

# Applying to a University

If you are a high school senior (international or domestic), or enrolling in college for the first time, you can apply using either the UCF institutional application or the Common App. UCF has no preference in application and you only need to complete and submit one. The information collected by each is the same. However, the Common App contains essay prompts that are not required by UCF.

Submitting either application for admission requires a \$30 nonrefundable fee.

## UCF Undergraduate Application

Apply to UCF using our convenient online application. **NOTE: The UCF institutional application and SPARK Form are compatible with Chrome, Firefox, IE and Microsoft Edge. Users have experienced issues viewing, completing and submitting the application when using Safari. \*\*If you have already applied to UCF through Common App, DO NOT submit another application.\*\***

## Common App

Ready to start your Common App? You've come to the right place.
