Schoology's Google Integration

Connecting Your Student's Google Drive to Schoology

Students will need to connect their KISD Google drive to Schoology. This only needs to be done once, so if your student is already connected, that is a good thing.

1. Click **Resources** at the top of your Schoology homepage.
2. Select **Apps** on the left.
3. Select **Google Drive Resource App**.
4. To connect the app to your Google account, click **Approve**.

Google and Schoology

Your child is likely to have Google Assignments in Schoology. These assignments allow the teacher to share a Google Doc, Spreadsheet, Slideshow, or Drawing for your student to work on. When your student opens the file, **an individual student copy is automatically created for your student to complete and submit.** The teacher can view your student's work in progress making it easy for them to provide support.

Notes

- Your student must also be logged into their KISD Google account through their browser to work on and submit assignments using the Google Drive app.
- As the parent, you will **not** be able to view these assignments with your login because you do not have a KISD Google account.

Google Drive Assignments in Schoology

Students have access to two tabs displayed at the top of their assignment: Assignment and My Document.

In the Assignment tab, your student can:

- See the due date and time.
- See the assignment Description.
- Review a rubric if one is being used to grade the assignment.

Troubleshooting the Schoology Google Drive App Connection

If you're having trouble accessing your Google Drive Assignment document, it may be that you are not logged into the correct Google Drive. The fix is to log out of the Google Drive Assignments App and log back in.

Schoology has added a link to make this process easier.

1. Click on the **My Documents** tab of your assignment and click the link in the top right corner.

Can't see your document? [Click here.](#)

2. Click **Connect** to login to your KISD Google Drive account. This will allow you to reconnect to the app with the correct Google Drive account and load the document successfully.

Why doesn't my Child's Schoology and Skyward Gradebook Match?

There are many different reasons why the two gradebooks do not match.

- The teacher has not synced his/her Schoology gradebook to the Skyward gradebook.
- The teacher has taken a grade on an assignment or test that was not given in Schoology.
- The teacher has added grading categories to their course that are not synced to Skyward.
