no proprietary funds.
 - Fiduciary funds – these financial statements provide information about activities for which the District acts solely as a trustee or agent for the benefit of others, for example, student activity funds and scholarships for graduating students. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's operations.
- Notes to the financial statements - The notes provide additional information that is essential to a complete understanding of the data provided in the government-wide statements and the fund financial statements.
 - Other information – This annual report contains other supplementary information in addition to the basic financial statements and the notes to the financial statements. The Management's Discussion and Analysis is required supplementary information under governmental accounting standards. The "Combining Schedules" for nonmajor funds contain even more information about the District's individual funds. The "Required Texas Education Agency Schedules" and "Reports on Internal Controls, Compliance and Federal Awards" contain data used by monitoring or regulatory agencies for assurance that the District is using supplied funds in compliance with terms of grants.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

The following analysis presents both current and prior year data and discusses significant changes in the accounts. Our analysis focuses on the statement of net position (Table 1) and the statement of activities (Table 2) of the District's governmental activities.

Table 1
Statement of Net Position

	Governmental Activities	
	2017	2016
ASSETS:		
Current and other assets	\$15,017,208	\$12,699,370
Capital assets	52,379,751	54,225,556
Total assets	67,396,959	66,924,926
DEFERRED OUTFLOWS OF RESOURCES:		
Deferred charges for refunding	1,593,407	1,765,195
Teacher Retirement System	2,831,052	3,280,078
Total deferred outflow of resources	4,424,459	5,045,273
LIABILITIES:		
Long-term liabilities	49,388,062	51,805,846
Other liabilities	2,145,973	1,550,745
Total liabilities	51,534,035	53,356,591
DEFERRED INFLOW OF RESOURCES:		
Teacher Retirement System	502,513	544,938
NET POSITION:		
Net investment in capital assets	13,984,266	13,689,591
Restricted	2,733,499	2,547,406
Unrestricted	3,067,105	1,831,673
Total net position	\$19,784,870	\$18,068,670

The District's governmental activities net position increased by a net of \$1,716,200, as previously discussed, from \$18,068,670 to \$19,784,870. A large portion of net position, \$13,984,266, or 71%, reflects the District's net investment in capital assets (e.g., land, buildings, furniture and equipment, and accumulated depreciation), less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. An additional portion of the District's net position, \$2,733,499 or 14%, represent resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted assets, \$3,067,105 or 15%, may be used to meet the District's ongoing obligations.

Community services	0.2%	0.1%
Debt service	3.6%	2.1%
Intergovernmental charges	0.3%	0.5%
Total Expenses	100.0%	100.0%

The District's net position increased by a net of \$1,716,200, or 9.5% from current fiscal year operations as shown below:

- 1) Total net change in Fund Balances – Governmental Funds - \$1,617,942
- 2) Capital outlays and long-term debt principal – \$2,739,322
- 3) Depreciation – (\$2,209,122)
- 4) GASB 68 adjustments – (\$493,077)
- 5) Other miscellaneous adjustments - \$61,135

The District is required under GASB 68 to report its proportionate share of the unfunded liability associated with the Teacher Retirement System of Texas (TRS) pension plan. The required entries to record the effects of GASB 68 and GASB 71, an amendment to GASB 68, are book entries only in the statement of governmental activities and do not affect the funding of the District. These entries decreased the District's ending net position and is discussed in greater detail in the notes to the financial statements.

GOVERNMENTAL FUNDS FINANCIAL ANALYSIS

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balance of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the District's net resources available for spending at the end of a fiscal year.

The District's governmental funds reported a combined ending fund balance of \$12,153,995, a net increase of \$1,617,942 over last year's combined fund balance. Unassigned fund balance is \$6,269,625, or 51.6%, and is available for spending at the District's discretion. The remainder of fund balance is not available for discretionary spending because it is classified as either nonspendable, restricted, committed or assigned for the following items:

Nonspendable fund balance:	
National Breakfast & Lunch Program - Inventories	\$ 51,825
Restricted fund balance:	
National Breakfast & Lunch Program - Federal or state funds grant restrictions	433,037
Debt Service Fund - Retirement of long-term debt	2,170,590
Committed fund balance:	
General Fund - Construction	1,995,630
Other Funds - Campus Activity Funds	133,288
Assigned fund balance:	
General Fund - Construction	1,100,000

The General Fund is the chief operating fund of the District. At the end of the current fiscal the General Fund's unassigned fund balance was \$6,269,625 or 67% while the total fund balance was \$9,365,255. The total fund balance increased by \$1,146,602 from current year operations, offset by a net increase of \$309,601 from special and extraordinary items.

GENERAL FUND BUDGETARY HIGHLIGHTS

Over the course of the year, the Board of Trustees revised the District's budget several times. These budget amendments fall into three categories:

1. Amendments and supplemental appropriations that were approved shortly after the beginning of the year and reflect the actual beginning balances (versus the amounts we originally estimated).
2. Major amendments were in Function 36 - Extracurricular Activities and Function 51 - Facilities Maintenance and Operations. Function 36 - Extracurricular Activities was increased by \$218,657 for unanticipated personnel costs and other cost not included in the original budget. Function 51 - was increased by \$453,177 for maintenance expenditures not included in the original budget.
3. Amendments to move funds from programs that did not need all the resources originally appropriated to programs with resource needs.

The District's actual General Fund balance of \$9,365,255 differs from the General Fund's budgetary fund balance of \$7,343,068. The difference of \$2,022,187 is primarily due to actual expenditures being \$1,549,079 less than budgeted expenditures and Special Items - Royalties of \$310,357 not included in original budget.

KENNEDALE INDEPENDENT SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED AUGUST 31, 2017
UNAUDITED

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The District's investments in capital assets for its governmental activities at the end of this fiscal year amounts to \$52,379,751 (net of accumulated depreciation) for a net decrease of \$1,845,805 or (3.4%) from last year. Decrease is primarily result of current year depreciation. This investment in capital assets includes land, buildings and improvements, and furniture and equipment.

More detail information about the District's capital assets are presented in the notes to the financial statements.

	CAPITAL ASSETS	
	2017	2016
Land	\$ 5,870,283	\$ 5,870,283
Buildings & improvements	69,970,467	69,970,467
Furniture & equipment	5,826,092	5,470,995
Sub-totals	81,666,842	81,311,745
Less depreciation	(29,287,091)	(27,086,189)
Totals	<u>\$52,379,751</u>	<u>\$54,225,556</u>

Debt Service

At year-end, the District had \$49,388,062 in long-term debt, consisting of \$36,595,025 in outstanding general obligation bonds, accreted interest of \$1,990,570, premium on bonds of \$3,161,281, capital leases of \$232,587, and net pension liability of \$7,408,599, versus \$51,805,846 last year for a net decrease of \$2,417,784. Net pension liability increased by \$86,476 from last year. This amount was offset by decreases in bonds payable, accreted interest, unamortized bond premium, and capital leases of (\$1,938,960), (\$191,992), (\$309,209), and (\$64,099) respectively.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The District's elected officials and appointed officials considered many factors when setting the fiscal year 2018 budget and tax rates. Slow population growth was one important factor that had to be considered. Maintaining teachers' salaries to be comparable with area districts was another consideration. To compensate for the law passed by the special session of the Legislature in 2006 that capped Maintenance & Operation (M&O) tax rate at \$1.04, the District held an election in 2008 that has allowed KISD to adopt a tax rate of \$1.17. Because of the success of this election, the district is able to adopt the \$1.17 tax rate for the 2017-18 school year. This will enable the district to continue funding for all programs. The debt service tax rate was reduced slightly from \$.316724 to \$.310000.

Amounts available for appropriation in the General Fund are \$28,865,455, an increase of 1 percent over the final 2017 budget of \$28,490,230. The increase from the fiscal 2017 budget was due to recurring expenses for payroll costs. No program cuts were made. The district will use its revenues to finance programs currently offered. Budgeted expenditures are expected to rise slightly from 2017. The increase is due to normal operating expenses.

