Art Choice Board
Create one lesson per week per grade level. 6 Lessons for each grade level.

Kindergarten	First	Second	Third	Fourth	Fifth
1: Practice drawing these shapes: circles, squares, rectangles, triangles, ovals, hearts. Make many of each, and see if you can make them all different sizes.	1: Go on a scavenger hunt around your house. Find 5 items that are made up of geometric shapes (circle, rectangle, triangle etc.) For example, a book (rectangle) or a clock (circle)	1: Using objects from around the house, create your very own color math problems. For example, my red sneaker + a yellow banana = an orange clementine	1: Fold paper in half. Press hard with a pencil to create half of a butterfly on the inside. Close the paper, and rub over the design with the long edge of the pencil. Your design should appear on the other side. Add more detail to make a symmetrical	1: Read a book, watch a tv show, or watch a movie, then create a piece of fan art. That could be drawing a character from your show and coloring it, or making a short comic.	1: Draw an illuminated letter like they did in medieval times! Draw the first letter of your name as big as you can on a piece of paper. Add designs and value with pencil and/or colored pencils.
2: Go outside for a nature walk with a family member. Notice all of the new things growing now that spring has arrived. Draw a picture of your favorite thing you saw.	2: Design a rocket ship using only geometric shapes. You can build it using items you find around your house or you can choose to draw it. Geometric shapes can be circles, rectangles, triangles, squares, ovals etc.	2: Create five different types of lines. Once drawn, move your body in that way. Move your body in a squiggly way. Play music in the background if it helps. How are the movements	2: Do you have pets? What color are they? Do you see neutral, warm, or cool? If you don't have a pet, think of one you wish you had. Take time to draw and color your pets, or dream pet. Describe if the colors are neutral, warm, cool, or a combination.	2: Search for a famous painting on your device. Choose a painting you enjoy and try to recreate it using random objects around the house. A yellow blanket could be a blond hair!	2: Place an object outside in the a.m. in a sunny spot on top of a large piece of paper. Every 30 min - 1 hour, draw the outline of the object's shadow.
3: Write your name at the top. Then draw a picture of an object that starts with each of the letters. Line them up in the same order of your name, and see if anyone can "read" your drawing.	3: Create your own superhero. What would he or she do? Do they have super powers? Do they fly, run fast or have super strength? If you can, draw your superhero! Challenge: Color your drawing!	3: Create a card, postcard, or drawing for someone special this week. This could be a thank you card, a missing you card, or a just because I love you card.	3: Make a thank you card for someone who has helped you this week. If you can, make it colorful!	3: Create a card for someone special this week. This could be a thank you card, a missing you card, or a just because I love you card. Try your very best.	3: Draw a list of things you are grateful for. If you have a phone or tablet, you could also take pictures of what you are grateful for.
4: Draw a picture using these shapes: circle, square, triangle, rectangle. If you have crayons or markers, color in your picture, leaving no white space.	4: Draw something that makes you happy! Is it a person? A place? Is it your pet? Challenge: Write about why it makes you happy. For example, your dog could make you happy when he or she plays with you.	4: Today when you get dressed, dress in color schemes. A warm color outfit, or cool colors. Primary colors. Put together an outfit that has two primary colors and the color you get when you mix them together	4: Draw your feet in the foreground resting on something. In the middle ground and background, draw a favorite place to chill or relax.	4: Make a value scale or range of light to dark. Choose one color and search around your house for different lights and darks of that color. Arrange them in order from darkest to lightest.	4: Create a body map by drawing the outline of a person, like a gingerbread man. Then divide the figure into sections and draw something important to you in each space.
5: Read a story or have a family member read a story to you. Ceate an illustration for your favorite part of the story.	5: Make a card for someone this week. It can be any kind of card (Thinking of You, Birthday or Thank you). If you can, make it colorful!	5: Set up a museum. Make a collection of items that are geometric shapes (shapes with names). Make a collection of items that are organic shapes (shapes without names).	5: Using your cardboard and recycled materials, design a miniature machine. What does it do? Cut a slit in each piece to join them together.	5: If you can, check out the artist Debbie Ridpath. Choose one random object in your home to be the center piece of your drawing. What could that object become?	5: Be an architect! Use legos or blocks to build a structure. Challenge: use your favorite color scheme (warm/cool, primary/secondary etc.)
6: Make a card for someone this week. It can be any kind of card (Thinking of You, Birthday or Thank you). If you can, make it colorful!	6: Create different kinds of lines (curved, zig-zag or wave) using items you find outside or around your house. Challenge: Combine/connect the lines creating one BIG line!	6: Go on a hunt around your house or yard. Find 5 geometric shapes (circle, rectangle, triangle, etc.) For example, a book (rectangle) or clock (circle). Find 5 items that are organic shapes. Organic shapes are natural shapes with no names.	6: Collect items that can make a mark on paper (not art material, such as crayons or markers) around your house or outside. Create art using these materials.	6: A mandala is a detailed design that is like a kaleidoscope and repeats in a circle. Create a mandala with found objects arranged in a unique way, or a detailed drawing on paper.	6: Make a card for someone this week. It can be any kind of card (Thinking of You, Birthday or Thank you). If you can, make it colorful!
