

MUSIC CHOICE BOARD K-5

K-2

SINGING	PLAYING	MOVING	CREATING
Sing your favorite song to a family member.	Use a found object to play a repeating rhythm pattern. Then, describe the unique sound of that object.	Pretend you have paint on your hands and there's canvas all around you. Move to create a beautiful painting.	Create your own song about your friend, a family member, or your family pet.
Listen to your favorite piece of music and tell a family member what you noticed about the dynamics (loud & soft)	Discover how many items you own that can make a rhythmic sound. Play rhythms using those objects.	Listen to your favorite song and move to the beat.	Create your own vocal explorations with paper and pencil and sing each one.

3-5

SINGING	PLAYING	MOVING	CREATING
Listen to your favorite piece of music and sing along.	Use a found object to play a repeating rhythm pattern using sixteenth notes (tika-tika) and eighth notes (ti-ti).	Have a dance party with your family!	Create a commercial for your favorite product.
Listen to a favorite song and describe it in as much detail as possible. What instruments do you hear? What is it about?	If you're taking music lessons, take time to practice your instrument today.	Improvise a rhythm by clapping a pattern as you keep with the beat of a song.	Design/Create a music video to one of your favorite songs with your family.

Music classes are held two days each week. Please pick 2-3 activities from the choice board for each day you would have music. If you have your device at home, please be sure to check Seesaw or Google Classroom for other activities.