KENNEDALE INDEPENDENT SCHOOL DISTRICT
RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE
STATEMENT OF NET POSITION
AUGUST 31, 2017

Total Fund Balances - Governmental Funds	\$ 12,153,995
1 Capital assets used in governmental activities are not financial resources and therefore are not reported in governmental funds. At the beginning of the year, the cost of these assets was \$81,311,745 and the accumulated depreciation was \$27,086,189. In addition, long-term liabilities, including bonds payable, are not due and payable in the current period, and, therefore are not reported as liabilities in the funds. The net effect of including the beginning balances for capital assets (net of depreciation) and long-term debt in the governmental activities is to increase net position.	11,427,433
2 Current year capital outlays and long-term debt principal payments are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of including the 2017 capital outlays and debt principal payments is to increase net position.	2,739,322
3 Included in the items related to debt is the recognition of the District's proportionate share of the net pension liability required by GASB 68. The net position related to TRS included a deferred resource outflow in the amount of \$2,831,052, a deferred resource inflow in the amount of \$502,513, and a net pension liability in the amount of \$7,408,599. The net effect is to decrease net position.	(5,080,060)
4 The 2017 depreciation expense increases accumulated depreciation. The net effect of the current year's depreciation is to decrease net position.	(2,209,122)
5 Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. These include recognizing unavailable revenue from property taxes as revenue, reclassifying the proceeds of bond sales as an increase in bonds payable, and recognizing the liabilities associated with maturing long-term debt and interest. The net effect of these reclassifications and recognitions is to increase net position.	753,302
19 Net Position of Governmental Activities	\$ 19,784,870

KENNEDALE INDEPENDENT SCHOOL DISTRICT
RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED AUGUST 31, 2017

Total Net Change in Fund Balances - Governmental Funds	\$ 1,617,942
Current year capital outlays and long-term debt principal payments are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of removing the 2016 capital outlays and debt principal payments is to increase net position.	2,739,322
Depreciation is not recognized as an expense in governmental funds since it does not require the use of current financial resources. The net effect of the current year's depreciation is to decrease net position.	(2,209,122)
GASB 68 required that certain expenditures be de-expended and recorded as deferred resource outflows. These contributions made after the measurement date of the plan caused the change in the ending net position to increase in the amount of \$639,835. Contributions made before the measurement date and during the previous fiscal year were also expended and recorded as a reduction in net pension liability. This caused a decrease in the net position totaling \$622,914. Finally, the proportionate share of the TRS pension expense on the plan as a whole had to be recorded. The net pension expense decreased the change in net position by \$509,998. The net result is a decrease the change in net position.	(493,077)
Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. These include recognizing unavailable revenue from property taxes as revenue, adjusting current year revenue to show the revenue earned from the current year's tax levy, reclassifying the proceeds of bond sales, and recognizing the liabilities associated with maturing long-term debt and interest. The net effect of these reclassifications and recognitions is to increase net position.	61,135
Change in Net Position of Governmental Activities	\$ 1,716,200

I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Kennedale Independent School District (the “District”) substantially comply with the rules prescribed by the Texas Education Agency (the “Agency”) *Financial Accountability System Resource Guide* (the “Resource Guide”). These accounting policies conform to accounting principles generally accepted in the United States of America (“generally accepted accounting principles”) applicable to governments.

In accordance with the Resource Guide the District has adopted and installed an accounting system which meets the minimum requirements prescribed the State Board of Education and approved by the State Auditor.

The District prepares its basic financial statements in conformity with generally accepted accounting principles (GAAP) promulgated by the Governmental Accounting Standards Board (GASB) and other authoritative sources identified in *GASB Statement No 76, The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments* and it complies with the requirements of the appropriate version of the Resource Guide and the requirements of contracts and grants of agencies from which it receives funds. Specifically, the District’s accounting system uses codes and the code structure as presented in the Resource Guide.

A. Reporting Entity

The District is governed by a seven-member Board of Trustees (the “Board”) elected by registered voters of the District. The District is a public educational agency operating under the applicable laws and regulations of the State of Texas. The Board has responsibility and control over all activities related to public school education within the District. The District receives funds from local, state and federal sources and must comply with all the requirements of these funding source entities. However, the District is not included in any other governmental “reporting entity” as defined by GAAP. The Board has decision-making authority, the power to designate management, the ability to significantly influence operations and the primary accountability for fiscal matters. The District is not included in any other governmental “reporting entity: as defined by Governmental Accounting Standards Board (GASB) Statement No. 61, *The Financial Reporting Entity: Omnibus an amendment of GASB Statements No. 14 and No. 34*. The District is not financially accountable for any other organizations; therefore, no component units are included within the reporting unit. The District receives funding from local, state, and federal government sources and must comply with the requirements of those funding entities.

B. Basis of Presentation

The District prepares its financial statements in accordance with reporting practices prescribed by the Agency in the Resource Guide and the Governmental Accounting Standards Board.

C. Government-Wide and Fund Financial Statements

The government-wide financial statements (the statement of net position and the statement of activities) are prepared using the accrual basis of accounting and the information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes, state foundation

funds, grants and other intergovernmental revenues are reported separately from business-type activities which rely to a significant extent on charge for services. The District does not have business-type activities.

The statement of activities demonstrates the degree to which direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Depreciation expense is specifically identified by function and is included in the direct expense of each function. Certain indirect costs are also included in the program expense reported by individual functions and activities. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods or services provided by a given function or segment of the District, examples include tuition paid by students not residing in the District, school lunch charges, etc. and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a given function or segment, examples include grants under the Elementary and Secondary Education Act. If a revenue is not a program revenue, it is a general revenue used to support all of the District's functions. Taxes are always general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the fiduciary funds are excluded from the government-wide financial statements. The District considers some governmental funds major and reports their financial condition and results of operations in separate columns.

D. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported on a flow of economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Fiduciary funds do not have a measurement focus as they report only assets and liabilities. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. All assets, deferred outflows, liabilities and deferred inflows associated with the operation of these funds are included on the statement of net position.

The governmental fund financial statements are reported using a current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered as available when they are collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Property taxes received after the 60-day period are not considered available and, therefore, are recorded as deferred inflow of resources in the Governmental Funds Balance Sheet. Revenues susceptible to accrual are principally certain intergovernmental revenues, property taxes and investment income. Charges for services and miscellaneous revenues are recorded as revenues when received in cash because they are generally not measurable until received. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when the payment is due. Funds received from federal, state and other grants designated for payment of specific District expenditures are considered as earned to the extent of expenditures made under the provisions of

the grant. Accordingly, when such funds are received, they are recorded as unearned revenues until related and authorized expenditures have been made. If balances have not been expended by the end of the project period, grantors may require the District to refund all or part of the unused amount.

E. Purpose of Funds

The accounts of the District are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts to reflect results of activities. Major individual governmental funds are reported as separate columns in the fund financial statements. The following funds are used by the District:

Major Governmental Funds

General Fund – The General Fund is the District’s primary operating fund. It is used to account for all financial transactions except for those required to be accounted for in another fund. Major revenue sources include local property taxes and state funding under the Foundation School Program. Expenditures include all costs associated with the daily operations of the District except for costs incurred by programs accounted for in the Special Revenue Funds, Debt Service Fund, Capital Projects Fund, and Fiduciary Funds. The General Fund is a budgeted fund, and any fund balances are considered resources available for current operations.

Debt Service Fund – The Debt Service Fund, which is a budgeted fund, accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt. Revenues include property taxes collections, state funding under the Instructional Facilities and Existing Debt Allotments, and earned interest. The fund balance represents amounts that are available for retirement of future payments of principal, interest and fees.

Non-major Governmental Funds

Special Revenue Funds – These funds are used to account for federal, state and locally financed programs where unused balances are generally returned to the grantor at the close of specified project periods. Proceeds of specific revenue resources that are restricted or committed to expenditures for specified purposes, other than debt service or capital projects, are accounted for in a special revenue fund. Project accounting is employed to maintain integrity for the various sources of funds. The Child Nutrition Program is a budgeted fund.

