

## **Radio Communications**

The Chimacum School District uses Radio Communication to ensure and/or enhance staff ability to communicate quickly and effectively. District employees will follow all governing laws and seek to follow best practices in radio protocols for emergencies, everyday communications on campus, and other official uses. The Superintendent or designee will develop radio use procedures and staff will be trained in their use.

The Chimacum School District is licensed through the Federal Communications Commission to operate under specifically assigned radio frequencies and identification. All radios are subject to the conditions and requirements set forth under this license.
