NOTES:

- Your Goal should be a specific, realistic, manageable, and measurable statement of what you hope to achieve. It should be an initiative that you consider to be worthy of focused attention. For 2023-24, your goal should focus on supporting the health, safety, and social and emotional well-being, of staff and students, ensuring equity for the most vulnerable of our students and their families, mastery-based learning, or developing systematic approaches to incorporating social and emotional practices and/or culturally responsive practices into the teaching and learning process.
- Your Action Plan should list strategies, activities, or methods you believe will be helpful in accomplishing your goal.
- Your Indicators of Academic Growth and Development (IAGD) should be your expected evidence that your goal has been achieved; for 2023-24, there should be at least two indicators of growth and/or achievement.