Capital Projects Fund – This fund, which is an unbudgeted fund, is used to account for proceeds from sales of bonds and other revenues to be used for authorized construction, renovations, and technology projects/enhancements. The District does not have a Capital Projects Fund.

Proprietary Funds – The District does not have any Proprietary Funds

Fiduciary Funds

Fiduciary Funds – Agency Funds – The Agency Fund is custodial in nature and accounts for activities of student groups and other types of activities requiring clearing accounts. The fund has no equity. Assets are equal to liabilities, and do not include revenues and expenditures for general operations of the District. This accounting reflects the District’s agency relationship with student activity organizations. Fiduciary funds use the accrual basis of accounting to recognize assets and liabilities.

F. Assets, Liabilities, Deferred Outflows/Inflows and Net Position or Fund Balance

1. Cash and Cash Equivalents

The District’s cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from date of acquisition. Investments are considered as cash equivalents and are reported at fair value.

2. Receivables and Payables

Interfund activities result from loans, services provided, reimbursements or transfers between funds. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures or expenses. Reimbursements occur when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related costs as a reimbursement. All other interfund transactions are treated as transfers. Transfers in and transfers out are netted and presented as a single “transfers” line on the government-wide statement of activities. Similarly, interfund receivables and payables are netted and presented as a single “internal balances” line of the government-wide statement of net position.

Property taxes are levied each year based upon property valuations as of January 1. Taxes are due on receipt of the tax bill and are delinquent if not paid by February 1 of the year following the year in which imposed. On January 1 of each year, a tax lien attaches to the property to secure the payment of all taxes, penalties, and interest ultimately imposed.

Delinquent property tax receivables are prorated between the General Fund and Debt Service Fund based on rates adopted for the year of the levy. Allowances for uncollectible tax receivables is based on historical experience in collecting property taxes. Management periodically reviews outstanding property taxes and establishes an allowance adequate to reflect the anticipated net collectible balance. The District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

Other receivables and payables may include amounts due from local, state and federal agencies resulting from excess of expenditures over revenues incurred, accrued liabilities, interest payable, and accrued wages payable.

3. Inventories and Prepaid Items

Except for inventories of food commodities, the District records purchases of supplies and materials as expenditures when purchased. This method is used to avoid administrative costs

that are considered excessive to any benefit gained and where expenditures tend to be equalized over a period of years.

Inventories of food commodities are valued at fair market value as supplied by the Texas Department of Human Services. Although commodities are received at no cost, their fair market value is recorded as inventory and deferred revenue when received. When requisitioned, inventory and deferred revenue are relieved, expenditures are charged, and revenue is recognized for an equal amount.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepayment in both government-wide and fund financial statements.

4. Interfund Activities

Transactions among governmental funds and between governmental funds and proprietary funds appear as due to/due from other funds on the Governmental Fund Balance Sheet and Proprietary Fund Statement of Net Position and as other financing sources and uses on the Governmental Fund Statement of Revenues, Expenses and Changes in Fund Net Position. Interfund services provided and used are not eliminated in the consolidation of funds for the Statement of Activities.

All interfund transactions that do not represent services provided and used between governmental funds and between governmental funds and internal service funds are eliminated on the government-wide statements. Interfund activities between governmental funds and enterprise funds remain on the government-wide statements and appear on the government-wide Statement of Net Position as internal balances and on the Statement of Activities as interfund transfers. Interfund activities between governmental funds and fiduciary funds remain as due to/due from other funds on the government-wide Statement of Net Position.

5. Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of funds are recorded in the accounting system in order to reserve a portion of the applicable appropriation, is employed in the governmental fund types on the governmental fund financial statements. Encumbrances are liquidated at year end.

6. Capital Assets

Capital assets, which include land, buildings and improvements, furniture and equipment and construction in progress, are reported in the applicable governmental column in the government-wide financial statements. The cost of the infrastructure (e.g., roads, bridges, sidewalks, and similar items) was initially capitalized with the building cost and is being depreciated over the same useful life as the building. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Buildings and improvements, furniture and equipment, and capital lease assets of the District are depreciated using the straight-line method over the following estimated lives:

Asset Classification	Useful Life
Buildings and improvements	15-39
Furniture & equipment	10

Land and construction in progress are not depreciable.

7. Long-term Obligations

General obligation bonds which have been issued to fund the District's capital projects are to be repaid from tax revenues of the District.

In the government-wide financial statements long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activity. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method which approximates the effective interest rate method. Bonds payable are reported net of the applicable bond premium or discount. Deferred loss on refunding, will be recognized as a deferred outflow of resources and amortized to interest expense over the life of the bonds. Bond issuance costs are expensed in the current period.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

8. Unearned Revenues

Unearned revenues represent revenues received by the District but not yet earned and are not available for use by the District to liquidate current year liabilities. A summary of unearned revenues by fund follows:

General Fund:	
Field rental	\$ 2,000
Special Revenue Funds:	
National Breakfast & Lunch Program	58,901
State Textbook Fund	1,546
Total Special Revenue Funds	60,447
Total	\$62,447

9. Deferred Outflows/Inflow of Resources

Deferred outflows and inflows of resources are reported in the financial statements as described below:

A deferred outflow of resources is a consumption of a government's net assets (a decrease in assets in excess of any related decrease in liabilities or an increase in liabilities in excess of any related increase in assets) by the government that is applicable to a future reporting period. The District had the following deferred outflows of resources:

- Deferred outflows of resources for refunding – Reported in the government-wide statement of net position, this deferred charge on refunding results from the difference in the carrying value of the refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. During the current year, the District had \$1,593,407 in deferred charges for refunding.
- Deferred outflows of resources for pension – Reported in the government-wide financial statement of net position, this deferred outflow results from pension plan contributions made after the measurement date of the net pension liability and the results of differences between expected and actuarial experience. The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the next fiscal year. During the current year, the District had \$2,831,052 deferred outflow related to TRS from implementing GASB 68. This amount consisted of \$2,191,217 for total net amounts per TRS August 31, 2016 measurement date and \$639,835 for contributions paid to TRS subsequent to the measurement date.

A deferred inflow of resources is an acquisition of a government's net assets (an increase in assets in excess of any related increase in liabilities or a decrease in liabilities in excess of any related decrease in assets) by the government that is applicable to a future reporting period. The District had two items that qualify for reporting in this category:

- Deferred inflow of resources for unavailable revenues – Reported only in the governmental funds balance sheet, for unavailable revenues from property taxes arise under the modified accrual basis of accounting. These amounts are deferred and recognized as an inflow of revenues in the period that the amounts become available. During the current year, the District recorded deferred inflow of resources \$599,431 and \$173,050 as unavailable revenues – property taxes with the General Fund and Debt Service Fund respectively.
- Deferred inflow of resources for pensions – Reported in the government-wide financial statement of net position, these deferred inflows result primarily from differences between projected and actual earnings on pension plan investments. During the current year the District recorded \$502,513 for total net amounts per TRS August 31, 2016 measurement date as a result of implementing GASB 68.

10. Categories and Classifications of Fund Balance and Net Position

In accordance with GASB 54 which establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints

imposed upon the use of resources reported in governmental funds. The objective of GASB 54 is to enhance the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing governmental fund type definitions.

Government-wide Financial Statements – Net position on the Statement of Net Position includes the following:

Net investment in capital assets - the component of net position that reports capital assets less both the accumulated depreciation and the outstanding balance of debt and is directly attributable to the acquisition, construction, or improvement of these capital assets.

Restricted for federal and state programs – the component of net position that reports the difference between assets and liabilities related to federal and state programs that consist of assets with constraints placed on their use by granting agencies.

Restricted for debt service – the component of net position that reports the difference between assets and liabilities adjusted on a government-wide basis that consists of assets with constraints placed on their use by the bond covenants.

Restricted for campus activities – funds that have been committed solely for the use by various campuses within the District.

Unrestricted net position - the difference between the assets and liabilities that are not reported in net investment in capital assets or restricted net position.

Net position flow assumption – Sometimes the District will fund outlays for a particular purpose from both restricted (e.g., restrict bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied.

It is the District's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

Governmental Fund Financial Statements – In the fund financial statements, government funds report fund balances as either a non-spendable fund balance or a spendable fund balance.

Non-spendable fund balance – includes fund balance amounts that cannot be spent either because it is not in spendable form or because of legal or contractual requirements. Examples include inventories, long-term receivables, endowment principal, and/or prepaid/deferred items.

Spendable fund balance – Spendable fund balance includes restricted, committed, assigned, and unassigned components. These components can be described as follows:

Restricted fund balance – the component of the spendable fund balance constrained to a specific purpose by a provider, such as creditor, grantor, contributor, or law or

regulation of other governments. Restricted fund balance includes funds for federal/state grants and retirement of long-term debt.

Committed fund balance – the component of spendable fund balance constrained to a specific purpose by the Board. A Board resolution is required to establish, modify, or rescind a fund balance commitment. Only the action that constitutes the most binding constraint of the Board can be considered a commitment for fund balance classification purposes. Committed fund balance includes funds for construction and campus activity funds.

Assigned fund balance – the component of the spendable fund balance that is spendable or available for appropriation but has been tentatively earmarked for some specific purpose by the Board of Trustees or by an official or body to which the Board of Trustees delegates. Specific amounts that are not restricted or committed in a special revenue, capital projects, debt service, or permanent fund are assigned for purposes in accordance with the nature of their fund type or the fund's primary purpose. Assignments within the general fund conveys that the intended use of those amounts is a specific purpose that is narrower than the general purposes of the District itself.

Unassigned fund balance – is the residual classification of the General Fund and includes all amounts not contained in other classifications. This portion of the total fund balance in the general fund is available to finance operating expenditures. Only the General Fund will have unassigned amounts. By accounting for amounts in other funds, the District has implicitly assigned the funds for purposes of those particular funds.

The District does not have a minimum fund balance policy.

Fund balance flow assumptions – Sometimes the District will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

KENNEDALE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
AUGUST 31, 2017

Exhibit F-1

Disclosure of Fund Balances Reported on Balance Sheet – Governmental Funds
For Fiscal Year Ending August 31, 2017

	General Fund	Debt Service Fund	Other Funds
Nonspendable Fund Balance			
National Breakfast & Lunch Program - Inventories	\$ 0	\$ 0	\$ 51,825
Restricted Fund Balance			
National Breakfast & Lunch Program	0	0	433,037
Retirement of long-term debt	0	2,170,590	0
Committed Fund Balance			
Construction	1,995,630	0	0
Campus Activity Funds	0	0	133,288
Assigned Fund Balance			
Construction	1,100,000	0	0
Unassigned	6,269,625	0	0
Total Fund Balance	<u>\$9,365,255</u>	<u>\$2,170,590</u>	<u>\$618,150</u>

11. Management's Use of Estimates

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimations and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

The amount of state foundation revenue a district earns for a year can and does vary until the time when final values for each of the factors in the formula become available. Availability can be as late as into the next fiscal year. It is at least reasonably possible that the foundation revenue for the fiscal year will ultimately change from the amount calculated as of August 31, 2017 because of the factors that TEA uses in its calculations.

12. Defined Benefit Pension Plan

The District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The Teacher Retirement System of Texas (TRS) administers the plan. The fiduciary net position of the TRS of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes, for purposes of measuring the net pension liability reported to the District, deferred outflows of resources and deferred inflows of resources related to pension, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

13. Data Control Codes

The data control codes refer to the account code structure prescribed by the Texas Education Agency (the "Agency") in the *Financial Accountability System Resource Guide*. The Agency requires school districts to display these codes in the financial statements filed with the Agency in order to ensure accuracy in building a statewide data base for policy development and funding plans.

II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS.

Exhibit C-2 “Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position” provides the reconciliation between the fund balance for total governmental funds on the governmental fund balance sheet and the net position as reported in the government-wide statement of net position. One element of that reconciliation explains that capital assets are not financial resources and are therefore not reported in governmental funds. In addition, long-term liabilities, including bonds payable, are not due and payable in the current period and are not reported as liabilities in the funds. Also, the property taxes receivable which is included as unavailable revenue in the fund financial statements are adjusted based on when the tax levy was made and adjusted for uncollectible amounts. Also included are all of the adjustments required by GASB 68.

Exhibit C-4 “Reconciliation of the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances to the Statement of Activities” provides a reconciliation between the net changes in fund balance as shown on the governmental fund statement of revenues, expenditures, and changes in fund balances and the changes in net position of governmental activities as reported on the government-wide statement of activities. One element of that reconciliation explains that current year capital outlays and debt principal payments are expenditures in the fund financial statements, but should be shown as increases in capital assets and decreases in long-term debt in the government-wide statements. This adjustment affects both the net position balance and the change in net position. The debt payments on retirement of debt are recorded as expenditures for fund-basis financial statements but are a reduction of debt in the government-wide financial statements. The capital asset additions are expenditures in the fund-basis financial statements but capitalized in the government-wide financial statements. The fund-basis financial statements do not include depreciation expense. The depreciation expense is a deduction to reconcile to the government-wide statement of activities. New debt issues are treated as sources of revenue for fund-basis financial statements, but for the government-wide statements, those amounts are recorded as a liability. Property taxes are adjusted for the accrual basis and the unavailable revenues are adjusted based on prior year levies and current year uncollectable amounts. Also included are all of the adjustments required by GASB 68.

III. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Budgets and Budgetary Accounting

The Board of Trustees adopts an “appropriated budget” for the General Fund, Child Nutrition Program and the Debt Service Fund. The District is required to present the adopted and final amended budgeted revenues and expenditures for each of these funds. The District compares the final amended budget to actual revenues and expenditures. The general fund budget report appears in Exhibit G-1 “Statement of Revenues, Expenditures, and Changes in Fund Balance – Budget and Actual – General Fund” and the other two reports are in Exhibit J-4 “Schedule of Revenues, Expenditures, and Changes in Fund Balance – Budget and Actual - Child Nutrition Program” and J-5 “Schedule of Revenues, Expenditures, and Changes in Fund Balance – Budget and Actual - Debt Service Fund”.

KENNEDALE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
AUGUST 31, 2017

Exhibit F-1

The following procedures are followed in establishing the budgetary data reflected in the general-purpose financial statements:

1. Prior to August 20 the District prepares a budget for the next succeeding fiscal year beginning September 1. The operating budget includes proposed expenditures and the means of financing them.
2. A meeting of the Board is then called for the purpose of adopting the proposed budget. At least ten days' public notices of the meeting must be given.
3. Prior to September 1, the budget is legally enacted through passage of a resolution by the Board. Once a budget is approved, it can be amended at the function and fund level by approval of a majority of the members of the Board. Changes can be made to the budget at any detail within the function level without an amendment approved by the Board. During the year, several budget amendments were made with Board approval. The most significant amendments were for carryover funding; mid-year adjustment of operating costs; and year-end adjustments to expenditures based on the latest information concerning operating cost. All budget appropriations lapse at year-end.

	Original Budget Appropriations	Increase (Decrease)	Amended Budget Appropriations
General Fund – Exhibit G-1	\$27,920,339	\$569,891	\$28,490,230
Child Nutrition Program – Exhibit J-4	1,408,640	271,537	1,680,177
Debt Service Fund – Exhibit J-5	3,512,776	3,500	3,516,276

General Fund major amendments were in Function 36 - Extracurricular Activities and Function 51 - Facilities Maintenance and Operations. Function 36 – Extracurricular Activities was increased by \$218,657 for unanticipated personnel costs and other cost not included in the original budget. Function 51 – was increased by \$453,177 for maintenance expenditures not included in the original budget.

The Child Nutrition Program Function 35 – Food Services was amended by \$161,462 to recognize unanticipated operating costs of the program. Function 51 – Facilities Maintenance & Operations was increased by \$63,000 for unexpected maintenance cost and Function 53 – Data Processing Services was increased by \$47,075 for new food service software.

4. Each budget is controlled at the revenue and expenditure function/object level. Budgeted amounts are as amended by the Board.

B. Excess of Expenditures over Appropriations

No excess of expenditures over appropriations existed for the year ended August 31, 2017.

C. Deficit Fund Equity

There were no deficit fund equities for the year ended August 31, 2017.

IV. DETAILED NOTES ON ALL FUNDS

A. Cash and Cash Equivalents

The District's funds are required to be deposited and invested under the terms of a depository contract pursuant to the School Depository Act. The depository bank places approved pledged securities for safekeeping and trust with the District's agent bank in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation ("FDIC") insurance.

- Depository bank: Wells Fargo
- Highest combined balance: \$3,976,974
- Date of highest combined balance: February 1, 2017
- Amount of FDIC insurance: \$250,000
- District funds were fully covered by FDIC insurance or by pledged collateral held by the District's agent bank in the District's name.

Since the District complies with this law, it has no custodial credit risk for deposits.

At August 31, 2017, the carrying value of the District's deposits was \$3,646,976, excluding petty cash of \$205 and \$9,363,193 of investments considered as cash equivalents, and the bank balance was \$4,231,557. The District's cash deposits at August 31, 2017, and during the year then ended, were entirely covered by FDIC insurance or by pledged collateral held by the District's agent bank in the District's name.

Petty cash	\$ 205
Cash-in-bank	3,646,976
Investments considered as cash equivalents	9,363,193
Total cash and cash equivalents	<u>\$11,101,044</u>

The following investments are considered as cash equivalents:

Investments	Carrying Amount	Fair Value	Percentage of Investments	Weighted Average Maturity (Days)
LoneStar	\$8,352,216	\$8,352,216	89.2%	On demand
TexStar	614,647	614,647	6.6%	On demand
TexPool	396,330	396,330	4.2%	On demand
	<u>\$9,363,193</u>	<u>\$9,363,193</u>	<u>100.0%</u>	

The District does not have any cash or cash equivalents in foreign currency; therefore, there is no foreign currency risk.

The Public Funds Investment Act (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the District to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of

returns, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, (9) and bid solicitation preferences for certificates of deposit. The District maintains an investment policy which authorizes the District to invest in obligations of U.S. Treasury and U.S. agencies, municipal securities and repurchase agreements and the State Treasurer's investment pool or similar public investment pools. The Act also requires the District to have independent auditors perform test procedures related to investment practices as provided by the Act. The District is in substantial compliance with the requirements of the Act and with local policies.

In compliance with the Public Funds Investment Act, the District has adopted a deposit and investment policy.

Custodial Credit Risk – Investments - For an investment this is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in possession of an outside party. The District's investment in Lone Star Investment Pool ("LoneStar"), TexSTAR, and Texas Local Government Investment Pool ("TexPool"), are not exposed to custodial risk. External investment pools are not subject custodial risk because investments are not evidenced by securities that exist in physical or book entry form. State law limits investments in public funds investment pools to those rated no lower than AAA or AAAM or an equivalent rating by at least one nationally recognized rating service. As of August 31, 2017, the District's investments in Lone Star and TexPool are rated AAAM and TexSTAR is rated AAA.

Credit Risk – This is the risk that a security issuer may default on an interest or principal payment. State law limits investment in local government pools to those that are rated AAA or equivalent by at least one Nationally Recognized Statistical Rating Organization (NRSRO). The District controls and monitors this risk by purchasing quality rated instruments that have been evaluated by agencies such as Standard and Poor's (S&P) or Moody's Investors Service, or by investing in public fund investment pools rated no lower than AAA or AAAM.

Interest-rate Risk – This type of risk occurs when potential purchasers of debt securities do not agree to pay face value for those securities if interest rates rise. The District's investment policy does not allow the purchase of investments that would expose the District to interest-rate risk.

Concentration of Credit Risk – This type of risk is defined as positions of 5 percent or more in securities of a single issuer. The District is not exposed to concentration of credit risk because the investment portfolio mainly consists of external investment pools.

Foreign Currency Risk – This is the risk that exchange rates will adversely affect the fair value of an investment. At year end, the District was not exposed to foreign currency risk.

B. Property Taxes

Property taxes are levied by October 1 and are due and payable at that time. The Board establishes the District's property tax rates annually. The authorized tax rates for property taxes assessed on January 1, 2016, were \$1.170000 and \$0.316724 per \$100 for the General Fund and Debt Service Fund, respectively, based on a net assessed valuation of \$1,161,663,564.

KENNEDALE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
AUGUST 31, 2017

Exhibit F-1

The legally authorized tax rate limit for the District is \$1.17 per \$100 assessed valuation for maintenance and operations. On January 1 of each year, a tax lien attaches to property to secure the payment of penalties imposed. Property tax revenues are considered available when they become due or past due and receivable within the current period and those expected to be collected during the 60-day period after the close of the District's fiscal year.

Delinquent taxes are prorated between the General Fund and Debt Service Fund based on rates adopted for the year of the levy. Allowances for uncollectible tax receivables within the General and Debt Service Funds are based on historical experience in collecting property taxes.

Delinquent taxes receivables and the related allowance for uncollectible taxes in the governmental fund financial statements as of August 31, 2017 are as follows:

	Property Taxes - Delinquent	Allowance for Uncollectible Taxes	Unavailable Revenue – Property Taxes
General Fund	\$611,664	(\$12,233)	\$599,431
Debt Service Fund	176,582	(3,532)	173,050
Totals	<u>\$788,246</u>	<u>(\$15,765)</u>	<u>\$772,481</u>

Current tax collections for the levy year ended August 31, 2017 were 98.9% of the year-end adjusted tax levy.

Uncollectible personal property taxes are periodically reviewed and written off by the District. The District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

The District has an agreement with Tarrant County Tax Office ("County") whereby the County bills and collects the District's property taxes.

C. Disaggregation of Receivables and Payables

The District believes that sufficient detail of receivable and payable balances is provided in the financial statements to avoid the obscuring of significant components by aggregation. Therefore, no disclosure is provided which disaggregates those balances.

There are no significant receivables which are not scheduled for collection within one year of August 31, 2017.

D. Receivables from Other Governments

Receivables from other governments, as of August 31, 2017, are as follow:

Fund	Due from State
General	\$953,100
Other Funds -	
National Breakfast & Lunch Program	\$ 56,151
Title III, A – English Language Acquisition	5,666
Title IV, B – Community Learning	76,790
Other Federal Special Revenue Funds	1,100
Total other funds	\$139,707

E. Interfund Receivables and Payables

There were no interfund receivables and payables as of August 31, 2017.

F. Interfund Transfers

There were no interfund transfers during the fiscal year.

G. Other Financing Sources (Uses)

There were no other financing sources (uses) during the year.

H. Special Items/Extraordinary Items

The District had the following special items/extraordinary items during the year:

General Fund	
Special item – royalties	\$310,357
Extraordinary item – insurance recovery	75,184
Extraordinary item – insurance loss	(75,940)
Total	\$309,601

I. Operating Leases

The District leases office equipment under noncancelable operating leases. Total costs for such leases were \$224,019 for the year. The future minimum lease payments for active operating leases are summarized below:

Year Ending August 31	Amount
2018	\$207,711
2019	207,711
2020	207,711
2021	287
2022	0

KENNEDALE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
AUGUST 31, 2017

Exhibit F-1

J. Capital Asset Activity

Capital asset activity for the year ended August 31, 2017 is as follows:

	Beginning Balance	Increases/ Adjustments	Decreases/ Adjustments	Ending Balance
Governmental activities:				
Capital assets, not being depreciated:				
Land	\$ 5,870,283	\$ 0	\$ 0	\$ 5,870,283
Construction in Progress	0	0	0	0
Total Capital Assets, not being depreciated	5,870,283	0	0	5,870,283
Capital assets, being depreciated:				
Buildings and improvements	69,970,467	0	0	69,970,467
Furniture and equipment	5,470,995	382,496	27,398	5,826,093
Total capital assets, being depreciated	75,441,462	382,496	27,398	75,796,560
Less accumulated depreciation for:				
Buildings and improvements	23,454,921	1,824,567	0	25,279,488
Furniture and equipment	3,631,268	384,555	8,219	4,007,604
Total accumulated depreciation	27,086,189	2,209,122	8,219	29,287,092
Governmental activities capital assets, net	\$54,225,556	\$(1,826,626)	\$19,179	\$52,379,751

Depreciation expense was charged to governmental functions of the District as follows:

Governmental activities:	
11 – Instruction	\$1,394,131
12 – Instruction Resources & Media Services	5,531
23 – School Leadership	47,890
31 – Guidance, Counseling & Evaluation Services	11,062
33 – Health Services	11,062
34 – Student (Pupil) Transportation	60,946
35 – Food Services	113,401
36 – Extracurricular Activities	350,089
41 – General Administration	2,280
51 – Plant Maintenance & Operations	152,366
53 – Data Processing Services	59,337
61- Community Services	1,027
Total Depreciation Expense	<u>\$2,209,122</u>

K. Long-Term Debt

Long-term debt of the District is comprised of bonds payable, accreted interest, premium on bonds, capital leases, and net pension liability. Debt service requirements for general obligation bonds are payable from fund balance and future revenues of the Debt Service Fund which consists principally of property taxes collected by the District, state funding, and interest earnings. Capital leases are paid from fund balance and future revenues of the General Fund.

KENNEDALE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
AUGUST 31, 2017

Exhibit F-1

The following is a summary of changes in long-term debt for government activities for the year ended August 31, 2017.

	Beginning Balance	Additions	Retirements	Ending Balance	Due Within One Year
Bonds payable	\$38,533,985	\$ 0	\$1,938,960	\$36,595,025	\$2,310,000
Accreted interest	2,182,562	74,048	266,040	1,990,570	0
Premium on bonds	3,470,490	0	309,209	3,161,281	0
Capital leases payable	296,686	0	64,099	232,587	54,584
Net pension liability	7,322,123	709,390	622,914	7,408,599	0
Total	<u>\$51,805,846</u>	<u>\$783,438</u>	<u>\$3,201,222</u>	<u>\$49,388,062</u>	<u>\$2,364,584</u>

L. Capital Leases

In prior years, the District acquired computer equipment by entering into a capital lease agreement as authorized by Texas Local Government Code Sec. 271. Current year and prior year capital lease indebtedness of the District is reflected in the statement of net position. Current requirements for principal and interest expenditures are accounted for in the General Fund in the fund financial statements.

Issue/ Maturity Date	Interest Rates Payable	Amounts Original Issue	Beginning Balance	Issued	Retired	Ending Balance	Amounts Due Within One Year
2016/2021	8.7%	296,686	<u>\$296,686</u>	<u>\$0</u>	<u>\$64,099</u>	<u>\$232,587</u>	<u>\$54,584</u>

The District paid \$1,130 in interest expense during the year.

The following is a summary of the District's future annual debt service requirements to maturity for capital leases:

Year Ended August 31	Principal	Interest	Total Requirements
2018	\$ 54,584	\$10,645	\$65,229
2019	57,071	8,159	65,230
2020	59,670	5,559	65,229
2021	61,262	2,842	64,104
Totals	<u>\$232,587</u>	<u>\$27,205</u>	<u>\$259,792</u>

M. Bonds Payable

Bonded indebtedness of the District is reflected in the statement of net position. Current requirements for principal and interest expenditures are accounted for in the Debt Service Fund in the fund financial statements.

	4.0%	7,285,000	7,160,000	0	55,000	7,105,000	50,000
Totals			<u>\$38,533,985</u>	<u>\$0</u>	<u>\$1,938,960</u>	<u>\$36,595,025</u>	<u>\$2,310,000</u>

The following is a summary of the District's future annual debt service requirements to maturity for general obligation bonds.

Year Ended August 31	Principal	Interest	Total Requirements
2018	\$ 2,310,000	\$ 1,236,275	\$ 3,546,275
2019	2,420,000	1,166,150	3,586,150
2020	2,540,000	1,092,450	3,632,450
2021	2,720,000	1,013,825	3,733,825
2022	2,745,000	1,040,063	3,785,063
2023-2027	11,630,025	8,312,163	19,942,188
2028-2032	12,230,000	715,838	12,945,838
Totals	<u>\$36,595,025</u>	<u>\$14,576,764</u>	<u>\$51,171,789</u>

Interest and fees paid on general obligation bonds during the year was \$1,575,115.

There are numerous limitations and restrictions contained in the various general obligation bond indentures. The District is in compliance with all significant limitations and restrictions as of August 31, 2017.

N. Prior Year Deafeasance of Debt

In prior years and during the current year, the District issued refunding bonds for the purpose of restructuring debt cash flow requirements. Proceeds from the refunding bonds were placed in an irrevocable trust to provide for all future debt service payments on the old bonds. The old bonds are considered defeased, and accordingly, the trust account assets and liabilities are not included in the District's financial statements. On August 31, 2017, \$51,585,000 of bonds considered defeased are still outstanding.

O. Revenue from Local and Intermediate Sources

During the current year local and intermediate revenues consisted of the following:

	General Fund	Debt Service Fund	Other Funds	Fund Totals
Property taxes	\$13,488,044	\$3,652,149	\$ 0	\$17,140,193
Food sales	0	0	523,286	523,286
Penalties, interest & other tax related income	70,280	15,550	0	85,830
Tuition & fees	6,795	0	0	6,795
Earnings – temporary deposits & investments	56,742	11,212	448	68,402
Rent	106,868	0	0	106,868
Foundations, gifts & bequests	300	0	76,623	76,923
Other revenues from local sources	100,849	0	235,956	336,805
Extracurricular activities	82,097	0	8,787	90,884
Total	<u>\$13,911,975</u>	<u>\$3,678,911</u>	<u>\$845,100</u>	<u>\$18,435,986</u>

P. State Aid Revenue

The District receives state revenues from TEA based upon application of formula allocations, on behalf allocations, and other state miscellaneous programs. The components of state program revenues as shown in the governmental fund financial statements are as follows:

	General Fund	Debt Service Fund	Other Funds	Totals
Per Capita Apportionment	\$ 1,185,778	\$ 0	\$ 0	\$ 1,185,778
Foundation School Prg. Act Entitlements	11,579,297	0	0	11,579,297
State Program Revenues	3,907	132,313	94,429	230,649
TRS On-behalf Payments	1,115,989	0	0	1,115,989
TRS Medicare Part-D	58,576	0	0	58,576
Totals	<u>\$13,943,547</u>	<u>\$132,313</u>	<u>\$94,429</u>	<u>\$14,170,289</u>

Q. Federal Program Revenues

The District receives federal program revenues for various programs as follows:

Revenues	General Fund	Other Funds
School Health & Related Services (SHARS)	\$222,552	\$ 0
Indirect cost	9,679	0
U. S. Department of Education – Passed Through TEA	0	1,720,968
U. S. Department of Agriculture – Passed Through TEA	0	873,136
Totals	<u>\$232,231</u>	<u>\$2,594,104</u>

R. Employee Benefits

1. Compensated Absences

Employees who retire from employment with the District are eligible for reimbursement for state and local leave earned while employed with the District under the following conditions:

1) the employee's separation is voluntary and 2) the employee provides written notice of intent to retire from employment. The employee shall be reimbursed for each day of state and local leave, earned while employed with the District to a maximum of 99 days, at a rate established by the Board. If the employee is reemployed with the District, days for which the employee received payments shall not be available to that employee. These benefits are recorded whenever the expenditure is incurred.

2. Defined Benefit Pension Plan

Plan Description - The District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). It is a defined benefit pension plan established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position - Detailed information about the Teacher Retirement System's fiduciary net position is available in a separately-issued Comprehensive Annual Financial Report that includes financial statements and required supplementary information. by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; that report may be obtained on the Internet at <http://www.trs.state.tx.us/about/documents/cafr.pdf#CAFR>; or by calling (512) 542-6592.

Benefits Provided - TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description in above.

Contributions - Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code

section 821.006 prohibits benefit improvements, if as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

Employee contribution rates are set in state statute, Texas Government Code 825.402. Senate Bill 1458 of the 83rd Texas Legislature amended Texas Government Code 825.402 for member contributions and established employee contribution rates for fiscal years 2014 thru 2017. The 83rd Texas Legislature, General Appropriations Act (GAA) established the employer contribution rates for fiscal years 2014 and 2015. The 84th Texas Legislature, General Appropriations Act (GAA) established the employer contribution rates for fiscal years 2016 and 2017.

<u>Contribution Rates</u>		
	<u>2016</u>	<u>2017</u>
Member	7.2%	7.7%
Non-Employer Contributing Entity (State)	6.8%	6.8%
Employers	6.8%	6.8%
Current fiscal year employer contributions		\$ 639,835
Current fiscal year member contributions		\$1,508,417
2016 measurement year NECE on-behalf contributions		\$ 928,868

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers including public schools are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding source or a privately sponsored source, from non-educational and general, or local funds.

In addition to the employer contributions listed above, there are two additional surcharges an employer is subject to:

- When employing a retiree of the Teacher Retirement System the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.
- When a school district does not contribute to the Federal Old-Age, Survivors and Disability Insurance (OASDI) Program for certain employees, they must contribute 1.5% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all employees.

Actuarial Assumptions - The total pension liability in the August 31, 2016 actuarial valuation was determined using the following actuarial assumptions:

Valuation Date	August 31, 2016
Actuarial Cost Method	Individual Entry Age
Asset Valuation Method	Market Value
Single Discount Rate	8.0%
Long-term expected Investment Rate of Return	8.0%
Inflation	2.5%
Salary Increases Including Inflation	3.5% to 9.5%
Payroll Growth Rate	2.5%
Benefit Changes During the Year	None
Ad hoc Post Employment Benefit Changes	None

The actuarial methods and assumptions are primarily based on a study of actual experience for the four-year period ending August 31, 2014 and adopted on September 24, 2015.

Discount Rate - The discount rate used to measure the total pension liability was 8.0%. There was no change in the discount rate since the previous year. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term rate of return on pension plan investments is 8%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the Systems target asset allocation as of August 31, 2016 are summarized below:

KENNEDALE INDEPENDENT SCHOOL DISTRICT

Discount Rate Sensitivity Analysis - The following schedule shows the impact of the Net Pension Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (8%) in measuring the 2016 Net Pension Liability.

	1% Decrease in Discount Rate (7.0%)	Discount Rate (8.0%)	1% Increase in Discount Rate (9.0%)
District's proportionate share of the net pension liability:	\$11,466,015	\$7,408,599	\$3,967,089

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - At August 31, 2017, the District reported a liability of \$7,408,599 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

KENNEDALE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
AUGUST 31, 2017

Exhibit F-1

District's proportionate share of the collective net pension liability	\$ 7,408,599
State's proportionate share that is associated with District	<u>11,025,525</u>
Total	<u>\$18,434,124</u>

The net pension liability was measured as of August 31, 2016 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2015 thru August 31, 2016.

At August 31, 2016 the employer's proportion of the collective net pension liability was 0.0196054% which was a decrease of 0.0011086% from its proportion measured as of August 31, 2015.

Changes Since the Prior Actual Valuation – There were no changes to the actuarial assumptions or other inputs that affected measurement of the total pension liability since the prior measurement period.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

Since this is the first year of implementation, the District does not have the proportion measured as of August 31, 2013. The Notes to the Financial Statements for August 31, 2014 for TRS stated that the change in proportion was immaterial and therefore disregarded this year.

There were no changes of assumptions or other inputs that affected measurement of the total pension liability during the measurement period.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

For the year ended August 31, 2017, the District recognized pension expense of \$1,144,187 and revenue of \$1,144,187 for support provided by the State.

At August 31, 2017, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$ 116,165	\$221,216
Changes in actuarial assumptions	225,801	205,357
Difference between projected and actual investment earnings	627,345	0
Changes in proportion and difference between the employer's contributions and the proportionate share of contributions	1,221,906	75,940
Totals as of August 31, 2016 measurement date	\$2,191,217	\$502,513
Contributions paid to TRS subsequent to the measurement date	639,835	0
Total	\$2,831,052	\$502,513

The net amounts of the employer's balances of deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended August 31:	Pension Expense Amount
2018	\$294,192
2019	294,192
2020	694,343
2021	263,447
2022	144,241
Thereafter	(1,711)

Retiree Health Plan

Plan Description – The District contributes to the Texas Public School Retired Employees Group Insurance Program (TRS-Care), a cost-sharing multiple-employer defined benefit postemployment health care plan administered by the Teacher Retirement System of Texas. TRS-Care provides health care coverage for certain persons (and their dependents) who retired under the Teacher Retirement System of Texas. The statutory authority for the program is Texas Insurance Code, Chapter 1575. Section 1575.052 grants to the TRS Board of Trustees the authority to establish and amend basic and optional group insurance coverage for participants. The Teacher Retirement System issues a publicly available financial report that includes financial statements and required supplementary information for TRS-Care. That report may be obtained by visiting the TRS web site under the TRS Publication heading, by calling the TRS Communications Department at 1-800-223-8778, or by writing to the Communications Department of the Teacher Retirement System of Texas at 1000 Red River Street, Austin, Texas 78701.

Funding Policy – Contribution requirements are not actuarially determined but are legally established each biennium by the Texas Legislature. Texas Insurance Code, Sections 1575.202, 203, and 204 establish state, active employee, and public school contributions, respectively. Funding for free basic coverage is provided by the program based upon public school district payroll. Per Texas Insurance Code, Chapter 1575, the public school district may not be less than 0.25% or greater than 0.75% of the salary of each active employee of the public school. Funding for optional coverage is provided by those participants selecting the

optional coverage. Contribution rates and amounts are shown in the table below for fiscal years 2017-2015.

Contributions. Contributions made by the State on behalf of the District are recorded in the governmental funds financial statement as both revenue and expenditures. State contributions to TRS-Care made on behalf of the District's employees as well as the District's required contributions and federal grant program contributions for the years ended August 31, 2017, 2016, and 2015 are as follows:

	Contribution Amounts		
	2017	2016	2015
District Contributions	\$107,744	\$106,376	\$105,283
State Contributions	195,898	193,410	191,424
Employee Contributions	127,333	125,714	124,428

3. Medicare Part D Coverage

The Medicare Prescription Drug, Improvement, and Modernization Act of 2003, effective January 1, 2006, established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. One of the provisions of Medicare Part D allows for the Texas Public School Retired Employee Group Insurance Program (TRS-Care) to receive retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. For the fiscal years ended August 31, 2017, 2016, and 2015, the subsidy payments received by TRS-Care on-behalf of the District were \$58,576, \$74,924, and \$78,972, respectively. The information for the year ended August 31, 2016 is an estimate provided by the Teachers Retirement System. These payments are recorded as equal revenues and expenditures in the governmental funds financial statements of the District.

4. Active Employee Health Care Coverage

The District participates in TRS Active Care sponsored by the Teacher Retirement System of Texas and administered through Aetna and Caremark (pharmacy). TRS Active Care provides health care coverage to employees (and their dependents) of participating public education entities. Optional life and long-term care insurance are also provided to active members and retirees. The plan is authorized by the Texas Insurance Code, Title 8, Subtitle H, Chapter 1579 and by the Texas Administrative Code, Title 34, Part 3, Chapter 41. The District contributed \$241 per month per participant to the plan, and employees, at their option, authorized payroll withholdings to pay employee contributions and additional premiums for dependents. The TRS issues a publicly available financial report that includes financial statements and required supplementary information for TRS ActiveCare. That report may be obtained by visiting the TRS Website at www.trs.state.tx.us, by writing the Communications Department of the Texas Retirement System of Texas at 1000 Red River Street, Austin, Texas 78701, or by calling (800) 223-8778.

5. Workers' Compensation Program

The District is exposed to various risks of loss related injuries to employees. Beginning with the current school year, the District entered into an interlocal agreement with the Texas Public Workers' Compensation Program ("Program") to provide workers' compensation coverage to

the District's employees. The District's contributions to the Program are based on the District's various payroll classifications and the Texas Department of Insurance workers' compensation rates as modified by the District's experience rating factor.

S. Commitments and Contingencies

1. State and Federal Grants

Minimum foundation funding received from TEA is based primarily upon information concerning average daily attendance at the District's schools which is compiled by the District and supplied to TEA. Federal funding for Food Service under child nutrition programs is based primarily upon the number and type of meals served and on user charges as reported to the United States Department of Agriculture ("USDA"). Federal and state funding received related to various grant programs are based upon periodic reports detailing reimbursable expenditures made in compliance with program guidelines to the grantor agencies.

These programs are governed by various statutory rules and regulations of the grantors. Amounts received and receivable under these various funding programs are subject to periodic audit and adjustment by the funding agencies. To the extent, if any, that the District has not complied with all the rules and regulations with respect to performance, financial or otherwise, adjustment to or return of funding monies may be required. In the opinion of the District's administration, there are no significant contingent liabilities relating to matters of compliance and, accordingly, no provision has been made in the accompanying financial statements for such contingencies.

2. Litigation

The District is not a party in any litigation.

T. Risk Management

The District is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During the current fiscal year, the District purchased commercial insurance to cover general liabilities. There were no significant reductions in coverage in the past fiscal year, and there were no settlements exceeding insurance coverage for each of the past three fiscal years.

U. Evaluation of Subsequent Events

The District has evaluated subsequent events through November 8, 2017 the date which the financial statements were available to be issued.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Board of Trustees
Kennedale Independent School District
120 W. Kennedale Parkway
Kennedale, Texas 76060

Members of the Board of Trustees:

We have audited in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Kennedale Independent School District (the "District") as of and for the year ended August 31, 2017, and the related notes to the financial statements which collectively comprise the District's basic financial statements and have issued our report thereon dated November 8, 2017.

Internal Control over Financial Reports

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those in charged with governance.

Our consideration of the internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses, or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and questioned costs as item 2017-001.

District Response to Findings

The District's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Audit Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Board of Trustees
Kennedale Independent School District
120 W. Kennedale Parkway
Kennedale, Texas 76060

Members of the Board of Trustees:

Report on Compliance for Each Major Federal Program

We have audited Kennedale Independent School District (the "District") compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended August 31, 2017. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2017.

Report on Internal Control over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

KENNEDALE INDEPENDENT SCHOOL DISTRICT
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
FOR THE YEAR ENDED AUGUST 31, 2017

Section I - Summary of Auditor's Results

Financial Statements

Type of auditor's report issued:	Unmodified
Internal control over financial reporting:	
Material weaknesses identified?	No
Significant deficiency(ies) identified that are not considered to be material weakness?	No
Noncompliance material to financial statements noted?	No

Federal Awards

Internal control over major programs:	
Material weaknesses identified?	No
Significant deficiency(ies) identified that are not considered to be material weakness?	No
Type of auditor's report issued on compliance for major programs:	Unmodified
Any audit findings disclosed that are required to be reported in accordance with <i>Audit Requirements for Federal Awards</i> (Uniform Guidance).	No

Identification of major programs:

<u>CFDA Number(s)</u>	<u>Name of Federal Program or Cluster</u>
84.010	ESEA 1, A – Improving Basic Programs
84.027	IDEA – Part B, Formula
84.173	IDEA – Part B, Preschool
84.287	Title IV, B – 21 st Century Community Learning Centers

Dollar threshold used to distinguish between Type A and Type B programs: \$750,000.

Auditee qualified as low risk auditee?: Yes

Section II – Financial Statement Findings

2017-001 – Competitive Bidding

Criteria – District Board Policy CH (Legal) – Purchasing and Acquisition states that all district contracts for the purchase of goods and services, except contracts for the purchase of produce or vehicle fuel, valued at \$50,000 or more in the aggregate for each 12-month period, shall be made by the method that provides the best value for a district:

1. Competitive bidding for services other than construction services.
2. Competitive sealed proposals for services other than construction services.
3. A request for proposals for services other than construction services.
4. An interlocal contract.
5. The reverse auction procedure as defined by Government Code 2155.062(d).
6. The formation of a political subdivision corporation under Local Government Code 304.001.

Deficiency – District policy was not followed when obtaining vendor for HVAC repair services for the 2016/17 school year that amounted to \$239,211.

Context – Review District competitive bidding procedures.

Effect – The District was not in compliance with District Board policy.

Cause - District employees thought the vendor had submitted required paperwork to be added to the District's master approved vendor list and was not subject to competitive bidding process.

Recommendation – We recommend the District have in place review procedures to ensure compliance with Board Competitive Bidding policy.

Views of responsible officials and planned corrective action – The District agrees with this finding and will follow existing procedures or revise procedures to ensure the District complies with Board Policy.

Section III – Federal Award Findings and Questioned Costs

N/A - none

KENNEDALE INDEPENDENT SCHOOL DISTRICT
SUMMARY SCHEDULE OF PRIOR YEAR AUDIT FINDINGS
FOR THE YEAR ENDED AUGUST 31, 2017

PRIOR YEAR'S FINDING/NONCOMPLIANCE:

2016-001 - Fund 240 National Breakfast and Lunch Program Excess Fund Balance

The District is now in compliance with this requirement as specified in TEA Financial Accounting and Reporting Resource Guide 1.3.2.4 – Fund Balance.

KENNEDALE INDEPENDENT SCHOOL DISTRICT
CORRECTIVE ACTION PLAN
FOR THE YEAR ENDED AUGUST 31, 2017

Contact Person: Sue Martin, Finance Manager

CORRECTIVE ACTION PLAN:

2017-001 – Competitive Bidding

The District agrees with this finding and will follow existing procedures or revise procedures to ensure the District complies with Board Policy.

See Accompanying Notes to the Schedule of Expenditures of Federal Awards

KENNEDALE INDEPENDENT SCHOOL DISTRICT
NOTES TO SCHEDULE OF EXPENDITURES TO FEDERAL AWARDS
 AUGUST 31, 2017

1. For all federal programs, the District uses the fund types specified in Texas Education Agency's *Financial Accountability System Resource Guide*. Special revenue funds are used to account for resources restricted to, or designated for, specific purposes by a grantor. Federal and state financial assistance generally is account for in a Special Revenue Fund.
2. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The governmental funds are accounted for using a current financial resources measurement focus. All federal grant funds were accounted for in special revenue funds, which are governmental fund types. With this measurement focus, only current assets, current liabilities and fund balance are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

The modified accrual basis of accounting is used for the Governmental Fund types. This basis of accounting recognizes revenues in the accounting period in which they become susceptible to accrual, i.e., both measurable and available, and expenditures in the accounting period in which the liability is incurred, if measurable, except for unmatured interest on long-term debt, which is recognized when due, and certain compensated absences and claims and judgments, which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

Federal grant revenues are considered to be earned to the extent of expenditures made under the provisions of the grant, and accordingly, when such amounts are received, they are recorded as unearned revenues until earned. The accompanying Schedule of Expenditures of Federal Awards is presented on the modified accrual basis of accounting.

3. The period of availability for federal grant programs for the purpose of liquidations of outstanding obligations made on or before the ending date of the federal project extended 30 days beyond the federal project period ending date.
4. The District participates in numerous state and federal grant programs, which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustments by the grantor agencies; therefore, to the extent that the District has not complied with rules and regulations governing the grants, refund of any money received may be required and the collectability of any related receivable may be impaired.
5. The following is a reconciliation of expenditures of federal awards program per the Schedule of Expenditures of Federal Awards and expenditures reported in the financial statements as follows:

Total federal sources per financial statements for Governmental Funds	\$2,826,335
School Health & Related Services (SHARS) reimbursement not reported in the Schedule of Expenditures of Federal Awards	(222,552)
Rounding	2
Total federal expenditures on Schedule of Expenditures of Federal Awards	<u>\$2,603,785</u>
